OFFICE OF THE SECRETARY.

Baltimore, Md., June 25, 1919.

The Board of Directors this day declared from the net earnings of the Company for the six months ended June 30, 1919, a dividend of two per cent on Preferred Stock to stockholders of record at the close of business July 19, 1919. Payment will be made on September 2, 1919, provided that before that date there shall have been received from the United States Government on account of compensation a sum sufficient in the opinion of the President, with other available funds, to pay the same, and payable at a later date when, as and if such sum shall be so received The transfer books will not close.

C. W. WOOLFORD, Secretary.

INDIANAPOLIS & ST. LOUIS RAILROAD COFirst Mortgage 7% Bonds, Series A, B & C.
Arrangements having been made for the refunding of the debt evidenced by the above
mentioned bonds, holders are notified that upon
delivery, on or after July 1, 1919, of any and all
such bonds to Messrs. J. P. Morgan & Co.,
at 23 Wall Street, New York, they may receive
from them the principal amount of such surrendered bonds.

The coupons due July 1 1919, on Series A of
said bonds will be paid upon surrender thereof,
and the interest due July 1, 1919, on the bonds
of Series B and C will be paid on the delivery
of said bonds, at the office of Messrs. J. P.
Morgan & Co. on and after July 1, 1919.

# The World's Trade

Commerce of the world is estimated to have amounted to 60 billion dollars last year, an increase of 50 per cent during the war. Irrespective of the part prices played in this increase, the fact stands out that banking facilities to-day must be more complete, more progressive than ever before. There must be active co-operation among the large commercial centres. The Metropolitan Trust Company offers out-of-town banks and business men every facility for banking in New York.

Capital, \$2,000,000

Surplus, \$4,000,000

# A Bank that Has Not Outgrown Personal Contact with Its Customers

THE mutual value of personal acquaintance and relationship between our officers and our customers has, from an early date, been recognized by this institution. It was foreseen that as the bank grew larger the tendency might be to reduce business transactions to a mere mechanical routine and thus lose this valuable personal contact. To overcome this possibility it has been our policy to keep in close touch with our customers and to ascertain and conform whenever possible to their requirements.

# American and British Manufacturing Co.

To the Holders of Preferred and Common Stock:

Notice is hereby given that the Plan of Reorganization of this Company, having been approved by the Stockholders, has been duly declared operative as of July 1, 1919.

Definitive certificates of stock of the new corporation cannot be obtained from the engraver prior to July 25th, 1919; therefore, the rights conferred upon the present stockholders under the Plan, cannot be made effective until after that date.

You are accordingly hereby notified, in order to receive the benefits to which you are respectively entitled under the Plan, to present your stock certificates, duly endorsed for transfer in blank, with proper transfer stamps attached thereto, between the opening of business on July 28th, 1919, and the close of business on August 15th, 1919, to C. M. Mc-Keever, Transfer Agent, Room 1505, 120 Broadway, New York City, N. Y., with a definite, signed, written statement showing the election of such stock to receive from the Syndicate either cash or new stock under the Plan, upon receipt of which, in due course, there will be delivered without payment therefor, to each holder of

One share of preferred stock, either-

a—One and one-half shares of preferred stock of the new company, American & British Manufacturing Corporation, of the total par value of \$150, and, in addition thereto, one share of common stock of the new company; or

b-The sum of \$50 in eash.

One share of common stock, either-

a—One-third of a share of common stock in the new company, American & British Manufacturing Corporation, without nominal or par value; or

b—The sum of \$2 00 in cash.

In the event of the failure of the engraver to deliver such definitive certificates on the date above referred to, the undersigned reserves the right to extend the definite times above fixed.

Dated, New York City, N. Y., June 27th, 1919.

GEORGE C. VAN TUYL, Jr., FRANK H. RAY, JOHN G. GRAY,

Syndicate Managers.

WM. DEWEY LOUCKS, Counsel, 120 Broadway, New York City.

# Municipal Bond Man Wanted

Large bond and stock house, with offices in New York, Boston, Chicago and Detroit; members of the principal exchanges throughout the country; and connected with all the principal cities by private wire; desires a young man to take charge of a municipal bond department in the Chicago office. This position offers an unusual opportunity to a man who has had experience in buying municipals and is capable of developing a buying organization that can supply municipal issues suitable for distribution in the Eastern market. Replies, which will be treated as entirely confidential, should be addressed to S. H. W., care Chronicle, P. O. Box 3, Wall Street Station, New York.

SEVEN WALL STREET

**NEW YORK CITY** 

# AETNA EXPLOSIVES COMPANY, Inc.

To the Holders of Common Stock

of AETNA EXPLOSIVES COMPANY, Inc.:

Terms of Settlement formulated by a Committee appointed by Hon. Julius M. Mayer, Judge of the United States District Court, and embodying the plan proposed by him, have been approved by that Court and accepted by the representatives of large holdings of the various classes of the securities of the Company. Pursuant to the provisions of such Terms, Messrs. F. H. Prince & Company, as large owners of common stock and representing other common stockholders, have entered into an agreement with Messrs. George C. Holt and Benjamin B. Odell, in form approved by the Court, under which the common stock will be voted for the purpose of carrying out said Terms of Settlement. These Terms are the result of the able and disinterested action of the Court, aided by the various interests of the Company, and provide an adjustment which is believed to be fair to all security holders.

The Receivers, George C. Holt and Benjamin B. Odell, took over the control and management of the Company's affairs two years ago under appointment from Judge Mayer. As the termination of the Receivership is now imminent, it is important, in the interest of the common stock, that there be, as far as possible, a continuance of the same efficient and successful management which has contributed largely toward bringing the Company into its present prosperous condition and that the Company pass immediately into the hands of officers and directors representing the common stock. We believe that these results will be accomplished through the adoption of the Terms of Settlement.

The Terms of Settlement are on file in the office of the Clerk of the United States District Court in the old Post Office Building, New York City, and in the office of the Receivers, 165 Broadway, New York City, where printed copies can be obtained. They provide in effect:

- Common stockholders retain their existing holdings and will control the Company through its officers and Board of Directors;
- (2) Bondholders will be entitled to receive, at their option, eightyfive per cent in each of their holdings in bonds or par for their present holdings in new twelve-year six per cent bonds;
- (3) Preferred stockholders will be entitled to receive \$20.75 in cash and \$75.00 in a new twenty-two year six per cent mortgage bond for each share of preferred stock;
- (4) The Terms of Settlement are to be carried out under the supervision of the United States District Court with the co-operation of the Committee heretofore appointed by it, representing various interests in the Company, acting in conjunction with Messrs. Holt and Odell:
- (5) Messrs. Holt and Odell are to approve the personnel of directors and are expected to become members of the Board and officers of the Company, with Mr. Odell as President, assuring in effect a continuance of the present management.

Forms of proxies for the necessary votes and consents to carry out the *Terms of Settlement* will be mailed by us to common stockholders within the next few days and may also be obtained at our offices at Court and Washington Streets, Boston, Massachusetts, and 25 Broad Street, New York City.

Prompt action in executing and returning these proxies and consents to us is important.

The Terms of Settlement will be carried out without the payment of any assessment by the common stockholders.

New York, June 12, 1919.

F. H. PRINCE & COMPANY.

Referring to the foregoing, the undersigned approve thereof and urge that common stockholders execute and forward to Messrs. F. H. Prince & Company proxies for the necessary votes and consents to carry out the Terms of Settlement.

GEORGE C. HOLT,
BENJAMIN B. ODELL,
Receivers of
AETNA EXPLOSIVES COMPANY, INC

The undersigned, being the Committee appointed by Judge Mayer and referred to in the above advertisement, approve the foregoing and urge that holders of common stock promptly execute and forward to Messrs. F. H. Prince & Company their proxies so that their stock may be voted to carry out the Terms of Settlement.

Dated June 12, 1919.

ROYALL VICTOR, Chairman. GEORGE MURRAY BROOKS, WILLIAM M. PARKE, JAMES N. ROSENBERG, SAMUEL STRASBOURGER, HENRY WOLLMAN,

# William R. Compton Company

Government and Municipal Bonds "Over a Quarter Century in This Business"

St. Louis Cincinnati 14 Wall Street, New York New Orleans

#### \$1,453,400

# NATIONAL ENAMELING & STAMPING CO.

#### 7% Cumulative Preferred Stock

Exempt from Normal Federal Income Tax

Preferred as to Assets and Dividends. Par value \$100 per share. Dividends payable quarterly on the 30th of March, June, September and December.

From a letter of the President, Mr. George W. Niedringhaus, we summarize as follows:

- The Company is the largest producer in this country of enameled wares, galvanized goods, stamped, tinned, japanned, nickeled and sheet metal wares of all kinds.
- It also has an annual steel production for the open market of ingots and plates estimated for the coming year at 450,000 tons.
- Dividends on \$8,546,600 outstanding Preferred Stock have been paid continuously since the organization of the company in 1899. The present additional issue will definitely close the full authorized amount of \$10,000,000.
- Proceeds of present financing will be used to acquire a substantial interest in the St. Louis Coke & Chemical Company, which will furnish hot metal and other products to the company's steel mills. This will effect large savings annually and will increase the company's steel output.
- Net total assets, after deducting Federal taxes, depreciation, bonded debt, Etc., on December 31, 1918, amounted to over \$311 for each share of Preferred Stock. Net quick assets amounted to \$10,201,812, exceeding the entire \$10,000,000 Preferred Stock now to be outstanding.
- Net profits for the last four years have averaged \$2,462,590 annually, or over four times dividend requirements.
- This additional Preferred Stock will be listed on the New York Stock Exchange, where \$8,546,600 is already listed.

# The Troy Foundry and Machine Company

(Incorporated under the Laws of Massachusetts)

### 8% Cumulative Preferred Stock

(Preferred as to Assets and Dividends)

#### Capitalization

#### American Trust Company, Boston, Mass., Transfer Agents and Registrars

THE Troy Foundry and Machine Company succeeded to the longestablished and highly-successful business of the West Side Foundry Co., of Troy, N. Y.

This Company owns and operates one of the largest manufacturing foundries in the Eastern States, employing from four to five hundred men.

The Company for years has furnished gray iron castings to such well-known concerns as the General Electric Co., Schenectady, N. Y.; Sprague Electric Works, New York City; Vermont Farm Machine Co., Bellows Falls, Vt.; Heywood Bros. & Wakefield Co., Gardner, Mass.; Empire Cream Separator Co., Bloomfield, N. J.; Ward Leonard Electric Co., Bronxville, N. Y., &c.

In addition to this large foundry business the Troy Foundry and Machine Company manufacture Power Presses for baling cotton, hay, shavings, paper, textiles, &c., and the Cassco Engine Driven Automobile Tire Pump, which has been adopted and used as standard equipment by the Winton, Oakland, Case, American, Holmes, Moon, Scripps-Booth, and other well-known cars.

ASSETS. The assets of this Company, giving effect to this financing, after deducting all liabilities, amount to \$985,015, or equivalent to 197% for the outstanding Preferred Stock.

EARNINGS. The company's present sales are on a basis of a million dollars a year, and earnings equivalent to twice the Preferred Stock dividend requirements.

Manufacturing schedules for the fiscal year beginning July 1, 1919, indicate greatly increased earnings and dividends at the rate of 4% on the Common Stock.

SINKING FUND. The charter provides that beginning July 21, 1919, after payment of quarterly dividends on the Preferred at the rate of 8% per annum, a minimum Sinking Fund equivalent to 2% of the outstanding Preferred Stock shall be set aside each year to retire the Preferred Stock at \$110 per share and accrued dividend, and thereafter, after paying 8% on the Common Stock, one-half of remaining net profits each year shall be applied to this Sinking Fund.

We offer this Preferred and Common Stock on a basis to net 9%, subject to previous sale. Circular on request.

NEW ISSUE

### \$9,000,000

# American Steel Foundries

### 7% Cumulative Preferred Stock

Par Value \$100 per share

Callable in whole or in part three years after its issue, on any dividend date, on 30 days' notice, at \$110 per share and accrued dividends.

Dividends payable quarterly on the last days of March, June, September and December.

Transfer Agents: Old Colony Trust Co., Boston Equitable Trust Co., New York

Registrars: First National Bank, Boston Guaranty Trust Co., New York

#### CAPITALIZATION

Upon completion of present financing.

Debentures 4%	\$1,372,800	\$1,372,800
Preferred Stock 7% Cumulative	25,000,000	9,000,000
Common Stock	17,184,000	17.184.000

The following information is summarized from a letter written by Mr. R. P. Lamont, President of American Steel Foundries:

Purpose This issue will be used to purchase control of the Griffin Wheel Company, an old established business.

Business Steel Foundries, operating nine plants, is the largest producer of steel castings in America. Its principal customers are railroads, steamship companies and machinery manufacturers. Griffin Wheel Company, operating eight plants, is the largest American producer of iron car wheels for steam railroad and street cars.

Assets Net quick assets of the two companies applicable to this preferred stock as of December 31, 1918, are equal to \$115 per share.

Average earnings applicable to this issue, assuming purchase of all Griffin Wheel Company Common Stock, based on Steel Foundries operations for last thirteen years, and Griffin Wheel Company for last six years, after taxes and depreciation charges, are \$2,574,596, or more than four times the dividend requirement of this issue. On the same basis, average earnings for the last three years are \$5,233,799, or more than eight times the dividend requirements.

Protection No mortgage or lien may be placed upon the property of the company, nor can the stock owned by the company in any corporation of which a majority of the capital stock is owned by the company be voted in favor of the creation of any mortgage or lien upon the property of such corporation, nor can the authorized amount of preferred stock be increased, nor the rights of its holders be diminished, by the issue of stock of prior or equal rights or otherwise except by vote or consent of the holders of two-thirds in amount of the preferred stock. A sinking fund is provided for the retirement of the preferred stock.

General Steel Foundries' products are used principally in new construction; Griffin Wheel Company's business is 85% renewal work. The two lines therefore fit into each other particularly well. The present managers will remain in control. The only securities of American Steel Foundries outstanding prior to this issue are \$1,372,800 four per cent debentures, which are being paid off at the rare of \$344,000 a year. Common stock of Steel Foundries, a security junior to this issue, has a par value of \$17,184,000 (shares of par of \$33 1-3), and a present market value of more than \$21,000,000.

All legal matters in connection with the proceedings authorizing the creation of this preferred stock have been passed upon by Messrs. Pam & Hurd of Chicago, Goodwin, Procter & Ballantine of Boston, and Lindabury, Depue & Faulks of Newark, N. J.

Application will be made to list this stock on the New York Stock Exchange

**NEW ISSUE** 

### \$3,500,000

# Clinton-Wright Wire Company

### First Preferred Stock, 7% Cumulative

Convertible, at the option of the holder, into Common Stock on the basis of two shares of Common Stock (par value, \$50) for each share of First Preferred Stock.

#### CAPITALIZATION

CHI IIII CHI	
(As officially reported as of June 26, 1919) Authorized	Outstanding
First Preferred Stock, 7% Cumulative (this issue)_\$3,500,000	\$3,500,000
Voting Preferred Stock, 7% Cumulative 1,500,000	1,500,000
Common Stock (Par Value, \$50)	7,500,000

The Company will have no Funded Debt

From a letter of George M. Wright, Chairman of the Board of Directors, we summarize as follows:

The Clinton-Wright Wire Company, incorporated under the laws of Massachusetts, has acquired all the assets and business of the Clinton Wire Cloth Company, founded 1856; The Morgan Spring Company, founded 1881, and the Wright Wire Company, founded 1883. The Company is one of the largest manufacturers of wire and wire products. Its six plants in Worcester, Clinton and Palmer, Massachusetts, have an aggregate floor space of about 36 acres and employ over 2,500 hands. The gross sales for the latest fiscal years aggregate over \$12,000,000.

The First Preferred Stock, 7% Cumulative, is protected by conservative restrictions, and has preference as to both assets and earnings. A cumulative sinking fund commencing July 1, 1920, is estimated to redeem the entire issue within twenty years, by call or by purchase at not exceeding 110 and accrued dividends.

The fixed assets have been appraised by Messrs. Ford, Bacon & Davis at a sound value of \$8,225,000, or \$235 for each share of First Preferred Stock. The net quick assets, according to an approximate consolidated balance sheet prepared by Messrs. Marwick, Mitchell, Peat & Company, are in excess of \$4,200,000, or \$120 for each share of First Preferred Stock. The net assets are thus over  $3\frac{1}{2}$  times this issue.

The average net earnings of the constituent companies for the past three years have aggregated over \$1,000,000, or over 4 times the annual dividend requirements of the First Preferred Stock. The demand for the products of the Company is national in its scope and increasing rapidly.

### Price, 98.50 and accrued dividend, to yield 7.10%

Subject to prior sale and change in price, and when as and if issued and delivered to us

Tax Exempt in Massachusetts and Exempt from Normal Federal Income Tax.

# High Income from Bonds Wins Attention of Investors

THE present rate of income from bonds commands attention in this day of the high cost of living.

Money invested at the present prices for high-grade bonds and short term notes affords the investor a liberal yield, as compared with the average yield of prime securities in the past.

The following examples from our comprehensive list of current offerings, together with maturities and approximate yield, will interest all investors.

SHORT TERM NOTES

**ACCEPTANCES** 

Financial

HILE the United States Senate was vainly striving to induce President Wilson to permit it to see a copy of the Peace Treaty, Frazier Hunt, war correspondent of The Chicago Tribune, secured a copy in Paris and brought it to Chicago for publication in The Tribune. The first copy of the Peace Treaty seen by the Senate of the United States was that presented to it by The Chicago Tribune and read into its record on June 9, 1919.

This sensational scoop, one of the greatest (if not the greatest) of all history, is in line with Chicago Tribune traditions and with recent achievements of The Chicago Trubune Foreign News Service under the direction of Floyd Gibbons. Note the following Tribune "beats":

First American correspondent into Berlin after the armistice—trip being made by aeroplane from the western front.

First American correspondent into Vienna and Budapest after the armistice. First American correspondent on the Archangel front—his revelations bringing about the recall of the American forces from Russia.

First American correspondent into Soviet Russia—only authentic first-hand news of conditions in Petrograd and

Moscow received by the outside world for more than a year.

So many scoops on the Peace Conference that British newspaper men have filed a formal protest with their government against the alleged favorotism shown The Chicago Tribune. London has been learning vital facts about the Peace Conference by reading quotations from The Chicago Tribune.

Only newspaper of any Allied nation to establish a daily newspaper in France for the benefit of its expeditionary

The Chicago Tribune Foreign News Service is the most remarkable enterprise of its kind in the history of journalism. No newspaper ever sent to Europe such a body of high caliber writers as those on the staff of The Chicago Tribune. No wonder every person of any consequence within three hundred miles of Chicago considers The Tribune an absolute necessity seven days every week. No wonder every reader reads The Tribune thoroughly. No wonder even Henry Ford's advertising department considers The Chicago Tribune the greatest and most indispensable advertising medium.

# The Chicago Tribune MITHE WORLD'S GREATEST NEWSPAPER MA

The Chicago Tribune's 1919 BOOK OF FACTS On Markets and Merchandising will be sent free to any agency, manufacturer or selling organization if requested on business stationery.

#### STATE AND CITY SECTION.

A new number of our "State and City" Section, revised to date, appears to-day, and all readers of the paper who are subscribers should receive a copy of it. As previously announced, this Supplement is now issued in two parts, Part One containing the New England, Central and Middle States, being issued to-day, while Part Two embracing the rest of the country will be published next December. The change is due to the fact that with the growth and multiplication of the municipalities of the United States the demand for additional space has become too heavy to satisfy within the limits of a single number.

#### THE FINANCIAL SITUATION.

There was another period of tension in the call loan market this week, and on Wednesday the rate got up to 15%. But high call loan rates, such as experienced on several occasions the present month, are healthful, wholesome and corrective when allowed to work out their own cure. The rampant speculation which had prevailed for so many months on the Stock Exchange was arrested with the first sign of tenseness in call loans, and the present week the volume of business also dwindled, the day's sales on both Wednesday and Thursday dropping below one million shares, the smallest aggregate for a full day in several months. Yesterday there was a return to the normal again in interest rates, with call money obtainable at below 6%.

But while business on the Exchange was on a reduced scale, the undertone remained strong, and a number of stocks actually made new high records for the year. In all this, the market is acting in a perfectly normal way. Conditions favor higher prices and high money never interferes with a legitimate bull movement. Its tendency and function is to correct excesses of speculation.

In that sense this recent experience has been educational. A notion had grown up that under the operation of the Federal Reserve system, funds in unlimited amounts would be available at 6% for the carrying on of speculative operations on the Stock Exchange. But the Federal Reserve Board has taken pains to dispel this illusion. And the New York Clearing House institutions have co-operated with the Reserve Board in a whole-souled way. This is shown not alone in the contraction last week of \$205,606,000 in the loan item, with the result of converting the previous Saturday's deficit of \$656,050 into a surplus of \$30,408,530, but yet more in the scaling down of another item which rarely receives much notice by commentators, and which has been included in the Clearing House returns only since last February. We mean the item termed "Bills payable, rediscounts, acceptances and other liabilities." This is a tell-tale of the borrowings or rediscounts at the Federal Reserve Bank. The aggregate of that item last Saturday was only \$692,286,000, against \$727,116,000 the previous week, \$774,048,000 May 31, and \$843,033,-000 May 17, showing a reduction in five weeks of over 150 million dollars.

The Fall River cotton mill dividend statement for the second quarter of 1919, in presenting a total sum to be disbursed very much below the total for any recent three months' period, simply reflects the changed conditions in the cotton manufacturing

industry that has followed the cessation of hostilities in Europe. While the war remained in progress the demand for cotton goods, as for many other articles needed for the armies abroad as well as for outfitting the men here, was urgent and mills were working to capacity on a handsome margin of profit. But with the war's end demand from that quarter ceased; furthermore, there was cancellation of orders already in hand, and prices declined decidedly. In fact, the Government price for 29 inch 64 by 64. taken in computing the wage margin for the mills was 161/8 cents, but following the signing of the armistice the price dropped steadily until the decline was arrested in early March with the quotation standing at 63/4 cents. There has of course been recovery since then with higher cotton and revival of demand. It will be remembered that the distribution for the first quarter of the year was, in volume, quite in line with the very satisfactory ones that had preceded it but, as we intimated at the time, it was based upon past earnings and, consequently, did not reflect the current situation. This latest statement, moreover, is probably better that could have been expected had not surplus accounts been drawn upon in making the dividend apportionments. In the dividend declarations of this second quarter, it is to be noted, all of the corporations included in our compilation (37 in number), have participated. Twenty-eight of the corporations, however, have decreased their rate of distribution and the remaining nine pursuing in most cases the usual conservative course, have maintained the status of preceding quarters. In all, the amount of cash already distributed or to be paid out in the second quarter of 1919 is \$767,609 (over \$360,000 less than for the first three months of the year), or an average of 2.33% on the capital invested, this comparing with no less than \$1,156,934, or 3.51% in the corresponding period last year, \$1,059,125 or 3.47% two years ago, and \$409,675 or 1.35% in 1916. For the elapsed half-year the shareholders in the 37 corporations have received or will get \$1,898,793, or an average of 5.76%, against \$2,111,993 or 6.41% last year, \$1,821,100 or 5.97% in 1917, and \$752,092 or 2.48% in 1916.

These have been strenuous days for the German Government and the German people. Events have followed one another with almost kaleidoscopic rapidity. A week ago this morning confirmation was received here of the reports that had been in circulation all the day before of the resignation of the Scheidemann Cabinet, because of its failure to reach an agreement with respect to the signing of the peace treaty. Apparently the members of the Cabinet presented their resignations to the Government at 2 o'clock Friday morning. Weimar advices, also published here Saturday morning, in announcing the resignation of the Cabinet, stated that it would continue in office temporarily until President Ebert should be able to form a new Ministry.

No time was lost in the taking up of this highly important task. Naturally there was much speculation from the start as to the probable personnel of the new Cabinet. The assertion was made with much positiveness that Matthias Erzberger would have a new portfolio bearing the pretentious and significant title "Minister of Reconstruction and Fulfillment of the Treaty." Gustav Noske, Minister of Defense, and Dr. Hermann Mueller, Under Secre-

tary of the War Food Bureau, were spoken of as the most probable appointees for the Premiership, and it was said that their chances were about equal. Coblenz was reported to have heard positively from Weimar that Herr Noske would win the race for the head of the Cabinet and that Matthias Erzberger would succeed Count von Brockdorff-Rantzau as Foreign Secretary. Prominent among the members of the old Cabinet that were expected to be reappointed to the new Ministry were Eduard David and Colonial Minister Bell. As the Scheidemann Cabinet fell on the question of signing the treaty, naturally none of the six members, conspicuous among whom was Count von Brockdorff-Rantzau, who voted for an absolute rejection of the peace terms, could be expected to have a place in the new Government.

The personnel of the new Cabinet became known here Saturday night through advices direct from Berlin. Apparently most of the guesses of the two days previous regarding its makeup went astray. Neither Noske nor Dr. Mueller received the portfolio of Premier. Instead Gustav Adolf Bauer, formerly Minister of Labor, won the race for that highly important, and at this time equally difficult, post. Dr. Mueller, the Majority Socialist leader, was named as Minister of Foreign Affairs, while Matthias Erzberger was set down as Minister of Finance and Vice-Premier. Gustav Noske was continued as Minister of National Defense and Dr. Schmidt as Minister of Food. The selection of Herr Bauer as Prime Minister caused considerable surprise in Berlin and Weimar, as well as in Peace Conference circles in Paris. In fact, he was generally spoken of as a successful "dark horse." According to all the advices from the various centres, he had been "scarcely mentioned for Philipp Scheidemann's post." Prior to being appointed Minister of Labor he had served as Secretary of the labor unions of Germany, and was characterized in Berlin dispatches as "a long headed, conservative Socialist, who is reputed to have much influence with the workingmen." It developed that Herr Bauer had made another and unsuccessful effort to form a ministry, which was said to have been in existence only an hour. He had appointed Count von Bernstorff Minister of Foreign Affairs, but after having received the appointment on Saturday morning the Count is reported to have "refused to accept it or to have anything to do with the matter." His action and the determined stand of the Democrats against the surrender of the former Emperor, von Hindenburg and Ludendorf to the Entente for trial caused the death of the first Bauer Ministry almost before its birth. The second attempt was successful and the new Cabinet on Sunday received a vote of confidence in the National Assembly of 236 to 89, 68 members failing to cast their ballots.

It was rumored a week ago yesterday that the National Assembly had voted to accept the peace terms. The advices from Berlin and Weimar received here on Saturday and Sunday were not absolutely definite with respect to this point, but a dispatch from the latter centre on the following day stated that "a poll of the various parties in that body seems to show that the peace terms cannot fail to be accepted." Monday the word came from Berlin that the afternoon before, the Assembly, by a vote of 237 to 138, had "decided to sign the treaty,"

25 members failing to vote. In announcing the decision of the Government to sign the treaty. Premier Bauer made a long address to the National Assembly, in the course of which he declared: "The Allied and Associated Powers cannot expect the German people to agree, from an inner conviction, to a peace instrument whereby, without the people being consulted, members are severed from the German Empire, German sovereign power violated and unbearable economic and financial burdens imposed upon the German people." He also asserted that, by agreeing to sign the treaty, "the Government yielded to force in order to spare suffering Germany from a new war and disruption of national unity by further occupation, and women and children from further suffering.'

With a new Cabinet formed, the next step taken by the German Government was to dispatch four notes to the Council of Five, which were "supposed to have been prepared in advance and withheld to await advices from Weimar on the result of the effort to form a new Ministry." Apparently the notes were first delivered to President Wilson. They were placed in his hands at 7:45 Sunday evening. Proceeding at once to the residence of Lloyd George, a meeting of the Council of Five was called. The note to which first and special attention was given was the one in which the new Government signified its willingness to sign the treaty "if the clauses making Germany responsible for the war, and calling for the trial of the former Emperor, were eliminated." The first session of the Council lasted only a few minutes, when adjournment was taken until 9 o'clock for dinner. Council came together again at that hour and the advices stated that "after further brief consideration it was decided to reject the German request." According to the same advices, the understanding in Paris was that "the Allies insist on an absolutely unconditional acceptance of the terms, failing which their armies will begin to advance Monday evening." A week ago this evening it became known in the French capital that the German Government had requested Dr. Haniel von Haimhausen of the peace delegation "to conduct the peace negotiations at Versailles." The prevailing opinion in Paris at that time was that the Germans would sign the treaty whether or nor modifications were made.

This opinion was fully substantiated by an announcement Monday afternoon by the French Foreign Office that "the German Government at Weimar had formally announced its willingness to sign the peace terms unconditionally." No statement was made then as to the exact, or even probable, day on which the event would occur. In fact no date could be named, because the arrangements had not been completed and definite word had not been received from the Germans as to whether they would send a representative body to Versailles to sign for them, and if so, when they, the delegates, would arrive. It was hoped that the whole matter might be out of the way the following day (Tuesday), and if not, then, Wednesday. As the days passed it became increasingly apparent that both of these days were much too early.

Having failed to secure further modifications of the treaty, the Germans asked for an extension of fortyeight hours from 6:49 o'clock Monday evening, within

which to make known their decision relative to accepting the terms of the peace treaty. This request was received at 3 o'clock in the morning. At 9 o'clock President Wilson and Premier Clemenceau went into a conference with Lloyd George as the "Big Three." After having been in session less than an hour announcement was made of their refusal to grant the request. A note to that effect, signed "Clemenceau," was dispatched immediately to the Germans, in which it was made clear that the Allied and Associated Governments expected that the Germans would make known their decision "relative to the signature of the treaty without any reservation.' All this happened Monday forenoon. Dr. Haniel von Haimhausen was said to have received the reply in Versailles shortly before noon. It devolved upon him to transmit it to Germany and get a reply which could be delivered to the Peace Conference authorities before 6:49 that evening, if the requirements of the latter were to be met. As a matter of fact, the note announcing the willingness of the Germans to sign was reported to have been delivered to the representatives of the Allied and Associated Governments at 5:25, or more than an hour in advance of the allotted time. In this note the peace treaty was declared to have been characterized as one of "violence."

At once the question was raised as to who would sign for the Germans. It became known that the National Assembly had requested, and designated, according to some advices, Dr. von Haimhausen to perform this momentous task, and had conferred full powers upon him. The announcement of his selection was reported to have been distinctly distasteful to the Allied and Associated representatives, because, while the full German peace delegation was at Versailles, he had held only a subordinate position in comparison with the plenipotentiaries. In fact, the decision to have him sign for the Germans was regarded as an affront to the leading European Governments and to the United States, inasmuch as they would be represented by their foremost statesmen. Dr. von Haimhausen did not make it necessary for this feeling to be entertained long, inasmuch as Monday evening he telegraphed the home Government that he would not be able to perform the task of signing the treaty. This left the Germans without any duly appointed representative for that purpose.

Tuesday afternoon a dispatch was received from Paris which declared that the French Foreign Office had been informed that the German delegates who would sign the treaty would arrive in Versailles Friday morning, and, according to "La Liberte," would be headed by Herr Mueller, the new Foreign Minister. At that time it was hoped and even expected that the ceremony of the signing would take place at 2 o'clock Friday afternoon. A Weimar dispatch made public at the same time indicated that the other members of the delegation had not been named. Still another dispatch from Berlin, bearing the date of Tuesday afternoon, stated definitely that Dr. Mueller had been named Chairman of the delegation and that "probably he would sign the treaty alone, although he might be accompanied to Versailles by a delegation of twenty." Wednesday morning the belief was expressed in a special Paris cablegram that the German delegation would reach Versailles Thursday, but that, because of "the French charge were said to have been directed to have every-

insistence on punctilious formalities, it might not be possible to sign until Saturday" (to-day).

This situation was still further complicated by the report from Berlin Thursday morning that Dr. Herman Mueller had declined to go to Versailles to sign the treaty. This report was published in Berlin by the "Tageblatt," and coupled with it was another report that Field Marshal von Hindenburg had resigned the chief command of the army. Dr. Mueller was the fourth appointee as a delegate to sign the treaty who handed in his resignation. His reason for not accepting the honor was not given. The others who refused to sign were Count von Brockdorff-Rantzau, who called the treaty "a peace of violence"; Count von Bernstorff, who, it was said, "feared for his political future," and Dr. Haniel von Haimhausen, who, according to rumors, was told by his wife that if he signed the treaty he need not return to her.

Advices received in Paris from Germany by the Council of Five late Wednesday, and which became known here the following morning, were "to the effect that the German Government was occupied in selecting new delegates for Versailles." Up to a late hour that evening no official word had been received "regarding Germany's plans as to the formal signing of the peace treaty," and it was added that "the Peace Conference leaders were undisguisedly perplexed over the situation." At that time hope was said to have been practically abandoned "that the ceremony of signing could take place before Saturday" (to-day), and it was thought that it might have to be delayed until Monday, anxious as President Wilson was to leave for home. Thursday afternoon's Paris dispatches stated that "efforts were being made to arrange for the signing of the peace treaty at 3 o'clock Saturday [this] afternoon." No direct and specific official information had been received even then as to who would actually be the delegates to sign for Germany. Paul Dutasta, General Secretary of the Peace Conference, went to Versailles in the morning in search of information on the subject, and "was informed verbally by Dr. Haniel von Haimhausen that the German signatories who, it is presumed, would be Herr Mueller, Herr Geisberts and Herr Leinert, might arrive by Saturday, but that he was unable to speak authoritatively on the subject." In other dispatches it was claimed that these men actually had been selected. Dr. Meuller, it will be recalled, is the new Foreign Minister. Johann Geisberts was Minister of Posts and Telegraphs in the Scheidemann Cabinet, while Herr Leinert also was a member of the former peace mission. A Berlin cablegram received here yesterday morning stated that Dr. Mueller and Colonial Minister Dr. Bell had been selected to sign the peace treaty and would arrive in Versailles this morning. Whether a third delegate would be selected was not made clear. Paris advices yesterday afternoon indicated that only the two delegates will represent Germany. They were expected to arrive at the French capital at 9 o'clock last evening, or 7 o'clock this morning, the reports not agreeing.

Elaborate preparations for the signing of the treaty have been under way for some time. As early as last Monday an outline of the preliminary steps was given in a Paris cablegram. Those in

thing in readiness in the famous Hall of Mirrors in the Chateau of Versailles for the ceremony on Tuesday, although even then it was doubted that it could "take place before Thursday at the earliest." It was made known also that the plans for the signing called for the affixing of the signatures of the plenipotentiaries in alphabetical order, according to the countries which they represented. Yesterday's Paris advices stated that Premier Clemenceau would sign first, but the statements were conflicting as to whether he would be followed by Premier Lloyd George or President Wilson. In the early announcements of the plans provision was said to be made for 400 invited persons and for about an equal number of representatives of the press, the French papers alone being allotted 60 seats. All told it is expected that from 800 to 1,000 will witness the ceremony, of which 60 will be Americans.

Further consideration of the plans for the ceremony was given by the Supreme Council at a meeting on Tuesday. It became known then that President Wilson favored making the whole affair "as simple as is consistent with the nature of the event." Accordingly it was stated that "the original plans for the conclusion of the 'second peace of Versailles' have been materially revised at his suggestion." At that time it had been decided that Premier Clemenceau would "open the ceremony with a brief address," but it was stated that "no speech is expected from the Germans." It was made clear that, after the signing of the document by Premiers Clemenceau and Lloyd George and President Wilson the treaty would be brought back "to a table especially assigned for signatures" and that the names of the delegates would be called in alphabetical order according to the countries which they represent. It is expected that the signing will take two hours, although every effort, consistent with the dignity and importance of the occasion, will be made to expedite it as much as possible. Not only must the plenipotentiaries affix their signatures, but they must also put on their seals. The reports were conflicting, but it was stated in Paris and Washington advices that President Wilson will use his own personal seala seal ring, which, it is said he always wears, and on which his name, "Woodrow Wilson," is engraved in short-hand characters. Several days ago he made known his desire to Premier Clemenceau to have "his ladies" present at the ceremony. This was in response to a query on the part of the French Premier as to whether ladies should be admitted to the ceremony. It is expected that Mrs. Wilson, the President's daughter Margaret, Mrs. Wilson's private secretary, Miss Benham, and Admiral Grayson, the President's physician, will be his special guests. Announcement was made that the original copy of the treaty will be made of fine Japanese paper, bound in Morocco, will cost \$4,000, and will be kept in Paris, the other nations that are signatories to the treaty receiving copies. Unofficial announcement was made in Paris late yesterday afternoon that plans had been completed by the Council of Three for the signing of the peace treaty at three o'clock Saturday (this) afternoon. It was reported that the Chinese delegates would sign "with the understanding that Japan would return the Shantung concessions to China within a stipulated time."

week ago yesterday morning from a two days' trip to Belgium. Although he did not leave his train until 9 o'clock, by 11 he was in the Hotel de Crillon and in conference with the entire personnel of the American delegation to the peace conference. It was understood that he told the members of the delegation "that he had fixed no date for his departure for home." On Tuesday, however, a Brest dispatch stated positively that the George Washington had received orders to be ready to sail Thursday morning. A Paris cablegram also received on Tuesday announced that the ship would "take a direct route from Brest to the United States under forced draft," and to make the latter possible "extra coal is being placed on the deck spaces." Paris advices made it clear that the President was ready to leave immediately after the signing of the treaty whenever that event might take place. President Poincare originally planned to give an elaborate farewell dinner to the peace plenipotentiaries of all the nations represented on Friday evening, but because of the uncertainty of the date of the signing of the treaty, he decided to have it on Thursday evening. By this change it was pointed out that President Wilson would not be prevented from leaving Paris Friday night if the treaty were signed during the day. At the banquet President Wilson made a felicitous farewell speech which appeared to be very well received.

Last evening's Paris advices stated that if the peace treaty is signed this afternoon, as contemplated, President Wilson plans "to leave for Brest immediately afterward, sailing for the United States at noon on Sunday."

Peace Conference leaders were quoted in a special Paris cablegram yesterday as expressing the opinion that "there is still a year's work before that body." With the departure of President Wilson and Premier Lloyd George to their respective home countries, the advices this week have indicated that the controlling body in the Peace Conference would be a Council of five to ten members, among whom probably would be found Bonar Law, representing England, and Secretary of State Lansing for the United States. departure of Colonel E. M. House to London to look after the organization of the League of Nations quite likely will go a long way toward removing the jealousy that has existed for a long time in American diplomatic circles.

The Allied and American forces were ready to proceed further into Germany on a moment's notice if the Germans had not made known, on schedule time Monday evening, their willingness to sign the treaty. According to Coblenz advices, Marshal Foch, with a large force, could have been on the way by 7 o'clock that evening, and in fact it was added that if he had actually started he intended to make a drive of at least 60 miles. Happily that step was not necessary, however much personal satisfaction certain elements in France and Great Britain, and even in the United States, might have taken in seeing it. A regretable incident from the point of view of broad-minded people who are eager to see the Germans take up reconstruction was the sinking of a large part of the German fleet that was interned in Scapa Flow. The Allied and other Peace Conference authorities held from the first that the Paris cablegrams made it clear that our President act was in direct violation of the terms of the armiswas not given a formal reception upon his return a tice, and on Thursday sent a note to the Germans making known their power to demand reparation for the vessels sunk and to impose punishment upon those responsible for the deed. The report that still other German war vessels had been sunk in a similar way was denied and the correctness or falsity of the report does not appear to have been established even yet.

Apparently President Wilson and the other members of the Council of Five were so fully occupied with questions pertaining to the signing of the treaty by the Germans that they had little time to take up the Adriatic question, which was reported to have been in deadlock ever since former Premier Orlando left Paris several weeks ago. Undoubtedly these Peace Conference authorities were relieved to learn early this week that the signing of the treaty would not be delayed by the failure of the Italians to send a delegation to Paris for that purpose. The advices differed as to its personnel, but the fact remained that duly appointed representatives would be on hand. Further good news relative to Italian affairs was received a week ago to-day in advices from Paris stating that the Italian peace delegates had been directed "from Rome to accept the proposition for the settlement of the Dalmation controversy made by Premiers Clemenceau and Lloyd George and President Wilson." An unfortunate expression has caused the downfall of many a political leader. Eight words in an address of former Premier Orlando in the Chamber of Deputies last week were said to have turned that body finally against him and to have forced his resignation. The words were: "Remain faithful to our duties toward our allies." Opponents of Orlando declared that Italy had gone more than half way in accepting the suggestions of Great Britain and France with respect to their interests in far distant countries, but that those two great Powers had not allotted to Italy what was due her.

Italy found herself without a ministry at about the same time that Germany did. A cablegram from Rome received a week ago to-day stated that King Victor Emanuel had asked Francesco Nitti, formerly Minister of Finance, to form a new cabinet. At the same time it was reported that former Premier Tomaso Tittoni would be Foreign Minister. Although Nitti encountered strong opposition from political enemies, it became known as early as last Monday afternoon that he had succeeded in forming in new ministry, the personnel of which was made public at that time. Demonstrations against Nitti's formation of a cabinet were said to have been held in Naples, Turin and Milan, the charge being made that "his policy is favorable to a renunciation of some of the claims of Italy to the eastern coast of the Adriatic." Although at first he was attacked by the Italian papers, after the announcement of the members of the cabinet had been made advices from Rome stated that the opposition subsided materially.

In spite of the many other pressing questions constantly in evidence, President Wilson and Premiers Lloyd Goerge and Clemenceau gave considerable attention to the completion of the Austrian treaty, taking up that task as early as a week ago to-day. Such progress was made early this week as to give rise to the hope that the whole treaty would be completed "in a few days," but the opinion was

expressed that "there is no chance that it will be signed until after President Wilson leaves for the United States." Radical changes were declared to have been made in the terms of the original treaty, particularly in the economic and financial clauses, because of "the realization of Austria's financial condition," which it was asserted is "very bad." According to a Paris dispatch Monday, Austria will not be required by the treaty to pay an initial sum of \$1,000,000,000, as originally proposed, "since it would deprive her of all working capital." The further assertion was made that the revised Austrian treaty would not require, either, the issuance of "any bonds to the Allies on account of reparations," as this question would be left for a reparation commission to decide. This, it was pointed out, would disappoint Italy and other Powers that had looked for large reparations from Austria at an early date. On Wednesday the claim was made in a Paris cablegram that "the difficulty of aligning the small Eastern States on any general scheme for a division of the financial obligations and the claims resulting from the breakup of the Hapsburg Monachy," was delaying the completion of the Austrian treaty. On Tuesday the Council received another note from the Austrian peace delegation at St. Germain protesting against still other features of the treaty, but apparently the questions involved were not vital,

Reports continued to come to hand regarding the rapid recuperation of Belgium, particularly in an agricultural way. Financially she will be greatly helped and relieved of a big burden by the act of the Council of Five on Tuesday when it "signed an agreement giving formal approval to priority for Belgium in reparations to be paid by Germany to the amount of 2,500,000,000 francs." The Council approved a plan also for wiping out the war debt of Belgium "through the substitution of German bonds for the Belgium obligations, the four Great Powers to take over the German bonds subject to the approval of their respective legislative bodies." It will be recalled that the bonds that the Powers propose to take over "are of a special issue which the peace terms required Germany to make to reimburse Belgium for all the sums she was obliged to borrow in consequence of the violation of the Treaty of 1839."

The "Echo de Paris" published the report again this week that Premier Clemenceau would resign after the signing of the German treaty and its approval by the French legislative body. As he opened the note announcing that Germany would sign the treaty, the "Tiger" was reported to have exclaimed "we have waited 49 years for this moment," and to have added "be careful; keep your powder dry. Remember the world is living on a barrel of that powder." Appearing somewhat unexpectedly, in the Chamber of Deputies on Wednesday, the Premier was pressed for a reply regarding the policy of the Government relative to the elections and the demobilization of the army. He expressed a hope that the former might be held as early as next September, but declared that while demobilization was "urgent, it could not begin yet." As a result of his remarks on these and other questions the opinion is said to have been entertained that the venerable Premier would not retire as soon as had been expected. In another dispatch a French news agency was quoted as saying that the classes of 1907, 1908 and 1909 of French soldiers "will be mustered out the day after the treaty is signed."

The French Government has another plan for raising additional funds, through the medium of taxation. Louis Klotz, French Minister of Finance, presented it to the Chamber of Deputies a few days ago. It calls for new taxation that it is estimated will yield 500,000,000 francs. Among the provisions are an increase in the inheritance tax of 3% on legacies of 10,000 to 50,000 francs, and of  $7\frac{1}{2}\%$ on legacies of 10,000,000 francs and upward. It was stated that other duties would remain unchanged, while legacies under 2,000 francs will be exempt from taxation. The increase in inheritance taxes was placed at 95,000,000 francs. M. Klotz also announced that a tax of 5% on incomes that have increased as compared with 1918 would yield 100,-000,000 francs, and he added that a super-tax of 15% on war profits would bring in an additional 350,000,000 francs.

Political and industrial conditions in Germany at the moment cannot be otherwise than greatly disturbed. That country is passing through an extremely critical period of its history. Advices from Berlin and Paris received here yesterday morning expressed the fear that, as a result of the reported return of the former Crown Prince, and other steps that might be taken in the near future by the old regime. civil war might break out between that group and the Socialists, who are now in power. If there is any truth in the allegations that have been made in recent months that the latter in reality are only "stalking horses" for the former, of course there could be no ground for such apprehension. In any event some time undoubtedly will be required for the people to settle down to their accustomed way of living and acting, even if the Governmental leaders do their best to guide them. On Wednesday London heard from Berlin that "President Ebert, Premier Bauer and all the Ministers had issued a proclamation urging as the first pressing need the bending of all efforts to the fulfillment of the treaty." "As far as it is possible, carry it out." the proclamation was said to have urged, and even to have declared that "the treaty must be carried out." Germany, according to statements in Berlin advices that also appeared here on Thursday, "was faced with a nation-wide railroad strike for higher wages." At Gorlitz station in Berlin, service was reported to have been stopped in both directions at that time. The Government was reported to be negotiating "in an effort to halt the strike," which, it was asserted, was "largely the outcome of Communist propaganda." Thursday afternoon advices from London reported that disorders were increasing in Berlin, many streets being barricaded. In Hamburg representatives of industrial councils were said to have "assumed full political and military power, and are sitting in the Town Hall." Yesterday morning's dispatches direct from Hamburg stated that that centre "threatens to become a second Munich, with even greater bloodshed." The advices added that "the city is completely in the power of the Communists and Spartacans, who are utilizing food riots as an excuse for their attempts to gain control." According to the latest reports, German Government troops had reached the

suburbs of Hamburg, "ordered the immediate cessation of hostilities, the release of all prisoners held in the City Hall, and the delivery of weapons."

The labor situation in Great Britain is attracting fresh attention. The 19th annual conference of the Labor Party began its sessions in Southport, England on Wednesday. Many foreign delegates were in attendance. Important labor questions that have been under consideration, and hanging fire in some instances, were discussed at considerable length. The conference was expected to pass upon a policy of direct political action; to put its delegates on record with respect to the abolishment of conscription and the withdrawal of troops from Russia. In view of the vast amount of Peace Conference and other matter, the London cablegrams have not contained full accounts of the proceedings of the conference. By a vote of 2 to 1 that body approved yesterday the principle of a general strike to enforce political demands, according to a dispatch from London received during the afternoon. Premier Lloyd George is being urged to return promptly after the signing of the German treaty, to defend his peace policies and to help in the solution of labor problems and numerous other important and pressing questions, consideration of which has been held in abeyance for many weeks, because of the necessity of completing the peace treaties.

The British Board of Trade has announced further changes with respect to import rulings that ought to have an important bearing upon trade between the United States and Great Britain as time goes on. British merchants have lodged additional complaints about the great delay still existing in the transmission of messages between New York and British centres, in some instances it being alleged that from two to three and six days have been required to send a message between those points. The attention of the authorities was directed to the adverse affect of these delays upon international business, which it is desirable to expand at this time and from now on.

The British securities markets did not show much snap, except with respect the oil stocks which were extremely active. Early in the week a report was in circulation in London that some 400,000 shares of Mexican Eagle Oil stock, said to have been bought by a syndicate last April at 53/4%, had been sold in New York for introduction on the curb at 73/4%. The depression in the general list was attributed partly to the Government loan campaign, which it was said was still in the "educational stage," because of the failure of the public to grasp the terms of the two issues of bonds which it embraces. Dissatisfaction over the continued huge expenditures of the Government day by day, in spite of the fact that the signing of the Peace Treaty was all but accomplished, was spoken of as another depressing influence. The raising of the German blockade, it was feared, would further increase the cost of living. Toward the end of the week the assertion was made that a still greater effort would be necessary to make the Government loan a success. The probable nationalization of the coal mines and the railroads received much attention and was spoken of as likely to impose additional responsibility on the taxpayers.

The British Treasury statement for the week ending June 21 again indicated an excess of expenditures, with the result that a further small deficit in the Exchequer balance was shown. As the sale of Treasury bills has been stopped, and repayments continue upon a liberal scale, the volume outstanding has been reduced to £851,831,000, as against £891,-208,000 a week ago. The week's expenses were £25,738,000, (against £19,534,000 for the week ended June 14); while the total outflow, including Treasury bills repaid and other items, amounted to £98,636,000, in comparison with £98,568,000 last week. Receipts from all sources aggregated £98,587,000, which compares with £98,370,000 the previous week. Of this total, revenues yielded £15,329,000, against £9,754,000 while from savings certificates £1,100,000 was received, against £700,-000. Other debt contributed the large sum of £18,971,000, against £2,689,000, while advances brought in £50,000,000, in contrast with £75,000,000 a week ago. New issues of Treasury bills amounted to £12,239,000, comparing with £7,294,000 last week. Repayments were £51,676,000. Temporary advances, however, continue to expand and the total is now reported at £701,892,000, an increase for the week of £47,000,000. The Exchequer balance now stands at £5,947,000, against £5,996,000 the week preceding, a decline of £49,000.

The Bank of England reports another, though small, gain in its stock of gold, namely £80,602, although total reserves were reduced £498,000 as a result of an expansion of £579,000 in note circulation. The proportion of reserve to liabilities was also lowered, from 19.71% last week, to 17.71% this week, and comparing with 18 20% a year ago. A feature of the statement was the large expansion in both Other Deposits and Government Securities, the former of £13,447,000 and the latter £13,617,000. Public Deposits increased £27,000. Loans (other securities) expanded £382,000. The Bank's gold holdings now stand at £87,810,526, as against £65,228,157 in 1918 and £57,534,874 the year before. Reserves total £27,958,000. This compares with £30,004,047 a year ago and in 1917 £36,585,329. Loans aggregate £80,803,000. Last year the total was £100,799,899 and the preceding year £100,225,-942. Note circulation is now £78,301,000, in comparison with £53,674,110 and £39,399,545 one and two years ago, respectively. Clearings through the London banks for the week totaled £517,040,000, against £472,330,000 a week ago and £389,093,000 last year. We append a tabular statement of comparisons:

The Bank of France continues to report gains in its gold item, the increase this week being 268,562 francs. The Bank's aggregate gold holdings, therefore, now amount to 5,550,897,837 francs, as against 5,423,848,361 francs last year and 5,288,021,642 francs the year before; of these amounts 1,978,278,416

francs were held abroad in 1919, 2,062,108,484 francs in 1918, and 2,034,774,686 francs in 1917. During the week advances rose 6,057,551 francs and general deposits were augmented by 60,514,852 francs. On the other hand, silver decreased 1,050,968 francs, bills discounted were reduced 5,251,246 francs and Treasury deposits fell off 11,814,558 francs. Note circulation was contracted to the extent of 7,557,455 francs, bringing the total outstanding down to 34,441,999,125 francs, which compares with 28,550,426,140 francs in 1918 at this time, and with 19,823,105,870 francs in 1917. In 1914, just prior to the outbreak of war, the amount outstanding was only 6,683,184,785 francs. Comparisons of the various items in this week's return with the statement of last week and corresponding dates in 1918 and 1917 are as follows:

In its weekly statement, as of June 15, the Imperial Bank of Germany shows another large reduction in gold, in round numbers, 151,218,000 marks in total coin and bullion and 150,894,000 marks in gold. Bills discounted registered the huge expansion of 1,619,794,000 marks, while deposits increased 1,333,849,000 marks. Treasury notes increased 174,221,000 marks, notes of other banks gained 529,000 marks, and other liabilities declined 318,945,000 marks. There were increases of 1,-536,000 marks in advances, 695,000 marks in investments, 6,425,000 marks in other securities, and 57,013,000 marks in note circulation. The Bank's stock of gold on hand has been cut to 1,151,509,000 marks, which contrasts with 2,345,960,000 marks a year ago and 2,533,360,000 marks in 1917. Note circulation has reached the phenomenal total of 27,803,254,000 marks, as against 12,042,060,000 in 1918 and 8,224,020,000 marks the year preced-

No change has been noted in official discount rates at leading European centres, from 5% in London, Paris, Berlin, Vienna and Copenhagen; 51/2% in Switzerland, 6% in Petrograd and Norway, and 4½% in Holland and Spain. A cablegram from Stockholm, under date of June 25, states that the Bank of Sweden has reduced its rate from 61/2% to 6%. Advices received by mail say that the discount rate of the National Bank of Belgium has been lowered to 4%. This is stated to be the first change since Aug. 20 1914, at which time it stood at 5%; but as a matter of fact during the period of German occupation of Belgium the Bank could hardly have been doing any active business. A cable dispatch from London, dated yesterday, stated that the Bank of Bombay had reduced its rate of discount to 5%. In London the private bank rate continues to be quoted at 31/4% for sixty days and 33/8% for ninety days. Call money in London, however, has been advanced and is now  $3\frac{3}{4}\%$ , as against  $2\frac{3}{8}\%$  a week ago. No reports have been received by cable, as far as can be learned, of open market rates at other centres.

As had been anticipated, Saturday's statement of New York Associated banks and trust companies, which is given in fuller detail in a subsequent section of this issue, showed a restoration of the equilibrium after the completion of the income tax installment and other payments to the Government and last week's deficit was transformed into a surplus of over \$31,000,000. There was an unusually heavy reduction in loans—\$205,606,000—this latter being connected with the income tax payments and the paying off of Treasury certificates of indebtedness, and a decline of \$128,596,000 in net demand deposits, the latter to \$4,008,333,000 (Government deposits of \$354,967,-000 deducted). Net time deposits were increased \$6,649,000 to \$158,295,000. Cash in own vaults (members of the Federal Reserve Bank) was reduced \$518,000 to \$97,900,000. Reserves in the Reserve Bank of member banks expanded \$14,767,000 to \$537,439,000, while reserves in own vaults (State banks and trust companies) decreased \$638,000 to \$11,828,000, and reserves in other depositories (State banks and trust companies) increased \$384,000 to \$12,585,000. Aggregate reserves showed a gain of \$14,513,000 to \$561,852,000. Excess reserves, however, through a reduction of \$16,551,580 in reserve requirements, registered an expansion of \$31,064,580, which after accounting for the deficit reported a week ago, left a surplus of \$30,408,530. This compares with \$47,145,130, the amount on hand in the corresponding week of 1918. Aggregate reserves at that time totaled \$534,686,000. The 'totals here given for excess reserves are based on reserves of 13% for member banks of the Federal Reserve system, but not including cash in vault held by these banks, which amounted last Saturday to \$97,900,000.

Irregularity and high rates at times characterized the local market for call money during the early part of the week. On Thursday and Friday somewhat easier conditions appeared to prevail, although the initial quotations on the former day were high. Yesterday, the opening figure for mixed collateral loans was 5% and for all industrials  $5\frac{1}{2}\%$ . This was somewhat surprising in view of the high rates prevailing several days before, and in view of the additional fact that loans made yesterday carry over until Monday. When the rates were the highest during the first half of the week, it was claimed that the scarcity of funds was due partly to preparations for the July 1 disbursements. It would have seemed that this consideration would have played a prominent part in yesterday's money market, but evidently it did not. As the large amounts that will be paid for interest and dividends on July 1 are expected to find their way back into the usual channels several days later, the leading authorities are predicting somewhat easier monetary conditions at this centre before the first week of July is over. This is the usual expectation and generally it has been realized. There is the additional consideration of the large sums that will be required for harvesting and moving this year's unusually big crop of wheat. This undertaking should be felt in the money market very soon, but it is a fact that in recent years the West and South have been so strong financially that they have not found it necessary to call upon New York for money to the extent that they were accustomed to do formerly. Preparations are being made steadily for helping to meet the financial requirements of Europe. The announcement of movement, although the declines were neither spec-

two additional issues of certificates of indebtedness by Secretary of the Treasury Glass appeared to have been somewhat of a surprise. Inasmuch as they are for indefinite amounts the announcement was spoken of as a factor in the high rates for call money. Financial institutions report that the offerings of new securities that they made this week were quickly resold. The market for standard railroad bonds continues comparatively quiet. The stock market has been quieter and irregular.

Dealing with specific rates for money, call loans this week have ranged between 43/4 and 15%, as against 5@12% a week ago. Monday 10% was the highest, with 6% the low and ruling rate. On Tuesday 6% was still the minimum, also the basis for renewals, while the maximum receded to 8%. Wednesday the rate shot up to 15%, though this was for only a brief period and in the late afternoon loans were negotiated at 7%, and the low was 6%. Thursday's range was 5@9% and 6% the ruling figure. On Friday, under more liberal offerings, there was a recession to 5% the high, 43/4% low and 5% the renewal basis. The figures here given are for loans on mixed collateral. "All-industrial" loans have been renewed all week at 1/2 of 1% higher than mixed collateral, with the week's range 5@15%. With the exception of Monday when the maximum was 8%, the high point for both classes of collateral was the same. For fixed maturities the situation remains without essential change. Very little business is passing, which is explained by the extensive preparations now going on for the July 1 disbursements. Offerings were restricted with quotations largely nominal. Six per cent is now asked for all periods from sixty days to six months for mixed loans and 61/2% on all industrial collateral. This compares with 53/4@6% and 6% last week. A year ago sixty and ninety days was qoted at 51/2@6% and four, five and six months at 6%.

Commercial paper rates were a shade firmer, with sixty and ninety days' endorsed bills receivable and six months' names of choice character at  $5\frac{1}{2}$ @ $5\frac{8}{4}$ %, against  $5\frac{1}{2}\%$ , and names less well known at  $5\frac{3}{4}\%$ , against 5½@5¾%. Transactions, which were not large, continue to be restricted by inadequate offerings. Country banks were in the market for the best names.

Banks' and bankers' acceptances were quiet and featureless. Trading in the aggregate was light, though brokers look for a distinct improvement once the half-yearly financing has been arranged for. Loans on demand for bankers acceptances continue at 41/2%. Quotations remain firm, at the levels previously current. Detailed rates follow:

	Spot Delivery

Ineligible bills	514 @414	514@414	6 bld	

No changes in rates, so far as our knowledge goes, have been made the past week by the Federal Reserve banks.

Weakness has been the predominating feature of the week in sterling exchange, and not even the announcement on Monday of Germany's decision to submit to the inevitable and agree to the signing of the Treaty of Peace was able to arrest the downward tacular nor widespread. Nevertheless, in the absence of good buying support, quotations receded steadily until demand touched 458—the lowest point in quite some time, and comparing with a rate of 468 only a few weeks ago. Much of this, however, it is asserted, was due to the absence of mail facilities during the week, a factor which caused a dearth of buyers, and, coupled with the continuous and voluminous outpouring of commercial bills upon an unresponsive market, brought about the low levels current this week. At the extreme close a slight improvement was noted.

While the actual signing of the treay by Germany may be delayed for a few days, peace is now looked upon as an accomplished fact, and it has probably already been largely discounted as a market influence. The question bankers are now asking is, what can be done toward the restoration of normal trade conditions? And to this end the progress at the various meetings of the Foreign Trade Councils is being closely watched. Since Europe has as yet neither goods nor gold wherewith to pay for what she buys, it is evident that we must continue for at least another year to lend freely to our European customers, and the sooner measures are devised for the facilitating and safeguarding of the extensive credits which will be needed for the adequate financing of foreign trade operations, the better it will be for all concerned.

It is confidently expected that with the actual declaration of peace, exchange dealings will show a material broadening in volume, but as to the probable course of rates, much diversity of opinion still exists. It is possible that the payment of German indemnities may bring some relief, but this is not expected to produce any very marked change in conditions. So far the outward movement of gold has been with-

out appreciable effect upon rates.

Dealing with quotations in detail, sterling exchange on Saturday was steady, with demand and cable transfers fractionally up, at 460%@461, and 4.61%@4.62, respectively; sixty days, however, were easier on increasing offerings and the rate declined to 4 58\%@4 59\%. Monday's dealings were inactive and movements irregular, with the trend downward; demand declined to 4 60\3\8@4 60\3\4, cable transfers to 4 61\%@4 61\%, and sixty-day bills to 4 58\\\2@ 4 587/8; news that Germany had at last consented to the Allied peace terms failed to exercise any effect on actual rates. Increased weakness developed on Tuesday, and there was a further decline to 4 593/4@ 4 601/8 for demand, 4 607/8@4 611/8 for cable transfers and 4 57\%@4 58\\ for sixty days; the fact that no good English mail steamer was scheduled to sail during the week contributed largely to the dulness, while prospects of continued high rates for money was also a factor. On Wednesday, as a result of liberal offerings of bills, rates suffered a further recession, with demand down to 4 58½@4 593/8, cable transfers to 4 591/2@4 603/8, and sixty days 4 57@4 571/2. No improvement was noted on Thursday and the range was 4 59@4 59½ for cable transfers, 4 58@ 4 581/2 for demand and 4 56@4 561/2 for sixty days. Friday's market was firmer and a trifle higher, with demand 4.59%@4.60, cable transfers 4.60%@4.61, and sixty days 4 573/8 @ 58. Closing quotations were 4 573/8 for sixty days, 4 593/8 for demand and 4 601/4 for cable transfers. Commercial on banks finished at 4 591/4, sixty days at 4 561/8, ninety days at 4 5434, documents for payment (sixty days)

and grain for payment closed at 4 59½. Gold engagements for the week were \$3,200,000 for shipment to Spain, \$3,000,000 for China, and \$9,750,000 for South America, making a total for the week of \$15,950,000.

As regards continental exchange, the news that Germany had agreed to an unconditional acceptance of the Allied peace terms exercised a favorable effect and during the opening days of the week advances were recorded with a sharp rise in Italian lire to 7 95 for checks. Francs were also firm and higher. Later, however, when rumors of a possible hitch in the negotiations, likely to result in further delay and uncertainty, were circulated, weakness developed and substantial declines took place, particularly in lire which dropped back to 8 03 for checks. Offerings of both French and Italian bills continue in liberal supply, and trading in the aggregate showed considerable improvement. A better feeling became apparent at the close, and some of the losses were regained. Among the principal news features of the week was an announcement by Fred I. Kent, Director of the Division of Foreign Exchange, authorizing dealers to carry on transactions in foreign exchange and securities without restriction, except for certain limited qualifications.

The official London check rate in Paris finished at 29.73, which compares with 29.35 a week ago. In New York sight bills on the French centre closed at 644, against 642; cable remittances at 642, against 6 40; commercial sight at 6 46, against 6 43, and commercial sixty days at 650, against 648 on Friday of the previous week. Belgian francs ruled somewhat firmer, but sagged off again and, after touching 6 47 for checks, finished at 6 67 with cable transfers at 6 65. Last week the close was 6 68 and 6 66. Lire closed at 7 98 for bankers' sight bills and 7 96 for cable transfers, in comparison with 8 10 and 8 08 last week. Greek exchange has been changed to 5 21½ for checks and 5 21 for cable transfers, against  $5.16\frac{1}{2}$  and 5.15, the previous levels.

In the neutral exchanges the trend has been toward lower levels, with considerable nervousness and irregularity shown as a result of the week's developments in the international political situation. Swiss francs were conspicuous for weakness, which was attributed largely to the fact that Switzerland is taking large quantities of cotton at prices far above the normal. Guilders were fractionally lower, and this was also true of Spanish pesetas. The Scandinavian exchanges moved somewhat erratically, with sharp declines in both Copenhagen and Christiania remittances, though exchange on Stockholm was only a shade lower. The weakness in pesetas was held to be partly in response to the gold export movement.

Bankers' sight on Amsterdam finished at 38¾, against 39½ cable transfers at 39, against 39¼; against 39; cable transfers at 39, against 39¼; commercial sight at 38 11-16, against 38 15-16, and commercial sixty days at 38 5-16, against 38 9-16 on Friday's market was firmer and a trifle higher, with demand 4 59¾ 60, cable transfers 4 60¼ 61, and sixty days 4 57¾ 60 58. Closing quotations were 4 57¾ for cable transfers. Commercial on banks were 4 57¾ for cable transfers. Commercial on banks finished at 4 59¼, sixty days at 4 56⅓, ninety days at 4 54¾, documents for payment (sixty days) 4 56¾, and seven-day grain bills 4 58⅓. Cotton

the week before. Spanish pesetas closed at 1934 for checks and 19.83 for cable remittances. This compares with 19.97 and 20.05 last week.

In South American quotations a further lowering has been shown, with the rate for checks on Argentina down to 431/8 and cable transfers 431/4, against 43.80 and 43.90 a week ago. For Brazil, however, the undertone was slightly firmer and the close was 273/4 for checks and 277/8 for cable remittances, as compared with 271/2 and 275/8 last week. 'Chilean exchange remains at 10 31-32, and Peru at 50.125@

Far Eastern rates are as follows: Hong Kong,  $82@82\frac{1}{2}$ , against  $83@83\frac{1}{2}$ ; Shanghai,  $124@124\frac{1}{2}$ , against 123½@124; Yokomaha, 50½@50¾, against pore,  $55@55\frac{1}{4}$  (unchanged); Bombay,  $42@42\frac{1}{2}$ , against 411/4@413/4; and Calcutta (cables) at 42@  $42\frac{1}{2}$ , against  $41\frac{1}{4}@41\frac{3}{4}$  the week previous.

The New York Clearing House banks, in their operations with interior banking institutions, have gained \$4,065,000 net in cash as a result of the currency movements for the week ending June 27. Their receipts from the interior have aggregated \$8,463,000, while the shipments have reached \$4,-398,000. Adding the Sub-Treasury and Federal Reserve operations and the gold exports, which together occasioned a loss of \$114,471,000, the combined result of the flow of money into and out of the New York banks for the week appears to have been a loss of \$110,406,000, as follows:

Week ending June 27.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.		
Banks' interior movement Sub-Treasury and Federal Reserve operations and gold exports	\$8,463,000 49,725,000		Gain \$4,065,000 Loss 114,471,000		
Total	\$58,188,000	\$168,594,000	Loss\$110,406,000		

The following table indicates the amount of bullion in the principal European banks:

h August 6 1914 in both years.

#### GERMANY'S AGREEMENT TO THE TERMS OF PEACE.

The assent of Germany to the terms of peace, which was officially announced on Monday, was as inevitable a sequel to the armistice as the acceptance by the French Government and Legislature of the harsh terms laid down by Prussia in 1871 was to the surrender of the main French armies and the occupation of France by the Germans. The decision to accept whatever terms might be required was taken last November, and it was taken, as the leading German negotiator afterwards declared, under the "iron compulsion" of the German High Command.

Ask for concessions in the armistice terms, Hindenburg had written to Erzberger, "but if you cannot get the concessions, you must sign just the same."

The reason for that attitude is better understood today than it was seven months ago. The consensus of military and political judgment, as expressed since that time—German as well as non-German—is that the German army was immediately confronted with a "greater Sedan," a colossal military disaster, which would have placed Germany in exactly the position of the France of 1871.

This is the reason why Germany's acceptance of the terms of peace was all along inevitable. The army had been virtually disbanded under the terms of the armistice; the fleet surrendered; the reserve of arms and munitions given up; the strategic military points occupied by the enemy army. If Germany had this week actually decided to refuse acceptance of the Allied ultimatum, it would have meant beyond question inviting invasion of the German territory not as yet occupied, the capture of other cities by the enemy army, and probably the downfall of the form of government which has thus far successfully resisted insurrection. No Government and no legislature in its senses could resort to such an alternative.

That German statesmen should have protested vigorously against the terms of peace, should have urged their mitigation, and should have argued that the demands on Germany were unjust because they involved the country's economic ruin, was, from their point of view, merely following the path of duty. It was their business to get the best terms possible for Germany. As a matter of fact, the harshest of the stipulations had already been accepted in the German counter-proposals; the final objections applying first to the territorial provisions, and then to the formal acceptance of responsibility for the war and to the promise to give up the Kaiser for trial. Up to the last, however, it was the German Peace Delegation's duty to use every argument in the interest of their constituents. Thiers used insistently the argument of unbearable terms when conferring with Bismarck in 1871, and he succeeded, as Brockdorff-Rantzau has done, in securing important remissions.

Nor is there reason to regard the outcry against the Treaty, and against the Ministry and National Assembly which accepted it, as unnatural or unusual. This also merely repeats what happened in the case of France. The Communists' insurrection of 1871 in Paris made its protest against the peace terms part of its declaration. But on the other hand, the lack of personal dignity in the German procedure, and the repeated manifestation of what seemed to be mere spitefulness, is unfortunate. In this respect, Germany's attitude differs from all other previous instances of the kind with which we are familiar. The scuttling of the interned ships by their German caretakers in violation of the armistice, the burning of the captured French flags whose return to France had been formally pledged, the repeated intimations that the terms of the Treaty might not be observed, and the long delay in finding any one willing to sign the Treaty-as if it made any difference whose name was attached to his Government's agreementthese were extremely unpleasant incidents which have perhaps no precedent in such negotiations. They certainly had no parallel in the action of the French during 1871. But Germany's attitude toward the outside world has been peculiar to itself, ever since July 1914.

Of the Treaty terms themselves as finally accepted. we need only say that although, when compared with Germany's wishes and perhaps with her expectations, they are very harsh, nevertheless they are lenient compared with Germany's moral deserts for what she did in causing and conducting the war. We have pointed out one grave objection to the reparation clauses; that they by inference, at any rate, give the future Reparations Committee power to increase the hundred billion marks indemnity. But power is also given, and quite explicitly, to reduce that total, or, by unanimous consent of the Committee membership, to remit entirely some of the exactions.

The economic and political results of the Treaty episode will be determined, in our judgment, by the wise and judicious use of this second power. Quite aside from the question of allaying German discontent and hatred, and even apart from the question of fairness to a defeated enemy, the Allied Commissioners must know that to cripple Germany's financial and industrial energies would be to wreck the whole problem of reparation, which means so much to the devastated Entente countries. Regarding even the formal admission of culpability for bringing on the war-which has been most angrily resisted by the Germans-there are two things to be said: first, that not only the unanimous judgment of the civilized world outside of Germany but the judgment of enlightened and independent Germans, concurs in such a verdict; and second, that such a declaration was the necessary preliminary to the terms of peace as laid down in the Treaty.

Of the provision which requires the giving up of the Kaiser for trial, judgment can hardly be as favorable. There was much in the German contention that such action, with a non-German tribunal to try a deposed German sovereign, would be contrary both to German constitutional law and to the law and practices of nations. For ourselves, we believe that the precedent would be distictly evil, that its application elsewhere in the future might work great mischief and injustice, and that it would lay on the tribunal itself responsibilities which ought not to be imposed. Our feeling on the whole is one of skepticism as to whether the Kaiser will ever be tried. The plan might fail, indeed, through the declaration by the jurists of Holland, who have long been recognized as high authorities in international law, that the right of asylum in that country for political refugees can not be denied, even on request of the Entente Powers.

But the essential fact, it seems to us, is the agreement on the terms of peace. How the carrying out of them will affect the political or economic future of Europe, can only be conjectured. Some of the clearest thinkers, even among the members of the Paris Conference, are believed to hold the opinion that only with the beginning of reconciliation and the admission of Germany to a League of Nations shall we be able with confidence to look very far ahead politically. But meantime, Europe's economic rehabilitation should begin at once on the ormal declaration of peace.

# WHAT PEACE SHOULD BRING AND WHAT CAN BE DONE AT ONCE.

With Germany agreeing to sign the Treaty of Peace the first feeling is one of relief. War weariness was the supreme influence among the people of Germany, and the world responds to it. The second thought is of what is to come from it.

A world, in many ways new, awaits beyond; and there are no questions more pressing or more difficult of answer than what is now to follow. With some assurance, however, we can venture to indicate certain important changes which we may hope the Treaty will inaugurate.

One is the end of the reign of Distrust. This as the result of many causes, one of which has been secret diplomacy. That is the channel through which the right of strong nations to do pretty much as they pleased has acted to accomplish their purpose. It has kept the world in a state of unrest, and has made it possible after every war to lead up to another war which should reverse the gains of the previous one, preparing in turn for still other wars to follow. Mutual distrust, even among nations having the strongest reasons for fellowship and confidence, has been for centuries the established condition, breeding universally unrest, fear, greed, and refusal to apply to the conduct of the State the principles of morality and honor which are accepted for the citizen. The war has held the attention of the world to this situation, and it may be expected that a new day has dawned.

The ending of war, big and little, is brought within the range of possibility. The Treaty is the first step toward the realization. This has long been the dream of the best men and their goal for humanity; witness the Old Testament prophets and the Roman temple of Janus. In the tumultuous days preceding the Coup d'Etat and the second Empire in France, when the Prime Minister, M. Guizot, was challenged by the fiery Thiers with his Government's having no policy, in a stillness which anticipated the overthrow of the State, Guizot arose and said: "You are mistaken. France has a policy which can be stated in one word. It is, Peace, with all, now and everywhere." The Assembly sprang to its feet with a thrill which stirred all France. That note is struck again to-day, and the world responds.

If it is too soon reasonably to expect the Golden Rule to govern in national intercourse, the policy of "Live, and Let Live," has won wide acceptance among the people, and the voice of the people will be heard. The heart of the world has been touched by the sufferings of Belgium and France, Serbia, the Poles and the Armenians; and the world has learned anew, and on a scale never before reached, the happiness of coming to the help of the suffering and the weak. Men are prepared to understand that no nation lives to itself. Prosperity when shared by all, blesses all; and when one suffers, sooner or later all suffer. It is a privilege and a duty of the State, no less than of the individual, to help others to better conditions, and to find in the effort and the cost of so doing, an immediate and enduring good to oneself. That truth is already in the way of acceptance, and will surely continue and find new opportunity.

We may also expect an end of every form of Embargo. Trade will be set free. Here there is much conservative teaching and practice to be overcome. In every line of business competition has so long prevailed that it will take time to secure free access for all to all markets. Shortage of marine tonnage, and the demand for war tariffs on all sides, will be a strong hindrance. But the release of the merchant fleets is already relieving the one difficulty, and the extent of the need for exchange of raw materials and manufactured articles in all markets, a

condition which requires the freest give and take, will carry us all rapidly forward into new conceptions and new relations that are sure to prevail.

The new world will be characterized by a wide Enlightenment. Universal education, enforced by the State if necessary, has gained a new importance. Russia, harried and trodden, bleeding and starving, hopeless and helpless in her vast illiteracy, is a warning to all. A free people must be a literate people. Not only that, Education, from top to bottom, will now be seen to require the inculcation of Fundamental Ideas. An idea is the most powerful and the most prolific thing in the world, and may easily be the most dangerous. Wrong ideas can only be driven out and their power of destruction arrested by right ideas. A propaganda of intelligence may be expected which shall sift ideas, rejecting the unsound and devoting its full strength to the propagating of the true. A new world of ideas is upon us. Many will be strange and many unsound, but they are an evidence and a feature of life; and a new world that brings a challenge of new life is to be hailed, however numerous its problems or serious its difficulties.

What then can be done at once? We can face conditions as they are. That involves among other things the stopping of waste. An immense amount of the world's industrial capital has been destroyed. In money, both fixed and current, in labor, in machinery, in established agencies and lines of business. All will have to be restored before life can go on as before. Much of this destruction is now shown to be irreparable. Large areas of France are so upheaved and rendered noxious and poisonous that much time will elapse before, if ever, they can be restored. This is suggestive of the extent and the nature of a destruction which cannot readily be estimated, but will eventually have to be made good. Arresting every form of waste ought to be the obvious and immediate task of all. Unnecessary expenditure is perhaps the most common form of waste, especially in the more prosperous communities. It needs thorough investigation as to the expenditures, both of the State and of the community and none the less of each individual. If reckless expenditure out of abundant surplus may ever be tolerated, it certainly cannot be in the wake of a world-devastating war.

Budgets for the town, the State, and the home should be established on the basis of existing prices, and then lived up to. This is essential if better times are to be hastened. They cannot be gambled for successfully.

We should also face an inevitable Dissolution of Prices. The war basis cannot permanently stand. Business men know this and hesitate to lay in stock, or invest in construction, because they fear the inevitable drop. Labor dreads it, and much of the current disturbance is due to this fear, which leads to a demand of the highest possible wages everywhere, and a general unwillingness to make engagements, or to enter upon steady and permanent work. That reduction in current prices of merchandise, the product of the war, ought to be faced and forwarded in the interest of establishing normal business which depends upon it, and in the interest of the people who are bitterly pressed by the high cost of living of which those excessive prices are largely the measure and the cause. Firms carrying large

much to hasten the day of better things for themselves as well as for others if they will be content to put their goods on the market at such attractive prices as will secure their quick distribution. There are indications that this process has already begun. The meat packers are announcing it, and some large retail establishments are advertising extensive sales at reduced prices. High cost goods taken thus out of the way, the road will be open to restock with goods at prices that are much nearer normal. Excessive rentals and high retail prices combine to block in many directions the effect of Peace.

Employers can do much in promoting the new day by proceeding to provide for the profitable employment of labor under conditions of better living for all. There is no justification for waiting for settled conditions before labor is better housed and established in hopeful and satisfactory terms of life. Going forward in this, tarrying for none, is a plain duty.

There is a clear call to lay aside the spirit of Revengeand Retaliation. If only for our own sake, we need to do this, for it is a spirit which reacts heavily, corroding and hardening the heart. Undoubtedly the German nation deserves just retribution. They are sure to encounter it in the days to come without the necessity of our individual acrimony and bitterness. We do not want to temper the mercy which is always a Christian duty, with the justice which belongs to the administration of the law.

The time has come for us all to take a fairer and more generous view of other people's circumstances and abilities, not to set ourselves up as their judges but to accord to them every opportunity for self expression and self development and to be generous with appreciation and honest praise wherever it is possible. Men of many races have found opportunity to prove their possession of splendid qualities in the war. The presence of these is now beyond question in any race. We can anticipate them in the normal circumstances of life, and should open wide the door for their display.

This leads up to an examination of our own short-comings and that vigorous dealing with them, which will help us to occupy a high position, should it come to us, without pride, or a low one, if that is our lot, without depression. It will lead us to distrust and discredit, as Switzerland already is doing, every sort of "Council," of soldiers, or workman, or any other class, which is created solely to enforce its own interests in selfish disregard and antagonism to the interests of others.

In short, the day has come for making the Brother-hood of Man a real thing, exhibited in the lives of men dwelling in the same community, and reaching out from those who put it to a daily proof till it embraces men of every race or class dwelling anywhere. It would seem indeed that despite the anxiety which many must feel the world can take fresh heart in applying all it has talked and dreamed of in its ideal world to the world in which we live to-day.

# THE AMERICAN FEDERATION OF LABOR STILL RAILING AT THE COURTS.

ness which depends upon it, and in the interest of the people who are bitterly pressed by the high cost of living of which those excessive prices are largely the measure and the cause. Firms carrying large stocks and indeed merchants in general can do upon the constitutionality of statutes and issuing

injunctions. Our courts and judges, declares this report of the committee, freely and uninterruptedly "exercise powers which even the monarchs and kaisers dare not exercise. . . the power of our courts to declare legislation enacted unconstitutional and void is a most flagrant usurpation of authority by our courts and is a repudiation and denial of the principle of self-government now recognized as a world doctrine; the continued exercise of this unwarranted power is a blasphemy on the rights and claims of a free man of America."

That organized labor does not approve the courts is well known, the reason being that the courts do not judicially approve some of the conduct of organized labor. But such talk as the above is utter bosh. There are persons who deny that any court has power to pass upon the constitutionality of any statute, but this is disposed of without looking up precedents or entering upon any technical discussion, for the dilemma which the contention of ultra vires in this matter unavoidably produces has already been pointed out by the "Chronicle," being this: a statute must be interpreted before it can be enforced. The interpreting must be by the officers to whom enforcement is committed, or by the dictum of some tribunal, or by some organization in a convention, or by a casual gathering of people informally. Since the sole object of having courts is to procure enforcement of law and establishment of justice and since only the extreme wild men who denounce the jury system outright object to having the presiding judge explain to juries what the law is, no question can be raised as to which of these four methods of interpretation is the proper one, yet if the courts may not perform this unavoidable duty somebody else must.

But the legislature, the objector declares, is judge of its own powers and its own actions. Is it? The constitution is the prior and higher instrument, and from that the legislature derives its power; therefore that power must conform to and not conflict with the chart of liberty. The constitution always prescribes certain conditions indispensable to "passing" bills, and bills cannot become laws unless those conditions have been fulfilled. Not even the wildest ranter would go so far as to say that a minority can pass a bill over a majority; but legislative action which does not conform to the provisions about method and order is not more effectually forbidden than any legislation which conflicts with some other constitutional prohibition or limitation. The courts must pass upon agreement or disagreement with the constitution in all these respects. Legislation unconstitutionally enacted is not "enacted" at all, but only professes to be. The sum of it is that no court ever did or ever will presume to judge a statute according to its wisdom or its justice, for all that lies with the lawmaking body; hence no court ever undertakes to "nullify" a statute; it merely finds and declares that some professed statute never possessed life.

As to injunctions, organized labor has reasons for disliking them-reasons the same as those which make the convicted prisoner dislike sentences. Our courts are not infallible, but there must be decision somewhere, and power to enforce its authority must necessarily vest in a court; appeal lies from lower to higher, and when the highest speaks we have to acquiesce. Power finally vests in the people, undeniably; when the people are enough moved, either able and the notion of achieving it by some Govern-

to sober wisdom or hasty folly, they can change the laws and even rip up constitutions.

"Our nation is founded on the principle that every citizen is a sovereign unto himself and that the powers of government extend only to that degree to which the consent of the governed has been freely, fully, and fairly obtained." So this committee report affirms. The second clause is correct. but the first is nonsense. The person who insists on being a self-sovereign can have his ideal by retiring to a cave or a tree, until the cave or tree comes within a property claim; he cannot be a "citizen" anywhere. in this nation or any other, for he is outside the pale of society, which is conditioned on subordinating and giving up some personal liberty; surrender to society something of yourself, and in return society will give you more than you have lost.

But how shall the indispensable consent of the governed be defined? If a man may deny allegiance to any official for whom he did not vote or may break any law which he does not like, society must and will compel him, unless he flees in advance of an overt act to the cave or tree. This committee demands, quite unnecessarily, impeachment of all judges who usurp authority, and calls for standing firmly on the rights of free men and to "treat all injunctive decrees that invade our personal liberties as unwarranted in fact, unjustified in law, and illegal as being in violation of our constitutional safeguards, and accept whatever consequences may follow." That is, let us disregard and defy any law and any court that we do not like, setting ourselves up as the judge in all cases. The Federation has sometimes assumed to do this, and has not followed the counsel to cheerfully accept conse-

The whole case is that the Federation wants to rule over labor in organization, and cannot keep its hold unless it is the higher power; it must appear able to dictate legislation and be above courts; hence the struggle through years in the Danbury Hatters case and the rage of the organization over its defeat. All this most recent rant is for keeping up appearances and for overawing the politicians who are afraid of a "vote." It is inflated rubbish to solemnly declare that "the fate of the sovereignty of the American people again hangs in the balance."

"It is inconceivable that such an autocratic, despotic, and tyrannical power can long remain in a democracy; one or the other must ultimately give way." This declaration, applied by the committee's report to alleged usurpation by the courts, is quite correct as to the Federation itself and to all attempts to convert an inseparable part of the people into a distinct "class," and dominate the country for the benefit of that class.

#### LINKING THE RAILROADS WITH SHIPPING— AN UNTIMELY SCHEME FOR GOVERNMENT CONTROL.

A press representative in Washington reports that officials of the U.S. Shipping Board and the heads of the Congressional committees on railways and the merchant marine are considering "an ambitious program of linking the railroad systems of the country with the merchant marine in a plan for carrying American trade cheaply, rapidly, and efficiently to all parts of the world." The report is quite credible, for the object is intrinsically desirmental combination is plausible. This correspondent says the plan "looks to extending the Government-regulated instrumentalities of transportation throughout the world, by establishing regular routes overseas, connecting them with the railroad operations of the country, and keeping the whole under a general domination of the national authority." "No subsidies for shipping" is to be at the basis of the scheme; the head of the Division of Operations of the Shipping Board tells the committees that none will be required, and Senator Cummins is said to share this belief.

Mr. Cummins heads the Senate Inter-State Commerce Committee, and Mr. Jones of the State of Washington heads the Senate's Committee on Commerce. The former is quoted as saying that on the assumption of the feasibility of operating American ships in competition with those of other nations, the plan is "to link the railroad systems and the merchant marine in such fashion as to provide routes covering the commercial world, just as our railroad system covers the entire country." This would involve organizing the merchant marine under a Shipping Board control that would bear to maritime carrying a relation akin to that which the Inter-State Commerce Commission bears to railway carrying. With a little hint of details he says:

"It is now proposed to group the railways in a number of great systems, and the plan we have considered would apply that method to maritime shipping. Companies would be formed to handle particular routes and ports, and each company would have a monopoly in its own region. . . . Then the railroad system of the whole country would be connected with the ocean-going lines handling these different classes of business. Freight offered anywhere in the country for, say, Liverpool, would be received billed through, handled under the system directly by the Government-controlled agencies, assured regular and direct service, and kept under the same general Government regulation that it now has in rail transportation."

Most of us believe in prosperity, to come if not already here, and the men of broadest view and of deepest study as qualified by experience think they foresee, as a part of the compensations for the agony of the last five years and as part explanation how it could have entered at all into an over-ruling Providence, that there is before the civilized world an almost boundless expansion of trade and industry; but this must be founded on sound principles and must wait until those are recognized. This country has shared in paying the price, and it will share in that for which the price is paid; if it blunders, it will delay its reward and compel further price-paying. All of us recognize that our national isolation is gone, and nearly all believe this country is to take an unprecedented part in international trading. Our large banking institutions have foreign branches and connections as never before, and our wisest business men are studying and planning as never before in relation to our neighbor on the north, the huge continent at the south, a Europe to be reborn and to be at last really developed, and even for a world-wide conquest of peace. We shall have keen competition for the victories which peace hath as well as war; but we shall begin, let us hope, by full realization that permanent trade is not onesided and that it always must be essentially an nterchange of commodities.

But now some men in office seem to have set before their minds a mercator map of the globe, on which they imagine they see government-controlled lines across continents and oceans (and possibly through the overhead ocean as well) linking trade all around, and this country as leader and perhaps lion in the division of benefits. The vision is well enough, except for its fatal weakness: its "government control." Freight is to be received anywhere (they see in their dream) is to be billed through, is to be handled by the "controlled" agencies, is to be "assured regular and direct service." The same regular and direct service it has been having? Not long ago, a cartoonist drew for us a little picture of a snail in the postal uniform and bearing a mailbag on its back, and to the rabbit which casually asked if he was carrying parcels-post matter the snail answered, "No, special delivery." If the new connections and extension of this dream are to have the same regular and direct service we have been enduring since the control took hold what hope is there for accomplishment to justify assurance? And if there is to be an improvement, can it come by a perpetuation of the control, or only by its abandonment?

Now that the deficits are mounting up, the shortcomings and inadequacies becoming even less tolerable, and the difficulties in the path of redeeming the solemn pledge of return of the seized properties to their owners are slowly proceeding (for this we must believe and surely we must determine shall be the fact) towards some just and workable solution, there come such untimely schemes as this for extending and retaining the control. It is not rational, and it ought not to be tolerated by public opinion. Trade and industry will expand, if permitted to. Goods that need carrying will be carried, pursuant to the natural laws of human conduct, if permitted to be. Private capital, private prevision, private faith in the future, private energy and initiative, will provide the cars, the ships, and the credit, if the deadening hand be kept off.

No, emphatically no; let Government keep away, and let it subside into trying to do, with some approximation to efficiency and reasonable cost, the lines of work that must be left to it. Can it be nothing more than a coincidence that the most vicious tax propositions; and the notion of putting communication by post and wire, and now of international commerce, into the hands of the bungling machine we call Government, seem to come from men of least personal familiarity with large business and most remote from the ocean and from international commerce? Inexperience and ignorance are often presumptuous, by a sort of ex-officio impulse, as we have had occasion to know; but is it not time they were courteously though firmly pressed to the background?

#### STRIKES! STRIKES! STRIKES!

Now comes the Brotherhood of Railway Trainmen demanding an improvement of "the standard of living which obtained before the war." It matters nothing to them that the world is poorer by reason of the war, that the average person everywhere must stint himself to save to pay taxes; that there is unemployment; that in sections of Europe and Asia gaunt famine stalks at noon day unrelieved and almost unrelievable; that capital here, as well as abroad, is hesitant, afraid, and enforcedly idle;

that reconstruction demands its due; that the human heart is crying aloud for peace, peace, between nations, though domestic turmoil threatens in many countries; the organized trainmen of the United States are not prepared to make sacrifices in common with the several peoples burdened with inconceivable war debts. Was there ever a more unblushingly selfish demand than this, or one with less regard for the interests of others?

As we write "strikes" are prevalent in Canada, a so-called "general strike" in process in Toronto. The metropolitan police in London are voting on a strike to compel recognition of a "union" or unionism. In Buenos Aires, it is announced, virtually all newspapers have suspended publication pending a settlement between publishers and printers, "which arose when the printers refused to set advertisements of a boycotted department store." And sporadic strikes occur almost daily in the United States. In a dispatch from Toronto we read the following: "The Central Strike Committee to-day sent the following message to Premier Borden at Ottawa: "We wish to bring to your notice that at the Peace Conference, which you attended, it was decided that labor must be recognized, also collective bargaining. Inasmuch as this is a fact, why is common labor forced to obtain what we understand was internationally recognized?"

What does the patriot citizen think of all this? What does the returning soldier think? Can industry live and prosper under a despotism of strikes? Can an idealized liberty prevail for the masses of men under the domination and dictation of selfconstituted "unionism?" Can a peace of nations bring prosperity to peoples while their domestic peace is thwarted by a class of workers that forever demands more and still more and uses the bludgeon of the "strike" to get it? Can a democratic representative government exist anywhere while a minority of "labor," organizing itself for its own benefit regardless of others, uses its power to coerce capital and hesitates not to carry its demands to the lawmaking agencies of the people, or to insinuate itself into bodies of government employees that it may therein also compel acquiescence by promoting strikes against the very government itself? Is this whole procedure of "union labor," over the whole world, one of patriotism or pure selfishness? Is this the meaning of "collective bargaining," that those not in direct interest shall by sympathetic strikes compel obeisance to demands made not within and by the parties to the contract, but by those outside the plant? And are the several peoples of the world content to watch indifferently the rapid growth of an oligarchy of so-called "labor" while they dream of a coming universal democracy and perpetual peace, where "liberty, justice and humanity" shall be the heritage of every man?

To "bargain," either individually or collectively is to enter into an agreement to do something. It is to negotiate a contract between the employer and employee. A "strike" on the contrary is essentially a conspiracy. It does not in itself make a bargain,

the owners of labor are free to contract with the owners of capital, and vice versa, no industry can operate. When by means of the orders of unionism, labor is not free to contract within itself, when labor is ruled by an organization based not on the rights and freedom of those alone who can become parties to the contract (for no unions, as such, make and sign contracts for the direct hire of labor, they only enter into agreements, when they can, which provide that employers in the hiring of labor shall observe certain wage schedules they promulgate or certain limitation rules they set up as to free or open shops, and "recognition" so-called) then the real essence of free collective bargaining is forfeit-no wages are paid to "unions," and no freedom can exist either for employee or employer.

In practice, as all know, by means of picketing, the union, that cannot of itself become a direct party to the possible contract, seeks to prevent the employer from hiring other than members of the union. The effect is to shut down the plant, prevent production, interfere with commerce, destroy values of products near and remote, and deny to the people who are dependent on both capital and labor the necessaries of life. The employees, who suffer themselves to become members of the nonparticipating union, surrender their independence, submit to dictators by those outside the contract to be executed, and by so doing are no longer con-

tractors but conspirators.

Their act makes not for production but non-production. Their demand is based not on the rights of a mutual agreement but upon the orders of a body really outside themselves. And the result is as much a paralysis of industry as if one union was to take up arms to prevent members of another union who in their individual working capacity can contract, from doing so. True collective bargaining may exist between a body of employees and a corporate employer (labor bargaining with capital) when by means of a representative and authorized committee, of those able to contract, employees shall enter into an agreement as to hours and conditions of work and wage-scale payments.

But it must be noted here, even, that the right to do, to bargain, is not quite the co-equivalent of the right not to do, especially when there is a moral duty to further the continuing interests of the employer as well as the employee. And this permissible form of collective bargaining, and the only one, must halt when it seeks to prevent the individual worker from bargaining and working on his own behalf by seeking to influence him unduly to abide by the will of a majority who agree among themselves to work or not to work as the case may Collective bargaining must still leave the individual worker free to follow his own right to contract or not to contract.

Now has government any duty to perform in the protection of individual effort against the increasing evil of strikes, that under our foregoing analysis are conspiracies, not only against laborers themselves and corporate employers and owners of but prevents one. It is an agreement not to do a capital, but collaterally against the whole people certain thing, with the intent to prevent that thing and the public welfare? There may or may not be being done. It is coercion by means of a negative laws on the statute books sufficient to protect the force. In an industry an employer cannot do his citizen and the public in the premises. Opinion is own work himself, he must have help, he must divided. The great predominating issue is shall employ men, skilled or unskilled. Unless an in- government (all the people) exercise its power to dustry can operate it cannot employ men. Unless protect all the people, or, by a dilatory taking of

the easiest way out, by passing hour and wage laws by stopwatch methods of "leaders," by submission to strikes and strikers born of class interests and organizations, supinely submit "all that we have, all that we are" to the dictation of labor unions. If by adding class after class, to-day actors, perhaps, and to-morrow teachers, a federation can be formed holding the balance of suffrage power in the republic, then "unionism" with all its selfishness and arrogance can insinuate itself into the operative processes of government itself, and so doing cannot only strike and protect itself by laws in striking, but can so dominate industry, business, capital and ownership, as to subvert the fundamental principles of individual freedom to labor, to contract, to earn and to own, as to destroy our present citizenship, and convert the nation into a semi-Socialistic state. What are the people going to do about it?

#### THRIFT SUNDAY IN THE CHURCHES.

We have noted in this city the recent advent of a "Community" Church, having for its avowed purpose active helpfulness in the humanities. How far the "movement" will extend is problematical; how far this open "democratization" of the sacred Church should proceed is questionable. All things in due season, is a good precept; and everything in its place is another. Between the cold formalities of ritualism and the warm service bestowed where help is needed there is a great gulf. But—and we are moved to emphasize the thought—the spiritual mission of the institution we name "The Church," may be enervated by too gross effort and contact with purely worldly activities.

However, there is a limited field in which the Church may become a temporal means toward patriotism and progress. And it is our belief that the inauguration of a "Thrift Sunday" in the churches and its probable recurrence, is in line with what we may broadly term the spiritual teachings and character of this independent, universal, and religious institution. For the essence of all true religion is right living. And life cannot be uprightly and devotedly lived without giving thought "to the morrow," without dedicating the powers and uses of the individual life to the fashioning of a "career" that will combine success and service.

It is a far cry from that admonition given to the rich young man "sell all thou hast and give to the poor," and our present day ethics of life. Nor do we longer advise men and women to literally "take no thought of the morrow," more than we consider interest to be mere usury. Nor is it possible to construe the words and precepts of the great Teacher of Men as a foundation for modern Socialism, though some few are fain to do so. It is not the letter but the spirit that is to be followed in our interpretations of the divine lessons that were given out in the form of parables. And we are therefore obeying the injunctions when to temperance we add providence, and when by thrift and saving we make ourselves able to be useful to others.

A modern pulpit eloquent in behalf of upright, frugal, thoughtful living, is not at variance with Government's efforts to place returned soldiers on seven days of the week. To save is to create capital tion.

and lay the foundation for credit. The whole world needs them both. If it has been good to save patriotically in war, it is no less good to save now, that capital and credit may set the idle wheels of industry turning again to the old-time music throughout the world. And the time is now. We read that in the war-ridden countries of old Europe the relaxation from grim realities has produced with many a sort of delirium of abandon, and that men and women, turned from the horrors and yet conscious of the dun and weighted days that lie ahead, now seek for a wildness of pleasure and joy, as if "nothing" can again "matter" in the life that is to come. And in the United States we are told there is much extravagant and useless spending by those who have won excessive profits or wages by reason of the war. This is not the temperance in living that should prevail. And if we leave out the help to Government that is incidental to the purchase of war stamps, there is great ethical and moral good to our free and independent social life by preaching the principles of the simple and sane living.

Abe Martin, the newspaper philosopher who has lately attained to the universality if not immortality of the screen, says that there is one satisfaction in sending an auto to the machine shop—one can save enough while it is out of commission to pay for the repairs. And the homely truth suggests, if the mind will dwell on the problem, the number of things we do now in life that are expensive and seem to be a part of the necessities. One can walk to church, and the street cars are running on Sundays, and over in a rising village far away the returning refugees would smile at the building of a factory to give employment and reinstate hope. And little savings, where it is possible to make them, soon swell into that private capital which through corporate means may touch the weakness and woe to brighter and better things. Of course we are using the "auto" as a mere illustration without giving it special place in the possible scheme of saving, and yet as we write the thought comes to us that Sunday was a day selected during the war for the saving of gasoline, and, as if by miracle, the streets of New York City, and we were apprized similarly of other cities, were deserted of these

The thought is that "The Church" does not suffer loss of dignity or of spiritual power, by devoting a day occasionally to this form of ethical teaching. There is in it no loss of creed for any. There is no compulsion of form, no pressure of doctrine. It is not a dusty or a distorted parable, if we may say so with no irreverance. It is practical, it is real, and yet it shines with the ideal and is made warm and throbbing with the spiritual, for the end is pure helpfulness through augmented personal strength.

#### CANADA HELPING RETURNING SOLDIERS TO TAKE UP FARMING.

Ottawa, Canada, June 27 1919.

Good fortune seems to attend the Canadian the spirit of any of the true religions. And in so the land. In every department of the Government's far as its pleading and advice may come to the in- policies for civil re-establishment, the importance dividual to make saving and thrift a distinct pur- of agricultural production and higher efficiency in pose it advocates a religion that extends through industrial training have received unstinted recogniThe Soldiers Settlement Board reported to Parliament this week that 17,000 veterans have already asked for land grants with the right to borrow as much as \$7,500. Safeguards against speculation are provided by compelling all applicants to prove their fitness for farm life and to take their financial help from the public treasury only as the land, buildings and stock are brought to specified standards.

The distribution of war gratuities to all returned men has necessarily postponed the heaviest volume of applications for agricultural aid until the period of holiday-making and easy spending comes to a close. If one in ten of the returned men applies for land grants and loans, the country will be committed to the extent of from three hundred to five hundred million dollars. Loans made to soldier farmers to date amount to slightly over \$15,000,000. The bulk of the men prefer the prairie provinces.

It is noteworthy that the gross errors in former dealings with war veterans are not being perpetuated by the Canadian Government. In every branch of State assistance, the degree of Government aid is conditioned upon the individual's co-operation. At the same time, the expenditure of private and public money in rehabilitation of returned men is being carefully protected against plundering schemes whether through land monopoly or in petty trade. For example, the Settlement Board buys and sells horses without profit and under skilled direction; in some parts, co-operative lumber mills, general stores, blacksmith shops, &c., carry on business at cost; farm machinery, seed grain, stock, &c., are purchased without middlemen and at much lower prices than are encountered elsewhere. The Dominion Government is now considering forms of aid for non-agriculturists who through war service have sacrificed small businesses and have lost their standing in the professions.

# THE SYMPATHETIC STRIKE FAILS IN . CANADA.

Ottawa, Canada, June 27 1919.

By virtue of Federal and municipal co-operation during the past two months of industrial upheaval in Canada, every sympathetic strike thus far attempted has broken down. Announcement was made yesterday at Winnipeg that the Trades and Labor Council has ordered all "sympathizers" back to their former jobs. It is not optional, however, to reclaim positions in the Federal postal service, inasmuch as the door has definitely and finally been closed upon all persons who broke their contracts with the Government and joined the ranks of the strikers. There will be no amnesty as far as concerns any of the public services.

What has been shown in the Canadian strikes thus far is that beyond the ranks of the "workers" is a community with a sense of its rights and determination to protect them. Thus, the Dominion Government's action in dismissing postal employees has the backing of a vast majority of the Canadian people. Some inkling of the limitations of strike committees appears at last to have impressed the national leaders of the "anti-capitalistic" faction, for the attempts to tie up the nation by railroad walkouts and other "sympathetic" schemes have either been canceled or are failing to develop any very dangerous symptoms. Montreal and Toronto, the two largest commercial cities, have apparently laid ow the idea of sympathetic strikes by giving ev

dence of the power of Citizens Committees to keep public utilities in operation.

The Dominion Government this week assumed still wider powers to deal with anti-Government propaganda and "direct action." Any citizen, whatever his origin, may be deported or imprisoned for seditious utterance or unconstitutional attempts to undermine authority.

### SHORTER HOURS OF LABOR AND THE HIGH COST OF LIVING.

New York, June 26 1919.

To the Editor of the "Financial Chronicle."

Sir—There is a sort of ghastly irony in receiving circulars from the U.S. Department of Labor, apparently to be posted in our mills, containing the following statement in large letters:

LET'S CO-OPERATE for GREATER PRODUCTION and GREATER PROSPERITY.

These circulars were received at the very time when our mills were reducing their hours of labor to the extent of six to seven hours per week. At the same time the trade papers note a probable scarcity of overalls for working men, stated by that trade to be directly due to the 44-hour week, now the rule in the garment trades.

The dissatisfaction at the lack of purchasing power of wages in the matter of clothing, seems to exist in England also, as is shown by the following from the "Times" Trade Supplement, London, June 7th:

"It is well the public, who are rightly irritated because of the high cost of their clothing, should understand that primarily, so far as those engaged in the processes of manufacture are concerned, the increased cost of production is due, not to a shortage of raw material, but to a bottle-neck having been created in the very first stage of manufacture, by fewer working hours, higher wages, and improved conditions of labor for the operatives engaged therein, and a shortage of labor, which it is hoped will be only temporary."

In a neighboring town a great lack of housing accommodation for working people is complained of, where the operatives in new or enlarged industries are finding it impossible to procure proper or even decent lodgings.

A Housing Committee developed the fact that the smallest house that can be built to accommodate a family would cost \$4,000, and would necessitate a monthly rental of \$40.00 which is admittedly beyond the means of most of the operatives.

This would, with current taxes and average repairs, leave less than 6% on the investment.

The writer looked in vain for any addresses, at the Convention of the American Federation of Labor, that would convey to the delegates the inevitable result in increasing living costs caused by the curtailment of hours, and increase of wages, by those engaged in producing the necessaries of life.

It is stated that there is in the minds of some people a suspicion that there is a conspiracy, among the capitalist class, to render increase of wages insufficient to meet the rising cost of living.

In view of the demands for greatly increased co-operation between employer and employee, should not these conditions be set forth with authority, in such a way that the result of these tendencies can be made to reach the intelligence of those engaged in production?

the intelligence of those engaged in production?

As I write, I note an account of a strike in Fall River, where the operatives of a cotton mill object to the running of automatic machinery during the noon hour.

This hardly needs comment.

Another suggestion occurs, namely, how the cost of food would be affected, if the farmer, milk producer, and others in that line should insist on the 8-hour day and 44-hour week.

Respectifully,
JOSEPH DREXEL HOLMES.

#### Current Events and Discussions

### CONTINUED OFFERING OF BRITISH TREASURY BILLS.

The usual offering of ninety-day British Treasury bills was disposed of this week by J. P. Morgan & Co. on a discount basis of  $5\frac{1}{2}\%$ , the rate recently prevailing. The bills are dated Monday, June 23.

#### NEW CREDITS TO ITALY, FRANCE AND RUMANIA.

Three new credits were yesterday (June 27) extended by the United States to the Allies—\$50,000,000 to France, \$10,000,000 to Italy and \$5,000,000 to Rumania—making the total credits established in favor of the Allies \$9,455,-219,124.

# APPROVAL BY COUNCIL OF FOUR OF PRIORITY FOR BELGIUM IN REPARATION PAYMENTS BY GERMANY.

The Associated Press in Paris cablegrams June 24 said:

The Council to-day signed a document giving formal approval to priority for Belgium in reparations to be paid by Germany, to the amount of 2,-500,000,000 francs. The council also confirmed the plan to wipe out the Belgian war debt through the substitution of German bonds for the Belgian obligations, the four Great Powers to take over the German bonds, subject to the approval of their respective legislative bodies.

The question of reparations is still delaying completion of the Austrian treaty, owing to the difficulty of aligning the small Eastern States on any general scheme for a division of the financial obligations and the claims resulting from break-up of the Hapsburg monarchy, with consequent elimination of its responsibility for reparations.

American experts have conducted necgotiations with representatives of the States inheriting parts of the Hapsburg domains, including Poland, Czecho-Slovakia, Jugo-Slavia and Rumania, for several weeks, but the results have been unsatisfactory to the Council of Four, and French ex-

perts are now trying their hand.

The problem is decidedly complicated, because on the one hand it is planned to charge these States with a share of the Austro-Hungarian financial responsibilities proportionate to the area and resources of the Hapsburg territories acquired by them, under the guise of "contributions to the cost of the war of liberation," while on the other hand Rumania and Serbia are entitled to offsets for reparations due them.

Poland and Czecho-Slovakia are not entitled to reparations under the eneral principle of the Austrian and German treaties, which limit reparations to the actual belligerents during the war.

Certain changes in the permanent reparations commission are also being made, to adapt it to Austrian conditions. The German treaty provided only for Serbian membership in certain contingencies. But all these States will be given seats and votes when their interests are involved.

All sums delivered from Austrian, Hungarian and Bulgarian reparations will be pooled with the proceeds of the German reparations for division among the interested States in proportion to proved claims. This is a deamong the interested States in proportion to proved claims. This is a departure from the plan contemplated in the German instrument, which provided for a division according to prearranged quotas, the original apportionment assigning 55% to France and 25% to England, the other States receiving smaller percentages. Belgium, as stated above, will be left with a prior charge on the reparations pool, amounting to 2,500,000,000 francs, in addition to repayment of her debt to the Allies by a special German bond issue.

Copyright cablegram on June 24 to the New York "Times" from Charles A. Selden had the following to say on the subject:

Arrangements by which Belgium is to have priority up to \$500,000,000

in the reparation money received from Germany were formally concluded this afternoon by the Council of Four.

Furthermore, President Wilson, Premier Lloyd George and Premier Clemenceau agree to ask their respective national Legislatures to take over the bonds which are to be issued by Germany for reimbursement of Belgium for all the money she was compelled to borrow as a result of being

forced into war by Germany's violation of her neutrality.

This arrangement will practically wipe out Belgium's war debt by allowing her to realize at once on the bonds. The three great Allies will collect on the bonds from Germany later.

This method of aiding Belgium was suggested by the American delegation several months ago.

#### REPORTS OF BELGIAN LOAN OF \$100,000,000 BY UNITED STATES BANKS.

Through the Associated Press the following information came from Brussels on June 16 to the daily papers in the

The Finance Minister of Belgium to-day signed with representatives of American banks a draft agreement for a loan of \$100,000,000, the loan to be repaid by Belgium in twenty-five years. No restriction is placed on the use of the loan.

ecome effective the draft agreement requires ratification by the United States Government

With regard to the above advices the "Wall Street Journal" in its issue of June 17 said:

Bankers are inclined to doubt the Brussels dispatch that an agreement has been signed with American bankers by the Belgian Government for a loan of \$100,000,000. It is probable that a cable will be sent to T. W. Lamont, of the American Finance Commission in Paris, to ascertain what basis there is to the repor

An extension of such a credit had been broached and discussed by bankers some time ago, but the negotiations were finally dropped pending the definite conclusions of peace.

Bankers are also mystified by the statement in the report that the alleged

#### C. E. HERRING NAMED AS TRADE COMMISSIONER TO BELGIUM.

C. E. Herring, chief of the Division of Foreign Investigation of the Department of Commerce, has been appointed Trade Commissioner to Belgium, according to an announcement made by Secretary Redfield.

#### J. P. MORGAN'S GIFT TO GREAT BRITAIN.

A special copyright cablegram to the New York "Times" from London June 17 said:

J. P. Morgan has presented the British nation the collection of stained

glass made by his father and housed in the Victoria and Albert Museum.

In making the donation, Mr. Morgan was prompted by the desire that the Museum should possess a worthy memorial of his father, whose collections were so long exhibited in its galleries. He also wishes that the gift should be regarded as a token of appreciation of the cordial relations between this country and the United States.

#### SALE OF ITALIAN LIRE AT AUCTION.

An auction sale in New York of Italian lire was reported as follows in the New York "Times" of June 26:

For the first time in the history of auction sales at Police Headquarter money was auctioned off yesterday at the 200th auction sale of unclaimed and condemned property, consisting of articles of every size and character which had been found by the police and had remained unclaimed after having been held by them for six months. The money consisted of six .00-lire Italian pieces, which were offered in one lot and brought \$395.

#### OPENING OF CREDITS BY GREAT BRITAIN ON BEHALF OF ENEMY SUBJECTS.

"Comerce Reports" of June 9 announced the receipt of the following cablegram from Consul-General Robert P. Skinner at London, dated June 5:

The Board of Trade has issued a general license, authorizing the opening of credits on behalf of persons or firms in enemy countries for purpose of financing transactions that have been authorized in British Empire, and also transactions between persons carrying on business outside of British Empire, which have been authorized by Associated Governments.

#### REMOVAL OF FOREIGN EXCHANGE RESTRICTIONS-BAN CONTINUED AGAINST RUBLE IMPORTS AND EXPORTS.

An order removing restrictions affecting foreign exchange transactions was issued on June 24 by Fred I. Kent, Director of the Division of Foreign Exchange of the Federal Reserve Board. Customers' statements as to whether transactions are directly or indirectly in the interest of the enemy are no longer required, neither are statistical reports covering exchange transactions, unless especially called for by the Federal Reserve Board. The ban against the exportation and importation of Russian rubles is continued, however, as well as the prohibition against dealings in foreign exchange or securities on account of persons in that part of Russia under the control of the Bolshevik Government. The following are the regulations issued by Mr. Kent on the 24th:

Until otherwise instructed, "dealers" as defined under the Executive Order of the President of Jan. 26 1918 are hereby authorized to carry on transactions in foreign exchange or in securities for or through foreign account without restriction, except as hereinafter provided.

Registration certificates must be obtained as required under the Executive rder. (All registration certificates which have been issued to date continue in force.)

Customers' statements of non-enemy interest need not be taken, but no foreign exchange transactions can be consummated for enemy account unless authorized in a general or a specific license issued by the War Trade Board.

Further statistical reports after those including transactions up to the close of business Wednesday evening, June 25 1919, need not be made except as called for by the Federal Reserve Board.

Declarations of foreign correspondents on Form F.E. 114 and declarations of non-enemy interest covering security transactions on Form F.E. 113 need not be taken, and interest or dividend checks payable for foreign account need not have customers' statements printed upon them, but "dealers" cannot carry out transactions either directly or indirectly for the benefit of or for account of an enemy or ally of enemy except under the authority of a general or a specific license issued by the War Trade Board.

Until otherwise instructed, the exportation or importation of Russian rubles, or the transfer of funds for their purchase by persons and dealers in the United States, as described under the Executive Order of the President of Jan. 26 1918, is prohibited. Dealings in foreign exchange or securities with or for persons in that part of Russia now under the control of the so-called Bolshevik Government are also prohibited.

Until otherwise instructed, "dealers" are prohibited from purchasing exchange except from the American Relief Administration, 42 Broadway,

New York City, upon any of the following countries: Finland, Czecho-Slovakia, Jugo-Slavia, German-Austria, Serbia. Germany. FRED I. KENT.

Director of the Division of Foreign Exchange of the Fed'l Reserve Board.

#### LICENSES FOR SHIPMENT OF \$220,000,000 OF GOLD ISSUED BY FEDERAL RESERVE BOARD-CROSS CURRENTS IN GOLD.

Licenses for the shipment to foreign countries of a total of \$220,000,000 of the gold reserves of the United States have been issued, it was stated on June 25, by the Federal Reserve Board. The New York "Commercial" in a dispatch from Washington on June 25 in reporting this said:

It is believed by officials that actual shipments will not total more than

\$75,000,000, and a general slowing up is anticipated.

Free issuing of licenses for shipment, it is said, has had the paradoxical effect of making shipments unnecessary in many cases, as was expected. Federal Reserve Board officials anticipated that readiness of dealers to ship the mineral would steady the market and make actual transfers un-

Lifting of the gold embargo has resulted in rapid restoration of the dollar to foreign exchange practically everywhere except in Madrid and Yokohama. Payment of balances against the United States in those two centres is expected to bring the dollar to parity or better in every one of the world's exchange points.

Earlier advices (June 16) from Washington to the daily papers on the same subject stated:

A dispatch from Argentina says that applications for the export of about \$75,000,000 in gold, mostly to Latin-America, have been received by the Federal Reserve Board since the embargo was removed. Very little of the metal has left the country yet, but the effect of the removal of shipping restrictions has been very gratifying in restoring the exchange rate to a virtually normal basis, where it was previously against the United States. Dollar exchange in Argentina has risen from .99 to almost 1.036, which is par, and American money in other South American countires likewise has

In an item dealing with the "cross currents" in gold following the lifting of the embargo, the "Wall Street Journal" of June 19 had the following to say:

Several shipments of gold bars aggregating \$300,000 have been made to London in the last few days. The consignments are utterly abnormal, as the position of sterling exchange favors contrary movement. probably due to the anomalous situation existing in London, where industrial consumers of the metal are being charged more than £1 per ounce

above the mint parity of £3 17s. 10 1/4d. for an ounce of the metal. They accordingly find it cheaper to import gold from New York in spite of the fact that sterling exchange is quoted at a discount of more than 5%. Consignments of probably a similar character have been made recently to Paris

to the extent of \$40,000. It is indeed a curious phenomenon that almost at the same time gold should be moving in both directions between New York and London. The main current has naturally been to this centre in answer to the existing position of sterling exchange. But that \$300,000 should be consigned to the British capital from here reveals the anomalous situation prevailing in London with regard to the standard metal. While statements are made in some quarters that the gold parity of British currency is being maintained, the fact remains that industrial consumers of the metal in England cannot acquire the face value of the notes but are obliged to pay for the metal more than 25% above the mint parity of £3, 17s.,  $10\frac{1}{2}$ d. On the other hand, it costs them not much more than 6% to import the metal from this country, inthem not much more than 6% to import the metal from this country, including the actual expense of transportation and the loss of about 5% in selling sterling exchange in this market. While the saving is large, it is not likely that these outward consignments will assume any appreciable proportions, if only because the British Government would take steps to check it and remove a factor which was having an adverse effect on the sterling rate. It will be recalled that similar consignments amounting to \$200,000 were made to London prior to the laying of the embargo upon gold exports in this country.

in this country.

It would seem more economical for Great Britain to ship the yellow metal direct to Buenos Aires than to send it here and then see it immediately withdrawn for the South American city. Under the operation of the exchanges such would be the case. The triangular position of the rates would favor direct shipments from London to Buenos Aires instead of by the roundabout way via New York. It is probable that a similar abnormal routing of gold shipments will be witnessed with regard to Spain. Spanish pesetas are still at a considerable premium, and bankers rather anticipate that gold consignments from New York will shortly set in for Madrid. that gold consignments from New York will shortly set in for Madrid, particularly as the Bank of Spain is no longer taking gold at a discount, as it did in 1917 when the yellow tide was flowing strongly toward Spain.

#### CONSIDERATION BY FEDERAL RESERVE BOARD OF FINANCING OF FOREIGN TRADE. PROPOSED AMENDMENT TO RESERVE ACT.

As was reported in these columns last week, in our reference to the proposal of H. P. Davison for the co-ordination of the resources of the United States with the view to the financing and reconstruction of Europe, a conference was held in Washington on June 20 to consider measures making possible the financing of American exports to Europe.It was voted as the conference to recommend to Congress legislation permitting all National banks to become stockholders in corporations engaged in promoting foreign trade. With regard to the conference and its results, the Federal Reserve Board on June 20 issued a statement saying:

The Federal Reserve Board had to-day a conference with the Executive Committee of the Federal Advisory Council (James B. Forgan of Chicago, L. L. Rue of Philadelphia, Daniel G. Wing of Boston, and W. S. Rowe of Cincinnati,) to consider problems relating to the financing of the foreign trade of the United States.

There was discussion as to what unusual features attached to this trade and the bearing thereof upon the American banking situation. The Board and the Committee of the Council were in entire accord that the matter of providing long-term advances for Europe presented an investment rather than a banking problem and that the necessary help must therefore come from the investment market

It was, however, the opinion of the conference that as a step toward supporting plans for the financing of our foreign trade it would be well to add a new paragraph to Section 25 of the Federal Reserve act so as to permit national banks until Jan. 1 1921 without regard to the amount of their capital and surplus, to invest not exceeding in the aggregate 5% of their capital and surplus in the stock of one or more corporations principally engaged in such phases of international or foreign financial operations as may be necessary to facilitate the export of goods from the United States. The Board voted to recommend this legislation to Congress.

With his return on June 23 to Chicago Mr. Forgan, who is Chairman of the Executive Committee of the Federal Advisory Council, had the following to say with reference

At the conference of the Federal Reserve Board with the Executive Committee of the Federal Advisory Council held in Washington, the situation in regard to the establishment of a large corporation for the purpose of financing the purchases which other nations may desire to make in this country was fully considered. It was found that the matter had advanced beyond the stage which made it necessary to hold in Washington the proposed larger conference of bankers and exporters. The idea of holding such a conference was therefore abandoned.

A committee of bankers has already been appointed in New York and similar committees will probably be formed to represent the other Federal Reserve districts and it will be left to them to take the initiative in the matter of the organization of the proposed large financial corporation and of the cooperating corporations which it is proposed to organize in connection

with the various lines of the export business.

An amendment to the Federal Reserve Act was unanimously recommended at the conference which will remove the present limitation placed upon national banks in investing in stock in a corporation engaged in international or foreign banking. This privilege is at present confined to banks having a capital of one million dollars or over. The recommendation is that the privilege of investing in the proposed corporation for financing foreign credits should be extended to all banks irrespective of the arrespond foreign credits should be extended to all banks irrespective of the amount of their capitalization to the extent of 5% of their capital and surplus.

Enlarging upon the statement issued by the Federal Reserve Board, the press dispatches from Washington, on June 20 in referring to the proposal to enact legislation which would enable all National banks to become stockholders of corporations furthering foreign trade, said:

It was the opinion of a conference however, that a step toward sup-porting plans for the financing of the nation's foreign trade it was advisable to make it possible for national banks to participate in the formation of trade groups, such as that now in process of organization by the cotton

interests, so that Europe might buy raw materials immediately on collatera

Aside from the actual capital put into such enterprises by the banks, it is felt that the general public will be encouraged by the banks' participation, to take stock also, which will be an indirect stimulation for the continued saving believed necessary to provide new capital.

At present, national banks are limited by law in their ownership of stock in other enterprises. A bank must have \$1,000,000 in capital and surplus in order to apply to the board for stock in a corporation engaged in international or foreign banking, and may not invest more than 10% of its capital and surplus.

The amendment to Section 25 of the act to be sent to Congress tomorrow would permit any national bank "until Jan. 1 1921 without regard to the amount of its capital and surplus, to invest an amount not exceeding in the aggregate 5% of its paid-in capital and surplus in the stock of one or more corporations chartered or incorporated under the laws of the United States or of any State thereof and regardless of its location, principally engaged in such phases of international or foreign financial operations as may be necessary to facilitate the export of goods, wares, or merchandise from the United States to any foreign country, provided, however, that in no event shall the total investments authorized by this section by any one national bank exceed 10 per centum of its capital and surplus.

The time limitation of the amendment was said not to contemplate that

The time limitation of the amendment was said not to contemplate that any bank should give up stock purchases by it, but merely to emphasize that the emergency was one of war reconstruction. As only a few of the very large banks under existing law own stock in corporations doing foreign banking, the limitation of 10% subscription by any one bank will not affect a large amount of capital. The combined capital and surplus of national banks is approximately \$2,000,000,000, making possible subscriptions to export corporations of \$100,000,000.

#### FEDERAL RESERVE BOARD ON NEED OF PROVIDING \$3,000,000,000 BY PRIVATE INITIATIVE TO FINANCE EXPORT TRADE.

A statement in which it says "the doubt whether our export trade can be continued on its existing level without involving serious financial strain makes the question of our National policy in reference to such trade one of urgent concern for the whole community" is contained in a discussion by the Federal Reserve Board in the June Bulletin of financial conditions abroad and the financing of our foreign trade. In what it has to say on the subject the Board points out that "it is apparent that means must be found during 1919 for the financing of about \$3,600,000,-000 of new obligations and for the renewal of perhaps \$600,-000,000 of old ones;" stating that the Treasury Department has at most a sum of \$500,000,000 which can be used for this purpose, the Board adds "it would seem that probably much more than \$3,000,000,000 of new funds must be provided by private initiative if we are to continue our export trade upon its present level." We reproduce what the Board has to say herewith:

#### Financial Conditions Abroad.

Studies of financial and banking conditions in the principal European countries, published both in the current number of the "Bulletin" and in the May issue, show that the currency and banking situation on the Continent is one of unusual difficulty, while it would appear that supplies of available capital have been reduced to a minimum basis. It does not seem probable that conditions in these foreign countries can be promptly restored to a normal footing without importing from abroad in a very large sure the funds that are needed in the process of financial rehabilitation. measure the funds that are needed in the process of financial rehabilitation. In this connection the question is pertinently raised what will be the effects of the reparation which is to be made by the Central Powers as a result of the peace settlement. This reparation will of course operate to create a one-sided balance of trade in goods, ships, and forms of capital, as well as of securities, between the Central Powers and the countries with which they transact business. It will therefore tend to place the recipients of the reparation in possession of funds with which they may liquidate their chilestons to their countries. France their obligations to their own citizens or to foreign countries. France, Belgium, and other continental nations are heavily indebted to Great Britain as well as to the United States, while Great Britain likewise is a heavy debtor of this country. The reparation payments, while passed through the countries which are their recipients, may thus in the last analysis furnsih the basis for payments to the United States designed to liquidate the advances made by this country to cover the cost of the war, save in so far as American investors may prefer to leave their funds actually at work abroad. In the latter case the effect of the reparation payment will be merely that of converting a Government obligation into private securities or other evidences of indebtedness. Belgium's share of the reparation has already been used as security for the advance made by a group of American banks under the so-called Belgian Industrial Credit, and it may be expected that other loans or accommodations of the same or similar kinds will take place in the near future. It will, however, be some time before the reparation thus paid will in fact amount to more than a fraction of the sums needed to reestablish industry abroad upon anything like its prewar basis. The problem of importing capital into practically all of the European countries will thus be a continuing one, and a successful basis for such importation can be found only in the assurance to individual investors in this and in other countries which have a surplus of savings for current requirements that there is a better field for the use of such savings abroad than exists at home. It is a problem of continuous rather than of temporary financing, and has reference to the ability of foreign countries to produce income through investment rather than to produce immediately consumable goods for the purpose of reestablishing their merchandise

Foreign exchange developments.

During the month of May the foreign exchange situation has continued to become more difficult than it appeared to be immediately after the period of "pegging" which came to a close on April 8. indication of difficulty in this connection has been afforded by a sharp decline in quotations for the principal foreign currencies, sterling going as low as \$4.63, francs to 6.77 per dollar, and lire to 8.75. These figures as low as \$4.63, francs to 6.77 per dollar, and lire to 8.75. These figures constitute record low quotations for francs and lire, and while the quotation for sterling is not so low as those made after the close of the "pegging, it is lower than the rates which prevailed at the close of April. At present figures, French currency is worth little more than three-quarters of its face value as expressed in terms of American dollars. The immediate causes of this condition of affairs are obvious. It is reasonable estimated that the trade balance of the United States during the fiscal year ending June 30 1919, will be about \$3,000,000,000, or practically the sum that has been annually recorded for the past three years. The interest due and payable on our holdings of foreign securities is now not much below \$500,000,000 annually. While it is impossible to say what are the total amounts payable to American citizens who are owners of foreign securities or who have advanced sums for use in foreign countries upon which they receive regular returns, it may be conservatively estimated at \$100,000,000. Unofficial figures for the amount of foreign obligations maturing in the United States during the calendar year 1919 place that sum at possible \$600,000,000 to \$700,000,000. If the figures thus given, partly for the calendar year and partly for the fiscal year now drawing to a close, be regarded, as they reasonably may, as being applicable to conditions for the calendar year, it is apparent that means must be found during 1919 for the financing of about \$3,600,000,000 of new obligations and for the renewal of perhaps \$600,000,000 of old ones. This makes a gigantic, probably an unprecendented, financial problem. The Treasury's ability to advance sums to foreign countries has been limited by Congress to the sum of \$10,000,000,000, of which about \$9,500,000,000 have now been taken up. The department has therefore at most a sum of \$500,000,000 (most of it allocated) which can be used for this purpose, so that it would seem that probably much more than \$3,000,000,000 of new funds must be provided by private initiative if we are to continue our export trade upon its present level. It should be recalled that, as already mentioned, Congress has provided an export credit of \$1,000,000,000,000 which may be made available through the War Finance Corporation. The doubt whether our export trade can be continued upon its existing level without involving serious financial strain makes the question of our national policy in reference to such trade one of urgent concern for the whole community.

#### FARMERS NATIONAL COUNCIL OPPOSED TO BANKERS' PLANS FOR FINANCING EUROPE.

The proposals advanced by the banking interests for the financing and reconstruction of Europe will be fought by the Farmers National Council, according to Washington advices appearing in the New York "Commercial' of June 21; the paper says:

George P. Hampton, the managing director of the council, announced today (June 20) that the plan of New York financiers was directly opposed to the plan of the farmers of America, as expressed through their reconstruction program, adopted at the Farmers' National Reconstruction Conference held in Washington last January.

At this conference the farmers decided that among the instrumentalities necessary to make a league of nations really effective is an international investment board.

In urging the establishment of such a board the conference declared that foreign investments have been a prolific source of misunderstanding between nations, and, if unregulated, will in the future lead to conditions that will make war unavoidable.

The idea of the conference was that the establishment of the proposed international investment board would prevent the investment of money by one nation in another unless agreeable to the nation in which the investment was made, and furthermore would prevent the use of force by any nation to protect or promote the investments of its nationals.

Mr. Hampton is quoted in the "Commercial" as saying:

The financial interests of the country are now endeavoring in opposi-tion to the plan proposed by the farmers, to put into effect the plan pro-posed by Messrs. Vanderlip, Davison and others by which the financial interests, and not the Governments would control the financing necessary for world reconstruction.

Mr. Vanderlip's idea was that the money should be loaned the distressed

Mr. Vanderlip's idea was that the money should be loaned the distressed countries and a lien on their customs accepted as security.

Mr. Davison's suggestion was that debetures be issued against the credits established in Europe. Every country would guarantee the debentures against it. Then the banking interests could place the debentures with the public, distributed as widely as possible.

This plan involves, as admitted by its advocates, very close co-operation between the financial interests and the Governments of the several countries and puts the financiers in dangerous control over the activities of every Government, and the economic and political life of the people involved.

Before the European war started the total indebtedness of the world, governmental and commercial, was in round figures \$300,000,000,000. It has been increased during the war by at least \$180,000,000,000. It is necessary that this vast indebtedness should be liquidated at the earliest possible moment and that pending such liquidation, governments should be in complete control of international investments. The proposal of the financial interests is very dangerous to the working people of the world and directly opposed to the principles for which America entered the war.

#### DRAFTING OF BILL BY SENATOR EDGE FOR FINANCING OF FOREIGN TRADE.

Details of a bill which it is stated is being drafted by Senator Edge for the purpose of enabling the extension of credits to foreign buyers of American exports were given in the Philadelphia "Ledger" of June 23. The proposed legislation, it is stated, would establish a pool of the financial, commercial and industrial interests of the United States, and would have the "moral backing and material support" of the United States Government, for financing the foreign trade. The "Ledger" quotes Senator Edge as follows:

"The undertaking involves \$2,000,000,000," Senator Edge said today, discussing his proposed bill, "and government support is needed to assure

"The proposed legislation," said Senator Edge, "would provide a channel for the release of a flood of American manufatures and coincidentally build up and maintain the American merchant marine." Senator Edge said that in preparing the bill he has been in close conference with the leading men in the financial and industrial world.

'Every one is agreed on the necessity for such foreign financing," Senator Edge, "and the general method of providing it may not be difficult to determine. In getting down to details we are confronted with the

problem as to the advisability of government participation and the two

problem as to the advisability of government participation and the two collateral problems: If government participation is advisable, will the government be willing to participate, and, if so, to what extent is such participation advisable? Of course, there must be government cooperation. "The sentiment is general, I believe, that the government now should be removed from participation in private business and be kept out of private business; but this is a financial undertaking of such tremendous volume, involving perhaps \$2,000,000,000, that it may be necessary to enlist the moral backing and material support of the government to assure the necessary confidence of the commercial, financial and industrial interest and of the investing public and the neonle at large."

and of the investing public and the people at large."

Senator Edge said his tentative idea for his legislation is that a group of financial, commercial and industrial interests should be formed to conduct the foreign financing "as a distinctly business enterprise," Subsidary groups of particular interests might be formed he suggested, to handle the various branches of the export trade, but all of which would be represented in one major group to make the plan less cumbersome.

ted in one major group to make the plan less cumbersome.

The legislation aims to provide means whereby, on the shipment of consignments of American goods to Europe, the foreign purchasers would issue their obligations, which would perhaps be guaranteed by their governments and against these the American group of financiers would issue debentures to be absorbed in the United States. Such debentures, Senator Edge explained, would of course constitute a primary lien on the foriegn obligations.

"But in a world-wide financial scheme of such novelty and magnitude," Senator Edge continued, "careful consideration is being given to the extent to which these securities may be made attractive to American investors, and this is another of the problems under study of those interested in the

"Although the scheme will help poverty-stricken Europe reha itself, it is not regarded as an altruistic movement by those behind it, but a business plan for the benefit of the people of the United States and of the industrial concerns which produce goods of all kinds, of the working people employed by not only such concerns, but also by the transportation companies and other interests, which handle the manufactured products; by the commercial men who sell the goods and the banks, bankers, trust companies and other financiers who provide the money for the world

trade. Even the concerns and the workers who provide the raw materials to the manufatures are involved in the success of the enterprise.

The "Ledger" states that in drafting his bill, Senator Edge has been in close touch with international bankers, including Henry P. Davidson and Frank A. Vanderlip.

#### CHICAGO BANK HOLDINGS.

The following with regard to large Chicago bank holdings appeared in the "Wall Street Journal" of June 16:

The annual banking addition of the Chicago "Evening Post" shows no diminution of the largest holdings of Chicago banks' shares during the past 12 months. This applies not only to individuals but also to estates, some of which have incomes so large that they must pay the maximum tax. Earnings have increased all along the line and the prices of bank shares

First place among holders of the city's bank stocks is retained by the Norman W. Harris estate, which had \$5,852,970 last year. Part of the estate's holdings have passed into the hands of Albert W. Harris, who comes up from tenth to sixth place in the roster. The estate's holdings in the Harris Trust, Continental & Commercial, First National, Illinois Trust and Merchants' Loan & Trust are all reduced slightly, but increased prices have made up a part of the reduction.

J. Ogden Armour comes back into second rank, from which he was displaced last year by Edward Tilden & Co. Armour has acquired no more shares, but the advance in the stock of the Continental & Commercial National, in which he owns 9,400 shares, is the cause of the change in his

Arthur Reynolds, recently elected to the Presidency of the Continental & Commercial Trust, has acquired a larger interest in the Continental & Commercial National, which has advanced 60 points, being credited with 2,000 shares, which compares with 268 last year. The holdings of George M. Reynolds, President of the National Bank, are unchanged.

#### KANSAS BANKERS OPPOSE TAX EXEMPTION.

E. D. Chassell, Secretary of the Farm Mortgage Bankers' Association reports the adoption, at the annual convention of the Kansas Bankers Association held at Kansas City, Kansas, of the following resolutions, without opposition:

Whereas, Every dollar's worth of property should bear the just burden of taxation and every person should as a patriotic duty ,carry a fair portion of the public expense, be it

Resolved, That this convention is opposed to any legislation to encourage legal tax dodging by permitting the transformation of taxable property into tax exempt property, and that we are therefore opposed to the enactment of any new tax exemption laws.

Further Resolved, That recognizing the additional burden imposed on all taxpayers by the exemption from taxation of the bonds of Federal Land banks and Joint Stock Land banks, we urge the repeal of that section of the Farm Loan Act covering exemptions.

Be It Further Resolved. That a copy of this resolution be sent to the enators and Representatives in Congress from the State of Kansas. Similar resolutions, it is stated, were adopted in several

Iowa group meetings of bankers, following a debate of the tax exemption question. Mr. Chassell says:

Representatives of the Federal Land banks were not able to demonstrate the necessity of tax exemption of Federal Land bank bonds. It was clearly shown that the said exemption is detrimental to the interests of all tax-The sentiment was practically unanimous

#### FARM MORTGAGE BANKERS ASSOCIATION TO HOLD ANNUAL MEETING IN SEPTEMBER.

The Sixth National Annual Convention of the Farm Mortgage Bankers Association of America, will be held at the Auditorium Hotel in Chicago on Sept. 23 and 24. The Board of Governors will meet at the same hotel on Sept. 22 for transaction of the usual preliminary business. The Board of Governors decided to depart from the usual custom of holding a three-day convention with a program partly composed of entertainment features. This year the convention program will be confined to two days, Tuesday and Wednesday, releasing the members Wednesday evening to return home or follow their own inclinations as to subsequent entertainments. H. J. Curry of the Pearsons-Taft Land Credit Company, Chicago, is Chairman of the local convention committee. His associates are L. P. Robinson of Associated Mortgage Investors, Inc., and C. H. Rodenbach of the Day & Hansen Security Company.

#### OPERATIONS OF WAR FINANCE CORPORATION IN LIBERTY LOAN BONDS.

It appears that in the attempt to stabilize the market for Liberty Loan obligations, the War Finance Corporation up to May 31 1919 had purchased no less than \$905,149,000 par value of the different classes of Liberty Loan bonds. resold \$603,238,250 of the amount, leaving on hand May 31 \$301,910,750. The "Wall Street Journal" in reporting these figures says:

In its efforts to stabilize the Liberty bond market the War Finance Corporation, to May 31 last, purchased \$905,149,000 par value of all classes of Liberty bonds. The corporation sold \$603,238,250 worth of bonds. leaving a balance on hand as of May 31 of \$301,910,750. In addition, the corporation held Treasury certificates amounting to \$2,635,500, making total amount of Government obligations owned by the corporation on May 31 \$304,546,250

A. W. McLean, Acting Managing Director of the War Finance Corporation, said that the corporation had traded in the Government bonds with a view of trying to stabilize the market. He said in explanation: "We were authorized under the Act to do it and in that way we have stabilized the market as best we could. Of course, it is one of those questions that it is hard to handle, with the amount of bonds outstanding, but we are thoroughly convinced that the dealings in bonds by the corporation have very great slump. The transactions were handled through the Federal ve Bank of New York."

Of the \$600,000,000 bonds sold, Mr. McLean said probably some were sold at a profit and some at a loss. It is evidently the purpose of the corporation to trade in and out of Liberty bonds and Victory notes with a view of sustaining the market during the process of assimilation of the over-supply of bonds. The corporation can call upon the Treasury for the balance of the capital appropriation, amounting to \$150,000,000, and add this amount to the fund it is using as a pool to support the bonds, making its entire capital of \$500,000,000 available for this purpose.

#### TREASURY CERTIFICATES OF INDEBTEDNESS DUE JULY 29 CALLED FOR REDEMPTION.

Announcement was made on June 20 by the Treasury Department that Treasury certificates of indebtedness, dated Feb. 27 1919 and due July 29 1919 (issued in anticipation of the Victory Liberty Loan), had been called for redemption July 1. Subsequently, June 22, the Department authorized the Federal Reserve banks to redeem the certificates beginning June 23. The first announcement of the Treasury Department (that of the 20th) said:

All United States Treasury certificates of indebtedness of Series VG, dated Feb. 27 1919 and maturing July 29 1919, are hereby called for redemption on July 1 1919 at par and accrued interest, pursuant to the provision for such redemption contained in the certificates. On July 1

1919 interest on all certificates of said series will cease to accrue.

Holders of certificates of said series shall, nevertheless, have the privilege of exchanging such certificates on or before July 1 1919 at par with an adjustment of accrued interest, for Treasury certificates of indebtedness of Series T-4, dated June 3 1919 maturing Sept. 15 1919.

The Federal Reserve Bank of New York announced as follows, the second notice of the Treasury Department issued June 22:

On June 20 1919, the Secretary of the Treasury gave notice to holders of United States Treasury certificates of indebtedness of Series 5 G, dated Feb. 27 1919 and maturing July 29 1919 that the certificates of that issue were called for redemption in cash on July 1 1919 at par and accrued

interest. The details of this notice of redemption, together with the provisions with respect to the exchange of Series 5 G for "tax" certificates of indebtedness of Series T 4, due Sept. 15 1919, appeared in our Circular No. 177, dated June 20 1919, to which reference is made for further par-

sury Department has issued a second notice supple To-day the Tres

The Secretary of the Treasury authorizes the Federal Reserve banks on and after Monday, June 23, and until further notice to redeem in cash before July 1 1919 at the holder's option at par and accrued interest to the date of such optional redemption Treasury certificates of indebtedness of Series 5 G dated Feb. 27 1919, maturing July 29 1919, which have been called for redemption on July 1 1919.

The Federal Reserve Bank of New York, as fiscal agent of the United States, will (a) redeem in cash the certificates of Series 5 G, as above provided, or (b) exchange such certificates, on or before July 1 1919 for Treas-

ury "tax" certificates of Series T 4.

#### NEW ISSUES OF TREASURY CERTIFICATES IN ANTICIPATION OF TAXES.

Offerings of two new issues of Treasury certificates of indebtedness, in anticipation of taxes, were announced by Secretary of the Treasury Glass on June 25. Both series are dated July 1 1919 and will bear 41/2% interest; the certificates of Series T6 will be payable Sept. 15 1919, while Series T 7 will be payable Dec. 15 1919. The certificates will be issued in denominations of \$500, \$1,000, \$5,000, \$10,000 and \$100,000. Secretary of the Treasury Glass in his announcement says:

Treasury certificates of indebtedness of any and all series maturing on or before Sept. 9 1919 and not overdue (with any unmatured interest coupons attached), will be accepted at par with an adjustment of accrued interest in payment for any certificates of the series T6 and T 7 now offered which all be subscribed for and allotted.

The Federal Reserve Bank of New York issued the following statement on June 25 regarding the offerings:

A new issue of United States Treasury "tax" certificates of indebtedness has been announced by the Treasury Department. The certificates are to be dated and will bear interest from July 1 1919 at the rate of 4½% per annum and will be offered in two series: the certificates of Series T 6 being payable on Sept. 15 1919, and the certificates of Series T 7 on Dec. 15 1919. The certificates of these series will be accepted at par with an adjustment of accrued interest in payment of income and profits taxes payable at the maturity of the certificates, respectively.

The following Treasury certificates will be accepted at par with an adjustment of accrued interest in payment for any certificates of the Series T 6 and T 7 now offered which shall be subscribed for and allotted.

Series-	Date	of I	Issue.	Date of M	fatt	crity.
Tax Series of 1919 (4%)	Aug.	20	1918	July	15	1919
Bond Series 5 E	Jan.	30	1919	July	1	1919
Bond Series 5 F	Feb.	13	1919	July	15	1919
Bond Series 5 G	Feb.	27	1919	July	29	1919
Bond Series 5 H	Mar.	. 13	1919	Aug.	12	1919
Bond Series 5 J	April	1 10	1919	Sept.	9	1919

Applications are now being received by the Federal Reserve Bank of New York as fiscal agent of the United States. The right is reserved to close the subscriptions at any time without notice. Payment at par and ccrued interest for certificates allotted must be made on or before July 1 1919 or on later allotment.

#### SUBSCRIPTIONS OF RAILROAD EMPLOYEES TO VICTORY LIBERTY LOAN.

The Association of Railway Financial Officers has issued a circular in which is presented a table showing the subscriptions by railroad employees throughout the country to the Victory Liberty Loan. The record of 118 roads is given, showing the grand total of employees 1,533,533, the number subscribing 1,162,800, or 75.8%, the total amount subscribed being \$114,039,000, or \$98 50 average per employee.

#### CALIFORNIA BANKERS' ASSOCIATION ENDORSES THRIFT CAMPAIGN

That the bankers of California are in hearty accord with the National Thrift Campaign, which is being conducted by the Savings Division of the Treasury Department, was indicated by the action of the California Bankers' Association in adopting at the annual convention in Catalina Island on June 6 a resolution urging that the National Thrift Campaign be made a permanent part of public procedure. The resolution reads as follows:

Be it recommended by the California Bankers' Association that it fully endorse and urge that, as essential to character formation, to the welfare of the national program of thrift instruction, the organization of savings societies and the sale of thrift stamps and savings stamps become a permanent part of public procedure.

#### SUBSCRIPTIONS BY VARIOUS CLASSES OF INSTITU-TIONS TO TREASURY CERTIFICATES IN AN-TICIPATION OF VICTORY LIBERTY LOAN.

Details of the subscriptions, by classes, of subscribers, to the ten issues of Treasury certificates of indebtedness issued in anticipation of the Victory Liberty Loan, are made public the "Federal Reserve Bulletin" for June, as follows:

Note.—Figures for State banks, trust companies, and other banks are only approximately correct, since in some States no distinction is made between the several classes of banks operating under State laws.

#### PRESIDENT'S PROCLAMATION PUTTING DEALERS IN WHEAT FLOUR UNDER LICENSE OF WHEAT DIRECTOR.

The issuance by President Wilson of a proclamation effective July 15 putting under license distributors, manufacturers, &c., of wheat flour was announced by U. S. Wheat Director Julius Barnes on June 24. Bakers and manufacturers of bakery products, retailers, and farmers or co-operative associations of farmers and common carriers are excepted from the licensing requirements. The proclamation, according to Mr. Barnes, applies as follows:

All persons, firms, corporations and associations engaged in carrying on the business of storing or distributing wheat or manufacturing, storing or distributing wheat flour, and all persons, firms, corporations and ass

ciations who manufacture, either wholly or partly from wheat flour, bread or other bakery products for sale, excepting, hoveetr:

(a) Bakers and manufacturers of bakery products, whose consumption of flour in the manufacture of such products is, in the aggregate, less than fifty barrels per month.

(b) Retailers, and farmers or co-operative associations of farmers or other persons with respect to the products of any farm or other land owned, leased or cultivated by them; and

(c) Common carriers, as to operations necessary to the business of com-

"are hereby required to secure, on or before July 15 1919, a license from Julius H. Barnes, United States Wheat Director, in such form, under such conditions, and under such rules and regulations governing the conduct of the business as such Director may from time to time prescribe.

#### Mr. Barnes also says:

Blank forms to be used in applying for such licenses may be secured from the following Zone Agents of the Grain Corporation throughout the counthe following Zone Agents of the Grain Corporation throughout the country: George 8. Jackson of Baltimore, Howard B. Jackson of Chicago, E. F. Newing of Galveston, F. L. Carey of Minneapolis, D. F. Piazzek of Kansas City, Mo., C. B. Fox of New Orleans, Charles T. Neal of Omaha, H. D. Irwin of Philadelphia, M. H. Houser of Portland, Ore.; B. H. Lang of St. Louis, W. A. Starr of San Francisco, Charles Kennedy of Buffalo, N. Y., and P. H. Ginder of Duluth.

After the applications have been filled out they must be sent to the Wheat Director, Division of Licenses, Washington, D. C.

The proclamation states that "any person, firm, corporation or association, other than those hereinbefore excepted, who shall engage in or carry on any business above specified after July 15 1919, without first securing such license, or shall carry on any such business while such license is suspended or after such license is revoked, will be liable to the penalties pre-

pended or after such license is revoked, will be liable to the penalties pre-scribed by law."

#### PRESIDENT'S PROCLAMATION GOVERNING IMPORTS AND EXPORTS OF WHEAT AND WHEAT FLOUR.

A proclamation covering the importation and exportation of wheat and wheat flour, issued by President Wilson, lodges with U.S. Wheat Director Julius Barnes the powers and authority heretofore vested in the War Trade Board with respect to such imports or exports as well as regulations governing the same. Announcement of the issuance of the proclamation which becomes effective July 1 was made by Mr. Barnes on June 25 who gives its text as follows:

Whereas, Congress has enacted and the President has on the fourth day of March 1919, approved "An Act to enable the President to carry out the price guaranties made to producers of wheat of the crops of 1918 and 1919, and to protect the United States against undue enhancement of its liabilities thereunder." which Act contains the following provisions:

That whenever the President shall find it essential in carrying out the

guaranties aforesaid, or to protect the United States against undue enhancement of its liabilities thereunder, and shall make proclamation thereof, it shall be unlawful to import into the United States from any country

named in such proclamation, or to export from or ship from or take out of the United States to any country named in such proclamation, wheat, semolina or wheat flour, except at such time or times, and under such regulations or orders, and subject to such limitations and exceptions as the President shall prescribe, until otherwise ordered by the President or by

Congress; provided, that no preference shall be given to the ports of one State over those of another.

Now, therefore, I, Woodrow Wilson, President of the United States of America, by virtue of the powers conferred upon me by the aforesaid Act of Congress, as well as by virtue of the powers conferred upon me by any and all other acts of Congress conferring authority upon me in the premises, hereby find and proclaim to all whom it may concern, that it is essential in carrying out the guarantees aforesaid and to protect the United States against undue enhancement of its liabilities thereunder, that wheat and against undue enhancement of its liabilities thereunder, that wheat and wheat flour, on and after July 1 1919, shall not be imported into the United States from, and shall not be exported from or shipped from or taken out of the United States to Abyssinia, Afganistan, Albania, Argentina, Austria, Belgium—her colonies, possessions and protectorates, Bolivia, Brazil, Bulgaria, China, Chile, Colombia, Costa Rica, Cuba, Czech-Slovakia, Denmark—her colonies, possessions and protectorates, the Dominican Republic. Ecuador, Egypt, Finland, France—her colonies, possessions and protectorates, Geremany, Great Britain—her colonies, possessions and protectorates, Greece, Guatemala; Haiti, Hedjaz, Honduras, Hungary, Italy—her colonies, possessions and protectorates, Liechtenstein, Liberia, Luxembourg, Mexico, Monaco, Montenegro, Morocco, Nepal, the Netherlands—her colonies, possessions and protectorates, Nicaragua, Norway, Oman, Panama, Paraguay, Persia, Peru, Poland, Portugal—her colonies, possessions and protectorates, Roumania, Russia, Salvador, San Marino, Serbs, Croats and Slovenes, Slam, Spain—her colonies, possessions and protectorates, Sweden, Switzer-Slam, Spain—her colonies, possessions and protectorates, Sweden, Switzerland, Turkey, Uraguay, Venezuela or any other foreign country, except at such time or times and under such regulations or orders, and subject to such limitations and exceptions as shall be prescribed, until otherise ordered by the President or by Congress.

The regulations, orders, limitations and exceptions will be prescribed and administered by and under the authority of Julius Barnes, United States Wheat Director, from whom such licenses in conformity with said regulations, orders, limitations and exceptions will issue.

The powers and authority heretofore vested in the War Trade Board by

any proclamation or executive order heretofore issued by me in respect to the prohibition or regulation or imports of wheat or wheat flour, is hereby transferred to and vested in the United States Wheat Director as of July first, 1919.

In making public the proclamation, it was stated at the offices of the Wheat Director at 42 Broadway that Mr. Barnes would establish regulations there from time to time. The present regulations covering the exportation of wheat and wheat flour he announced as follows:

(1) Wheat.—Licenses for the export of wheat will be issued to the United States Grain Corporation or its nominees.

(2 Wheat Flour.—Licenses will be issued for the export of wheat flour to all destinations in the Western Hemisphere; the East Coast of Asia, British, French and Portuguese, West Africa; Liberia and the Belgian Congo. For the exportation of wheat flour to other destinations licenses will be issued only to the United States Grain Corporation or the representations of wheat flour to other destinations licenses.

will be issued only to the United States Grain Corporation or its nominees.

The United States Wheat Director announced the regulations covering the importation of wheat and wheat flour to be:

(1) Wheat.-Licenses for the importation of wheat will be issued only to the United States Grain Corporation or its nominees.

(2) Wheat Flour.—Licenses for the importation of wheat flour will be issued only to the United States Grain Corporation or its nominees.

Applications for licenses to export wheat flour to the Wetsern Hemisphere, the East Coast of Asia, and the West Coast of Africa and applications for licenses to import wheat or wheat flour should be filed with the United States Wheat Director, 62 Broadway, New York.

Exporters and importers are advised that the foregoing rules do not con-

stitute any material modification of the regulations heretofore existing as established by the War Trade Board.

The New York "Tribune" of June 26 in referring to the above proclamation stated that the Government, through the Wheat Director will exercise strict supervision over the importing and exporting of wheat and wheat flour to pro

tect the Government from losses incurred through its guarantee of \$2.26 a bushel to producers. It also said:

George A. Zabriskie, former Flour Administrator of the United States and one of the largest flour dealers in the city, in discussing the issuance of licenses to flour dealers and millers, declared that speculation will be eliminated. The price of wheat flour, he said, will reflect the Government's guarantee of \$2 26 and not be maintained on a higher basis by artificial

The licensing amounts practically to war-time control, he said. as conditions permit a lower price will prevail. All licensed dealers will be refunded money when the wheat market price goes below \$2 26, the price guaranteed the producers by the Government. On the other hand, he said, when the prices climb over \$2 26 dealers will feel obliged to reimourse the Government for the difference. The plan is, he said, to maintain the price as near \$2 26 as possible.

#### PRESIDENTIAL PROCLAMATION RELEASING RICE FROM GOVERNMENT CONTROL.

The Food Administration announced on June 23 that President Wilson had signed a proclamation, effective June 21, releasing from Government control all persons, firms, corporations or associations engaged in the business of importing, manufacturing, storing or distributing rice or rice flour.

#### SURVEY OF EUROPE'S FOOD REQUIREMENTS REPORTED BY HERBERT HOOVER .- END OF WORLD FOOD CONTROL.

An estimate of "the total prospective European yield of wheat and rye, outside Russia as of May 1, after deducting seed, at 1,550,000,000 bushels. . . indicates a crop of about 77% of pre-war normal," says a statement issued on June 3 by Herbert Hoover, U. S. Food Administrator, at Paris, and head of the Allied Relief Organization. somewhat diminished population and the diminished buying power," it is pointed out, "militate against full normal consumption, but the least possible consumption," it adds, "with the maintenance of public health, we estimate at 2.250.000,000 bushels, or an import on a minimum basis of about 700,000,000 bushels." Mr. Hoover's statement, as given in cablegrams from Paris to the daily press, June 3, said:

Through our organization and in co-operation with the various Governments we have completed a preliminary survey of the food prospects of Europe and the import necessities, outside Russia, for the harvest year beginning Aug. 1 and the world's supplies available to meet these needs. We estimate the total prospective European yield of wheat and rye, outside Russia, as of May 1, after deducting seed, at 1,550,000,000 bushels. This indicates a crop of about 77% of pre-war normal. The pre-war consumption, outside of seed, was about 2,500,000,000 bushels, indicating a net import of about 950,000,000 bushels if consumption were normal next year. import of about 950,000,000 bushels if consumption were normal next year. The somewhat diminished populations and the diminished buying power militate against full normal consumption, but the least possible consumption with the maintenance of public health, we estimate at 2,250,000,000 bushels, or an import on a minimum basis of about 700,000,000 bushels. The consumption will necessarily be to a great degree a factor of the financial recuperation and ability to pay for imports, and is also influenced that the property to set more bread and less of the more expensive meats

by the tendency to eat more bread and less of the more expensive meats and fats. Restriction of consumption will require continuation of the rigid control of distribution. People everywhere are sick of rations, and every State will make a supreme effort to get away from under this blight. Some countries, therefore, will get away from the minimum, so that an import demand of 850,000,000 bushels is possible.

The present stocks and crop conditions in the larger exporting countries

would indicate that there should be in the coming harvest year an export surplus of wheat and rye of from 870,000,000 to 900,000,000 bushels, but of this other countries than Europe require about 100,000,000 bushels, leaving a supply of from 770,000,000 to 970,000,000 bushels available for

The consumption in the United States has increased to an extraordinary degree in the year. From the 1918 crop of wheat and rye we will export about 270,000,000 bushels, and, as the 1919 crop promises to be at least 200,000,000 bushels larger than 1918, it seems that we can export at the present rate of consumption about 470,000,000 bushels. The minimum export surplus from Canada, Argentina, Australia, and minor countries may be estimated at 400,000,000 bushels, while Russia and India may be considered out of the export list next year.

In further advices received through the Associated Press, it is announced that Mr. Hoover in his statement of the 3rd inst. reports that "with peace, all European States can manage their own transportation and distribution, and therefore continuance of the world's food control, as it exists to-day, is unnecessary." We quote in part from the Associated Press accounts as follows:

All the important Governments of the world, with the exception of Argentina, having guaranteed prices of wheat to farmers, and all the European Governments having subsidized the bread supply, it is considered probable here that commerce in wheat will remain in Government hands next year and that there will be little private trading. The American members of the Supreme Economic Council, however, believe there is no

necessity of continuing centralized control of the distribution in Europe.

The question of food control after peace has been signed has been discussed by the Economic Council, Herbert C. Hoover and the other American members opposing control and taking the view that as there will be no food shortage after the next harvest, food control, as it now exists, is unnecessary. Mr. Hoover contends that normal trading should be re-established through out the world, as no guarantees exist for other commodities, and that if attempts are made to control prices in other commodities production will

be stifled and a shortage created.

No law now is in existence authorizing the participation of the United States in food control activities after the signing of the peace treaty, and

American food experts believe it desirable that the financing of food transactions should be handled by bankers and that dealings should be pe through regular channels.

There is a sufficient surplus of food indicated from the coming harvest to supply Europe and meet the needs of the world unless some unexpected catastrophe happens to the world's harvest, according to a statement issued by Mr. Hoover. The bread budget balances, but the surplus of the by Mr. Hoover. The bread budget balances, but the surplus of the American crop of wheat and rye this year will be needed.

After estimating the Euoprean consumption of wheat and rye at 2,250,-000,000 bushels, of which between 700,000,000 and 850,000,000 bushels will have to be imported, the statement continues:

"The available breadstuffs to Europe from the producing countries will probably lie between 770,000,000 and 850,000,000 bushels. It would appear, therefore, that the world's bread budget will balance next year, but within narrow margins. In any event, the present indications are that the American bumper wheat and rye crops will be needed. The principal importing European Governments have all guaranteed their farmers prices at higher levels than the American guarantee, and all are involved in bread subsidies. There will not be much likelihood of much private trade in wheat next year outside of Government buying.

"The European production of sugar will be apparently about 65% of

"The European production of sugar will be apparently about 05% of the pre-war normal, and before the war imports averaged 2,250,000 tons per annum. The buying power of the people so greatly affects the consumption of this commodity that no estimate of the probable import demands can be forecast. The crops of potatoes, peas, beans, cabbage, and other vegetables promise to be about pre-war normal.

"While theoretically, the cattle of Europe could be restored in two years and the swine in one year, if no animals were killed, such a course would

entail no local meat supplies, and the natural course will be a slow recovery over many years.

At the present moment, while the number of cattle shows 20%, the dairy and beef production is probably not more than 50% because of the bad condition of the animals. If the supply of foodstuffs during the next ten years permits the normal feeding of even the reduced herds, meat and fat conditions of to-day will be immensely ameliorated. The value of demand for animal product imports not only depends upon the supply of feed, but also on buying power, the recuperation of the herds, and the substitution of tropical vegetables and fats.

"As to the feed crops in Europe for animals, it is too early to forecast crop prospects. To all appearances, about 75% of the usual yield will result. The pre-war animal food imports into Europe, outside of Russia, of coarse grains and seed cakes, were more than 20,000,000 tons, and during the war these imports have fallen to as low as a rate of 6,000,000 tons per annum. With the diminution in herds, the feed imports should not return to the -war normal.

"The problem of securing to Europe the necessary imports next year is a problem of peace and finance. Without both it is hopeless, and without peace there could be no finance. If they get peace, a moderate helping hand in raw materials, machinery, and in some instances, currency re-organization and temporary food credits, the countries of Europe will soon revive their export industries and make themselves self-supporting

"In addition to this, we have had also to carry the large burden of feeding the Allies on credit. Few people realize that during the year ending next July we will have supplied Europe with \$2,750,000,000 worth of food and that the whole of this has been supplied by our national Government,

except perhaps \$400,000,000.

"With peace, all European States can manage their own transportation and distribution and therefore continuance of the world's food control as it exists to-day is unnecessary. In fact, each of the new Governments has, under our encouragement, not only established its own food administration, they are also establishing buying commissions abroad in preparation for handling their own buying and transport problems the moment peace

#### FOODSTUFFS SHIPPED BY AMERICAN RELIEF AD-MINISTRATION TO EUROPE—HOW DISTRIBUTED,

Statistics covering the relief measures put into effect by the American Relief Administration combating famine in various nations of Europe outside of the Allied countries during the month of April, are contained in a statement from Herbert Hoover, made public at the New York offices of the Relief Administration, 42 Broadway, on June 25. This statement says:

Supplies representing the cargoes of about 120 steamers were distrib uted as follows:

Me	tric Tons
Finland	27,256
Poland	
Esthonia.	4,400
Lithuania	2,315
Latvia	2,162
Belgium	128,993
Northern France	3,402
Czecho-Slovakia	64,087
Greater Serbia	
Rumania	26,407
Armenia and Turkey	
· · · · · · · · · · · · · · · · · · ·	

Total value of the goods delivered approximated \$80,000,000, the greater portion of which, outside of Germany, was furnished on the basis of deferred payment. All of the Allied countries furnished the finance in varying proportion, the major portion falling on the United States.

Approximately 100,000 tons of foodstuffs of European origin were

ported into areas of short supplies through the American Relief Administration agencies, in addition to the supplies mentioned above.

#### CORN SPECULATION CAUSES REVOKING OF LICENSES.

Announcement that speculation in corn had resulted in the revoking of the licenses of an Illinois trader was made as follows on June 21 by the U.S. Food Administration Grain Corporation:

The Food Administration announced to-day that the licenses of C. H. Wayne of Reynold, Illinois, had been revoked until further notice, effective at noon, Saturday, June 21st, for violating Section 4 of the Food Control Act. This section makes it unlawful, among other things, to hoard grain or other commodities specified, and also to monopolize, or attempt to monopolize, either locally or generally, grain and other specified com-

These licenses were revoked after a hearing in Washington on June 12th at which it appears that Mr. Wayne took delivery under contracts for May corn aggregating 345,000 bushels at a time when that amount of corn represented approximately half the corn available in public warehouses in Chicago. Mr. Wayne also purchased over 400,000 bushels of July corn, a small part of which he has since sold. He admitted at the hearing that he was holding his cash and July corn, not for any industrial purposes but for speculative resale.

Efforts by the Chicago Board of Trade and by his broker to induce Mr. Wayne to dispose of his holdings at reasonable prices, and thus to relieve

the corn shortage, were without results.

The effect of the revocation makes it unlawful for Mr. Wayne to engage in new business of licensed commodities after the revocation. He can, however, subject to the approval of Howard B. Jackson, Agent of the United States Food Administration at Chicago, sell both his cash and his July corn, and it is expected that he will proceed to make such disposition immediately for the relief of the corn market.

#### RESTRICTIONS AFFECTING IMPORTS OF HOPS INTO GREAT BRITAIN.

Under date of June 20 the War Trade Board said:

The War Trade Board announce, for the information of exporters in the United States, that they have been advised that licenses for the importa-

tion of hops into Great Britain will be issued subject to the following:

(1) Parcels of hops grown in and exported from any part of the British Empire and being the produce of the 1916 or later crop will be licensed freely on application.

(2) Hops of 1916 or later will generally be licensed freely from Belgium

(3) Hops from any other foreign country will be licensed immediately to extent of one-half of the amounts provisionally allotted by Hop Controller to be purchased in country specified by him. The issue of licenses for any additional quantities of foreign hops will depend upon the supply of suitable hops otherwise available in reasonable time, and importers will be required to show that their requirements cannot be met by the importation of hops from the British Empire before such additional quantities will be licensed. In making this announcement the War Trade Board wishes to call atten-

tion to the fact that they are not in a position to speak authoritatively on foreign import restrictions, but are merely transmitting the above in-formation for the convenience of those on the War Trade Board's mailing list. Inquiries with regard to foreign import regulations should be addressed to the Bureau of Foreign and Domestic Commerce, Department of Commerce, Washington, D. C., as that Bureau endeavors to keep informed on the import regulations of foreign Governments.

#### REGULATIONS GOVERNING THE EXPORTATION OF PHARMACEUTICAL PRODUCTS TO GERMANY.

The following ruling (789) was made known by the War Trade Board on June 20:

The War Trade Board announces that applications for licenses to export pharmaceutical products and medical accessories to Germany will now be considered, provided the particular commodities to be shipped cannot be procured in Germany. In submitting applications to the War Trade Board, Washington, D. C., covering these shipments, exporters should present such evidence as they may have that the pharmaceutical products or medical accessories which it is desired to export are not procurable in Germany.

#### REGULATIONS GOVERNING THE IMPORTATION OF COTTON INTO GREECE.

The War Trade Board announced on June 24 for the information of exporters that they have been advised that the Greek Government has prohibited, effective May 26 1919, the importation into Greece of:

Seed or ginned cotton.

Cotton yarns, soft or tight rolled up to size No. 24.

Colored and English cotton prints, drills and "aladza" (gingham) of Class 1 59 B of Greek Customs Regulations.

The Board also says:

Special import licenses may be issued at the discretion of the Minister of National Economy for goods purchased and shipped prior to May 3 1919. In making this announcement the War Trade Board wishes to call attention to the fact that they are not in a position to speak authoritatively on foreign import restrictions, but are merely transmitting the above information for the convenience of those on the War Trade Board's mailing list. Inquiries with reference to foreign import regulations should be ad dressed to the Bureau of Foreign and Domestic Commerce, Department of Commerce, Wasington, D. C., as that Bureau endeavors to keep informed with respect to the import regulations of foreign governments.

#### GUARANTEED PRICE OF WHEAT AT GALVESTON AND NEW ORLEANS INCREASED TO \$2 30 PER BUSHEL.

Under an Executive Order signed by President Wilson on June 25 the guaranteed price of wheat at Galveston and New Orleans fixed by him on Sept. 2 last at \$2 28 per bushel has been increased to \$2 30 per bushel. According to U.S. Wheat Director Julius Barnes the Executive Order reads as follows:

By virtue of authority vested in me by the Acts of Congress approved ectively Aug. 10 1917 and March 4 1919. I hereby direct, in order to more properly regulate the flow of wheat of the crop of 1919 to the terminal markets of Galveston and New Orleans, that the guaranteed price of \$2 28 per bushel at Galveston and New Orleans, fixed by me in the Presidential Proclamation, dated Sept. 2 1918, be increased as of and from July 1 1919, at each of said terminal markets to \$2 30 per bushel and that the Food Administration Grain Corporation under the direction of the United States Wheat Director be authorized to purchase wheat at said terminal markets at such increased price and under such rules and regulations as may be The statement issued at Mr. Barnes's office June 26 said:

In explanation of this action United States Wheat Director stated that the larger available supply of ocean tonnage and the prospective larger demand for grain movement made it both advisable and desirable that the Gulf ports should ship larger quantities of foodstuffs than was possible under the conditions a year ago. It is hoped by this moderate advance in the price of wheat at the Gulf to attract there at these prices enough wheat to supply the tonnage that can be loaded there.

Last year considerable wheat which had been accumulated at buying points. St. Louis and Kansas City, was afterwards shipped through the

points, St. Louis and Kansas City, was afterwards shipped through the Gulf, making an extra burden on the railroad facilities and it is hoped that this price readjustment will naturally prevent this, also that with this moderate adance and with the installation of a rate of 56c to the Gulf

from the principal wheat-raising sections of the Inter-Mountain territory, the Grain Corporation will discontinue its absorption basis on Inter-Mountain wheat which was put in last year to give a minimum of \$2. advance and the new rail rates work out almost equal to those from the principal sections. Last year millers in that section complained of discrimination because absorption was not made on their products as it was on wheat and the situation this year will re-instate their natural competition.

No other changes in the guaranteed price at the various markets covered by the Guarantee Proclamation of Sept. 2 1918, are contemplated and the price at Pacific Coast ports guaranteed at \$2 20 in that Proclamation will continue to be made effective on that basis.

#### FLAXSEED AT RECORD PRICE.

Minneapolis advices in the "Wall Street Journal" of June

July flaxseed sold at \$4 92, and cash flaxseed at \$4 94, the highest prices ever recorded here. Indications are that the price will cross the \$5 line It is said here that no such price has been reached since the Crimean War The best opinion here is that the total Northwest acreage is 10% greater than last year and the conditions are generally favorable, although it i too early yet to tell much about it.

In later advices from Duluth, appearing in its issue of June 26 the same paper stated that flaxseed had soared to the highest prices on record in that market on the 26th. \$5 being quoted in spot and July future. It was added:

Bulge was due to heavy demand from crushers to cover export linseed oil contracts. Experts on this market now estimate that the acreage seeded to flaxseed over the Northwest is 5% larger than last year but it is feared that falling off will be shown in production for the season owing to extremely dry weather over Montana and parts of western North Dakota. Much of the seed is reported to have failed to germinate over wide ar of territory. Supplies in elevators here are small.

Minneapolis—Vandusen Harrington report says: "The general condition of flax in Minnesota, South Dakota and eastern North Dakota is very satisfactory. Plenty of moisture combined with warm weather has brought the plant along in wonderful shape. Many of our reports advise that the crop has never looked better in these districts. In western North Dakota it is very spotted, in some places it is fair while in others the late flax has not geriminated. In this district the crop is now dependent upon the moisture. Montana, except in a few restricted disticts, will have a very light crop of flax.

#### STEEL RAIL BIDS FROM UNITED STATES LOWER THAN THE BRITISH.

A copyright cable dispatch to the New York "World" from Glasgow under date of June 26 reports that the Committee on Tramways has recommended that the city corporation accept the tender of an American firm for 5,000 tons of steel rails. The American quotation was £17 9s. per ton, while the lowest British offer was £19 1s. 3d. per ton.

#### SHIPMENTS OF COAL MAY NOW BE MADE FROM ATLANTIC SEABOARD.

The War Trade Board announced on June 27 that shipments of coal may now be made from all ports on the Atlantic seaboard, and that the Collectors of Customs have been notified to disregard the provision contained in export licenses already issued to the effect that shipment must be made from Philadelphia or ports south thereof.

#### WAR LABOR BOARD WINDING UP.

Announcement of the termination on June 25 of the activities of the National War Labor Board preparatory to its final dissolution by the President was made on that date by the Board. No new cases will be heard, it is stated, nor new applications received, but present controversies, jointly submitted, which cannot be concluded prior to June 30, will be assigned to the joint Chairmen or a section of the Board for disposition. In announcing conclusion of its activities, the Board said it had recommended that, with the approval of the President, all administrative duties in connection with unfinished cases, and all records and files of the Board be transferred to the Department of Labor. Members of the Board, pending final dissolution, will be at the call of the President. The conclusion of the Board's activities marks the passing of one of the Governmental agencies created during the war to further production of war materials. The Board was organized under a Presidential proclamation with former President William H. Taft and Fank P. Walsh of Kansas City as joint Chairmen and with five members representing labor, five employers' representatives and two members acting for the public. Mr. Walsh resigned in November of last year and was succeeded by Basil M. Manly of Washington. It is stated that during the year which ended May 31 the Board received 1,245 cases, made awards in 462 cases, dismissed 391 for various causes, referred 315 to specified agencies and suspended one case. Fifty-three cases remained on the docket, because the Board could not agree, and 23 cases were pending.

#### JUDGE GARY ON DUTY OF ALL TO BRING ABOUT STABLE CONDITIONS.

In declaring it to be "the solemn duty of every individual, every aggregation of individuals, to assist in bringing about stable conditions which are healthful-morally, socially and economically," Judge Elbert H. Gary, Chairman of the Board of the United States Steel Corporation added on the 23rd inst. that "if this shall be the effort of all it need not be feared that there will be experienced the overthrow of civilization, the disregard of freedom and liberty or the protection of life and property, which occasionally an ill-advised or evil intentioned speaker or writer proclaims is now threatening the world." This statement was made by Judge Gary in a commencement day address at Trinity College, Hartford. Judge Gary's remarks dealt with the labor question, and in part he said:

It is not yet fully realized what has happened to the world during the last five years; and in a much less degree can it be conceived what will

occur during the next like period.

We know that in nearly every part of the globe the people are passing through a transitional stage which is uncertain and which presents new and difficult problems of great consequence. It is a time of suspense and

It is probable the feeling of unrest and dissatisfaction, which has been extensively advertised, has been greatly exaggerated, especially as to the numbers affected; nevertheless in other countries to a large extent, and in this country to a less degree, there exists a belief that radical changes in Governmental control and administration are necessary. Agitation and propaganda, which are vicious and participated in by those who are totally unworthy, have had some influence even upon well-disposed persons. This is largely because of the abnormal conditions of mind, created by the military cataclysm through which we have been passing during the last

four years or more.

In the discussions of the time, public and private, are contained what is generally designated the labor questions. While some of them are more or less delicate and are difficult in treatment because of misconception of the facts and circumstances in particular instances, still I think there should be frank and full reference to and analysis of the underlying principles which pertain to this subject. The comments which will be made represent views which are entirely personal.

Fortunately, the large majority of wage earners cannot be influenced by considerations that are base or unreasonable. This is especially true

in the United States.

It may be useful to bear in mind that in trying to arrive at a wise and just conclusion concerning the rights of the workmen the interests of four general groups must be considered, viz: Labor, capital or employer, the consumer, and that part of the general public not included in the divisions specially mentioned. None of these should be overlooked, each must be fully protected within reason and justice.

Assuming that the pecuniary conditions of the capitalist and laborer are established on a basis of justice as between themselves, the next consideration is the relationship between these two combined and the consumer. If the latter could be left out of consideration then there need be no difficulty or difference between employer and employe concerning compensation or other advantages, for whatever was added to the profit of either could be charged to the consumer by increasing the selling prices of the output. I am not discussing relative prices or amounts; that must always be based, more or less, upon existing conditions, such as those relating to supply and demand, as well as the risks involved, the nature of the employment,

the results achieved, et cetera.

The three groups are intimately connected. Whenever labor receives increases in wages, or other pecuniary advantages, the amount must be charged to and paid by the consumer, provided capital is not receiving more than it is entitled to receive. Consequently the question of selling prices or wages in many cases practically relates only to the laborer and the consumer. In estimating the cost of production from the raw to the finished material it should be borne in mind that 85 or 90% of the total is confined to the sum paid for labor. If capital or labor is receiving a larger return than it ought to have the excess is provided by the consumer in paying improper prices. There should always be maintained a fair and reasonable equilibrium, taking into account all the circumstances.

And in discussing the rights of the consumer it must not be excessed.

And in discussing the rights of the consumer it must not be overlooked that the capitalists and the laborers are consumers as well as the general public; and therefore that when the capitalist, the laborer or the general public is seeking any advance in rates or returns which adds to the cost of production or delivery of commodties the one who urges the increase may be proposing to add to selling prices and to the prevailing cost of living. A man may be demanding a supposed benefit to himself when in fact net result will be a personal disadvantage.

Also, when we consider that the three groups named are closely connected we cannot overlook the most important fact that the effort of anyone to

we cannot overlook the most important fact that the effort of anyone to advance wages or prices with resulting costs of production, may be simply to step in adding to the cost of living and consequently a higher standard of general prices with a relatively lower value of the standard dollar.

If we would have a stable, reasonable standard of values, we must, so

far as proper and practicable, arrive at and maintain a correct relation between the different groups already particularly referred to. The Government could perhaps endeavor to determine and regulate the respective interests and rights of each, but coupled with the thought there immediately conceived complicated and doubtful questions which would make the suggestion appear impracticable. When proposals of this character have been made there have appeared objections by both employers and employes. This is not the time or place for debate upon that

In considering the relationship between employers and employes the welfare of the latter is of the highest importance, not alone because it is right, though that is reason enough, but also because it is for the benefit of the employers themselves. These groups are associated for mutual profit.

They succeed or fail together. Each has obligations and responsibilities. They are not and should not be considered partners in the sense of being entitled to the control of the business in question or to participate in the return on the capital invested, except to the extent of contribution by each to such capital, for otherwise one would share in benefits without sharing in the hazard of investment. Prospective profits furnish the incentive to embark in enterprise and to risk capital. To the extent this is removed to the contribution of the c or hampered to a corresponding degree will capital be withheld or diverted and economic activity diminished.

But there are many things the employe is justly entitled to. There is due him fair and reasonable compensation, depending upon all the circumstances surrounding the employment. The times, places, services, and results of operation are important to be considered. Necessarily and properly the question of supply and demand is, and always will be a factor in determining prices of labor, as it is in dealing with commedities. factor in determining prices of labor, as it is in dealing with commodities. This is elementary and healthy; but there are other things of equal imporance. When there is a well grounded doubt in regard to wage rates it should be resolved in favor of the employe.

The workmen ought in some form to be offered opportunity to inves on favorable terms in the business inaugurated by the employer. Thi on favorable terms in the business inaugurated by the employer. This encourages thoughtful attention and endeavor to economize and save. It makes the wage earner an actual partner in the business of the concern with which he is associated; a real capitalist. Many of the wage earners have heretofore become property owners, owning the houses in which, with their families, they reside. Some are the holders of interest bearing securities. The number of this character of investors is increasing. They have as keen a desire to see the institutions of this country protected as those who have greater riches, and they may be relied upon to land their e who have greater riches, and they may be relied upon to lend their influence and their votes in favor of the protection of property and person. Opportunity must be given to the workmen to increase their pecuniary holdings so far as practicable. To this end I believe the employers will do their part.

Every employe should have the chance to progress from one position to another depending upon his merits. The average workman does not wish to remain in the lower grades of employment or to bring to this level others filling better positions. He desires full and fair opportunity to occupy higher and still higher places, based on efficiency and faithfulness. This he is entitled to and it must be accorded him.

The labor question at present is engrossing the attention of students and will continue to do so with predominant importance after the conferences at Paris are concluded. The workingmen have been credited with worthy achievement or charged with lawless and destructive tendencies, perhaps in both respects in unjustified measure. The final attitude of the large majority, certainly in the United States, will be right. Their own welfare will be thus promoted.

But public sentiment, based on facts, developed particularly by the learned, thoughtful, fair minded, and conscientious men and women who are neither capitalists nor laborers in the sense intended by what has been said, will have, in the future, more influence upon the situation than ever before; and the attitude of the employers towards employes, if it shall be such as I have indicated it out to be, will be a potent factor for good.

#### STRIKE OF UTAH MINERS FAILS.

The strike of the miners in the Park City mining district, thirty miles from Salt Lake City, Utah, that began May 6, has collapsed. The miners demanded a six-hour day, a minimum \$5 50 wage and two men to man each machine. Federal mediation failed to accomplish a settlement for the union was in the control of radicals, and it was reported that the Industrial Workers of the World were responsible for the strike in the beginning. After six weeks of idleness the men are returning to work under the same conditions and wages that existed prior to their walkout-an eighthour basis at a daily wage of \$4 50.

There has been no other labor trouble in the Utah mining camps where a cut of 75 cents a day in wages was made some four months ago. Production and smelting at Butte, Mont., following the failure of the strike of the I. W. W. union after a reduction of \$1 a day has continued without further reduction. The strike at Jerome, Ariz., following a 75-cent cut, closed the smelter which still remains shut down, but the copper mines of the district continue to do considerable development work. Leadville, Colo., mines have not resumed the output that obtained prior to the compromise lowering miners' wages from \$4 50 to \$4. Cripple Creek, Colo., gold mines are badly in need of more efficient miners and this is handicapping both development and production. Prospecting and operations in the minor Rocky Mountain camps remain restricted because of the high cost of production. This has lead to the partial closing of the Denver smelter. The high mining cost, the continued stagnation of the baser metals market and the enormous surplus of copper on hand should prevent labor troubles in Western metal mining for some time.

#### FRANK L. POLK NAMED AS UNDER-SECRETARY OF STATE.

Frank L. Polk, of New York, counsellor of the State Department, and at present Acting Secretary of State, was nominated on June 23 by President Wilson to be Under-Secretary of State, an office created under the 1920 Legislative, Executive and Judicial Appropriation Bill, passed at the last session of Congress. The nomination was confirmed by the Senate Foreign Relations Committee on June 25. The office of Counsellor of the State Department is abolished under the measure, which fixes the salary of the Under-Secretary at \$7,500. Three assistant secretaries are provided for. It is stated that the change in title was made because of confusion both in the United States and foreign countries regarding the position of Counsellor. The State Department's Counsellor is the Senior Assistant Secretary of State and becomes Acting Secretary in the absence of the Secretary of State.

#### REMOVAL OF RESTRICTIONS ON TIN TRADING. INTER-ALLIED TIN DISPOSED OF.

In announcing in June 23 that all of the 10,169 tons of Inter-Allied Tin had been sold, George Armsby, Chief in Charge of Tin of the War Industries Board made known the removal of all restrictions on trading in tin between consumers, dealers, jobbers and smelters. Import restrictions on pig tin and metal alloys containing tin are removed as of Aug. 1 1919 when imported from countries of origin. The following is Mr. Armsby's announcement:

WAR INDUSTRIES BOARD. Washington.

New York, N. Y., June 23, 1919.

To the Tin Trade:

Pig Tin—Allocations by Inter-Allied Tin Executive to United States for Dis-tribution at Cost to American Consumers.

Referring to my circular letter of June 16th, please be advised that according to the reports made to American Iron and Steel Institute, all of the 10,169 tons of Inter-Allied Tin has been sold. A careful estimate of the supply of tin (including tin content of tin ores and tin concentrates) on hand in the United States in the hands of consumers, dealers, jobbers and smelters, is sufficient, at the normal rate of consumption, to provide for all consumptive requirements until the end of October.

In order that consumers whose stocks of tin are low may be provided with their necessary requirements, it has been decided by the War Industries Board and the War Trade Board that all restrictions on trading in tin between consumers, dealers, jobbers and smelters shall be, and the same are, immediately discontinued, all guarantees heretofore given under the tin regulations to the contrary notwithstanding. purchase of tin are no longer required.

Under War Trade Board Ruling No. 780, dated June 16 1919, the import restrictions have been removed as of Aug. 1 1919 on pig tin and metal alloys containing tin, when imported from countries of origin. Supervision over tin will continue to be exercised by the War Industries Board and the War Trade Board until all import restrictions are removed. In the meantime, all importations of pig tin, tin ore, tin concentrates and metal alloys containing tin will continue to be consigned to American Iron and Steel Institute, as provided in the tin regulations, and all import licenses issued by the War Trade Board will carry a clause to this effect.

Yours very truly.

GEORGE ARMSBY. Chief in Charge of Tin.

At the same time John Hughes, Chairman of the Sub-Committee on Pig Tin of the American Iron & Steel Institute issued a statement in which he said that the latter would continue to function under the control of the War Industries Board and the War Trade Board until such time as all restrictions are removed. The following is Mr. Hughes' circular.

AMERICAN IRON AND STEEL INSTITUTE.

Sub-Committee on Pig Tin.

New York, N. Y., June 23, 1919. Circular Letter No. 14.

To the Tin Trade:

-Allocations by Inter-Allied Tin Executive to United States for Dis-

tribution at Cost to American Consumers:

Mr. Armsby's circular letter of thus date announces that all of the Inter-

Allied Tin has been sold and that all restrictions regarding the resale of Tin in the United States between consumers, dealers, jobbers and smelters are removed.

The War Trade Board has also announced removal of import restrictions on Pig Tin from the country of origin in War Trade Board Ruling No. 780,

dated June 16 1919.

The American Iron and Steel Institute will continue to function under the control of the War Industries Board and the War Trade Board to the extent that may be required by the Tin regulations until such time as all restrictions are removed. In the meantime, as all of the Inter-Allied Tin has been disposed of, consumers whose stocks of Tin are low may obtain further supplies by purchase either from smelters, dealers, jobbers or other consumers having Tin for sale. All consumers who have any spare stocks of Tin which they are willing to sell are requested to notify the Institute of the particulars of such stocks immediately. Any consumers needing further supplies of Tin may send their inquiries to the Institute and an effort will be made to satisfy their requirements.

Yours very truly JOHN HUGHES, Chairman Sub-Committee on Pig Tin.

#### POSTAGE RATES EFFECTIVE JULY 1 ON PUBLICA-TIONS OF THE SECOND CLASS.

The following notice was given by Third Assistant Postmaster-General Dockery on June 12:

Office Third Ass't P .- M. Gen'l,

Washington, June 12 1919.
Particular attention is called to the rates of postage which, under the May 24 1918, will be chargeable on and after July 1 1919, and until July 1 1920, on publications entered as second-class matter when mailed by publishers or registered news agents, such rates being as follows:

On the portion of publications devoted to matter other than advertise ments, 11/2 cents a pound. If the space devoted to advertisements does not exceed 5% of the total space, the rate of 11/4 cents a pound applies to the entire publication.

On the portion of publications devoted to advertisements:

First and second zones, 11/2 cents per pound.

Third zone, 2 cents per pound. ourth zone, 3 cents per pound. Fifth zone, 31/2 cents per pound. Sixth zone, 4 cents per pound. Seventh zone, 5 cents per pound. Eighth zone, 51/2 cents per pound.

The one-cent rate prescribed in Paragraph 2, Section 429, P. L. and R., continues to apply where the total weight of any one edition or issue mailed to any one zone does not exceed one pound.

On publications maintained by and in the interest of religious, educational, scientific, philanthropic, agricultural, labor or fraternal organizations or associations, which have been specifically classified as coming within the provisions of Paragraph 4, Section 429, P. L. and R., 134 cents a pound for all zones on the entire publication.

There is no change in the free-in county mailing privilege, nor in the rates on copies mailed for delivery within the county of publication, the rates set

forth in Section 433, P. L. and R., continuing in force.

Postmasters will advise publishers of the foregoing and be careful to see that proper postage is collected on second-class matter mailed at their office. A. M. DOCKERY.

#### CABLE COMMUNICATIONS WITH GERMANY.

The War Trade Board announced on June 18 that it had been advised that all cable companies and censors have been instructed that cablegrams relating to the supply of foodstuffs to Germany under the terms of the Brussels Agreement, may now be accepted for all destinations in Germany when such meesages are otherwise unobjectionable. With reference to the foregoing ruling, the Board directed the attention of exporters to its Ruling 707, issued April 23 1919.

#### CHARLESTON TO HAVE STEAMSHIP CONNECTION WITH SOUTH AMERICA.

The 9,000-ton deadweight steel ship Walden will sail from Charleston within the next two or three weeks for Argentina, putting into effect a monthly sailing of vessels between Charleston and Rio de la Plata and other South American ports. The ship is one of the six thus far allocated to the South Atlantic Maritime Corporation, formed to foster the foreign trade of the five South Atlantic ports, which include Charleston, Wilmington, Savannah, Brunswick and Jacksonville. Charleston has the honor of being the first of the South Atlantic ports to have the benefit of monthly sailings to South America.

Coal will probably constitute the first cargo from this port to Buenos Ayres and it is considered likely that coal will be the basic cargo of export in the Charleston-Argentine trade from the beginning, while in all probability hides and fertilizer materials will constitute the basic import commodities. General cargo will be available if desired. There is keen gratification in local shipping circles at the institution of direct trade between Charleston and Argentina and rapid development is expected.

Another local shipping development is the successful expansion of the Carolina Company to do general shipping business with a capital stock of \$500,000. The company has obtained from the United States Shipping Board the former Dutch steamer Leersum and probably another will begin operations immediately with sailings to Liverpool It is stated that general cargo sufficient for the first voyage of both these vessels has been obtained.

#### NAVAL LICENSES FOR SMALL CRAFT IN NEW YORK WATERS NO LONGER REQUIRED.

It was announced on June 13 that naval licenses would no longer be required for the operation of small craft in the waters of the Sound and harbor.

#### SALE OF NINETEEN GOVERNMENT BUILT STEEL SHIPS FOR \$27,821,120.

In a statement issued by the U.S. Shipping Board on June 16 it was announced that 19 steel cargo ships, built by contract for the U.S. Government had been sold "within the past two days" to seven firms of ship operators. The vessels have a tonnage of 128,472 and the purchase price aggregated \$27,821,120. All the vessels were sold to American interests and will fly the American flag. The transaction according to the Shipping Board's statement constituted "the greatest sale of steel ships ever made in the history of the shipping industry." The New York "Journal of Commerce" on June 18 said it had learned on June 17 that twelve of the ships went to New York interests. Out of the 12, five were disposed of to the National Shipping Corporation; four to George W. Cole, agent for a new company, two to the French-American Line, one to the Omega Steamship Company. The statement as to the sale of the 19 ships made by the Shipping Board at Washington on June 16 reads:

Within the last two days the United States Shipping Board has effected the greatest sale of steel ships ever made in the history of the shipping industry. To seven firms of ship operators it has sold nineteen of its new steel vessels at prices ranging from \$210 a deadweight ton up to \$225 per deadweight ton. The vessels range from 5,530 tons to 9,600 tons. The amount of tonnage disposed of in this sale is 124,472. The purchase price \$27.821.120.

Thus the United States Government, which has taken rank as the leading shipbuilder of the world, is now the leading seller of ships. Moreover, selling them at prices which show the keen demand for steel tonnage.

A squadron of six ships went to one firm alone. another operator. Four other companies bought two each. There was only one purchaser to take a single ship. No ship was sold to any foreign All were purchased by American ship operators and will fly the American flag.

What is regarded as a significant feature of the sale is the fact that twelve of the vessels were of the fabricated type. This large proportion is taken to indicate that there exists a keen demand for ships of this type that are being built at the Newark yards of the Submarine Boat Corporation and at Hog Island.

Further details regarding the sale were given in a special Washington dispatch to the New York "Sun" on June 16 as follows:

The vessels are for immediate delivery and can be loaded and placed in rvice, getting the advantage of the present high rates. All of them are to be 100% American ownership, and there is no restriction on them or their operation except the usual ones as to clearance. They cannot be transoperation except the usual ones as to clearance. They cannot be transferred to any foreign flag. All the vessels were sold on a basis of 25% in cash,  $7\frac{1}{2}$ % in six months,  $7\frac{1}{2}$ % at the end of the next six months and 15% for each of the four succeeding years. The Government has a mortgage on them, and they must be insured to cover the Government equity. Purchasers have the option of taking insurance with the Shipping Board on the hulls up to the amount of the Government equity or from any private

The vessels sold for the most part are fabricated ships built at the Submarine Boat and the Hog Island plants. The larger ones were built by the Skinner & Eddy Company at Seattle. Several weeks ago the Skinner & Eddy Company offered to buy them from the Shipping Board at the cost price of \$199 a ton. They brought \$225 a ton from the New York ship

Chairman Hurley of the Shipping Board who has advocated the sale of Government owned ships, speaking of the plans of the Government for disposing of its war built merchant marine, was quoted in a special Washington dispatch to the New York "Times" on June 16 as saying:

The United States Government is the only country in the world to-day where ships can be sold for spot delivery. The purchasers of these vessels will get immediate possession and will place them in trade routes without The operators who have taken them over are men of vision and They recogn'ze the incalculable advantage of being first in the field and with the opportunity of establishing connections at a time when so many are anxious to connect with reliable shipping firms.

To-day we were in communication with one firm in regard to the sale of forty-two of our wooden ships of the Ferris type. We have already sold forty-two of our wooden ships.

Since we began selling ships a short time ago we have disposed of 332,045 deadweight tons (221,363 gross tons). The total amount of these sales now ates \$51,856,620.

Offices of the U.S. Shipping Board, from which the negotiation of Government ship sales will be carried on, were opened at the New York Custom House on June 23. Concerning the activities of the new office Mr. Hurley was quoted in the New York "Tribune," June 22, as having said: "We are establishing the sales department here because it is more convenient. This will be the only sales department, except perhaps, should need arise, in some foreign capital. Each sale will be announced here, giving the names of the purchaser."

John E. Barber, Vice-President of the Emergency Fleet Corporation, will be sales manager at the new office and E. W. Lyon of the Bankers' Trust Company of New York will head the credit department.

#### PAYMENT BY UNITED STATES TO NORWEGIANS FOR 27 REQUISITIONED SHIPS.

In reporting that the United States has agreed to pay Norwegian capitalists \$34,500,000 for 27 ships requisitioned by the U.S. Government after the declaration of war the "Journal of Commerce" of June 11 said in part:

A settlement involving \$34,500,000 has been effected between the group of Norwegian shipowners represented by Emil Stray, and the United States Shipping Board for 27 vessels, aggregating 182,575 deadweight tons, which were requisitioned by the Government after the declaration of war. The agreement was reached in Washington with Raymond B. Stevens, Vice-Chairman of the Shipping Board, representing the Government, and the

settlement was in the nature of a compromise.

While the claims of this group of Norwegian capitalists have been adjusted, final action has not been had upon those claims of the other interests, known as the Hannevig group. It is understood that Christoffer Hannevig expects to have these adjudicated soon upon a basis similar to that

nevig expects to have the second representation of the recent compromise.

The United States settled upon a figure of approximately \$225 per deadreject to plus 6% interest. While this is vastly more than the contract representative of the Norwegian Shipping Commission that it represented a loss to the last owners of the contracts.

The payment of the claims will be made through the Norwegian Legation at Washington. The United States Government has on deposit with the Bank of Norway at Christiania 2,000,000 kronen and this sum will be turned over to the Stray group. The other settlements will be paid in a regular manner

While the settlement has been ratified by the ship owners, the sum paid is considerably less than the amount claimed. The Commission asked that the Shipping Board pay \$51,138,245 for the twenty-seven ships. The con-

tract price for the fleet was \$21,589,600, showing how the value of tonnage appreciated during the period that the submarine menace was at its height. Figures presented by the Norwegians reveal that installments amounting to \$12,918,577 50 had been paid, while a balance of \$8,671,022 remained when the vessels were taken over by the Government.

It is understood that Mr. Hannevig expects a settlement in regard to the other contracts, which are similar in nature to those recently adjusted. number is said to be 20, and it is reported that an award, based upon iden-

tical terms will mean the payment of about \$27,000,000.

The difficulty that has been experienced by the Government is that of considering the amounts paid by purchasers of the contracts, after they were originally placed. Whereas, the first owners admitted that they agreed to pay only \$21,589,600 for the completed ships, the present owners testified that they had turned over about \$30,000,000 to the interests selling the contracts

The Norwegian corporations that will receive the money from the Government are located at Christiania, Hangesund, Bergen and Krageroe.

#### LEGISLATURES OF TWO MORE STATES RATIFY SUFFRAGE AMENDMENT.

The Legislatures of Pennsylvania and Massachusetts have ratified the national woman's suffrage amendment to the Constitution of the United States. The Senate in Pennsylvania ratified the amendment on June 19 by a vote of 31 to 6 and the House of Representatives voted 153 to 44 in favor of the amendment on June 24.

The Massachusetts Senate on June 19 voted 34 to 5 to ratify the national woman's suffrage amendment and the House passed the amendment on June 25 by a vote of 185 to 47.

The States which have now ratified the national woman's suffrage amendment are Wisconsin, Michigan, Illinois, New York, Ohio, Kansas, Pennsylvania and Massachusetts.

#### RAILROAD ADMINISTRATION TO MEET OBLIGA-TIONS OF \$100,000,000 NEXT WEEK.

Although the bill providing for an appropriation of \$750,000,000 for the Railroad Administration's Revolving Fund is still awaiting the signature of President Wilson, it was announced yesterday that the Administration would be able to meet obligations falling due July 1 without resorting to the issuance of additional certificates of indebtedness. The Administration, it is stated, will be called upon to pay out about \$100,000,000 next week. The bill appropriating \$750,000,000 to be added to the original \$500,000,000 Revolving Fund was passed by the House on June 10 and by the Senate on June 12. Reference to it was made in our issue of June 14, page 2393. On June 18 Director-General Hines was credited with stating that the failure of Congress to provide more than \$750,000,000 for the Railroad Administration's revolving fund would present new problems of financing the roads within a few months, but that future necessities would be left for solution when they arose. Certificates of indebtedness issued by the Administration to the War Finance Corporation and to banks during the last three months, owing to the failure of the appropriation bill in the last Congress, would be taken up, it was stated, with the proceeds of the new appropriation. Should the new appropriation not be made available before the end of the fiscal year, press dispatches from Washington stated that it was understood further issues of certificates would be made.

#### WALKER D. HINES ON PROPOSAL TO RESTORE RATE-FIXING POWER TO INTER-STATE COMMERCE COMMISSION.

At a hearing before the House Inter-State Commerce Committee on June 26 on the bill to restore the power to fix railroad rates to the Inter-State Commerce Commission instead of retaining it as at present with the President, Director-General Walker D. Hines was asked by Representative Sims whether the Railroad Administration at the present eime contemplated further increases in rates. In reply, Mr. Hines said:

We are giving consideration to that problem. My own view is that we have two phases of the question to consider. Our present deficit is due to two things. First, to the falling off of business of the roads. Second, to the increase in wages and the cost of materials which are not met by the revenues arising from increases in rates. We are trying to segregate these questions, so as to determine how much of the deficit is due to falling off of business and how much to the failure to make a sufficient increase in rates.

In voicing his opposition to the Senate bill to deprive the President of power to fix railroad rates, Mr. Hines on the

The relations between the Director-General and the Inter-State Commerce Commission have been most cordial and we have adopted the policy of consulting the Commission on all matters, therefore the plan of giving the Commission the power to suspend rates enacted by the President will not result in serious embarrassment.

But, as a matter of principle, it is wrong to have the President responsible for the operation of the railroads and at the same time give the Commission the power to suspend rates before it has decided that they are unreasonable.

The question, put by Representative Sims, as to whether the public interest demands "that legislation of the character now before us be enacted, especially in view of the fact that Congress proposes to legislate with a view to forming a permanent railroad policy," brought from Mr. Hines the following reply:

The President has announced that the railroads will be returned to their owners at the end of this calendar year. During the short continuation of the period of Federal control it seems to me that the responsibility for operation and other matters should be concentrated in the President. The things which brought about the demand for this legislation resulted from annoyances due to the pressure of war necessity. If those interested in this legislation could remove from their minds the memory of those things, I believe there would be no demand for this legislation. The public interest would be fully protected without enactment of this legislation.

As the bill stands it would upset the whole scheme of rate initiation and put on the Government the liability of paying the debts of the railroads. This plan of suspension would create this situation: the Commission would have the power to suspend rates initiated by the President, but would be under no obligation to substitute other rates. There would be a division

of responsibility, which would be unfortunate.

On the 25th Mr. Hines, in declaring to the committee his opposition to the bill which would dislodge the rate-making power from the President, stated, according to the New York "Commercial," that the Railroad Administration did not oppose the granting of authority to the Inter-State Commerce Commission to review rates fixed by the President; nor would it, he said, embarrass the Railroad Administration should Congress give to the Commission its old right of suspending proposed rate advances. The power of initiating rates, he said, subject to review by the Inter-State Commerce Commission, should be reposed in the President until after control of the carriers ceases, without interference from State commissions. The following regarding Mr. Hines's statements to the committee on the 25th is taken from the New York "Times" of the 26th:

Mr. Hines asked that nothing be included in the proposed bill to interfere with the power of the President to issue orders. He said on this point:

"My suggestion is that if there is any fear of the power of the President, it can be removed by inserting an express provision that the President's orders must be consistent with the Federal Control Act. The President has the power only to make orders in line with the purposes of the Act. Beyond that point his orders are unlawful."

In reference to the section in the Senate Bill making the United States

In reference to the section in the Senate Bill making the United States responsible for the payment of judgments which originated before the period of Federal control, Mr. Hines said: "Any such debt is the debt of the rainroad and not the debt of the Government, and to make the Government liable for such payment is unjust to the Government and to the people, and is not necessary for the protection of the reasonable interests of judgment creditors."

This statement was in opposition to the argument made in behalf of the section by A. P. Thom, counsel for the Association of Railway Execu-

tives. Mr. Hines continued:

"It is an incorrect theory, moreover, to say that the judgment creditors are without recourse, except to the Government. Nearly every railroad owes the Government more money than the Government owes the railroads, and the judgment creditors can collect from the railroads. Every railroad company has general funds and other assets not controlled by the Government."

Before the Philadelphia Chamber of Commerce on June 20 Mr. Hines, in a general discussion of the railroad situation, referred to the deficit incurred in the operation of the railroads under Government control, and noted that a 52% or 53% increase in wages, and 35 to 40% increase in materials, has been offset only by the increase of 25% in rates. While stating that it was reasonably clear that "a 25% increase in rates will not take care of perhaps an average of 47 to 48% increase in expenses," Mr. Hines said it was his desire, so far as higher rates were concerned, "to be cautious about this matter and to avoid any premature action."

The following, with regard to his remarks, is taken from the Philadelphia "Press":

Turning from the Government ownership to the question of the future, the Director-General asserted emphatically that "private management of railroads disappeared years ago and there is never a chance of its returning."

"There has not been any complete private management for years," he added, saying that the voice of labor had controlled the wages, and public regulations, while exerted, contained certain fundamental evils. The whole question of management in pre-war days was put together in a hap-hazard manner, he added.

# PLANS FOR FINANCING RAILROAD EQUIPMENT THROUGH TRUST CERTIFICATES.

The committee of bankers named at a recent conference of members of the Association of Railway Executives and other interests to investigate and report on the form of equipment trust certificates which would prove most acceptable in the market, submitted its plan on the 24th to T. De Witt Cuyler, Chairman of the Association. A discussion of the plan was had by the Car Allocation Committee of the Association yesterday (June 27), but it was the previously announced intention not to give publicity to the plan until after its presentation to the Railroad Administration. The bankers' committee which drafted the plan is under the chairmanship

of Jerome J. Hanauer of Kuhn, Loeb & Co. The financing of approximately \$400,000,000 of railroad equipment is involved in the plan, regarding which the New York "Times" on June 25 said in part:

While the details will be withheld until after the Railroad Administration has had an opportunity to digest it, it is understood that the plan calls broadly for an issuance of some \$280,000,000 railway trust certificates and their offering in the open market, the proceeds of the sale to go to the Railroad Administration to reimburse it in part for the approximately \$400,000,000 it has already advanced to the equipment manufacturers. It is also understood that the balance of the amount due will be obtained out of the excess earnings of the equipment, which will be allotted and leased to the railroads which will eventually become the owners of the rolling stock.

which will eventually become the owners of the rolling stock.

It has been reported that the Banking Committee which drew up the plan is convinced that the equipment trust certificates issued must be offered for public subscription at attractive prices or they will not prove a successful undertaking. Another feature of the plan is reported to be the absence of a proposal for Government ownership of the equipment, except in the case of absolute refusal of individual lines to accept the allotments made to them. This, it is estimated, would place a burden not too great upon the shoulders of the Railroad Administration, which would probably have to write off such equipment as one of the costs of the war.

Incidentally, this is one of the points upon which it is considered as doubtful if representatives of the Administration will agree with the special com-

mittee of executives.

The Bankers' Committee which drew up the plan consists of Mr. Hanauer, Charles E. Mitchell, President of the National City Company; Harold Stanley, Vice-President of the Guaranty Trust Co.; Arthur M. Anderson of J. P. Morgan & Co.; F. W. Allen of Lee, Higginson & Co., and E. B. Sweezy of the First National Bank.

Previous reference to the matter was made in our issue of May 31, page 2204.

#### ACTION OF NATIONAL CONFERENCE OF STATE MANUFACTURERS ON REGULATION OF RAILROADS AND LONG AND SHORT HAUL CLAUSE.

At the national conference of State Manufacturer Associations held in this city yesterday (June 27) at the Hotel Astor, the question of the return and regulation of the railroads was among other matters discussed in detail. It was the general sentiment of the conference that the time had arrived when the manufacturing and business interests generally should make known to Congress their views on the railroad problem. The conference was addressed by Edgar J. Rich of Boston, S. Davis Warfield of Baltimore, and R. C. Fulbright of Houston, Texas.

Resolutions were unanimously adopted in which the conference expressed itself as "unalterably opposed to Government ownership and to Government operation longer than necessary for the Congress to enact adequate legislation for the return and regulation of the carriers of the country." In part the resolutions said:

We feel that certain fundamental principles should be recognized by Congress in constructive legislation which will provide insurance for better financing of railway improvements and extension and stabilize railroad credit. As manufacturers we realize the necessity of providing adequate transportation facilities to serve the commerce in every section of the country. We can recognize the fact that neither the shippers nor the public expect adequate railway service unless Congress provides the means for the financial requirements of the carriers. We therefore are in favor of specific directions to the Inter-State Commerce Commission which will provide that rates shall be so adjusted as to yield a given return to the carriers and applied in its computation to such measure as Congress may provide, recognizing the fact that rates cannot be made in this country to enable the great bulk of railroads to earn such reasonable return without enabling the more favorably situated roads to earn more than the shippers and the public will permit. We are in favor of such disposition of excess earnings over such reasonable and fair return as Congress may determine, and in such way as will give a complete and adequate transportation system as a whole to the country.

We are in favor of the creation of Regional Commerce Commissions,

We are in favor of the creation of Regional Commerce Commissions, the work of which shall be co-ordinated with the Inter-State Commerce Commission and the State Commissions under such procedure as the Inter-State Commerce Commission may provide.

We are opposed to the creation of departments or boards of transportation, believing that the Inter-State Commerce Commission can deal with the problems of the railroads providing the Congress, by Act, is specific in its direction for the regulation of the carriers.

#### CAMPAIGN OF CITIZENS' RAILROADS LEAGUE TO CONSOLIDATE PUBLIC INTEREST IN SOLUTION OF RAILROAD PROBLEM.

Plans for an educational campaign which will reach into every State in the Union, and which will be conducted with a view to consolidating public interest in the solution of the present problem of the railroads, is being perfected by the Citizens' National Railroads League, the President of which is Nathan L. Amster of Boston, Chairman of the Executive Committee of the Chicago Rock Island & Pacific RR. The League has addressed an open letter to the members of Congress urging the greatest care in the enactment of railroad legislation prior to the return of the roads to private operation. In its educational campaign the League will seek, among other things, "to correct certain grave misunderstandings as to the real needs of the railroads and as to what should and should not be done regarding the future status of the carriers." A statement issued by it also says:

The League is non-partisan. It will seek to promote the support, endorsement and enactment of legislation which will provide transportation service for the greatest good of the greatest number

The League believes that this problem is one of such magnitude and is so far-reaching in effect upon the economic life of the nation, that it must be dealt with not as a problem affecting primarily any special interest, but from the standpoint of what is best and fairest to every single interest in any way concerned, whether directly or indirectly.

Briefly summarized, the main objects of the League are:

1. To unite the various elements in our national life in favor of a people's

plan for legislation.

To collect and disseminate information regarding the present phases of the railroad problem and to warn the public and Congress against recognition of the propaganda now being circulated by certain well-financed in-terests in an attempt to take the attention of Congress and the public away from the flagrant evils, which must be remedied and centring attention upon certain needs of reform of our methods of rate-making and Federal regula-

3. To bring about an immediate valuation of the properties now in public service in the carrying of inter-State commerce, and to fix upon the capital actually invested in the railroads, so that an honest and equitable basis of rate-making as well as of fixing reasonable return on investment may be

ascertained or established.

ascertained or established.

4. To launch a program comprehending national conventions, conferences, open forum discussions, and other means of ascertaining public sentiment and putting into concrete form, a definite plan, embodying the principle of unification of the railroads into one or a limited number of corporations under Federal charter, managed and operated regionally by representa-tives of security owners, employees, farmers, shippers and the traveling

#### VIRGINIA AND SOUTH CAROLINA BANKERS' ASSO-CIATIONS ENDORSE WARFIELD PLAN FOR RETURN AND REGULATION OF RAILROADS.

The Virginia Bankers' Association in convention at Old Point Comfort, Va., on June 21, unanimously endorsed the plan of the National Association of Owners of Railroad Securities-known as the "Warfield Plan"-for the return and regulation of the railroads; the resolutions adopted said in

1. We are unalterably opposed to Government ownership and to Federal control and operation longer than the time necessary for Congress to enact adequate legislation for the return of the railroads to their owners which shall provide for their successful continued administration by private opera-

2. This convention declares against methods proposed for the return of the railroads which involve the formation of new railroad companie years of valuation and legal complications, and which would result in such concentration of facilities as would be destructive of incentive and individual

3. We are opposed to the return of the railroads without adequate legislation, as this would be detrimental to the business and financial interests

of the country and to the general public.

4. We are in favor of preserving the present operating structures of the railroads, through which the development of the country has been secured and favor legislation by Congress under the plan of the National Association of Owners of Railroad Securities (Warfield Plan), and which, with the provisions to make it effective, is based on a fixed percentage return, through rates to the railroads computed on railroad investment combined n each of the three classification territories of the country as laid out by the Inter-State Commerce Commission.

Resolved, That a copy of these resolutions be sent to our Senators and Rep-

resentatives in Congr.

Similar resolutions were adopted by the South Carolina Bankers' Association at its convention at Tybee Island, Ga., on June 23.

#### JOSEPH K. CHOATE'S REQUEST FOR TRACTION IN-QUIRY DENIED BY PUBLIC SERVICE COMMISSION.

A request made by Joseph K. Choate that a commission of citizens be appointed to make a study of the traction situation and to report recommendations for remedial measures has been denied by the Public Service Commission for the Second District of New York. Mr. Choate, who is Chairman of the Committee on Ways and Means to Obtain Additional Revenue of the New York State Electric Railways, addressed C. B. Hill, Chairman of the Public Service Commission of the Second District early in June, and Lewis F. Nixon, Chairman of the First District, enclosing copies of correspondence between himself and Gov. Smith bearing on an investigation of the street railway situation, and urged that both commissions in furtherance of the Governor's suggestion, arrange for an inquiry of the traction situation in the two districts.

On June 5 correspondence which has passed between Mr. Choate and Gov. Smith was made public, a letter to the

latter by Mr. Choate on May 6 saying in part:

Even a casual review of the existing state of affairs will indicate to you that unless some means are taken to remedy conditions disaster will undoubtedly follow. Many of the companies are already bankrupt—more are on the verge of bankruptcy—and none of them are in a financial position to provide the service which the welfare of the cities and the rural districts of the State require. Owing to defects in the law which it has so far been impossible to correct, the jurisdiction of the commissions is not wide enough to permit these commissions to take such measures as will restore to their former state of efficiency the traction systems of the State.

And, while the commissions are without such power, the communities themselves are also, to a very large degree, helpless in the matter,

The need of prompt and constructive action in this emergency must be apparent to Your Excellency as it is to those who are directly concerned with the operation of the street railway systems of the State. The situation is one that so intimately affects the financial, economic, industrial and social affairs of the people of New York that constructive action of some

sort is essential. It is a problem that concerns the people of the State to an even greater extent than it does the owners of the properties and in view of this condition, it is respectfully suggested that Your Excellency appoint a Commission of Citizens, who have the trust and confidence of the people, to make a study of the traction situation and to report to you their reco dations for remedial measures.

Governor Smith's secretary, George Van Namee, in re-

The Governor feels that the State now has two Public Service Commis-sions whose duty it is to investigate and to propose remedial measures conmeeted with the subject matter in which you are interested. These commissions have at their command a highly paid force of experts, engineers and statisticians, and the upkeep of the commission each year costs the State thousands of dollars.

It would seem that these commissions should be able to present suggest tions covering the matter of remedial legislation in the traction industry of the State, and the Governor suggests that you present your claims to them

and ask them to give them consideration

In answer to Mr. Choate's letter Mr. Hill, Chairman of the Public Service Commission of the Second District, on

I beg to acknowledge your letter of June 3, enclosing your correspondence with Governor Smith with relation to your request that the Governor appoint a committee of citizens to investigate the situation in this State as it now exists with regard to condition of the traction industry and to recom-mend such immediate remedial legislation for presentation to the next Legislature as the committee might deem proper.

I observe that Governor Smith, very naturally, suggested that inasmuch as the State now has two Public Service Commissions whose duty it is to investigate and to propose remedial measures connected with the subject matter, it would seem that these commissions should be able to present sugtions on the subject, and that you present your claims to them and

that they give the same consideration.

I am greatly surprised, however, that you entirely ignore the fact that this commission anticipated both your suggestion and that of the Governor in the most comprehensive, explicit and public way, without urging by the electric railway interests, in its official report to the last Legislature.

As pointed out, this commission has anticipated your suggestion by one

full legislative year. If a further hearing would produce additional facts on which to base suggestions for any different or further remedial legislation the Commission will, as suggested in the Governor's letter, conduct such a hearing on the petition of any interested party.

Further representations on the part of Mr. Choate to Mr. Hill brought from the latter under date of June 13 a letter

to Mr. Choate saying:

Answering yours of June 10, I beg to advise you that the Commission has considered your communication, but in view of the situation as set forth in your letter of June 6 we do not feel that it is the duty of the Commission to institute such an investigation as you suggest.

#### ACCEPTANCE OF REVISED TREATY BY GERMANY FOLLOWING REJECTION BY ALLIED POWERS OF PLEA FOR FURTHER LENIENCY.

Acceptance by the German Government of the conditions imposed under the revised peace treaty, as presented to the German Peace Delegation on June 16 at Versailles by the General Secretary of the Peace Conference, was made known on June 23, in a note received and made public on that day by Premier Clemenceau, President of the Peace Conference. The advices were received through Dr. Haniel von Haimhausen, temporary chairman of the German Peace Delegation at Versailles, who acted at the direction of the new German Foreign Minister, Dr. Hermann Mueller. It was with a further declaration against "the unheard of injustice of the peace conditions" that the terms were accepted, the note of acceptance reading as follows:

The Minister of Foreign Affairs has instructed me to communicate to your Excellency the following:

It appears to the Government of the German Republic, in consternation at the last communication of the Allied and Associated Governments, that these Governments have decided to wrest from Germany by force acceptance of the peace conditions, even those, which, without presenting any material significance, aim at divesting the German people of their honor.

No act of violence can touch the honor of the German people. The German people, after frightful suffering in these last years, have no means

of defending themselves by external action.

Yielding to superior force, and without renouncing in the meantime its own view of the unheard of injustice of the peace conditions, the Govern-ment of the German Republic declares that it is ready to accept and sign ment of the German Republic the peace conditions imposed. Please accept, Mr. President, assurances of my high consideration, (Signed) VON HANIEL.

Previous to the announcement of acceptance, on June 23, the German National Assembly at Weimar on June 22 by a vote of 237 to 138 authorized the acceptance of the terms and the signing of the treaty. This action was taken after the German Foreign Minister had, through the temporary chairman of the German Peace delegation, failed in his efforts to have the Allied and Associated Powers further modify the terms, and had likewise failed to secure another 48 hours beyond the time (expiring June 23) given Germany in which to reply to the peace conditions of the Allied Powers. Following the submission of last week's reply (June 16) of the Allied and Associated Powers to Germany's counter proposals to the original peace terms of the Allies, the Council of Five of the Peace Conference received four notes from the German Government, understood to have been prepared by the German Peace Delegation at Versailles in advance of advices from Weimar. In

seeking a further forty eight hour delay Haniel von Haimhausen, in a note just prior to his acceptance of the terms. referred to the difficulties incident to the resignation of the Scheidemann Cabinet on the 20th, and the formation of the new Cabinet the succeeding day. In his representations on this point, the letter (transmitted to Premier Clemenceau on June 23), said:

To His Excellency, the President of the Peace Conference, M. Clemenceau: Mr. President: The Minister for Foreign Affairs instructs me to beg the Allied and Associated Governments to prolong for forty-eight hours the time limit for answering your Excellency's note, communicated yesterday

evening, and likewise the time limit for answering the note of June 16 1910. It was only on Saturday, after great difficulties, that a new Cabinet was formed, which, unlike its predecessor, could come to an agreement to declare its willingness to sign the treaty as regards nearly all its provisions. The National Assembly has expressed its confidence in this Cabinet by a large majority of votes. The answer only arrived here just before midnight, as the direct wire from Versalles to Weimar was out of er. The Government must come into contact anew with the National embly, in order to take the grievous decision which is still required of it in such a manner as it can only be taken in accordance with democratic

principles and with the internal situation in Germany.

Accept, Mr. President, the assurance of my distinguished consideration.

VON HAIMHAUSEN.

The reply of the Allies to this denying the request, follows: Mr. President—The Allied and Associated Governments beg to acknow-lege the receipt of your communication of June 23. After full consideration of your request they regret that it is not possible to extend the time already granted to your Excellency to make known your decision relative to the signature of the treaty without any reservation.

CLEMENCEAU.

On June 22 the Council of Five of the Peace Conference had received from Dr. Haimhausen a note stating that the German Government was ready to sign the peace treaty, "without, however, recognizing thereby that the German people was the author of the war and without undertaking any responsibility for delivering persons in accordance with Articles 227 to 230." In the same note it made the request that "within two years, counting from the day when the treaty is signed, the Allied and Associated Governments will submit the present treaty to the High Council of Powers, as constituted by the League of Nations, according to Article 4, for the purpose of subsequent examination." To this communication, the Allied and Associated Powers, on the same day, replied that the note "presents no new arguments or considerations not already examined, and that they therefore, feel constrained to say that the time for discussion is past."

The German note of June 21 (transmitted on the 22nd), in which it was stated the German Government would sign the treaty with reservations received by Premier Clemenceau through the same channels, read as follows:

The Imperial Minister of Foreign Affairs has instructed me to communi-

cate the following to Your Excellency:

The Government of the German Republic has from the moment when the peace conditions of the Allied and Associated governments were made known to it let no doubt exist as to the fact that the Government, in harmony with the whole German people, must regard these conditions as being in sharp contradiction to the principle which was accepted by the Allied and Associated Powers on the one hand, and Germany on the other, as being binding in accordance with the laws of nations for the peace before the conclusion of the armistice.

Relying upon this principle of justice, which was agreed upon between the parties to the negotiations, and assisted by a clear exposition of conditions in Germany, the Government has left no stone unturned in order to arrive at a direct verbal exchange of opinions and thus obtain some mitigation of the unbearably harsh conditions, which might render it possible for the Government of the German Republic to sign the treaty of peace without reservations and to guarantee its execution.

These endeavors of the Government of the German Republic, which

were undertaken in the interest of the peace of the world and the reconcilia-tion of peoples, have failed owing to rigorous insistence on the conditions

Far-reaching counter-proposals of the German delegation have only in certain points received any acceptance. The concessions made only reduced the severity of the conditions in a small degree.

The Allied and Associated Governments have, in an ultimatum which xpires on June 23, confronted the Government of the German Republic with the decision either to sign the treaty of peace presented by them or to refuse to sign. In the latter case, a completely defenseless people have been threatened with the forcible imposition of the conditions of peace already presented and with the increase of heavy burdens.

already presented and with the increase of heavy burdens.

The German people do not wish for the resumption of the bloody war; they honestly wish for a lasting peace. In view of the attitude of the Allied and Associated Governments, the German people have no other force in their hands save to appeal to the eternally inalienable right to an independent life, which belongs to the German people, as to all peoples.

The Government of the German Republic can lend no support to this sacred right of the German people by the application of force. The Government can only hope for support through the conscience of mankind. No people, including those of the Allied and Associated Powers, could expect the German people to agree with thorough conviction to an instrument of peace whereby living members of the very body of the German ment of peace whereby living members of the very body of the German people are to be cut off without consultation of the populations concerned, thereby the dignity of the German State is to be permanently impaired and whereby unendurable economic and financial burdens are to be laid upon the German people.

The German Government has received passionate expressions of opinion from the population in the districts to be cut off in the East, to the effect that they will oppose themselves to the separation of these districts, which have for the greater part been German for many centuries, by all means they possess. The German Government, therefore, finds itself compelled to decline all responsibility for any difficulty which may result from the resistance of the inhabitants against their separation from Germany.

If the Government of the German Republic is, nevertheless, ready to sign the conditions of the Allies with the above mentioned reservation yet this is not done of its free will. The Government of the German Republic solemnly declares that its attitude is to be understood in the sense that it yellds to force, being resolved to spare the German people, whose sufferings are unspeakable, a new war, the shattering of its national unity by further occupation of German territories, terrible famine for women and children, and mercilessly prolonged retention of the prisoners of war.

The German people expect, in view of the grievous burdens which they are to take upon themselves, that all German military and civil prisoners, beginning July 1, and thereafter in uninterrupted succession and within a short period, shall be restored. Germany gave back her enemies' prison-

ers of war within two months.

The Government of the German Republic engages to fulfill the conditions of peace imposed upon Germany. It desires, however, in this solemn moment to express itself with unreserved clearness in order to meet in advance any accusation of untruthfulness that may now or later be made Germany.

The conditions imposed exceed the measure of that which Germany can in fact perform. The Government of the German Republic therefore feels bound to announce that it makes all reservations and declines all responsibility as regards the consequence which may be threatened against Germany when, which is bound to happen, the impossibility of carrying out the conditions comes to life, even though Germany's capacity to fulfill them is stretched to the utmost.

Germany further lays the greatest emphasis on the declaration that she cannot accept Article 230 of the treaty of peace, which requires Germany to admit herself to be the sole and only author of the war, and she does not cover this article by her signature. It consequently follows without further argument that Germany must also decline to recognize that the burden should be placed upon her on the score of the responsibility of the war which has unjustly been laid at her door.

Likewise it is equally the processible for a German to recognize that the

Likewise it is equally impossible for a German to reconcile it with his dignity and honor to accept and execute Articles 227 to 230, by which Germany is required to give up to the Allied and Associated Powers for trial individuals among the German people who are accused by the Allied and Associated Powers of a breach of international law and of committing acts contrary to the customs of war.

Further, the Government of the German Republic makes a distinct protest against the taking away of all the colonial possessions of Germany and the reasons given therefor, which permanently deny to Germany fitness for colonial activity, although the contrary is clearly established and

irrefutable evidence to this effect is contained in the observations of the German peace delegation on the conditions of peace.

The Government of the German Republic assumes that it is in, accordance with the desires of the Allied and Associated Governments that it has spoken openly both as regards what concerns its good will and also as regards its reservations. Therefore, in view of the condition of restraint into which the German people are forced by the requirements of the Allies —a condition of constraint such as has never been inflicted on any people in a manner more crushing and more disastrous in its consequences—and relying on the express undertaking of the Allied and Associated Governments in their memorandum of June 16 1919, the German Government believes itself to be entitled to address the following modest request to the Allied and Associated Governments, in the expectation that the Allied and Associated Governments will consider the following declaration as an

integral portion of the treaty:
Within two years, counting from the day when the treaty is signed, the
Allied and Associated Governments will submit the present treaty to the High Council of the Powers, as constituted by the League of Nations, according to Article 4, for the purpose of subsequent examination. Before this High Council the German plenipotentiaries are to enjoy the same rights and privileges as the representatives of the other contracting Powers of the present treaty. This council shall decide in regard to those condi-tions of the present treaty which impair the rights to self-determination of the German people and also in regard to the stipulation whereby the free economic development of Germany on a footing of equal rights is impeded.

The Government of the German Republic accordingly gives the declaration of its consent, as required by the note of June 16 1919, in the following

The Government of the German Republic is ready to sign the treaty of peace, without, however, recognizing thereby that the Germany people was the author of the war and without undertaking any responsibility for delivering persons in accordance with Articles 227 ato 230 of the treaty

Weimar, June 21, 1919.

BAUER. President of the Imperial Ministry.

In transmitting this to M. Clemenceau under date of Versailles, June 22, the temporary head of the German delegation added:

Accept, Mr. President, the expression of my consideration.

VON HANIEL.

The Allied and Associated Powers on June 22 made the following reply to the above:

The Allied and Associated Powers have considered the note of the German delegation of even date, and, in view of the shortness of time remaining, feel it their duty to reply at once. Of the time within which the German Government must make its final decision as to the signature of the treaty less than twenty-four hours remains. The Allied and Associated Governments have given fullest consideration to all representations hitherto made by the German Government with regard to the treaty, and have re-plied with complete frankness. They have made such concessions as they

thought it was just to make.

The present note of the German delegation presents no arguments or considerations not already examined. The Allied and Associated Governments, therefore, feel constrained to say that the time for discussion is past.

They can accept or acknowledge no qualification or reservation and must require of the German representatives an unequivocal decision as to their purposes to sign and accept as a whole, or not to sign and accept, the ty as finally formulated.

After the signature the Allied and Associated Powers must hold Germany responsible for the execution of every stipulation of the treaty.

On June 22, three notes, exchanges between the Allies and Associated Powers and Germany, were made public at Paris. The notes, one from the German Government dated June 19 and two from the Allies, dated June 21 were relative to clarifying some changes made in the revised treaty, making them correspond with statements in the Allied reply of June 16 to the German counter-proposals of May 29, and also relative to the confirmation of certain

concessions in the Allied reply of June 16, by their incorporation in a protocol annexed to the Peace Treaty.

The German note dated June 19, complaining of differences in the printed text of the treaty delivered on June 16 from that delivered May 7, and asking that certain concessions in the Allied note of June 16 be written into a protocol (to which demand in part the Allied and Associated Powers subsequently agreed) was signed by Count von Brockdorff-Rantzau, President of the German Peace Delegation, and was submitted through Dr. Haniel von Haimhausen. It reads:

The examination of the four documents submitted on June 1 to the Commissary General of the delegation brings out the fact that a certain number of concessions are announced in the letter and in the memorandum, which are not found in the text, as changed by hand. Among the most important of these contradictions the German delegation has selected the

(1) It is stated on Page 7 of the memorandum that as Germany is admitted to the League of Nations she shall enjoy the benefits resulting from the stipulations relative to the freedom of commerce and transit. other hand, it is stated on Page 42 of the memorandum that for the minimum period of five years unilateral conditions in the matter of commercial

relations would be imposed on Germany.

(2) It is stated on Page 11 of the memorandum that France will assume

the public debt of Alsace-Lorraine.

(3) It is stated on Page 14 that for the plebiscite in Upper Silesia there shall be created a Commission Independente, (French in the text,) while according to the new draft of the conditions this commission is to be appointed solely by the Allied and Associated Governments.

(4) It is stated on Page 16, on the subject of the territory of Memel, that the cession of this territory will take place under the form of a transfer to the Allied and Associated Powers because the status of the Lithuanian territories is not yet established. According to this provision Lithuania should be considered as the State to be the definite acquirer.

(5) According to Page 17 of the memorandum, the commission created for Heligoland by the Allied and Associated Governments is to decide what installations are to be maintained for the protection of the land.

(6) On Page 21 of the memorandum it is promised that the German railways and mines of Shantung shall not be considered as property of the

German State if the Germans can prove that they are private property.

(7) On Page 31 of the memorandum it is stated that the Allied and Associated Governments are ready to submit, within one month after the treaty goes into force, a definitive list of the Germans to be surrendered

(8) On Page 33 it is stipulated that the Reparations Commission cannot xact the surrender of secrets of manufacture or other confidential information. It is, moreover, stipulated that it shall have no executive power on German territory and that it shall not interfere in the direction or supervision of German establishments.

(9) On Pages 34 and following, of the memorandum, a special procedure is provided to fix and cover the reparation exacted from Germany.

(10) On Page 36 of the memorandum Germany is promised facilities for the importation of food and raw materials.

(11.) On Page 38 of the memorandum there are indicated, among the cases in which the granting of permission to export gold shall be considered, those in which the Reichsbank has furnished guarantees which it could

not satisfy in any other way.

(12.) On Page 53 of the memorandum the assurance is given that any liquidators appointed by the Allied and Associated Governments who shall be guilty of punishable acts shall be prosecuted in conformity with the

It is the duty of the German delegation to render an exact account to its Government and to the National Assembly, therefore it must know absolutely how far the enemy intends to give contract force to these concessions. It begs your excellency to confirm by writing the fact that the contents of the accompanying letter and the memorandum treating the above mentioned points constitute an integral part of the new peace propositions of the Allied and Associated Governments.

In this it would be sufficient to establish this fact in a final protocol to the text, on which the contracting parties could come to a previous agreement.

A doubt has also arisen concerning a second point when the docu-

ments submitted were examined.

The printed copy of the peace project submitted to us is different not alone in the matter of manuscript corrections and additions from the printed copy that the Chairman of the German delegation received on May

Trom the Secretary General of the Peace Conference.

By reason of the amount of work imposed on the delegation by the shortness of the time allowed for the examination, it has not yet been possible to compare word for word with this printed copy of May 7 this other single copy, which a great number of persons have had constantly to use.

I am therefore obliged to reserve for the delegation the right to make later communications on this subject. For the moment I call your attention to the following divergencies:

later communications on this subject. For the moment I call your attention to the following divergencies:

1. On Page 103 of the copy last sent, paragraph 2 contains a third alinea (section which begins with these words: "Each Government.") This alinea is lacking in the copy sent before.

2. On Page 104 the English text of Paragraph 12 is different in the different copies. The paragraph of the first copies has only one alinea, while in the last copy it is divided into two alineas, the second of which begin with these words: "The commission shall in general."

Naturally the German delegation cannot consider as definite the changes in the text which are not made by hand, or which, on the other hand, have not the evident character of additions, unless the Allied and Associated Governments confirm the fact that these divergencies are due to a falsely printed copy, not that they are the results of deliberate intention.

printed copy, not that they are the results of deliberate intention.

In the latter case the delegation requests that all the divergencies having

this character be announced to it before the expiration of the time limit granted to it to reach a decision. For reasons easily comprehensible, the delegation is obliged to attach the greatest importance to receiving an answer by return courier, if possible.

BROCKDORFF-RANTZAU.

In his reply to Dr. Haniel von Hainhausen, whose forwarding note was dated June 20, M. Clemenceau, addressing him as Temporary Chairman of the German Delegation at Versailles, said:

I have the honor of acknowledging receipt of your letter of June 20. In reply to this communication, the Allied and Associated Powers hasten to inform you that the 200 copies of the peace conditions sent to the German Delegation on June 19 are to be considered as the authentic text, containing all the corrections and modifications made in the printed text sent on May

7 1919; notably such changes and modifications as are the results of the

In a second explanatory note to the German Peace Delegation on the same day, M. Clemenceau said:

In your letter of June 20 you called the attention of the Allied and Associ-

ated Governments to certain points, upon which, according to the German delegation, there is a divergence between the text of the treaty and the memorandum sent to you on June 16 1919, in reply to the German observa-

I have the honor to inform you that the views of the Allied and Associated Governments on these different points are as follows:

The statement made on Page 7 of the memorandum, on the one hand, and on Pages 42 and 43 of the memorandum on the other, far from being

contradictory, are complementary.

The covenant of the League of Nations states that the members of the ague will make the necessary provisions to insure the guarantee and the League will make the necessary provisions to insure the guarantee and the maintenance of the freedom of communication and transit, as well as just treatment of the commerce of all the members of the League. When Germany is admitted into the League she will share the advantages of these stipulations with the other countries. But during the transition period following peace it is necessary to take into account the special conditions stated on Page 42 of the memorandum.

According to this statement, the obligations imposed on Germany have

the character of measures of reparation, and their maintenance for a period of five years, far from being incompatible with the principle of just treat-

ment is in view of insuring the application of this principle.

The power given to the League of Nations by Articles 280 and 37 will be exercised in accordance with the same principle and in conformity with the spirit and the text of the covenant of the League.

2. The memorandum states on Page 11 that "concerning the local debt

of Alsace-Lorraine and the public establishments of Alsace-Lorraine the Allied and Associated Powers have always agreed in understanding that France assumed them. Now, Article 55, combined with Article 255 of the treaty, is relative to the public debts of the "German Empire and States," and there is no clause exempting France from the payment of the local debt of Alsace-Lorraine. There is, therefore, no divergence between the memograndum and the treaty.

local debt of Alsace-Lorraine. There is, therefore, no divergence between the memorandum and the treaty.

3. The commission which has been provided for Upper Silesia, and which, according to Article XLV, of the treaty is to be appointed by the principal Allied and Associated Powers, is called in the memorandum a "commission independente—separate commission," in order to explain that it is a commission specially charged with the mission mentioned in the aforesaid Article XLV. It does not appear that there is in this matter any divergence whatever between the treaty and the memorandum.

4. The explanations given on Page 16 of the memorandum concerning Memel show no contradiction between the treaty and the memorandum.

5. Concerning the destruction of the fortifications of Heligoland, the principal Allied and Associated Powers intend, as they explained on Page 17

principal Allied and Associated Powers intend, as they explained on Page 17 of the memorandum, to appoint a commission to exercise this control, in conformity with the treaty. This commission will have the power to decide what part of the works protecting the coast against the erosion of the sea shall be kept, and what part shall be destroyed.

6. The Allied and Associated Powers think it their duty to point out that they have never declared that the German railways and mines of

Shantung shall not be considered as property of the German States, if the

Germans can prove that they are private property.

On the contrary, the Allied and Associated Powers consider them to be public property; nevertheless, if Germany can prove that her nationals hold shares in these enterprises, they shall receive the benefit of the general principles established in the treaty for such matters.

7. As stated on Page 31 of the memorandum, the Allied and Associated Powers intend to address to the German Government, within a month after the treaty comes into force, a list of the persons whom, in accordance with Article 228, Line 2, Germany is to surrender to the Allied and Associated

ated Powers.

8. The Allied and Associated Powers, as stated on Page 33 of the memorandum, have no intention of giving the Reparation Commission the authority to exact a revelation of secret of manufacture or other confidential information as to the exercise of executive power in German territory or interference in the direction or superintendence of German scholastic establishments. The treaty contains no stipulations giving such authority to the Reparation Commission.

9. On Page 34 and following of the memorandum the Allied and Associated Powers have not provided any special procedure to fix and cover the reparations exacted from Germany. The Allied and Associated Powers have given Germany the possibility of presenting for the examination of the said powers documents and propositions at the signing of the treaty and within the four following months with a view to hastening the work on reparations, thus greatly shortening the investigation and accelerating the decisions

10. Concerning the facilities considered on Page 36 of the memorandum 10. Concerning the facilities considered on Page 36 of the memorandum for the importation of food and raw materials into Germany, they are mentioned only "under reserve of certain conditions, and within limits that cannot be indicated in advance, and also under reserve of the necessity in which the Allied and Associated Powers find themselves of taking legitimate account of their own economic situation resulting from German aggression and from the war."

This cannot be considered as a promise to depart from the terms of the

This cannot be considered as a promise to depart from the terms of the treaty, but the expression of the intention of the Allied and Associated Powers to facilitate as far as possible the resumption of economic life in Ger-

11. The memorandum provided that the Reparation Commission should e "competent to grant to the Reichsbank whenever it shall see fit, the right to export gold, in case it is a question of guarantees that this bank has furnished and which could not be furnished by any other means."

This assertion is in perfect accord with the stipulations inserted in the treaty, Article 248, according to which, up to May 1 1921 the German Government shall be allowed neither to export gold nor to dispose of it, nor to permit gold to be exported or disposed of without the previous authorization of the Allied and Associated Powers represented by the

Reparation Commission.

12. The Allied and Associated States, which on Page 53 of the memorandum declared themselves ready to receive any information and proof that the German Government may be able to furnish on the subject of interested or fraudulent acts committed by persons charged with the liquidation of German property in the Allied and Associated States, will prosecute these persons in conformity with their own legislation, and, if ary, will impose penalties in every way conforming to the provisions of their national law.

Among the interpretations above given, those which, according to the Allied and Associated Powers may be considered as constituting an engage-ment, have been incorporated in the inclosed protocol, which the Allied and Associated Governments are disposed to annex to the treaty

(Signed) CLEMENCEAU.

The protocol referred to in the above Ailied note reads: "Firstly—A commission will be named by the Allied and Associated Governments to supervise the demolition of the fortifications of Helgoland in conformity with the treaty. The commission will be empowered to decide what part of the construction protecting the coast from erosion should be preserved and what part demolished.

"Secondly—The sums which Germany will have to refund to its citizens."

Secondly-The sums which Germany will have to refund to its citizens to indemnify them for interests they may be found to have in the railroads and mines, referred to in Paragraph II, Article 156, shall be placed to the

credit of Germany on account of the sums due for reparation."

(The protocol refers to German private interests in railroads and mines

in Shantung as distinct from German state interests.)
"Thirdly—A list of the persons whom, according to Article 228, Paragraph 2, Germany must surrender to the powers will be sent to the German government during the month following the putting into force of the

"Fourthly—The commission on reparations, provided for by Article 240 and Paragraphs 2, 3 and 4 of annex four, cannot exact divulgence of secrets of manufacture or confidential information.

"Fifthly-From the signature of peace and in the four months following, Germany will have an opportunity of presenting for the examination of the powers documents and propositions, with a view to hastening the work relating to reparations, thus shortening the investigation and hastening

"Sixthly—Prosecutions will be exercised against those committing criminal acts in connection with the liquidation of German property, and the powers will receive any information and proofs that the German government shall be in a position to supply on this subject.

#### SCENES IN FRANCE ON NEWS OF GERMANY'S AC-CEPTANCE OF PEACE TERMS-"KEEP POWDER DRY"-CLEMENCEAU.

News of the unconditional acceptance by Germany of the peace terms of the Allies on June 23 was enthusiastically received in Paris and throughout France, parades, cannonading and carnivals, giving tangible evidence of the joy with which the glad tidings were hailed. Premier Clmenceau's remarks upon receipt of the advices of Germany's reply are of special moment; "Keep your powder dry," he counseled, and in adding the caution "be careful," he said, "remind the world that it is living on a barrel of that pow-We give herewith the account of his reception of the news, as contained in the press dispatches from Paris on June 23:

"We have waited forty-nine years for this moment," exclaimed Premier Clemenceau at the meeting of the Council of Three this afternoon as he opened the fateful dispatch announcing that Germany would sign the

"For forty-nine years." he continued, "the mailed fist of the reiter (German trooper) who has governed Germany has menaced the world. Whether the man's name was Bismarck of William II., it was still the same reiter

of the Middle Ages, surrounded by soldiery and drunk with pride.

"Be careful: keep your powder dry. Be careful. Remind the world that it is living on a barrel of that powder. This writer's dogma was that might is right, that a State's only obligation is its own interest, that treaties do not exist when they clash with the interest of a State, and get rich by any means. We know from witnesses who were at the side of William II that when he learned of the Sarajevo tragedy he who posed as a keeper of

the peace cried:
"The hour has struck. Now we shall see what an army is."

This story of how the French Premier received the news was told at a dinner given to-night by the Economic Commission of the Conference in honor of the French delegation by Etienne Clementel, ex-Minister of Com-erce and Agriculture. The Minister concluded his speech with a eulogy of the League of Nations, which he said was "at present the world's hope."

"Towards this magnificent and impressive innovation," he said, "I ask you to direct all your thoughts and to uplift your hearts in this great act of faith, hope and love.

Herbert Hoover, Chairman of the Inter-Allied Food Commission, and Signor Crespi, a member of the Italian delegation, also spoke.

Clemenceau was congratulated on the result of the peace negotiations by his fellow-Ministers at a meeting of the French Cabinet to-day. Acceptance of the peace treaty by Germany was discussed at the meeting, which was presided over by President Poincaire.

In part the Associated Press had the following to say anent the celebrations incident to the news:

Celebrations over the German decision to sign the Treaty of Peace without reservations were nowhere more enthusiastic than at Lille and other cities and towns in territory wrested from the Germans. Newspapers printed special editions, cheering crowds paraded the streets and the houses were decked with Allied flags. At Toulon, Brest and other naval ports, were decked with Allied flags. At Toulon, Brest and other naval ports, warships announced the news to the people by firing salutes of twenty-one guns. In all the cities Government buildings were illuminated.

In Paris, the City Hall was brilliantly lighted, and in the square before it and in other open spaces jazz bands appeared and informal balls began only to be stopped by unsympathetic pollus, who declared that dancing was not authorized except on July 14. The news was announced in all theatres and motion-picture houses to-night, the bands striking up the Allied anthems amid the cheers of the audiences.

High carnival reigned in the boulevards far into the night, and scenes. enacted at the time of the armistice were repeated and, indeed, intensified Dense throngs swayed back and forth, shouting, singing and waving flags. Motor trucks loaded with American soldiers armed with every noise-producing element threaded their way through the masses. of packed cafes floated patriotic strains, the orchestras playing tirelessly urged on by the revellers. Women in mourning, to whom the official end of the war brought remembrances of those to whom the struggle had brought but wooden crosses, were observed here and there in the noisy crowds, ning silently

Long months of strain during the peace negotiations and weeks of doubt er Germany would accept the conditions offered or would invite by her refusal of them a further invasion of her country ended late this after-noon when the note announcing Germany's unconditional acceptance was delivered to the Supreme Council of the Conference.

The announcement during the early morning of the Council's decision to refuse a further extension of time in which Germany might answer began a day of extreme tension. It was generally known to the public and Con-

ference diplomats that only a few hours separated them from the momen tous decision. The first light came in a press dispatch from Weimar about noon stating that Germany had decided to yield, but nothing was heard from Versailles until soon after 3 o'clock p. m. A telephone message from Versailles then announced the arrival of the German reply, which it was known to a few was favorable. The first definite announcement, however, was made to American correspondents at the French press headquarters at Qual d'Orsay at 4.50 o'clock, it being stated that an affirmative reply had been delivered to Col. Henry, liaison officer between the Germans and the Peace Conference, who was bringing it to Paris by automobile.

It was not long after the reply had been received and opened before the Supreme Council that guns began to boom from the forts around Paris and rejoicing crowds began to stream through the streets, having been praised by the sound of cannon that the Germans had accepted the Allied Allied flags were flung out from windows. Automobiles, loaded

terms. Allied flags were flung out from windows. Automobiles, loaded with cheering doughboys and excited poilus, dashed through the thorough-fares. Church bells throughout the city were pealing everywhere and cheering, animated throngs gave evidence of the joy with which the Parisian crowds welcomed the end of the long years of agony and tension.

The celebration soon assumed a more tumultuous character and by 8 o'clock in the evening Paris seemed bent on indulging in an excited demonstration of joy. Bands of students had taken possession of the German trophy cannons, ranged on either side of Champs Elysees from the Arch of Triumph to Place de la Concorde, and were dragging them in a procession through the city, each cannon carrying its burden of cheering youths Special editions of newspapers, with huge captions. "Peace Has Come." Special editions of newspapers, with huge captions, "Peace Has Come, were snatched from newsellers by excited Parisians going home from work.

#### PREMIER CLEMENCEAU TO RESIGN WHEN PEACE IS PROCLAIMED.

The following Paris cablegram, dated June 24, appeared in the daily papers of June 25:

It is expected that Parliament will ratify the treaty late in July.

#### NOTE OF GERMAN PEACE DELEGATION ON INTER-NATIONAL LABOR AND REPLY OF ALLIED GOVERNMENTS.

In making public on June 1 the text of Germany's reply to the peace terms of the Allies, Acting Secretary of State Breckinridge Long at Washington at the same time gave out two notes on the subject of international labor legislation which passed between Count von Brockdorff-Rantzau and Premier Clemenceau. In his note Count von Brockdorff stated that "the German delegation takes note of the fact that the Allied and Associated Governments are of one mind with the German Democratic Government in believing that domestic peace and the advancement of humanity to be dependent on the solution of labor questions," points out that the German delegation "does not agree with the Allied and Associated Governments as to the ways and means of arriving at the solution." After a presentation of their views, Count von Brockdorff stated that "the German delegation again moves to call a conference of representatives of the National organizations of all trade unions before the negotiations of peace are terminated. Should this motion again be rejected," he continued, "an utterance of the leaders of the trade unions of all countries is at least necessary." In his reply Premier Clemenceau stated that the Allied and Associated Governments fail to find in Count von Brockdorff's letter "any useful guidance as to how the principles involved could in any case find definite expression in the peace treaty." Premier Clemenceau declared that "it is not correct to say that the demands raised by the International Trade Union Congress at Berne are disregarded," and the German delegates were advised that "the Allied and Associated Governments have already decided to accept the idea of early admission of German representatives, and to ask the Washington conference to admit them immediately thereafter to full membership and rights in respect to the industrial labor organization and the governing body attached thereto." The note of Premier Clemenceau further said that "at the present time active preparations are being made for the first meeting of the international labor organization in October" and that "it is obvious therefore that no need exists for interposing a labor conference at Versailles." The following is the note presented by Count von Brockdorff-Rantzau on behalf of the German delegation:

Sir.—In the name of the German delegation, I have the honor to acknowledge the receipt of your reply note, dated May 14 1919, which has been given us on our note concerning international labor legislation.

The German delegation takes note of the fact that the Allied and Associated Governments are of one mind with the German Democratic Government in believing peace and the advancement of humanity to be dependent on the solution of labor questions. The German delegation, however, does not agree with the Allied and Associated Governments as to the ways and means of arriving at the solution.

In order to avoid misunderstandings and false impressions, the German delegation deems it to be necessary to elucidate the fundamental conditions precedent underlying their note of May 10 1919.

In the opinion of the German Democratic Government, the final decision in questions of labor law and labor protection belongs to the workers them-It was the intention of the German delegation to give occasion, even while the negotiations of peace are proceeding, to the legitimate representatives of the working people of all countries of casting their vote on this point and bringing into conformity the draft of the conditions of peace, the proposal of the German Democratic Government and the resolutions of the international trade unions conference held at Berne from Feb. 5 to Feb. 9 1919. Contrary to this proposal, the Allied and Associated Governments do not think necessary to call a labor conference at Versailles for this

The International Labor Conference contemplated to be held at Washington, D. C., to which you refer in your reply note of May 14 1919, cannot replace the conference demanded by us, because it is to be held on the principles which are established by the draft of the treaty of peace for the organization of labor. The latter, however, disregards the demands raised by the international trade union conference in Berne in two material The first divergence is in respect to the representation of the workers. According to the proposal of the international labor conference at Berne, one-half of the members of the conference entitled to vote must consist of legal representatives of the workers of each country who are organized in trade unions. The German delegation has indorsed this proposal by transmitting the protocol of the International Trade Union Con-

ference at Berne

Contrary to this, the draft of the treaty of peace grants to the workers only one-quarter of the total vote at the International Conference, for, according to the draft of the Allied and Associated Governments, each country is to be represented by two Government delegates, one employer and only one worker. The Governments are in a position, according to Article 390 of the draft of the treaty of peace, to exclude the workers' vote by nominating an employer, and thus giving to Government bureaucrats the casting vote as against the representatives of practical life. This system is at variance with the democratic principles which to the pr day have been upheld and fought for in common by the whole international work people, and will deepen the impression held among the workers that they are, as before, furthermore, to be the object of legislation governed

the interest of private capital. The second divergence refers to the legally binding force of the resolutions of the conference. According to the resolutions of the International Trade Union Conference at Berne, the International Parliament of Labor is to issue not only international conventions without legally binding force, but also international laws which, from the moment of their adoption, are to have the same effect (legally binding force) as national laws, (proclamamations to the workers of all countries, adopted by the International Trade Union Conference at Berne, 1919, at the motion of Jousaux, the delegate from France). The draft of the German Democratic Government indorses this resolution and makes the passing of such laws depend on the assent of four-fifths of the nations represented. No such resolution can be passed by a conference which is called on the bas's of Part 13 of the draft of the treaty, but only recommendations or drafts which the Governments con-cerned may adopt or repudiate, and for such non-obligatory proposals a majority of two-thirds of the votes cast is even required.

In so providing, the draft of the conditions of peace deviates to such an extent from the resolutions of the International Trade Union Conference at Berne that a discussion and decision by the organization of labor, as part of the peace negotiations, is absolutely imperative. This would at the same time be in accordance with the demand raised by the International Trade Union Conference at Berne that the minimum claims of labor agreed upon, be, already at the conclusion of peace, turned into international law by the society of nations. Moreover, a firm foundation for the peace of the world shall be erected by this means, whereas a treaty concluded by the Governments alone without the assent of the organized workers of all

countries will never bring forth social peace to the world.

The Allied and Associated Governments give no place to these considerations in their reply. As have above been illustrated, the resolutions of the International Trade Union Conference at Berne in fact not taken into consideration by Part 13 of the draft of the treaty of peace, so that the fears expressed by the German Democratic Government with regard to social justice are in reality not taken into account. This fact must be noted. If we are apprised by the reply note that the representatives of the trade unions of the countries represented by the Allied and Associated Governments have taken part in the elaborations of the clauses of the conditions of peace relating to labor, we must on the other hand, make note of the fact that they have made no announcement of any kind notifying a change of their view on the resolutions of the International Trade Union Conference at Berne, much less of an abandonment of these resolutions which they sacredly have adopted.

The German delegation again moves to call a conference of representa-

tives of the national organizations of all trade unions before the negotiations of peace are determined. Should this motion again be rejected an utterance of the leaders of the trade unions of all countries is at least nece In moving this we desire to bring about that the provisions of the treaty of peace relating to labor may also have the approval of all trade union

organizations.

The following is the reply of the Allied Governments, dated

May 31 and signed by Premier Clemenceau: The President of the Peace Conference to Count Brockdorff-Rant zau:

Paris, May 31 1919.

-In the name of the Allied and Associated Governments I have the honor to acknowledge the receipt of your further note dated May 22 1919 on the subject of international labor legislation. (Conditions of peace, The reply is as follows:

1. The German delegation states the principle for the German National Government that to the wage-earners belongs the final decision in questions The Allied institutions hold it to be their duty to colloborate with labor in the formulation of such law. But the laws must be passed by

entatives of the whole community. 2. The Allied and Associated Governments draw attention to a misconception in the note to the German Government on May 22 1919, namely, that the views and interests of Governments must necessarily be antagonistic to those of labor. Accredited labor representatives now form some part of the genuine democratic Governments of the world, and the assumed antagonism is not likely to be found anywhere save in the case of Govern-

ents which are democratic only in name. 3. The Allied and Associated Governments fail to find in your letter any useful guidance as to how the principles involved could in any case find definite expression in the peace treaty. The labor organization which was submitted to representatives of labor can deal in a practical manner in any proposal put forward by any one of the affiliated members. rect to say that the demands raised by the International Trade Union Congress at Berne are disregarded, inasmuch as the points raised in these resolutions, as well as all other relevant considerations, were discussed and carefully considered, and for the most part are embodied in the preamble of Part 13 or in the general principles which are accepted to guide the League

of Nations, and the labor organization in the attainment of social justice There is manifestly no need for another conference to repeat those resolu-tions or to cause unnecessary confusion or delay by adding to or departing The widest publicity has been given to the plan of labor organization and the responsible trade union leaders have been given an ample opportunity to formulate definite suggestions.

 The Allied and Associated Governments have already decided to accept the idea of early admission of German representatives, and to ask the Washington conference to admit them immediately thereafter to full membership and rights in respect to the industrial labor organization and the

governing body attached thereto

While the resolutions passed by the Berne conference, February, 1919, gave expression to the wishes of the workers and defined their aspirations for the future, the Washington conference provides the means of giving effect to such of these aspirations as can be embodied in legislation without delay. and the labor organization will give opportunities for progress to others, in accordance with the guiding principles already mentioned. The Labor Commission, moreover, set up by the Peace Conference, envisaged all the points mentioned in your letter, as coming within the scope of the labor organization, including an international code of law for the protection of the seamen, to be especially drawn up with the collaboration of the seamen's union (copy annexed).

6. It also adopted a resolution (copy annexed) in favor of the organization

being given power as soon as possible to pass resolutions possessing the force of international law. International labor laws cannot at present be made operative merely by resolutions passed at conferences. The workers of one country are not prepared to be bound in all matters by laws imposed on them by representatives of other countries; international conventions as provided for under the peace treaty are therefore at present more effective than international labor laws, for the infringement of which no penal

ctions can be applied.

7. In reply to the statement as to the divergence from democratic principles, the proposal of the Allied and Associated Governments already pointed out, goes farther than that of the German proposition; for three-quarters of the delegates at the labor conference will directly and indirectly represent the wishes of the population generally, the two Governmental delegates representing the people at large and the labor delegates representing the workers directly; the employers of labor being granted a repre-resentation of only one-quarter. The theory of the German delegation that Article 390 of the draft may "exclude the workers" is wholly fallacious. as the so-called Governmental representatives, at least those of the Allied and Associated Powers, would be representatives of the people of those It is to be remembered that in many countries a very large part of the workers are engaged in agriculture, and that these workers are not generally united in industrial organizations, and it is therefore peculiarly apparent that their interests should be represented in labor conferences through the Governments.

8. Furthermore, the proposal of the German delegation would permit the prevention of the most beneficient legislation if it was opposed by one fifth of the Governments represented at the labor conference. It is of particular importance to notice that according to the proposal of the German delegation, each country in such a conference would have one vote, and thus the votes of Governments representing perhaps only an insignificant minority of the workers of the world would be able to defeat any proposal whatsoever. In striking contrast with this autocratic idea is the proposal of the Allied and Associated Powers, which not only permits voting in conferences to be by delegates and not by Governments, but also permits

a definite proposal to be made by two-thirds of the delegates.

9. At the present time active preparations are being made for the first eeting of the international labor organization in October. It is obvious therefore, that no need exists for interposing a labor conference at Versailles. Moreoever, the suggestion of the German delegation that the peace negotiations should be delayed in order to permit of another labor conference is contrary to the interests of the workers throughout the world, who are more interested than any one else in a return to peace as a relief from the conditions produced by four years of German aggression. The Allied and Associated Governments, taking account of this most just desire, are endeavoring not to postpone, but on the contrary to hasten the conclusion of peace and to secure the adoption of those measures of social amelioration which would doubtless have been adopted ere this had it not been that the commencement of the war by Germany turned the efforts and thought of the world's population toward a struggle for liberty, during which time other ideals were necessarily subordinated to that of freedom itself.

Annex One.—The commission considers that the very special questions to be accorded to seamen might be dealt with at a special meeting of the

International Labor Conference devoted exclusively to the affairs of seamen. Annex Two.—The commission expresses the hope that as soon as it may be possible an agreement will be arrived at between the High Contracting Parties with a view to endowing the international Labor Conference under the auspices of the League of Nations with power to take, under conditions to be determined, resolutions possessing the force of international law.

#### ATTITUDE OF AUSTRIA TOWARD PEACE TERMS.

It was announced on the 20th inst. that a fourth note to the Peace Conference protesting against the German-Austrian republic "being made the heir of all the responsibilities of the Austro-Hungarian Empire, of which it was the smallest, poorest, most peaceful and most liberal of States," had been sent to the Peace Conference by the Austrian delegation. The Associated Press advices from Paris on the 20th inst. also had the following to say regarding the note:

It points out that the time war was declared in 1914, the Foreign Minister, his two principal collaborators and almost all of Austria's Ambassa-dors were Hungarian, and maintains that the "responsibility for the war

is common to all the States forming the Empire that has vanished.

The note expresses confidence that the "spirit of justice of the conference

will not let the whole burden be thrown upon German-Austria.

The Austrian counter proposals are being completed by the transmission of notes daily to the Council of Five through the French mission.

The summary of the peace terms with Austria (in so far as they were then completed) was given in these columns June 7, page 2296, along with the speech of Dr. Karl Renner, the Austrian Chancellor and Chairman of the Austrian delegation, at the time of the presentation of the terms on June 20. (Certain clauses on military reparation, financial and boundary clauses not embodied in the peace terms submitted early in the month are still awaiting presentation). On June 10 it was stated that Dr. Renner had sent a letter to the Peace Conference complaining of the "hard conditions" imposed upon his country, which he said "is overwhelmed with despair," and pointing out the complexity of the Austrian frontier question. In its advices regarding this note the Associated Press said:

The Austrian note complains strongly against the dismemberment of Austria, particularly the separation of Bohemia and Tyrol. The note says that Austria cannot survive the loss of her industries. It is added that the Austrian delegation is prepared to send immediately observations on the territorial clauses of the peace terms.

Other protestations by Dr. Renner are reported as follows in Associated Press advices from Paris on June 17:

Vienna newspapers, according to dispatches reaching this city by the way of Basel, print dispatches from St. Germain stating that Dr. Karl Renner, head of the Austrian peace mission, in his note to the Peace Confecence, protests against the detachment of territory from German-Austria. He is reported to have declared that the new German-Austrian State would "form a second Alsace-Lorraine, doubly greater in size and condemned to remain without defence, a considerable part of the ancient nation being

subjected to much younger peoples."

"That domination," dispatches quote him as saying, "could never be supported by the former or exercised by the latter."

Dr. Renner is said to assert that the incorpation of territory of German-Austria in the Czecho-Slovak State is in contradiction to the principles proclaimed by the Allies themselves, and he points out, the dispatches say, that the German-Austrian State and the organization of the provinces was effected on the principle that the sovereign will of the people is the creative force of a State. Complaint is made that German States near the Alps would be deprived of defence and means of existence, their most important industries and most indispensable natural products being taken from

Vienna dispatches received here by the way of Basel say that Austrian newspapers publish dispatches from St. Germain saying that Dr. Renner has handed the Council of Five a memorandum drawn up by delegates from the German sections of Austria and setting forth the alleged injustice which "menaces 4,500,000 German-Austrians as the result of the proposed Peace Treaty." It is said that he has asserted that the setting of new States in the heart of Europe would "create another hot bed of war such as the Balkans have been."

According to these dispatches, Dr. Renner has also handed the Council a note covering territorial questions generally, in which he calls attention to "the great responsibility assumed by the Entente in submitting millions of German-Austrians to foreign domination." It is said that he has expressed the hope that the Conference will act on the suggestions contained in his memorandum relative particularly to the Tyrol, southern Carinthia, Styria and western Hungary.

Dr. Karl Seitz, President of Austria, was quoted as expressing himself on the peace terms on June 3 at Vienna

by the Associated Press as follows:

They surely are only proposals. What a terrible disappointment America is for me. This is driving me to despair. The terms are also bad for the Allies, as they mean the feeding of Bolshevism, against which we are helpless, especially from the Hungarians, who are meeting with new military successes. I have no power to enforce such terms upon the population of German-Austria and it will be dangerous for the man who signs

President Seitz is also reported to have declared that the terms if accepted would mean the death of Austria by starvation in his address opening the extraordinary session of the National Assembly at Vienna on June 7. According to the "Neues Abendblatt," a Vienna dispatch of June 4 said, the Austrian Government has decided unanimously the peace terms are unacceptable. On June 4, Basel advices said:

The Grand Council of German-Austria, which met on Tuesday under the chairmanship of President Seitz, adopted the report of Dr. Otto Bauer, the gist of which was that the peace presented to German-Austria by the Allies meant "the death sentence of the Austrian republic," according to

Vienna advices received here. It was reported from Zurich June 5, in a Vienna dispatch that the Austrian Government had decreed a three-day period of mourning in protest against the peace terms. Owing to the depression due to the peace conditions the Bourse Council at Vienna on June 4, it is said, decided to close for two days.

#### PRESIDENT WILSON ON BROADENING AND STRENG-THENING OF CO-OPERATION BETWEEN THE UNITED STATES AND FRANCE.

At a dinner given by President Poincare, of France, on June 26 to President Wilson and all the delegates to the Peace Conference, President Wilson, in responding to an address by M. Poincare, referred to the work of the Conference; stating that "we have finished the formulation of the peace; we have," he added, "begun a plan of co-operation which I believe will broaden and strengthen as the years go by so that this grip of the hand that we have taken now will never need to be relaxed." "Though the ocean is broad," said the President, "it will seem very narrow in the future. It will be easier to understand each other than it ever was before, and with the confident intercourse of co-operation the understanding will be strengthened into action, and action will itself educate alike our purpose and our thought." The following are President Wilson's remarks as reported in the Associated Press dispatches:

I thank you most sincerely for the words that you have uttered. I cannot pretend, sir, that the prospect of going home is not very delightful to me, but I can say with the greatest sincerity that the prospect of leaving France is very painful to me.

I have received a peculiarly generous welcome here, and it has been pleasing for me to feel that that welcome was intended not so much for myself as for the people whom I represented. And the people of France know how to give a welcome that makes a man's heart glad. They have a spontaneity about them, a simplicity of friendship, which is altogether delightful.

I feel that my stay here, sir, has enlightened both my heart and my mind. It has enabled me personally to see the evidence of the suffering and the sacrifices of France. It has enabled me to come into personal touch with the leaders of the French people, and through the medium of intercourse with them to understand better, I hope, than I understood before, the motives, the ambitions and the principles which actuate this great nation. It has, therefore, been to me a lesson in the roots of friendship in those things which make the intercourse of nations profitable and serviceable for all the rest of mankind.

Sometimes the work of the conference has seemed to go very slowly indeed. Sometimes it has seemed as if there were unnecessary obstacles to agreement, but as the weeks have lengthened I have seemed to see the profit that came out of that. Quick conclusions would not have produced that intimate knowledge of each other's minds which I think has come out of these daily conferences.

We have been constantly in the presence of each other's minds and motives and characters, and the comradeships which are based upon that sort of knowledge are sure to be very much more intelligent not only but to breed a much more intimate sympathy and comprehension than could erwise be created.

These six months have been six months which have woven new fibres of connection between the hearts of our people, and something more than friendship and intimate sympathy has come out of this intercours

Friendship is a very good thing. Intimacy is a very enlightening thing. But friendship may end with sentiment. A new thing that has happened is that we have translated our common principles and our common purposes into a common plan. When we part we are not going to part with a finished work, but with a work one portion of which is finished and the other portion of which is only begun.

We have finished the formulation of the peace, but we have begun a plan of co-operation which, I believe, will broaden and strengthen as the years go by, so that this grip of the hand that we have taken now will never need to be relaxed. We have been and shall continue to be comrades. We shall continue to be co-workers in tasks which, because they are common, will weave out of our sentiments a common conception of duty and a common conception of the rights of men of every race and of If it be true that that has been accomplished, it is a very great thing.

As I go away from these scenes, I think I shall realize that I have been present at one of the most vital things that has happened in the history of nations. Nations have formed contracts with each other before, but they never have formed partnerships; they have associated themselves temporarily, but they have never before associated themselves permanently.

The wrong that was done in the waging of this war was a great wrong, but it awakened the world to a great moral necessity of seeing that it was necesary that men should band themselves together in order that such wrong should never be perpetrated again.

Merely to beat a nation that was wrong is not enough.

low the warning to all other nations that would do like things that they in turn will be vanquished and shamed if they attempt a dishonorable purpose.

You can see, therefore, sir, with what deep feelings those of us who must now for a little while turn away from France, shall leave your shores and though the ocean is broad, it will seem very narrow in the future. It will be easier to understand each other than it ever was before, and with the confident intercourse of co-operation the undertsanding will be strengthened into action, and action will itself educate alike our purpose and our thought.

So, sir, in saying good-bye to France I'm only saying a sort of physical good-bye, not a spiritual good-bye. I shall retain in my heart always the warm feeling which the generous treatment of this great people has generated in my heart. And I wish in my turn, sir, to propose, as you have proposed the continued and immediate fraints that the continued continued to the continued posed, the continued and increasing friendship of the two nations, the-safety and prosperity of France, and closer and closer communion of free peoples, and the strengthening of every influence which instructs the mind and the purpose of humanity.

#### PRESIDENT WILSON ON INTERNATIONAL LAW-STEADINESS OF PURPOSE IN EMBARKING ON UNCHARTERED SEAS.

The future role of international law in the development of the new order of things was touched upon in a brief speech made by President Wilson in Paris on May 9 at a dinner of the International Law Society Association, of which Sir Thomas Barclay is President. Referring to the new League of Nations President Wilson noted that "we are starting out on unchartered seas, and therefore we must have, . . . the steadiness of purpose which is necessary in such novel circumstances." As one of the things which has disturbed him the President referred to the hope entertained by men everywhere "of immediate emancipation from the things that have hampered and oppressed them." "You cannot in human experience," he said, "rush into the light. You have to go through the twilight into the broadening day before the noon comes and the full sun is on the His remarks in full follow:

Sir Thomas and Gentlemen: I esteem it a very great pleasure to find myself in this distinguished company and in this companionship of letters. Sir Thomas has been peculiarly generous, as have the gentlemen at the other end of the table, in what they have said of me, but they have given me too It is particularly difficult to believe one's self high a role to play up to. to be what has been described in so intimate a company as this. great body of people is present, one can assume a pose which is impossible when there is so small a number of critical eyes looking directly at you.

And yet there was one part of Sir Thomas's generous interpretation which was true. What I have tried to do, and what I have said in speaking for America, was to speak the mind of America, to speak the impulse and the principles of America. And the only proof I have of my success is that the spirit of America responded—responded without stint or limit—and proved that it was ready to do that thing which I was privileged to call upon it to

And we have illustrated in this spirit of America something which perhaps may serve as a partial guide for the future.

May I say that one of the things that has disturbed me in recent months is the unqualified hope that men have entertained everywhere of immediste emancipation from the things that have hampered and oppressed them. You cannot in human experience rush into the light. You have to go through the twilight into the broadening day before the noon comes the full sun is on the landscape; and we must see to it that those who hope are not disappointed, by showing them the processes by which that hope must be realized—processes of law, processes of slow disentanglement from the many things that have bound us in the past.

You cannot throw off the habits of society immediately any more than you can throw off the habits of the individual immediately. They must be slowly got rid of, or, rather, they must be slowly altered. They must be slowly adapted, they must be slowly shapen to the new ends for which we would use them. That is the process of law, if law is intelligently con-

I thought it a privilege to come here to-night, because your studies were devoted to one of the things which will be of most consequence to men in the future, the intelligent development of international law. In one sense, this great, unprecedented war was fought to give validity to inte law, to prove that it has a reality which no nation could afford to disregard; that, while it did not have the ordinary sanctions, while there was no international authority as yet to enforce it, it nevertheless had something behind it which was greater than that, the moral rectitude of mankind.

If we can now give to international law the kind of vitality which it can have only if it is a real expression of our moral judgment, we shall have com-pleted in some sense the work which this war was intended to emphasize.

International law has perhaps sometimes been a little too much thought out in the closet. International law has (may I say it without offense?) been handled too exclusively by lawyers. Lawyers like definite lines. They like systematic arrangements. They are uneasy if they depart from what was done yesterday. They dread experiments. They like chartered seas and, if they have no charts, hardly venture to undertake the voyage.

Now we must venture upon unchartered seas, to some extent, in the

future. In the new League of Nations we are starting out on unchartered seas, and therefore we must have, I will not say the audacity, but the steadiness of purpose which is necessary in such novel circumstances. And we must not be afraid of new things, at the same time that we must not be intolerant of old things. We must weave out of the old materials

the new garments which it is necessary that men should wear.

It is a great privilege if we can do that kind of thinking for mankindhuman thinking, thinking that is made up of comprehension of the needs of mankind. And when I think of mankind, I must say I do not always think of well-dressed persons. Most persons are not well dressed. The heart of the world is under very plain jackets. The heart of the world is at very simple firesides, the heart of the world is in very humble circumstances; and, unless you know the pressure of life of the humbler classes you know nothing of life whatever. Unless you know where the pinch comes you do not know what the pulse has to stand, you do not know what strain the muscles have to bear, you do not know what trial the nerves have to go through to hold on.

To hold on where there is no glee in life is the hard thing. Those of us who can sit sometimes at leisure and read pleasant books and think of the past, the long past, that we have no part in, and project the long future—we are not specimens of mankind. The specimens of mankind have not time to do that, and we must use our leisure when we have it to feel with them and think for them, so that we can translate their desire into a fact, so far as that is possible, and see that that most complicated and elusive of all things which we call justice is accomplished. An easy word to say, and a noble word upon the tongue, but one of the most difficult enteres of the human spirit.

It is hard to be just to those with whom you are intimate; how much harder it is to conceive the problems of those with whom you are not intimate, and be just to them. To live and let live, to work for people and with people, is at the bottom of the kind of experience which must underlie

The sympathy that has the slightest touch of condescension in it has no touch of helpfulness about it. If you are aware of stooping to help a man, you cannot help him. You must realize that he stands on the same earth with yourself and has a heart like your own, and that you are helping him, standing on that common level and using that common impulse of hu-

In a sense the old enterprise of national law is played out. I mean that the future of mankind depends more upon the relations of nations to one another, more upon the realization of the common brotherhood of mankind, than upon the separate and selfish development of national systems of law; so that the men who can, if I may express it so, think without language, think the common thoughts of humanity, are the men who will be most serviceable in the immediate future.

God grant that there may be many of them, that many men may see this hope and wish to advance it, and that the plain men everywhere may know that there is no language of society in which he has no brothers or colabor-ers, in order to reach the great ends of equity and of high justice.

#### PRESIDENT WILSON'S DISCLAIMER THAT AMERI-CANS ARE DOLLAR WORSHIPPERS-PRESEN-TATION OF MEDAL BY FRENCH ACADEMY.

In addressing the French Academy of Moral and Political Sciences at Paris on May 10, of which he was elected a foreign associate last year, President Wilson observed that the United States came into the war in the cause of liberty, adding:

Whenever we see the cause of liberty imperiled we are ready to cast our lot in common with the lot of those whose liberty is threatened. That is the spirit of the people of the United States.

The brief accounts of his speech from Paris on the 10th supplemented by later advices in Associated Press cablegrams May 12 in which it became known that during the course of his remarks he had taken occasion to dispel the idea that Americans were largely materialists, or dollar worshippers. We give as follows what he had to say as reported in the Associated Press advices of the 12th:

"I have had in recent months one very deep sense of privilege. I have been keenly aware that there have been times when the peoples of Europe haven't understood the people of the United States. We have been too

often supposed to have been devoted chiefly, if not entirely, to material enterprises. We have been supposed, in the common phrase, to worship the Almighty Dollar.

We have accumulated wealth, Sir; we have devoted ourselves to n enterprises with extraordinary success, but there has underlain all of that, all the time, a common sense of humanity and a common sympathy with the high principles of justice, which has never grown dim in the field even of enterprise; and it has been my very great joy in these recent months to interpret the people of the United States to the people of the world.

"I have not done more, Sir. I have not uttered in my public capacity my own private thoughts. I have uttered what I have known to be the thoughts of the great people whom I represent. I have uttered the things that have been stored up in their hearts and purpose from the time of our birth as a nation.

It was at this point that the President made his declaration that the American people, who came into the world consecrated to liberty, were ready to cast in their lot in common with the lot of those whose liberty was threatened whenever the cause of liberty was seen to be imperiled.

"This is the spirit of the people of the United States," he continued, "and they have been privileged to send 2,000,000 men over here to tell you so. It

has been their great privilege not merely to tell you so in words, but to tell you so in men and material—the pouring out of their wealth and the offer-

President Wilson alluded to his studies in the field of political science and to the attempts he had made "to put into the words of learning the thought

of a nation, the attitude of a people towards public affairs."

"A great many of my colleagues in American university life," he continued, "got their training, even in political science, as so many men in civil circles did, in German universities. I have been obliged at various times to read a great deal of bad German, difficult German, awkward German, and I have been aware that the thought was as awkward as the phrase, that the thought was rooted in a fundamental misconception of the State and of the political life of peoples. And it has been a portion of my effort to disengage the thought of American university teachers from the misguided instruction which they had received on this side of the sea. Their American spirit anticipated most of them, as a matter of course, but the form of the thought sometimes misled them. They speak oo often of the State as a thing which would ignore the individual, as a thing which was privileged to dominate the fortune of men by a sort of inherent and sacred authority.

"Now, as an utter democrat, I have never been able to accept that view of the State. My view of the State is that it must stop and listen to what I have to say, no matter how humble I am, and that each man has the rig have his voice heard and his counsel heeded, in so far as it is worthy of

"I have always been among those who believe that the greatest freedom of speech was the greatest safety, because if a man is a fool the best thing to do is to encourage him to advertise the fact by speaking. It cannot be so easily discovered if you allow him to remain silent and look wise, but if you let him speak, the secret is out and the world knows that he is a fool.

'So it is by the exposure of folly that it is defeated; not by the seclusion of folly, and in this free air of free speech men get into that sort of communication with one another which constitutes the basis of all common achievement. France, through many vicissitudes and through many bitter experiences, found the way to this sort of freedom, and now she stands at the ont of the world as the representative of constitutional liberty.

An incident of the President's speech was the presentation to him of a specially struck gold medal. The rules of the Academy require that each member must spend one hour in the building of the Academy in order to perfect his membership. President Wilson, therefore, decided to go to the Academy between 1.45 and 2.45 o'clock in the afternoon of the 10th.

#### LEAGUE OF NATIONS AN OUTGROWTH OF MONROE DOCTRINE, SAYS PRESIDENT WILSON.

Speaking at a dinner given by the Pan-American peace delegation in honor of Dr. Epitacio Pessoa, Presidentelect of Brazil, on May 27, President Wilson said the League of Nations was indirectly an outgrowth of the bonds between the American nations. He referred to the Monroe Doctrine and to suggestions that had once been made to broaden the principle of non-aggression on the American hemisphere. He remarked that while the United States had undertaken to be champion of America against aggression from Europe, it gave no assurance that it would itself never be an aggressor. "What I wanted to do," said the President, "in the proposals made to other American States, was to give our bond that they were safe against us and any illicit ambition we might entertain—as safe as far as any power of the United States could secure them against foreign na-Mr. Wilson added that he regretted the proposals were not at that time accepted, but said that the impulse to which the peoples of the American continent have contributed have now led to a pledge on the part of all selfgoverning nations of the world that they would be friends and would take pains to secure each other's safety, independence, and territorial integrity. From the Associated Press accounts we quote the President's remarks as follows:

The honor has been accorded me of making the first speech to-night, and I am very glad to avail myself of that privilege. I want to say that I feel very much at home in this company, though, after all, I suppose no one of us feels thoroughly at home except on the other side of the water. feel in a very real sense that we have a common home because we live in the atmosphere of the same conceptions, and, I think, with the same political ambitions and principles.

I am particularly glad to have the opportunity of paying my respects o Mr. Pessoa. It is very delightful, for one thing, if I may say so, to know that my Presidency is not ahead of me and that his Presidency is ahead of him. I wish him every happiness and every success with the greatest earnestness, and yet I cannot, if I may judge by my own experience, expect for him a very great exhilaration in the performance of the duties of his office. Because, after all, to be the head of an American State is a task of unrelieved responsibility. American Constitutions, as a rule, put so many duties of the highest sort upon the President, and so much of the responsibility of affairs of state is centred upon him, that his years of office are apt to be years a little weighted with anxiety, a little burdened with the sense of the obligation of speaking for his people, speaking what they really think, and endeavoring to accomplish what they really desire.

I suppose no more delicate task is given any man than to interpret the feelings and the purposes of a great people. I know that, if I may speak for myself, the chief anxiety I have had has been to be the true interpreter of a national spirit, expressing no private and peculiar views, but trying to express the general spirit of a nation. And a nation looks to its President to do that; and the comradeship of an evening like this does not consist merely of the sense of neighborhood. We are neighbors. We have always been friends. But that is all old. Something new has happened. I am not sure that I can put it into words, but there has been added to the common principles which have united the Americas time out of mind a feeling that the world at large has accepted those principles, that there has gone a thrill of hope and of expectation throughout the nations of the world which somehow seems to have its source and fountain in the things we always believed in. It is as if the pure waters of the fountains we had always drunk from had now been put to the lips of all peoples, and they have drunk

And it is a delightful thought to believe that these are fountains which sprang up out of the soil of the Americans. I am not, of course, suggesting or believing that political liberty had its birth in the American hemisphere, because, of course, it had not, but the peculiar expression of it, characteristic of the modern times, that broad republicanism, that genuine feeling and practice of democracy, that is becoming characteristic of the modern world did have its origin in America, and the response of the peoples of the world to this new expression is, we may perhaps pride ourselves, a response to

an American suggestion.

an Alectron suggestion.

Bif that is true we owe the world a peculiar service. If we originated practices we must ourselves be worthy of them. I remember not long ago attending a very interesting meeting which was held in the interest of combining Christian missionary effort throughout the world. I mean aliminating the rivalry between churches and agreeing that Christian mis-sionaries should not represent this, that or the other church, but represent the general Christian impulse and principle of the world. I slad I was thoroughly in sympathy with the principle, but that I hoped if it was adopted that the inhabitants of the heathen countries would not come to look at us, because we were not outselves united, but divided, that while we were asking them to unite we ourselves did not set the example.

My moral from that recollection is this: We, among other friends of liberty, are asking the world to unite in the interest of brotherhood and mutual service and the genuine advancement of individual and corporate

liberty throughout the world, therefore we must set the example.

I will recall here to some of you an effort that I myself made some you ago soon after I assumed the Presidency of the United States, to do that very thing. I was urging the other States of America to unite with the United States in doing something which very closely resembled the forma-tion of the present League of Nations. I was ambitious to have the Ameri-cas for the thing first and set the example to the world of what we are now about to realize. I had a double object in it, not only my pride that the Americas should set the example and show the genuineness of their principles, but that the United States should have a new relation to the other The United States upon a famous occasion warned the Govern ments of Europe that it would regard it as an unfriendly act if they tried to overturn free institutions in the Western Hemisphere, and to substitute their own systems of Government, which, at that time, were inimical to those free institutions; but while the United States thus undertook of its own motion to be the champion of America against such aggressions from Europe, it did not give any conclusive assurance that it would never itself be an aggressor. What I wanted to do in the proposals to which I have just referred was to offer to the other American States our own bond that they were safe against us and any illicit ambitions we might entertain as well as safe, so far as the power of the United States could make them against foreign nations.

Of course, I am sorry that happy consummation did not come, but, after all, no doubt the impulse was contributed to by us which has now led to a sort of mutual pledge on the part of all the self-governing nations of the world that they will be friends to each other, not only, but that they will take pains to secure each others' safety and independence and terri-

torial integrity.

No greater thing has ever happened in the political world than that and I am particularly gratified to-night to think of the hours I have had the pleasure of spending with Mr. Pessoa as a member, along with him, of the Commission on the League of Nations which prepared the Covenant which was submitted to the Conference. I have felt as I looked down the table and caught his eye, that we had the same American mind in regard to the business, and when I made suggestions or used arguments that I felt were characteristically American, I would always catch sympathy in his eyes; when others perhaps did not catch the point at once, he always caught it, because, though we were not bred to the same language literally, we were bred to the same political language and the same political thought, and our ideas were the same.

It is therefore with a real sense of communication and of fellowship and of something more than neighborly familiarity that I find myself in this congenial company, and that I take my part with yoy in paying my tribute and extending my warmest best wishes to the great country of Brazil and to the gentleman who worthily represents her in her Presidential chair.

I ask you to join with me in drinking the health of the President-elect of Brazil

Dr. Pessoa, in his address, said:

One and the same ideal brings us together—that of American solidarity for peace, right, justice, work, order, and concord—which are the eternal foundations upon which rests the balance of the world. One of my dearest ambitions in the office to which I have been called by the generosity of my fellow citizens will be to strive for the intangible continuity of work for American concord. In the vast work of solution which is at hand as a result of the great commotion which we have all witnessed, the preponderant part will fall upon America as the unfathomable source of the forces

America, after having used for her emancipation that which was most practicable and noble to be secured from Europe, will in turn become a powerful factor in the work of civilization and progress which synthesizes all the happiness of mankind. Closely united and firmly a tached to the ideals of American solidarity, let us set to work with other peoples in keeping a brotherly spirit for the advent of this new era in which some day a happier life will open on a better world. Such a dream of happiness is no Utopia, for after the catastrophe which has shaken the world to its foundations we may be allowed to believe in the dawn of a long period of peace, where men, even without having accomplished Evangelical ideals,

will lead us in believing in the fraternity of peoples. If this be a dream, may I at this moment be allowed to suppose that it foreshadows good for the future.

#### A. C. MILLER ON PRESENT PRICE OUTLOOK AND AFTER-WAR ADJUSTMENT.

Elsewhere we give an extract from an address delivered in Pittsburgh on June 6 by A. C. Miller of the Federal Reserve Board, with reference to the "Mobilization of Our Resources for Europe's Use." The theme of Mr. Miller's address was "After-War Adjustment: The Present Price Outlook." and on this point he spoke in part as follows:

The expectation that prices would drop and go on dropping was expressed by competent students at the time of the armistice and was shared by many business men. Such had been our experience after the Civil War. Indeed, some, who had in mind that experience, feared that the decline of prices might proceed so rapidly as to be disturbing. Prices dropped some 30% in the first six months of the year 1865. This fact suggested that at least a considerable decline might not unreasonably be expected in the United States following the close of the great war. Such, moreover, has been a very common feature of the aftermath of other great wars.

There seemed to be justification, therefore, for the expectation that prices in Europe and the United States would begin to fall with the turn of the year 1918. The only question was how rapid would be the decline and how long continued. The operation of natural economic forces, and par-ticularly the devotion of the productive energy and resources of the different belligerent countries to peace industries, was expected to do much to relieve shortages which were in part responsible for the momentous price changes induced by the war. The fact that fifty million men or more were to be released from armies and from war work led to the belief that there would be a quick resumption of industrial activity in Europe and increased production of goods and resulting declines in values and prices. This conclusion also seemed to be the logical consequence of the general acceptance of the view that the price situation, which had developed throughout the world as a result of war conditions, was highly artificial and highly inflated.

Whatever differences of opinion may have existed during the war as to the cause or causes of the revolutionary advance of prices experienced, it is now coming to be more and more clearly recognized and frankly admitted that the chief factor in the price revolution is to be attributed to the enormous increase in the volume of circulating credit, bank notes and governments.

ment currency put out in the past four and a half years.

The situation in the United States is coming to be so well understood that no extended reference to it is necessary. It is well known that in our five Liberty Loan campaigns the Treasury has been obliged to borrow from the community and issue Government obligations more rapidly than the comparative rate of savings by the people would support, with the result that a considerable part (perhaps as much as seven billions of dollars) of the several sues of bonds made by the Government have been financed by an expansion of banking credit, and, to the requisite degree, of banking currency.

sion of banking credit, and, to the requisite degree, of banking currency. It is coming to be recognized that our banking and financial situation can never be as healthy and strong as it should be until the banks are relieved of the burden of carrying such large investments, either for themselves or for their customers, in Liberty Bond operations. This means that such parts of the community as have not yet done their full part in absorbing and digesting the government issues, must by one method or another be induced or made to save and pay up, or buy. Those who believed that this process would be rapid, and they were many, and that the Government would soon disappear from the market as a competitor for current loan funds, expected as a natural consequence that the volume of our circulating bank credit and currency would shrink and that with the shrinkage would come a lowering of the price level. come a lowering of the price level.

Other countries, it was thought, would move along the same general course as the United States, though of necessity more slowly because of their continuing financial difficulties. A reduction in the volume of circulating media of one kind or another was, however, regarded as such an essential part of good financial policy in the process of post-war readjust-

ment that this reduction was taken almost as a certainty.

The feeling of caution and hesitation, which characterized the temper of the American business community at the close of the war, was the natural outgrowth of this expectation of the probable future course of prices. It well known that this view was shared by an important agency of the Government, which was set up for the special purpose of assisting the expected downward course of prices by gradual and orderly price revisions. By mediating the transition from war prices to peace prices, the Industrial Board of the Department of Commerce undertook to bring about the resumption of industry and its adjustment to anticipated conditions more quickly than if left to the unassisted working of natural economics forces. Price stabilization was expected to bring buyers into the market, particularly for basic materials required in construction work and thus to accelerate the process of industrial readjustment and improve the employment situation. The abandonment of this policy by the voluntary retirement of the Industrial Board and other steps that have been taken toward decontrol of industry have left the process of readjustment pretty much to the unimpeded action of the market.

The movement since the armistice is interesting. For the first month or two there was little or no change; with the opening of the year 1919, prices moved downward, though slowly; toward the end of March the downward trend halted and with the beginning of April there is a notice-able upward trend—most marked in the retail trades and those manufacturing trades which are closely auxiliary to the leading retail trades (such as the textiles, clothing, boot and shoe trades), but with some evidence recently that it might develop into a more general forward movement. At the moment, prices are close to the war level and, in many instances,

moving forward.

Many questions are raised by the behavior of prices since the armistice. Is the recent forward trend to be regarded as indicative of the probable future course of prices, or is the advance to be regarded as accidental and temporary and as merely marking an interruption of the expected down-These questions, of course, can not be answered with pe ward trend? tiveness. The factors which influence the price situation and to which it is responsive, even under normal conditions are so diverse and frequently so obscure that the resultant is always a matter of great uncertainty. The unexpected is apt to supervene and destroy the validity of even the most carefully considered forecast. As a result of the war, the price situation in all parts of the world has become so vastly complicated that conjecture is perforce a much more hazardous undertaking than usual, particularly if any attempt is made to deduce general conclusions from tendencies discernible only in particular industries or groups of industries, so subtle and exceptional are the influences now at work in different fle of industry.

#### Price Situation Clarifying

However hazardous the undertaking, it seems nevertheless worth while to direct attention to some of the underlying factors which seem now to be nerging and which seem likely to exercise an important bearing upon the future trend of prices, looking forward:

(1) to a period of some years, during which the general readjustment of the world's industry and trade is being worked out; and,

(2) to a briefer period of a year or more, during which Europe will be in the first stages of her reconstruction.

All business calculations run in terms of price. Business judgments are All business calculations run in terms of price. Business judgments are for the most part price judgments. Raw materials, labor, fuel, and the other requisites of production are bought at prices; they are converted into goods to be sold at prices. Unless the prices at which the requisites of production are bought and the products are sold are fairly calculable and a satisfactory margin of profit shown between them, the attitude of business will be hesitant. Falling prices are, therefore, obviously to be regarded as an addition to the ordinary hazards of industry. It is therefore a question of vital concern to inquire whether the price situation has clarified itself sufficiently to suggest some expectation of what may be the future pricetrend.

Until Europe recovers industrially and brings its productive capacity up to what will be normal for its decimated population, no considerable or rapid fall of commodity prices is, in my opinion, to be expected. Indeed, until the point is reached where the process of recovery is well under way, a rise of prices rather than a fall is to be expected. Should the eventual outcome show what some have often predicted that the war has given an added impulse to the inventive spirit and to the instinct of thrift, the resulting increase in production and savings would have an important effect in hastening the readjustment of prices. It cannot be too strongly empha-sized that it is only as more goods are produced in exchange for the inflated currencies of the world, or more income saved from earnings and used for the purpose of liquidating loans and advances made by the banks, that the financial and credit situation will gradually be improved by the reduction of outstanding bank liabilities and prices respond by a gradual fall. How long it may take the movement, as thus defined, to run its course, no can predict.

one can predict.

It is a matter of common knowledge that it was fourteen years before the currency disorders growing out of the Civil War were measurably corrected and the greenback dollar brought to a parity with gold. It took Europe fifteen years to effect the restoration of public credit, reorganization of currency and banking, and the readjustment of industry to a stable basis, after the close of the Napoleonic wars. Considering the vast reach of the reasont war, which on it economic side has not yet closed, and constitutions. basis, after the close of the Napoleonic wars. Considering the vast reach of the present war, which on it economic side has not yet closed, and considering the great destruction of industrial and financial capital, the terrible disorganization of industry, and the impairment of the morale of the working forces of Europe, there seems little reason to expect that the process of reconstruction and readjustment, first the one and then the other, through which Europe is about to pass, will be short or easy. Ten years would seem, on the whole, a short period in which to expect a restoration of economic conditions in Europe to a normal basis and the rectification of the price situation.

It may well turn out to be the judgment of history, when the record of these remarkable years is written and the transformations, set in motion by Germany's onslaught on the structure of civilization in 1914, are complete, that the most momentous consequence of the war will prove to have been the economic and social revolution which it set agoing. There are been the economic and social revolution which it set agoing. There are people who believe that we are now in the midst of such a revolution and that when the emergence is finally complete, the world will be under the dominion of a very different economic and social order from that which seemed secure in its foundations only five years ago.

Obviously, if some thoroughgoing changes in the fundamentals of the economic and social system of the Western world have got to be reckoned with in the process of economic readjustment and reconstruction, it might

well be expected that a very considerable period of time will elapse before anything like a settled and stable working order will have been evolved. Indeed, such a process could only by a euphemism be described as readjustment. There would be too little left in it of old ways of doing things and old points of view. It would then be a veritable reconstruction.

I do not, for my own part, look for any such far-reaching overturn in the established order. The world may be passing through a revolution in thought, and possibly in spirit, but that is a very different thing from a

revolution in social and economic institutions.

Every day is making it clearer and clearer that our own country has been extensively and profoundly altered both in economic capacity and in its outlook, and that its position and relation to other countries of the world have experienced a like change. It has become a commonplace that we have become a creditor nation and a world-banker—the most potent single force in the reconstruction of the world's finances. For the most part, finance merely reflects; it is not itself, in any important sense, a cause. The change in our financial relationship to the world is, therefore, to be rise change in our financial relationship to the world is, therefore, to be regarded merely as a reflection and measure of the momentous changes which have taken place in our economic position. Unavoidably and without our seeking, we are to have a larger part than ever before in the alimentation of the world and its industries. We are to have a larger part in the shipping of the world. We are to have a larger part in supplying, out of our own vast resources, a world which has been wasting almost to the point of exhaustion its supply of basic materials. The world is dai'y becoming more conscious of its dependence upon us, and we, ourselves, are coming to a new consciousness of our vast resources and productive capabilities. It is these that, in the long run, determine the relative positions of countries in the organization of international trade and industry. No one, therefore, can say offhand or in advance to what extent a redistribution of industries is to take place among the different countries.

The nearest analogy to the catastrophe through which the world is now moving is supplied by the Napoleonic Period and the restoration. For a period of 22 years, beginning shortly after the French Revolution, international commerce and industry were thrown out of gear almost completely In the meantime a revolution took place in industry associated with the invention of the steam engine and many mechanical appliances in the textile and metal trades, which marked this period as the beginning of the modern era in industry. Great changes were found, when peace was established in 1815 to have taken place in the economic capacities of the several nations which required that a new adjustment of international trade and industry should be worked out under which each nation would find its new position. It took fifteen years before the several nations had finally found their places in the new international economic order and things settled down to something which could be regarded as a stable The fifteen years from 1815-30 are suggestive of what the world may now have to go through before a stable basis is reached in industry and commerce and prices are readjusted. They were years of uncertainty, years of commercial rivalry, years of economic difficulty, years of fluctuating price levels and characterized by alternations of periods of intense and feverish activity in trade and industry with periods of sharp reaction, depression and frequent unemployment, sometimes intensified by conditions of crisis or panic.

The general outlook, therefore, may be said to be for a gradual fall of prices during the next ten years or longer, depending mainly upon how rapidly Europe will recover her productive power and correct her currency disorders by deflating her distended currency.

#### A. C. MILLER ON MOBILIZATION OF OUR RESOURCES FOR EUROPE'S USE.

According to A. C. Miller of the Federal Reserve Board, "no more pressing financial problem confronts the United States than the setting up and putting in motion the machinery for determining the extent to which we can safely undertake to finance reconstruction in Europe." Mr. Miller made this statement in an address on "After-War Adjustment: The Present Price Outlook," delivered at Pittsburgh on June 6 before the National Hardware Association of the United States. Mr. Miller furthermore said:

Fundamentally, the problem is one of keeping the industrial activity of the nation stimulated and, equally important, keeping the savings spirit of the country from weakening. The people must everywhere be made to appreciate that in the present condition of the European world, it is our urgent duty to keep up our newly acquired saving habit. Beyond that, a sufficient portion of the community must be educated to an interest in a sufficient portion of the community must be educated to an interest in the purchase of European obligations or American obligations based upon European collateral. More than this, some competent agency, which will merit the confidence of the American people—national and representative in character but preferably not Governmental—must be set up for seeing to it that the apportionment of such capital as may be yielded by the savings of the nation shall be made wisely, with due regard for the economic needs of American industry and the American consumer, as well as the needs of European industry and the European consumer. The opportunity to make financial and traders' profits out of the needs of Europe by the sale to Europe of goods and materials on long-term securities floated in the American market is such that great care must be taken that such operations are ican market is such that great care must be taken that such operations are constandly kept within the limits of national economic prudence, both in constantly kept within the limits of national economic prudence, both in our own interest and in Europe's interest. It would therefore be advisable to set up a Committee on Financial Facilities for Europe, composed of a membership—following the analogy of the Federal Reserve organization—one-third representing financial interests, one-third commercial interests and one-third to be selected by the Federal Reserve Board, representing the general public interest. But whether this or some other method is adopted, it is of primary importance that a national and representative character should be given to any movement for the mobilization of our financial and economic resources for Europe's use. The matter is one of too grave consequence to be left to the determination of private interest alone. The situation offers so many temptations that abuse of the credit facilities of the Federal Reserve system would be almost certain to result with a further and disastrous inflation of credit as a consequence. No method of providing for the financing of Europe that does not contain careful safeguards against this contingency can be regarded as satisfactory. What Europe needs is capital. The Federal Reserve banks are not investment institutions; they deal in credit, not capital. The attempt, under any disguise, to use their facilities as a substitute for capital would be fatal to the Federal Reserve system and injurious to the public at large.

#### ASSURANCES GIVEN UNITED STATES BY MEXICO IN OIL DISPUTE.

Press accounts from Washington May 30 in reporting that assurances had been given the United States by the Mexican Government in the oil dispute said:

The Mexican Government has assured the United States that no law enacted by the Mexican Congress in connection with the petroleum code would have retroactive effect, it was learned from official sources to-day, and the State Department has been advised that the new oil law will not nationalize oil properties acquired by Americans prior to May 1 1917. Charles A. Douglas, who represents the Mexican Government and the Mexican Embassy here (Washington) as legal adviser, to-day said these assurances had been given in good faith and that there was no question that they would be carried out. Mr. Douglas said to-day the same proction would apply to all other foreign investments in Mexico.

Officials here believe that if these assurances are carried out the most rious cause of trouble between the two countries will have been elimi-It also was said that if Mexico by the enactment of laws protecting foreign rights, gave guarantees that she would comply with her international obligations, she might be invited to become a member of the League of Nations.

#### RULINGS ON NEW YORK STATE INCOME TAX LAW, APPLICABILITY AS TO NON-RESIDENTS-WITHHOLDING AGENTS.

A protest made by William N. Runyon, Governor of New Jersey, against the provision in the New York State income tax law with regard to the tax as applied to non-residents has brought from Alfred E. Smith, Governor of New York, a letter (published in the Albany "Argus" of the 19th inst.) which says:

There seems to me to be one possible injustice and one error in the provisions of the New York income tax act, as applied to non-residents. vision should, it seems to me, be made, if it is practically possible, for the \$1,000 and \$2,000 exemption to apply to non-residents who receive their whole income in the State of New York, provided an equal exemption is not granted in the place of their residence.

By inadvertence, also, the withholding agent in the case of the nor resident is required, unless the non-resident pays his tax directly, to deduct 2% in the case of incomes under \$10,000, whereas the tax under another section of the bill is fixed at 1% for incomes under \$10,000.

This error in the bill, as well as the possible injustice above mentioned can be corrected, and should be corrected, at the beginning of the next legislative session in January, two months before the first tax must be paid so that the non-resident taxpayer need not suffer any actual injur We have sought in the provisions to make the act both friendly and re-

The act provides that non-residents shall have rebated to them

any tax on New York income which may be imposed by the State of the taxpayers' residence, providing that the home State of the taxpayer treats New Yorkers in a substantially similar way. In the meantime we only desire, in the most friendly spirit, to tax the non-resident for the benefit to him of the legal and social and physical protection and opportunity offered to him to accumulate wealth and do business and make earnings in the State of New York.

On June 9 it was announced that under a ruling received by New York State Comptroller Travis from the State Attorney-General, Charles D. Newton, the tax imposed under the New York income tax law against non-residents whose income is derived within the State would be figured at 1% on the first \$10,000 and 2% in excess of that amount, instead of 2% in all cases as the law provides. In announcing this as among the first of a series of rulings made known by Comptroller Travis the press dispatches from Albany on June 8 said:

According to his statement, every employer, under the law, will be obliged to keep on file a certificate of residence of each of his employees. In addition he will be required to deduct and withhold from the salaries of all non-residents equalling or exceeding \$1,000 a tax of 1% on the first \$10,000 and 2% in excess of that amount.

\$10,000 and 2% in excess of that amount.

This tax applies not only to salaries, but also to wages, commissions, gratuities, emoluments, perquisites, or other fixed and determinable, annual or periodical compensation, earned for personal services in a business, trade, profession or occupation carried on within this State providing that the withholding agent (employer) has not on file a certificate that his employee is a resident of this State, setting forth such residence. Blanks for this purpose have already been provided, and will be sent upon request.

In addition the Comptroller has ruled that withholding agents shall deduct with respect of personal service compensation paid or credited to the payee at any time subsequent to Jan. 1 last, if payments are made or credited to the payee at any time within the calendar year. In other words,, the act is retroactive in effect, in that, although it became a law on May 14 its provisions date back to the beginning of the current year.

its provisions date back to the beginning of the current year. Should the employee have left the service prior to the above date and had received full compensation up to the time of his departure, no duty or obligation rests on the withholding agent. Despite the fact that the statute provides for a deduction of 2% of all salaries of non-residents employed within the State, the Comptroller believes that this amount was left in the statute through inadvertence when the bill which originally provided for a flat tax of 2% was afterward changed on a graduated scale from 1 to 3%. This ruling not only means a gain to the taxpayers, but relieves the Comptroller's office of considerable unnecessary work incident to returning amount in excess of 1%.

It is learned that in his advices to State Comptroller Travis Attorney-General Newton said in part:

If it were not for the phraseology of other subdivisions of Sec. 366 the first subdivision might make it unavoidably incumbent upon a withholding agent to withhold 2% in every case, even where the tax payable to the State is only 1%. But the phraseology of subdivisions 3, 4 and 5 is such as to make the requirement that 2% be withheld purely technical and unenforceable to the extent of more than 1% in cases where the net income is \$10,000 or less. Subdivision 1 requires the withholding of 2% of determinable annual or periodical income taxable under this article. Section 351 makes incomes of \$10,000 or less taxable at only 1%. Subdivision 3 of Sec. 366 requires the withholding agent to make return and pay "the tax" to the Comptroller. Where the tax is only 1%, that is all that need be paid to the Comptroller. The penalty for fallure to withhold is merely a liability to pay the tax with penalties if it be not paid by the recipient of the income. So in case of an income of \$10,000 or less the withholding agent is protected against claim by the State if he pays 1% to the Comptroller—and there can be no object in his withholding or paying more.

Further rulings on "deducting and withholding at the source" were made known by State Comptroller Travis on June 13. Under the rules, it is stated, only incomes earned from personal services are affected—this covering "salaries, wages, commissions, gratuities, emoluments and perquisites," although other kinds of personal service incomes may be added if "fixed, determinable, annual or periodical." The statement issued by the Comptroller's office on the 13th says:

Income is fixed when it is to be paid in amounts definitely predetermined, that is, whenever there is a basis of calculations by which the amount to be paid may be ascertained. This may not necessarily be paid annually. but rather periodically, that is, "from time to time," whether or not at regular intervals. Should the length of time be increased or diminished, the payments are none the less determinable or periodical. To ascertain, however, whether a salary, wage, commission or gratuity is "fixed or determinable, annual or periodically" (1) it must be determined prior to, concurrent with or subsequent to the rendering of the service; (2) based on personal service rendered by the hour, week, month, year or other period; (3) on the performance of certain specified or unspecified duties; (4) on work done on or in connection with one or more of certain articles or parts, regardless whether the payments are made in cash, board or lodging, property, service or otherwise.

Should the payments not be made in cash, the fair market value is to be the medium employed. Fees for professional services are not subject unless paid on an annual or periodical basis. The calendar year is the basis regardless of the methods adopted by the taxpayer. Commissions and other forms of personal service compensation determined and paid or credited to the taxpayer after the close of the taxable-calendar year are to be treated as payments made in the calendar year when paid and credited. However, income is not subject to be deducted when (1) withholding agents have obtained certificates of residence of employee within the State; (2) if of a character other than compensation for personal services, or (3) when personal services are rendered entirely without the State by a non-resident, whether payment be made within or without, irrespective of the status of the withholding agent.

The occasional entry into the State of a non-resident employee, working entirely without the State but returning to report, receive instructions, &c., incidental to his work, does not disturb his classification. Where the non-resident's income is for services partly performed within and without, the withholding agent deducts on the entire compensation unless he files with the Comptroller an affidavit that (1) employee is a non-resident; (2) that part only of the payments were made for services performed within the

State: (3) with the amount in dollars and cents of such part. In apportioning the income of non-resident salesmen and other employees through whose services receipts or remuneration inure directly to the employer, only that portion of the entire salary which the volume of business he transacts within bears to the total carried on within and without, is attachable.

acts within bears to the total carried on within and without, is attachable. Should the remuneration not inure directly, as in the case of clerks, book-keepers, &c., the attachable portion of the income is based upon the relationship which the time employed within bears to the time both employed within and without. If the peculiarity of the services performed renders such apportionment impossible, a full statement of such fact must be flied with the Comptroller. Special forms of resident certificates are provided, and the withholding agents are obliged to keep these available for inspection at least one year afterward. Should the employee change his residence, he must notify his employer, failure for which his certificate is revoked and a deduction made from his compensation for the entire year. If he afterwards files a resident certificate before the annual return is made, in no event later than March 15 in the following year, the withholding agent is to return the entire amount deducted.

The New York State income tax law was signed by Governor Smith on May 15. Its text was given in our issue of May 10, pages 1883 to 1887. Following the approval of the measure by the Governor, Comptroller Travis, in a statement explaining its features, said in part:

Individuals carrying on business in partnerships are liable for the tax in their individual capacity, as in the case under the Federal Act, but the partnership is required to file a return. The Act is also applicable to the incomes of estates and all kinds of property held in trust, and in each the fiduciary is made responsible for making the return of income for the estate or trust for which he acts.

Because they are unlike provisions of the Federal Act, those relating to withholding agents are of great importance. It purports to impose the tax on the entire net income of non-residents "from all property owned and from every business, trade, profession or occupation carried on within the State by natural persons not residents thereof."

The term, withholding agent, is defined. Persons standing in that relations.

The term, withholding agent, is defined. Persons standing in that relation to non-residents are required to deduct and withhold 2% of all personal service compensation of whatever kind and in whatever form paid or received, if the amount thereof for a year equals or exceeds \$1,000, and as to all other income of non-residents, the withholding agent is required to return to the Controller complete information if the amount thereof in a single year equals or exceeds \$1,000.

The law applies not only to individuals but in relation to their income from co-partnerships and associations. In determining what is a taxable income, gains, profits, and income from salaries, wages of whatever kind or form, from professions, vocations, paid businesses, commerce, sales, or dealings in property are included, as well as income from interest, rent, dividends, securities, or the transaction of any business carried on for gain, and income derived from any source.

There are however, certain deductions allowed such as life incurence.

There are, however, certain deductions allowed, such as life insurance policies, gifts acquired by bequests, Federal, State and municipal securities industrial insurance, compensation of Federal employees, income from religious, charitable, and eleemosynary institutions used exclusively for such purposes. Other deductions allowed in computing the net income include all ordinary expenses for carrying on a trade, losses sustained without insurable compensation, worthless debts, depletion, and depreciation of property.

The law expressly provides, however, that the above deductions are not to be allowed in respect to ordinary living expenses improvements and betterments, life insurance premiums (when the taxpayer is the beneficiary), and gifts to charitable, nospital and eleemosynary institutions. Other administrative features of special interest include one provision requiring that the utmost secrecy be maintained by the State Controller's office. The Act provides a heavy penalty for divulging or disclosing any information, but permits, however, the publication of statistics so classified as to prevent identification of any particular report.

prevent identification of any particular report.

The law also carefully defines "net income" as gross income less the deductions allowed. In explaining "gross income" as "the total of every item derived from all sources whatever (except those specified as wholly exempt) received during the taxable year," it includes all salaries received for personal service, profits from business, rents, interest of every character, including bank deposits, and all income received from estates and partnership profits, whether distributed or not. All items of foreign income and dividends on stock or from net earnings of foreign corporations are likewise added.

The term "gross income" has quite a different meaning as to non-residents, for it includes only "gross income" from sources within that State. It does not include annuities, interest on bank deposits, bonds, notes, or other interest bearing obligations, and dividends from corporations except to the extent which such incomes shall be a part of a business, trade, profession, occupation, carried on within this State and subject to taxation under this law.

The term "taxable income," while not used in the law, may be defined here to mean that portion of "net income" which forms the base upon which the tax is calculated. In order to determine what is "taxable income," a person's entire income is not necessarily taxed, as the law provides that it shall not include income of certain character, like interest on Liberty bonds, bonds of the State of New York, gifts, &c., in computing gross income.

"Further, certain deductions, like ordinary business expenses and losses, bad debts charged off, depreciation, &c., may be subtracted from "gross income" in order to arrive at "net income." Again, personal exemption is allowed to residents as a deduction from "net income" in calculating "taxable income," and is allowed to non residents under certain conditions, like income paid to the State and county of his residence.

One of the provisions that should be emphasized in the tax law is that this measure is a substitute in part for the tax heretofore attempted to be levied upon intangible personal property. Accordingly, certain personal property is exempted from assessment, such as money on hand, on deposit, or at interest, bonds, notes, choses in actions and shares of stock in corporations other than banks owned by an individual or constituting a part of a trust or estate after July 31 1919.

#### ITEMS ABOUT BANKS, TRUST COMPANIES, ETC.

No bank or trust company stocks were sold this week at the Stock Exchange or at auction.

The Governors of the New York Stock Exchange decided on Wednesday last to grant the petition of the members for a holiday on Saturday next (July 5), making a three-day week-end holiday. The New York Cotton Exchange and the Baltimore and Philadelphia stock exchanges have taken similar action.

H. L. Servoss has been elected Vice-President and Secretary of the United States Mortgage & Trust Co., of this city. C. H. Murphy has been elected Vice-President and Treasurer and A. W. Keevil has become Assistant Secretary

The New York Stock Exchange has authorized the listing of \$300,000 additional capital stock of the Fifth Avenue Bank, of this city, making the total listed \$500,000. The new issue of stock was authorized by the stockholders of the bank on May 26. The enlarged capital becomes effective July 2.

The bond department of the Equitable Trust Co. of New York has removed to larger quarters. This change was necessitated by the great increase in business with the consequent enlargement of the office force. The department will occupy the entire fifth floor of the company's building at 37 Wall Street.

The proposal to increase the capital of the Irving National Bank of this city from \$4,500,000 to \$6,000,000, referred to in our issue of May 24, was ratified by the stockholders on June 20. On the same date the stockholders of the Irving Trust Company ratified the proposal to increase their capital from \$2,250,000 to \$3,000,000. Of the 15,000 bank shares to be issued 11,250 will be offered to stockholders of record June 30 at par (\$100 per share) and of the 7,500 Trust Company shares to be issued 5,625 will be offered to stockholders of record June 30 at par and a quarter (\$125 per share), both at the ratio of one share for every four held, the right to subscribe expiring July 21; the other 3,750 bank shares and 1,875 Trust Company shares will be disposed of at the discretion of the directors at not less than the book value of the stock after the issuance of the 11,250 and 5,625 shares.

On June 24 the directors of the Irving National Bank promoted to the position of Vice-President H. A. Mathews, formerly Assistant Cashier. Mr. Mathews, who for ten years was connected with the Anglo-South American Bank, for the past two years and a half has been with the Irving in its Foreign Department.

The National Bank of South Africa, Ltd. (head office Pretoria) has opened branches at Victoria and Shebante, in Rhodesia.

Fred M. Langdon, Henry P. Seibert, William G. Clinkunbroomer and Howard J. Stieb were made Assistant Cashiers of the American Exchange National Bank of this city on June 24.

Edward K Cherrill, Vice President of the Atlantic National Bank of New York, was chosen a member of the Executive Committee of the National Bank Section, New York State Bankers' Association, at its recent convention in Albany.

At a meeting of the directors of the Atlantic National Bank, this city, on June 18 a bonus of  $2\frac{1}{2}\%$  of their annual salaries was voted the employees who have been in the service of the bank since April 1. An additional  $2\frac{1}{2}\%$  was voted the employees in the service of the bank six months or more. Those employees who left the bank to go into Government service and who are now employed by the bank will receive the full 5% bonus. These awards are in addition to the yearly bonuses voted Jan. 1.

The New York Agency of the Anglo-South American Bank, Ltd., at 49 Broadway, directs attention to the advantages of investing in the 4% British Funding Loan and Victory bonds owing to the low rate of exchange. The bank states that the issue prices of these bonds are to be £80 and £85 for each £100 par value which at the current rate of exchange approximates £75.10 and £80.10 with an increased proportionate yield on the investment. Bonds are free of British income and super-tax to all bona fide non-residents of Great Britain. The New York officers of the Agency will gladly furnish further information and the bank will transmit applications through its head office in London, which will hold securities in safe custody if desired and also collect interest and drawn bonds free of charge. A copy of "Circular T" will be mailed to interested inquirers on

application to the Anglo-South American Bank, Ltd., 49 Broadway.

The National City Bank of New York announces the opening of a new branch bank in Santa Clara, Cuba; Union del Reys, Cuba, and Pinar del Rio, Cuba.

Edward P. Davis was appointed an Assistant Secretary of the Guaranty Trust Company of New York at a meeting of the Executive Committee on June 19. Mr. Davis came to the Guaranty Trust Company in December 1911. Recently he has been asistant to Assistant Secretary Albert Hopkins.

The Comptroller of the Currency reports the issuance of a charter for the Second National Bank of Hempstead, N. Y., with capital of \$100,000. George H. Baukney is President and C. W. Ludlum Cashier.

William B. Davidson, Cashier of the United States Bank of Hartford, Conn., died on June 16. Mr. Davidson entered the United States Bank as a runner and filled the various posts up to the office of Cashier. He had served in the cashiership since 1905. Mr. Davidson was 57 years of age.

At the annual meeting of the stockholders of the Hanover Trust Company of Boston on June 10 the following changes were made in the personnel of the institution: Henry H. Chmielinski, who had been Vice-President and Treasurer of the bank since its organization in May 1916, was elected President to succeed Gabriel Stabile, who became a Vice-President and will also continue as a director of the institution; James E. Farrell, heretofore holding the position of Actuary, was made a Vice-President in lieu of J. H. Finkham; Edward J. McCarty, formerly Assistant Secretary, was elected Assistant Treasurer, to succeed John J. Reidy and Timothy Harrington was made Assistant Secretary in place of Mr. McCarty. Two new directors were added to the board, namely Thomas J. Kenney and George A. Stuart. Mr. Chmielinski, the new President, is thirty-seven years of age and a native of Poland. His banking career began in the Dime Savings Bank of Wilkes-Barre, Pa. Later he went to Boston and became identified with the Cosmopolitan and Exchange trust companies. Still later he was elected President of the Polish Industrial Association, which conducts a bank in the North End, serving the Association as Treasurer in addition to his duties as President. Three years ago, upon the organization of the Hanover Trust Company, in which he was instrumental, Mr. Chmielinski was made Vice-President and Treasurer, the positions he held until his recent promotion to the Presidency of the institution. Mr. Chmielinski is also a member of the board of the company.

A charter has been issued for the Northern National Bank of Cleveland, Ohio, capital \$500,000. William D. Young is President and J. A. Purcell Cashier. Reference to the application for a charter was made in our issue of March 22.

An increase of \$50,000 in the capital of the First National Bank of Great Bend, Ind., raising it from \$100,000 to \$150,000, has been approved by the Comparoller of the Currency.

Seven employees of the Mississippi Valley Trust Co. of St. Louis were recently awarded prizes for essays entitled "My Job" at a meeting in the company's offices. The idea of having each employee write a description of his duties and how they fit into the organization of the company, originated with Breckinridge Jones, President, and when it commenced, the contest was for a single prize of \$25. Every employee wrote essays and when they were turned in, the officers of the company found it impossible to recognize only one of them. Consequently, the papers were divided into two classes, one submitted by the older and more experienced employees, the other by the younger people, and three prizes were awarded to each class, \$25 for the best essay, \$15 for the second best and \$10 for the third best. As to the results, an announcement from the company says:

In the older employees class, Orville Grove, who has been made Assistant Real Estate Officer since the close of the contest, was awarded first prize, Ralph Bugbee of the New Business Department won second prize, an Louis B. Engel of the Financial Department, third prize.

In the younger class, Miss Katherine Petzold of the New Business Department won first prize; Raymond Ruhlkoetter of the Transit Department won second prize, and the third prize was awarded to Ira Stevens of the Financial Department. A special prize for distinguished merit was awarded to William K. Moore, the company's sixteen year old colored elevator boy, whose essay was the the shortest of all the prize-winning papers, but according to Vice-President William G. Lackey, who awarded the prizes, was in some respects the best of them all.

Breckinridge Jones, President of the company, presided at the meeting and in congratulating the winners said that he will inaugurate a contest next fall wherein a prize will be given to the employee in each department who, in the judgment of his or her associates, shows most efficiency, enthusiasm and vision.

The issuance of a charter for the Continental National Bank of Jackson County, at Kansas City, Mo., is announced by the Comptroller of the Currency. The institution has been formed with a capital of \$1,000,000. The President is W. L. Buechle while George McCarter is Cashier.

Approval of plans whereby the capital of the National City Bank of Memphis, Tenn., is increased from \$200,000 to \$300,000 is announced by the Comptroller of the Currency.

The directors of the Hibernia Bank & Trust Company of New Orleans have elected Bruce Baird manager of its Foreign Trade Department. Mr. Baird gained his knowledge of foreign banking in the Foreign Exchange Department of the First National Bank of Chicago, where he was employed for about fifteen years. He became associated with the Foreign Trade Department of the Hibernia about six months ago. Mr. Baird is Chairman of the National Membership Committee, of the American Institute of Banking and a local member of the Transportation Committee of the 1919 convention which will be held in New Orleans. Last year he was President of Chicago Chapter.

In one part of the item in our issue of June 14 (page 2405) relating to the proposed absorption of the New Orleans National Bank of New Orleans by the Hibernia Bank & Trust Company, the resources of the consolidated institution, it was announced, would be "considerably in excess of \$50,000." Of course "\$50,000,000" was meant, as evidenced by the other figures in the item, and by the statement at the beginning of the item that "the enlarged institution will have resources of more than \$50,000,000."

The Houston National Exchange Bank, Houston, Texas, on June 2 increased its capital stock from \$400,000 to \$800,-000, and the bank contemplates within the near future the erection of a handsome office building on its present site an additional fifty foot frontage on Main street having recently been purchased for this purpose.

A meeting of the stockholders of the Security Trust & Savings Bank of Los Angeles, Cal., will be held on July 14 to vote on a proposition to increase the capital of the institution from \$1,800,000 to \$5,000,000. This is an initial step, we understand, in a plan to extend the activities of the Security Trust & Savings Bank over a larger field under the new banking laws and regulations now in force.

The Standard Bank of Canada (head office Toronto) has declared a dividend for the current quarter, ending July 31 1919, at 3½%, being at the rate of 13% per annum upon the paid-up stock of the bank, and which will be payable on and after Aug. 1 1919, to shareholders of record as of the 19th of July next.

#### THE ENGLISH GOLD AND SILVER MARKETS.

We reprint the following from the weekly circular of Samuel Montagu & Co. of London, written under date of June 12, 1919:

The Bank of England gold reserve against its note issue is £85,227,585, an increase of merely £8,465 as compared with last week's return. The embargo upon the export of gold from the United States of America was removed on the 7th inst. This announcement was followed almost immediately by arrangements for the shipment of about \$11,000,000 to South America, chiefly to Argentina. We understand that this amount will be followed by other important consignments. The "Times" reports a tentative arrangement to export \$1,000,000 to Japan. The price of gold has been quoted in Bombay about Rs.33 per tola fine, and a quantity was attracted to the market about the beginning of May owing to this high figure.

OURRENCY.

Novel modern denominations of currency are being created by new States now called into existence. For instance, the Jugo-Slav kingdom is replacing the Austrian kroner notes in circulation by bank notes expressed in "dinars," the nominal value of which will be decided at a later date.

SILVER.

The market has shown considerable strength during the week owing to the scantiness of supplies. The demand has been far from keen from the

trade. There has been some danger of labor troubles, but this happily has been averted. China and South America have been making purchases in the United States. The Shanghai exchange has risen to 5s. 4d. the tael.

This setback in the advancing total of silver reserves is the first since April 22 last. The mintage during the week ending 31st ult. amounted to 165 lacs of rupees. The stock in Shanghal on the 7th inst. consisted of about 26,923,000 ounces in sycee and \$11,300,000, as compared with about 27,360,000 ounces in sycee and \$11,400,000 on the 31st ult. Within the fortnight ending 7th inst. there has been a reduction of 2,300,000 ounces and \$1,300,000. Statistics for the month of May are appended:

Highest price for cash.....58d. Lowest " 48 9-16d. Lowest " 52.104d. Lowest " 51d.

The average price for 2 mos. delivery from May 9 (the first date since the outbreak of war that such a quotation was fixed) to May 31 was 53.168d. Quotations for bar silver per ounce standard:

This item includes gold, sliver, legal tenders, national bank notes and Federal teserve notes.

New York City State Banks and Trust Companies.— In addition to the returns of "State banks and trust companies in New York City not in the Clearing House," furnished by the State Banking Department, the Department also presents a statement covering all the institutions of this class in the City of New York.

For definitions and rules under which the various items are made up, see "Chronicle," V. 98, p. 1661.

The provisions of the law governing the reserve requirements of State banking institutions as amended May 22 1917 were published in the "Chronicle" May 19 1917 (V. 104, p. 1975). The regulations relating to calculating the amount of deposits and what deductions are permitted in the computation of the reserves were given in the "Chronicle" April 4 1914 (V. 98, p. 1045).

Philadelphia Banks.—The Philadelphia Clearing House statement for the week ending June 21 with comparative figures for the two weeks preceding, is as follows. Reserve requirements for members of the Federal Reserve system are 10% on demand deposits and 3% on time deposits, all to be kept with the Federal Reserve Bank. "Cash in vaults" is not a part of legal reserve. For trust companies not members of the Federal Reserve system the reserve required is 15% on demand deposits and includes "Reserve with legal depositaries" and "Cash in vaults."

· Cash in vault is not counted as reserve for Federal Reserve bank members.

Member Banks of the Federal Reserve System —Following is the weekly statement issued by the Federal Reserve Board giving the principal items of the resources and liabilities of the Member Banks. Definitions of the different items contained in the statement were given in the weekly statement issued under date of Dec. 14 1917 and which was published in the "Chronicle" of Dec. 29 1917, page 2523.

STATEMENT SHOWING PRINCIPAL RESOURCE AND LIABILITY ITEMS OF MEMBER BANKS LOCATED IN CENTRAL RESERVE AND OTHER SELECTED CITIES AS AT CLOSE OF BUSINESS JUNE 13 1919.

Substantial declines in the holdings of Treasury certificates and other U. S. war obligations, also large withdrawals of Government deposits accompanied by corresponding increasing in other demand deposits, are indicated in the Federal Reserve Board's statement of condition on June 13 of 770 member banks in leading cities.

Payment of income and excess profit taxes by tax certificates accounts probably for the greater part of the 92.5 million decrease in Treasury certificates on hand, while decreases of 10.5 and 14.3 millions in U. S. war bonds and Victory notes represent largely the net amounts of these securities sold to customers on the partial payment plan by reporting member banks. An unusually large increase, viz., 105.1 millions, is shown for

other loans and investments, the New York City banks alone reporting an increase of 74.3 millions under this head.

U. S. war obligations and war paper combined show a decrease from 4,019.9 to 3,897.4 millions and constitute 26.1% of the aggregate loans and investments of all reporting banks, as against 26.9% the week before. For the New York banks a decrease in this ratio from 30.5 to 29.3% may be noted.

As against net withdrawals of 235.1 millions of Government deposits there is shown an increase of 196.8 millions in other demand deposits, besides a considerable increase in bills payable and other barrowings from Federal Reserve banks. Reserve balances show a decline of 46.6 millions, largely in New York City, while cash in vault shows a gain of 5.1 millions.

The Federal Reserve Banks.—Following is the weekly statement issued by the Federal Reserve Board on June 20:

Liquidation in some volume of war paper fully offset however by increases of other discounts and of acceptances on hand, also a decrease of 28.1 millions in gold reserves are indicated in the Federal Reserve Board's weekly bank statement issued as at close of business on June 20 1919.

As against a decrease of 73.6 millions in war paper there are shown increases of 32.9 millions in other discounts, and of 40.2 millions in acceptances. The total of war paper on hand includes an amount of 127.5 millions discounted for other F. R. banks by the Cleveland, Chicago, St. Louis and Minneapolis Reserve banks, while the total of acceptances on hand comprises 27.5 millions bought from the New York Federal Reserve Bank without the latter's endorsement. A decline of 2.5 millions in Treasury certificates represents in part liquidation of temporary purchases

of certificates from non-member banks. As a result of all these operations total earning assets show a decline for the week of 3.1 millions. Government deposits fell off 83.8 millions, reserve deposits increased 15 millions, while the "float" carried by the Reserve banks was 45.5 millions less than the week before. Net deposits show a decrease of 23.4 millions. Federal Reserve note circulation decline—about 11 millions, Philadelphia Cleveland and Richmond reporting the largest decreases. Direct withdrawals of gold by member banks and exchange of notes for gold, to meet the export demand, account largely for the decrease of 28.1 millions in gold and of 27.5 millions in cash reserves.

The banks' reserve ratio shows a decline from 52.7 to 52.5%.

The figures of the consolidated statement for the system as a whole are given in the following table, and in addition we present the results for each of the seven preceding weeks, together with those of the corresponding week of last year thus furnishing a useful comparison. In the second table we show the resources and liabilities separately for each of the twelve Federal Reserve banks. The statement of Federal Reserve Agents' Accounts (the third table following) gives details regarding the transactions in Federal Reserve notes between the Comptroller and the Reserve Agents and between the latter and the Federal Reserve banks.

# Bankers' Gazette

Wall Street, Friday Night, June 27 1919.

Railroad and Miscellaneous Stocks.—Influenced almost wholly by money market considerations the stock market has lapsed into a state of comparative inertia; so that whereas during the first week in June the transactions averaged over 1,500,000 shares per day the average is now barely 800,000 shares.

Accompanying this reduction in the reduction

Accompanying this reduction in the volume of business there was a tendency to weakness, especially in the speculative, industrial issues, but the market as a whole has displayed a good deal of resistance and underlying strength.

As is too well known such steadily advancing call loan rates as have been recorded this week i. e. from 6 to 9, 10, 12 and even 15%, as on Wednesday, have a killing effect upon stock speculation. This has, however, been in part offset by other developments, viz., another week of exceptionally favorable crop weather-reports that steel orders are begin booked in excess of shipments-higher prices for copper booked in excess of shipments—higher prices for copper metal, based of course on increasing demand, and official notice that Germany will sign the Peace Treaty probably at the end of the week. To-day's market was more active than the two or three preceding and in some cases further recovery was made. More than half the list shows, however, a net loss for the week, but in the railway group the losses are generally fractional. Baltimore & Ohio is a notable exception, having dropped over 7 points. Can. Pac. is down 23/8, Reading 1½ and St. Paul and Texas & Pac. between 1 and 2. On the other hand, Atchison, Great Northern and New Haven are higher.

Chandler Motors is the sensational feature of industrials

Chandler Motors is the sensational feature of industrials with a net gain of 39¼ points. Gen. Motors is 10¼ points higher, U. S. Rubber 6, Pierce Arrow 6, Corn Prod. 6½ and Tobacco Prod. and United Cigars between 5 and 6. There are, moreover, no declines to offset these advances.

are, moreover, no declines to offset these advances.

State and Railroad Bonds.—Sales of State bonds at the Board are limited to \$1,000 New York Canal 4½s at 108½ and \$6,000 Va. 6s deferred trust receipts at 65½. The market for railway and other bonds has been inactive and, in sympathy with the market for shares, weak.

Of a list of 18 relatively active bonds 12 have declined and 1 is unchanged. Nearly all the local traction issues are again lower. New York Railways is, however, a notable exception, selling to-day 1½ points above last week's closing price. So. Pac. conv. 5s, U. S. Steel U. S. Rubber and Chile Coppers have also been strong features. On the other hand, Atchison 4s, B. & O, 4½, Ches. & Ohio 4½, and Interboro. R. T. 5s are a point or more lower than last week. Interboro. R. T. 5s are a point or more lower than last week.

United States Bonds .- Sales of Government bonds at the Board, aside from the various Liberty and Victory Loan issues, are limited to \$10,000 4s coup. at 106½. For to-day's prices of all the different issues and for the week's range see third page following.

Foreign Exchange.—The market for sterling exchange has again ruled weak. Continental exchange moved irregularly with the trend downward, and this was also true of the neutral exchanges.

conspicuous for weakness.

To-day's (Friday's) actual rates for Paris bankers' francs were 6 50@6 53 for long and 6 46@6 49 for short. Germany bankers' marks were not quoted. Amsterdam bankers' guilders were 38 3-16@38 5-16 for long and 38 9-16@38 11-16 for short.

Exchange at Paris of Long and 18 9-16@38 5-16 for long and 18 9-16@38 11-16 for short.

Exchange at Paris on London, 29.73 francs; week's range, 29.52 franes high and 29.83 francs low.

The range for foreign exchange for the week follows: 

Montreal, \$30.3250 per \$1,000 premium. Cincinnati, par.

-Trading on the "curb" this week was Outside Market .in much smaller volume as compared with recent sessions. Quite a few issues were transferred to the Stock Exchange this week. Prices moved without definite trend, the changes this week. Prices moved without definite trend, the changes for the most part being within narrow limits. Allied Packers from 66½ sold to its highest, 67¼, reacting thereafter to 65½, the close to-day being at 65½. Bethlehem Motor, a recent addition, weakened from 27 to 25½ and sold finally at 26. Cramp Shipbuilding dropped five points to 140. Wm. Farrell & Sons com. was off from 59 to 56½, recovering to-day to 58½ and closing at 58. General Asphalt com. rose from 72½ to 75 and reacted finally to 73½. Intercontinental Rubber com. was conspicuous for a loss of four points to 22½ though it moved back to 26 and closed four points to 22½, though it moved back to 26 and closed to-day at 25½. Lima Locomotive com. was in demand and advanced from 56 to 68, the close to-day being at 67. Mexican Investment after a rise from 64½ to 68½, broke to-day to 59¾. N. Y. Savold Tire lost two points to 52, recovered all the loss and sold finally at 63. Savold Tire Corp., after a fractional improvement to 60, moved down to 57 and rested finally at 58. Swift Int., after an early advance from 60 to 62 eased off to 59. United Retail Stores

was active, advancing at first from 82½ to 84¼, then dropping to 80½. It moved upward again, reaching 85 to-day, and closed at 841/2. Interest in oil stocks for a time was een tred in Transcontinental Oil, a recent consolidation, which opened at 48½, sold up to 48¾, and down to 47¼, and at 47½ finally. The Sinclair issues were in demand, Sinclair Consolidated losing about four points to 56½ and recovering to 59. Sinclair Gulf also dropped over four points to 56 and closed to-day at 57. Merritt Oil sold up from 28¼ to 29¼ and down to 27¼, with the close to-day at 28. Mining stocks only moderately active. Bonds dull.

A complete record of "curb" market transactions for the week will be found on page 2621

week will be found on page 2621.

For daily volume of business see page 2621.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

# Investment and Railroad Intelligence.

RAILROAD GROSS EARNINGS

The following table shows the gross earnings of various STEAM roads from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from Jan. 1 to and including the latest week or month. The returns of the electric railways are brought together separately on a subsequent page.

## Monongahela Valley Traction Co.

(Report for Fiscal Year ending Dec. 31 1918.)

President G. M. Alexander, May 12, wrote in substance:

Results.—The financial results are not flattering, for notwithstanding normal increases in the volume of patronage, the net surplus for the year shows a decrease of \$361,558, or over 37%, as compared with previous years.

\*\*The indicated increase of over 24%, or \$740,559, of total gross earnings, is somewhat misleading; it is about one-half due to the Parkersburg-Marietta property being included for only six months, or since the date of its purchase, July 1 1917, and the Fairmont and Mannington property being included only since the date of its acquisition, April 1 1917. The relative 1917-1918 increase in gross earnings is also augmented by the authorized increased rates and fares charged by the company in some of its departments on and after April 1 1918.

The net earnings decreased \$194,577 during the year, due principally to the very great increase in operating expenses growing out of the raises in wages and the greatly increased cost of materials and supplies.

New Construction.—In order to meet the normal demands for increased service and to prepare for the expected and actually contracted demands due to war activities, as well as to make proper and conservative preparations for the future growth and development of the territory which the company serves, an extraordinary construction program was imperative, unfortunately, under the adverse conditions of war times.

Dividends.—The officers regret that, because of the effects of high operating costs and large construction expenditures upon the company's earnings, they have found it necessary to discontinue the common stock dividend.

[V. 108, p. 480, 973.]

It is, however, believed that the P. S. Commission will grant immediate relief by allowing increases of rates for certain classes of service.

Extension of Railway Lines.—The Norwood—Fairground Loop line, an extension of 3.9 miles, was completed and put in operation July 26 1918, providing passenger service via the Speedway to Norwood, which has beco President G. M. Alexander, May 12, wrote in substance:

provision has been made for extension to a capacity of 100,000 k.v.a. Building, brick and steel construction, 200 ft. long by 170 ft. wide and 100 ft. high, contains at the present time four 1,425 h.p. boilers with automatic stokers; two 12,500 k.v.a. steam turbines, coal and ash-handling machinery, fans, condensers, &c. An outdoor steel framework sub-station for the ultimate generating capacity, equipped with an initial installation of 18,000 k.v.a. of 66,000 volt transformers and 12,000 k.v.a. of 22,000 volt transformers has been installed. About 30 miles of additional power transmission line have been added to the system during the year.

New Coal Property.—A mining plant has been constructed adjacent to the new Rivesville power station, intended primarily to furnish coal to the power plant without transportation cost. Over 411 acres of Pittsburgh seam coal purchased for this plant adjoins approximately 350 acres of Pittsburgh seam coal acreage, all of which can be utilized by the new plant in addition to over 110 acres of Sewickley seam coal purchased with the 411 acres mentioned above.

By-Product Producer Plant.—A Lymn system by-product producer plant has been completed and put into operation at Fairmont. It consists of seven canopy operated producers, with full complement of auxiliary equipment and by-product recovery apparatus. This plant converts bituminous coal into gas, ammonium sulp hate and tar, and will consume, when operating at full load, 105 tons of coal per day.

The entire output of gas from this plant is to be used in a large glass factory immediately adjoining the plant, which has built new furnaces for the utilization of the gas.

Increased Rates.—Effective Feb. 20 1918, the rate for the sale of industrial gas was increased from 12c. to 18c. per 1,000 cu. ft. On Oct. 1 1918 this rate was again increased to 25c. per 1,000 cu. ft. and the domestic gas rate from 23c. gross to 29c. gross per 1,000 cu. ft. and the dowelonger are few such states.—Effective Feb. 1 1919 and to provide funds for a

(Report for Fiscal Year ending Dec. 31 1918.)

Pres. H. J. Pritchard, Feb. 18 1919, wrote in substance:

Pres. H. J. Pritchard, Feb. 18 1919, wrote in substance:

Results.—The volume of business done was in all respects satisfactory, considering that it was affected by the fact that a large quantity of metal was furnished by the Government and other customers for fabrication, and therefore does not appear in the sales.

Had it not been for the losses sutained in the manufacture of munitions for the U. S. Government and the allotment by the Government of other orders which ordinarily would not have been accepted by us, the results of operation would not have been so unfavorable.

Change in Plant Values.—The reduction (\$698,903) in machinery and equipment is largely due to the sale of cartridge machinery, fortunately disposed of prior to the cessation of hostilities. The reduction (\$49,958) in transportation equipment is due to the sale of the steam lighters commandered by the Government, less the cost of equipment purchased during the year. The proceeds in both cases were placed in special funds available for the purchase of new floating equipment and machinery, respectively, the unexpended balance being carried as "Fund Created by Sale of Capital Assets Requiring Replacement or Substitution under the Terms of Mortgage Indenture" and invested in U. S. certificates of indebtedness and Liberty bonds.

The inventories were taken on the basis of cost, and as compared with current market prices, they will neither materially appreciate nor depreciate, as they consist practically of metals covered by sales contracts.

Outlook.—The company's working capital clearly indicates its strong financial position. Reserves have been set up which should be adequate to meet the ordinary contingencies of the business. At the present writing the entire industry is experiencing a dearth of business, which may prevail until the metal market is stabilized.

Since Jan. 1 1919 the company has completed the reorganization and strengthening of its management by securing the services of a Vice-President of Manufacture and a Vice-President of S

### GENERAL INVESTMENT NEWS

### RAILROADS, INCLUDING ELECTRIC ROADS.

Government Control of Railroads. - Loans to Railroads. The War Finance Corporation on June 21 made loans of \$392,200 to the Alabama Great Southern RR. and \$194,350 to the Cincinnati New Orleans & Texas Pacific RR., both secured by certificates of indebtedness issued by the Director-General of Railroads and are payable on demand.—V. 108, p. 2527, 2432.

Alabama Great Southern RR.—Loan.— See "Government Control of Railroads" above.—V. 108, p. 2432.

The Allentown Terminal RR.—Extension of \$450,000 1st M. 4% Bonds of 1889, Maturing July 1 1919, at 6% till July 1 1929, Callable at 102½—Guaranty to Be Canceled.—

July 1 1929, Callable at 102½—Guaranty to Be Canceled.—
The company offers to extend the above named 1st M. 4% bonds, so that they shall mature July 1 1929 (subject to redemption at 102½% and int. on any interest date on or after July 1 1920, upon 30 days notice, with interest at 6% p. an., payable semi-annually J. & J. at its office in Philadelphia; the present mortgage security to remain unimpaired, but the guaranty of the Philadelphia & Reading RR. Co. (foreclosed) and the Lehigh Coal & Navigation Co. endorsed thereon to be canceled as of July 1 1919. The payment of the principal and interest of such bond, as extended, shall be made at the office of the Allentown Terminal RR. Co. in Philadelphia, in U. S. gold coin of the present standard of weight and fineness, without deduction from either the principal or interest for any tax or taxes which may be payable under any present or future laws of the U. S. of America or the State of Pennsylvania, for national, State or municipal purposes, the Allentown Terminal RR. Co. agreeing to pay any such tax or taxes, which it may now or hereafter be required by any such law to retain therefrom.

The Pennsylvania Company for Insurances on Lives & Granting Annuities, Philadelphia, referring to the above notice announces (a) that the extension privilege applies only to such bonds as shall be deposited at

their office, 517 Chestnut St., on or before July 1 1919; (b) that they will purchase at par, from such bondholders as do not accept the above extension offer, all bonds presented at their office on or after July 1 1919. Coupons due July 1 1919 should be detached and sent for collection to the Allentown Terminal RR. Co. as in the past.—V. 50, p. 422.

Aurora Elgin & Chicago (Electric) RR.—Int. Delayed.
The semi-annual interest due July 1 on the \$3,079,000 First and Refunding
5s will be delayed, but Secretary Lang says: "We hope to pay it later in
the year." The interest due Jan. 1 1919 was also deferred and at last
advices had not been paid. Compare V. 108, p. 971, 2021, 2122, 2329.

Baltimore & Ohio RR.—Offering of Bonds—Federal Contract Signed.—A syndicate composed of Kuhn, Loeb & Co., Speyer & Co. and the National City Co., New York, are offering at 96½ and int., to yield 6½%, \$35,000,000 6% Secured Gold bonds dated July 1 1919, due July 1 1929.

Denom. \$1,000 c\*&r\*. Int. payable J. & J. without deduction for any tax, assessment or governmental charge (other than income taxes exceeding in the aggregate 2%), which the company may be required to pay or to retain therefrom under any present or future law. Redeemable, in whole but not in part, upon 60 days' notice on any int. date at 102½% and int. U. S. Mtge. & Trust Co., N. Y., trustee.

Data from Letter of President Daniel Willard Dated June 25 1818

Data from Letter of President Daniel Willard Dated June 25 1919. Purpose of Issue.—The proceeds are to be used almost entirely to pay off maturing funded obligations and to repay temporary loans incurred for capital expenditures. [These include \$7,500,000 Secured Notes of 1917 and \$18,500,000 short-term notes and bank loans.—Ed.!

Security.—Secured by deposit and pledge of the following securities, having an estimated market value of \$45,000,000:

Est Mit Value.

Est. Mkt. Value.

Dividend Omitted. It was announced on Thursday that the directors have decided temporarily to suspend dividend payments on the Common shares in order to set aside part of the road's income for capital expenditures so that the company's credit shall not be extended under existing conditions. In March last a dividend of 2% was paid on Common. The Sept. 1918 dividend delayed until Feb. 1919 was also 2%.—V. 108, p. 1935.

Bangor (Me.) Ry. & Electric Co.—Car Trust Certificates. The Maine P. S. Commission has authorized the company to issue 36 promissory notes, each for the sum of \$1,466, dated April 23 1919, bearing 6% int., maturing in monthly installments and secured by a car trust mortgage.—V. 107, p. 2287.

Boston & Maine RR .- Bill in Equity Filed by Stockholders Attacking Validity of Loans .-

Attacking Validity of Loans.—

Arthur H. Stevens of Boston, William C. Hunneman of Brookline, trus tees, Madeline Foster of Newton, Cornelia M. Dodd of Boston, and William H. Colby of Salem, stockholders, through their counsel, Robert M. Morse, on June 23 filed a bill in equity in the Mass. Supreme Court attacking the validity of the company's outstanding loans and its leased lines on March 31 1915, amounting to \$13,600,000. The legislature of 1915, in what is known as the reorganization plan, authorized the company to fund that debt. It is claimed by the complainants that this Act is unconstitutional in that the legislature exercised executive and judicial powers, and also deprived persons of property without trial by jury. The bill filed alleges that prior to June 30 1909 the company had no floating debt, and in detail gives the transactions which led to the debt of \$13,800,000.—V. 108, p. 2342.

Brooklyn Rapid Transit Co.- Equipment Financing .-P. S. Commissioner Lewis Nixon has announced that he will shortly approve an order to permit the surface line companies of the B. R. T. to issue lease warrants or notes for 80% of the value of 200 of the 300 new cars which each company must buy, by order of the Commission. Before his approval is granted the company must submit schedules of the principal and interest amounts which are involved. The companies are to pay 20% of the value of the cars in cash, each car to cost \$5.600. The total cost, including interest and discount, it was stated by A. M. Williams, of counsel to the B. R. T. companies, would amount to \$1,245,696.—V. 108, p. 2527, 2329.

Chicago City Railway.—Dividend.—
A quarterly dividend of 14% has been declared payable June 30 to holders of record June 26. In March last 14% was paid. In Dec. 1918 dividend was omitted. In September paid 1%.—V. 108, p. 1822.

Chicago Great Western RR.—Dividend.—
A dividend of 1% has been declared on the preferred stock, payable July 15 to holders of record July 1. This dividend ordinarily would have been paid July 1, but owing to delay in receiving approval from Washington it became necessary to change record and payment dates.—V. 108, p. 1936, 1714.

Cincinnati New Orleans & Texas Pac. RR.—Loan See "Government Control of Railroads" above.—V. 108, p. 2432.

Cleveland, Cincinnati, Chicago & St. Louis Ry.— Financial Plan Approved.—The shareholders at the adjourned meeting which was held on June 18 approved the proposition to make a new mortgage and referred the matter to the board of directors with power to act. See plan in V. 108, p. 1511; V. 108, p. 2122, 2324, 2432.

Bonus.—
The \$2,000.000 Indianapolis & St. Louis Ry. 1st M. 7s, series A, B and C, due July 1, will be paid on and after that date at the office of J. P. Morgan & Co., New York, together with interest thereon due July 1. Income tax certificates to cover interest on Series B (four months) and Series C (two months) should accompany the bonds.—V. 108, p. 2432, 2329.

Columbus (Ga.) Electric Co.—Offering of Notes.—Stone & Webster are offering at 97¼ and int., to yield over 7%, \$1,750,000 Three-Year 6% gold coupon notes, dated July 1 1919, due July 1 1922. A circular shows:

1919, due July 1 1922. A circular shows:

Interest payable J. & J. 1 at office of Commonwealth Trust Co., trustee, Boston, without deduction for normal Federal income tax up to 2%. Denom. \$1,000, \$500 and \$100 c\*, interchangeable. Callable as a whole at 100 and int. on any int. day upon 30 days' notice. Should the company place any further lien or encumbrance on its property, it will secure this issue of notes equally, and will not increase its outstanding First Mtge. Coll. Trust bonds, unless the proceeds are used to retire notes of this series. Purpose of Issue.—The proceeds will be used to retire the present issue of \$1,500,000 6% notes, due July 1 1919, and the floating debt amounting to \$170,000, incurred for additions and extensions to the plant.

Mauch Chunk (Pa.) & Lehighton Transit Co.-This company has been organized as successor to the Carbon Transit Co., purchased by holders of the \$100,000 2d M. bonds (V. 108, p. 377). The new company has \$150,000 Common stock, all issued; \$50,000 67? Freferred stock authorized, issued \$37,500; \$150,000 6% 40-year bonds authorized, issued \$100,000, and \$150,000 Carbon Transit Co. First Lien 5% bonds.

making the total capital liabilities \$437,500. Officers are: Ben Branch, Pres.; William Dods, V.-Pres.; Dr. George H. Mayer, Treas.; V. M. Wolff, Sec.; C. A. Secor, Comptroller; Granville Rehrig, Supt., and Dennis Duga, Asst. to Supt—V. 108, p. 377.

Asst. to Supt—V. 108, p. 377.

Mobile Light & RR. Co.—Petition Withdrawn.—

An official statement explains as follows the reasons of the company for withdrawing its appeal to the Council for a 6-cent fare.

Improvements needed would cost at present more than \$300,000, about \$125,000 above what we believe would be the cost a year from now. We prefer rather than run the risk of financial embarrassment by adding such a large amount ot our investment which may not be needed 18 months from now, to continue the present schedule of rates and wait and see what the future has in store as regards the volume of our business and the cost of power-house machinery, cars, tracks and the cost of building additional car houses.

The statement submitted for six months from Oct. 1 1918 to April 1 1919 was for a period when the shipbuilding plants were extremely active. This statement showed a deficit from operating of \$7,136. A careful estimate for one year from the date of any grant allowing an increased fare on a ticket proposition figured on the basis of the six months' statement for an unusually heavy period of transportation would increase the gross revenue of our company less than \$40,000 for one year, or after deducting the deficit for one year, on the basis of the deficit shown for six months, would leave only about \$25,000 net income for a year, or only one-fifth of the excess cost above normal of the improvements mentioned.

We appreciate the almost universal opinion of the citizens of Mobile that we were entitled to an increase in fare, and we will do the best we can with our present plant and equipment, but cannot extent the same under present conditions.—V. 86, p. 1529.

Monongahela Valley Traction Co.—Further Particulars.

we were entitled to an increase in fare, and we will do the best we can with our present plant and equipment, but cannot extent the same under present conditions.—V. 86, p. 1529.

Monongahela Valley Traction Co.—Further Particulars.
—The Fidelity Trust Co. of Baltimore, who offered \$2,000,000 One-Year 6% gold notes at 99 and int., to yield over 7½% (V. 108, p. 2330), report in substance:

Dated June 1 1919, due June 1 1920. Interest payable quarterly, Sept. 1 &c. Redeemable in whole or in part at any time at par and int. on 30 days notice. Denom. \$1,000 and \$5,000 c. The Fidelity Trust Co., Baltimore, Md., trustee.

Property.—Company owns and operates, without competition, a system of electric railways in West Virginia and Ohio approximately 200 miles of track; also electric lighting and gas plants, coal mining properties, producer by-product gas plants. The replacement value of the entire property has been estimated to exceed \$21,000,000, against which there are at present outstanding \$14,650,000 of bonds. It serves a population of over 225,000, including Fairmont, Clarksburg, Parkersburg and other imporatnt cities along its lines.

These Notes.—A direct obligation followed by \$3,358,602 Preferred stock (par \$25), paying 6% dividends, and \$8,279,637 Common stock (par \$25).

Earnings—Increase in Rales.—For 12 months ending Mar. 31 1919 the gross carnings were \$3,825,189, and the balance, after fixed charges and depreciation, were \$325,29. Improvements from which practically no revenue has as yet been received (including the new power plant) involved an expenditure of \$4,119,900. The principal part of this new property will be in operation by July 1, and it is estimated, will result in an annual increase in net earnings in excess of \$225,000.

An increase in rates has just been granted by the P. S. Commission of W. Va., effective June 1, which, it is estimated, will result in an annual increase in net earnings in excess of \$225,000.

Purpose of Issue.—Proceeds from sale of these notes are to be applied to comple

x Kanawha Traction & Electric Co. Common stock, \$1,096,759; Preferred stock, \$1,073,670.

Officers.—James O. Watson, Chairman; G. M. Alexander, Pres.; Smith Hood, Vice-Pres.; Walton Miller, Sec'y & Treas. The board includes with others the following officers of the Consolidation Coal Co., viz.: J. H. Wheelwright, Chairman; C. W. Watson, President; S. D. Camden, and George T. Watson, Vice-Presidents; Brooks Fleming Jr., Asst. Gen. Mgr.

See Annual report on a preceding page of this issue.—V.108.p.2330,973.

New York Railways.—Disintegration of System, &c.—Judge Mayer on June 25 directed the receiver not to pay the semi-annual interest due July 1 on the (\$18,061,290) First Real Estate & Refunding Mtge. 4s, it being shown that if the interest on the 4% bonds was paid there would be a deficit for the nine months ended March 31 last of \$1,382,078. Regarding the leased lines Judge Mayer stated:

Regarding the leased lines Judge Mayer stated:

The Court wishes to keep the system intact, but it has no right to destroy property. The New York Rys. Co. is running at a deficit every day. There is no doubt about that. Public Service Commissioner Nixon has indicated that he will take up the matter of transfers, and I presume he will give an answer at an early date. I believe the solution of the transfer problem will mean the solving of the problems we have been considering.

As for the Eighth and Ninth Avenue lines, we know we cannot pay the rentals, and we have no right to keep the property running at a loss. The owners promise to run the cars in a way that will serve the public if we return them. The responsibility of breaking up the property cannot be charged to the Court, which is not going to take money out of the pockets of the owners of the lines. If Judge O Brien will present to me by noon on July 8 a satisfactory plan of operation I will instruct the receiver to return the lines (With reference to the Eighth Avenue road, Public Service Commissioner Lewis Nixon is quoted as saying: "The lease of this line is \$215,000 a year; capital, \$1.000,000; certificates of indebtedness, \$750,000 at 6%. Last year a dividend of \$160,000 was paid by the company to its stockholders and a surplus of \$98,000 was carried over into this fiscal year. The quarterly rent was not paid by the New York Railways Co. on Jan. 1 1919, but a substantial dividend fund still exists. If this line is turned back to its owners, it will be operated as a separate line."—V. 108, p. 2528, 2433.

Northern California Power, Consolidated.—Proposed

Northern California Power, Consolidated.-Proposed Sale to Pacific Gas & Electric Co.-

A circular sent to the stockholders announcing the proposed sale of the properties to the Pacific Gas & Electric Co., and signed by W. F. Detert, C. D. Carman, S. Waldo Coleman, H. H. Noble and F. Reis Jr., directors, states in substance:

"After extended negotiations by W. F. Detert, President, with several prospective purchasers, he made a sale of the capital stock and properties of the company, subject to the approval of the stockholders, directors and the California Railroad Commission.

"Under this conditional sale, subject to the necessary approval and authorization of the Railroad Commission, the Pacific Gas & Electric Co. has agreed to pay \$34 a share for all, or not less than two-thirds of the capital stock of 100,000 shares of this company, on condition that the properties of the company be conveyed to the Pacific Gas & Electric Co. for \$3,400,000, or at a valuation of \$34 a share for the 100,000 shares of stock.

The sale agreement provides that stockholders shall deposit their certificates of stock, duly endorsed, and their written assent to the sale with the Mercantile Trust Co., San Francisco, before July 12 1919."

Nova Scotia Tramways & Power Co.—Bonds.—
The shareholders on June 24 authorized an issue of \$2,000,000 3-yr.
gold coupon bonds of which \$1,000,000 is to be issued presently for a provements subject to the ruling of the P. U. Commission.—V. 108,

Ohio Traction Co., Cincinnati.—Earnings.—An officer of the company writing June 19 says:

Under a service-at-cost revised franchise in Cincinnati, we earned during the month of May at a rate which, if maintained for a year, would supply an amount sufficient to pay one-half of the dividend on the Preferred stock. This was on a 5½c. fare for the first three months of 1919, and a 6c. fare to date. Automatically fares are advanced July 1 to 6½c. ticket rate and 7c. cash. No dividend has, as yet, been declared on the Preferred stock since Nov. 1915.—V. 108, p. 873.

Pacific Gas & Electric Co.—Directors Ratify Contemplated Purchase of Northern California Power, Consolidated.—The directors on June 14 ratified the agreement to purchase the Northern California Power, Consolidated, at \$34 a share. See that company above.

Pennsylvania Company.—Semi-Annual Dividend.—
The directors declared a semi-annual dividend of 3% on the stock, all of which is owned by the Pennsylvania RR., payable June 30 to holders of record June 25. In June and Dec. 1918 a dividend of 3% was paid.—V. 108, p. 967.

Peoria (III.) Ry.—Fare Increase.—
The P. U. Commission of Illinois has entered an order allowing the company to charge a 6-cent fare in the city of Peoria and suburbs, effective June 7, to continue one year, when the fare will automatically revert to 5 cents and 12 rides for 50 cents unless otherwise ordered by the Commission. The company on receipt of the order signed an agreement with its employees granting them an increase of 8 cents an hour, dating from May 1 1919.

—V. 101, p. 213.

Philadelphia Company.—New Stock.—
Stockholders will vote Aug. 30 on increasing the authorized capital stock from \$71,933,400 (consisting of \$44,900,000 Common, \$25,000,000 6% cum. Pref. and the remainder 5% non-cum. Pref. to \$75,683,400, said increase of \$3,750,000 to be in Common stock.

Bonds Retired—Subsidiary Company Bonds.—
The Philadelphia Stock Exchange struck from the regular list \$308,000 Consolidated Mtge. & Collateral Trust % bonds due Nov. 1 1951, canceled for the sinking fund, leaving the amount listed at this date \$13,204,-000.

See Duquesne Light Co. under "Industrials and Miscellaneous" below. V. 108, p. 2429, 2330.

Pittsburgh Canonsb. & Wash. St. Ry.—Coupons.-See Pittsburgh Ry. Co. below.—V. 106, p. 1231.

Pittsburgh Railways.—Interest Payment Ordered.—
Judge C. P. Orr in the U. S. District Court June 21 handed down an opinion ordering payment of \$18,750 semi-annual interest due the Peoples Savings & Trust Co., trustee under the First Mtge. 5s, of the Pittsburgh Canonsburg & Washington St. Ry. Interest was also ordered paid back to January, when the semi-annual interest payment was due, but was not made by the receivers of the Pittsburgh Railways.

Fares Increased to Ten Cents, Effective Aug. 1.—
The receivers announce that on and after Aug. 1 a 10-cent cash fare will obtain on the system; the present 5 and 7-cent fare service will be abolished, and tickets will be sold at the rate of four for 30 cents, making the fare 7½ cents to ticket holders. Notice of the raise in fare has been given by the State P. S. Commission. The receivers declare the new rate is necessary to produce the needed revenue, otherwise dissolution of the system is inevitable.—V. 108, p. 2529, 2434.

Puget Sound Trac., Lt. & Power Co.— Div. Resumed. A quarterly dividend of 75 cents per share has been declared on the preferred capital stock, payable July 15 to holders of record June 26. This is the first distribution on the 6% cum. preferred stock since Oct. 1917, when 4% was paid. Accumulated divs. to July 15 aggregate 174%.—V. 108, p. 1391, 1061.

Rapid Transit in N. Y. City.—Ext. Ready by Feb. 1.—
Frank Hedley, Vlee-Pres. & Gen. Mgr. of the Interborough Rapid Transit Co. at a hearing before the P. S. Commission recently announced that the Eastern Parkway Subway in Brooklyn, extending from Flatbush avenue to the Utica station on Eastern Parkway will be ready for opening about Feb. 1 1920.—V. 108, p. 2241.

Rhode Island Co.—Receivership.— See United Traction & Electric Co., Providence, below.—V. 108, p. 2434.

Terminal RR. Association of St. Louis.—Bonds.—
The Missouri P. S. Commission has authorized the company to issue
\$1,000,000 bonds, to reimburse its treasury for a like amount expended for improvements out of current income.—V. 108, p. 2529.

Net earnings.\_\_\_\_\_\$1,026,531 \$2,317,416 \$2,586,574 \$2,322,071 -V. 108, p. 1722.

Tiffin Fostoria & Eastern (El.) Ry.—Service Abandoned.
A press report states that this company, which operates the city lines in Tiffin, O., announces that it will not resume operation of city cars, which have been suspended since. It is stated that the tracks will be torn up. The reason assigned is that the company has lost an average of \$400 a month for the last year in operating its city lines.—V. 108, p. 1512.

United Rys. & Electric Co., Baltimore.—Div. Postponed A press dispatch from Baltimore states that the directors on June 25 took no action on the Common stock dividend. In April last the dividend was also omitted. The last quarterly dividend of 50 cents was paid Jan. 22.—V. 108, p. 2434.

Union Traction Co. of Indiana.—Extension of Bonds Approved by Public Service Commission—Notes.—

The Indiana P. S. Commission on June 14 approved the extension of (1) the \$4,623,000 General Mortgage 5s, due July 1, to July 1 1922 at 6%, as set forth in detail in V. 108, p. 2434; (2) \$1,200,000 Indianapolis New Castle & Eastern Traction Co. 6% bonds, which became due June 1, to June 1 1922 at 6%. These bonds are callable at 101½ and int., and are secured by a first mtgs. upon about 62 miles of road extending from Indianapolis, by way of New Castle, to Muncie, and operated under lease as a part of the street and interurban railroad system of the Union Traction Co. of Indiana, which under said lease agrees to pay the interest on the bonds.

The interest coupons are free of normal income tax up to 2%. (3) \$328,000 Marion City Ry. 6s which became due May 1, to May 1 1922 at 6%. On June 24 the company filed a petition with the Indians P. S. Commission for permission to issue \$150,000 three-year promissory notes dated July 1 to replace a similar issue due on that date. The new note issue is to be secured by \$40,000 par value of the company's stock, \$18,017 common stock of Shirley Realty Co. and \$25,000 1st Mtge. 6s of 1928 of United Traction, Light & Power Co.—V. 108, p. 2434.

United Traction & Electric Co., Providence, R. I.-Receivership Made Permanent.-

On June 23 1919 Presiding Justice Tanner of the Superior Court, Providence, appointed Cornelius S. Sweetland permanent receiver upon the petition of the Central Union Trust Co., N. Y., trustee of the First Mortgage bonds, due March 1 1933.—V. 108, p. 2434.

Washington Ry. & Electric Co.—Seeks Six-Cent Fare.
The company on June 19 filed a petition with the P. U. Commission asking a flat fare of 6 cents in lieu of the 2-cent transfer charge.—V. 108, p. 2434.

Wellington Grey & Bruce Ry.—Bonds Called—Interest.
Forty (£4,000) 1st Mtge. 7% bonds have been called for payment at par on July 1 at the offices of Grand Trunk Ry. in Montreal, Canada, and London, England. There will also be paid on July 1 from the estimated earnings for the half year ending June 30 £2 16s. 1d. per £100 bond, being second installment on account of coupon No. 70, due July 1 1905.—V. 95, p. 112.

#### INDUSTRIAL AND MISCELLANEOUS.

Advance Rumely Co.—Pref. Stock.—
Press reports say that Finley P. Mount, President of the Advance Rumely Co. denies that a plan to retire part of the Preferred stock is in contemplation or under discussion at present by the board of directors.—V. 108, p. 1508.

Aetna Explosives Co.—Interest Ordered Paid.—
The receivers have been authorized by Judge Mayer to pay \$27,460 interest due July 1 on the outstanding bonds.

Notice to Common Shareholders.—F. H. Prince & Co., Court and Washington streets, Boston, and 25 Broad St., Court and Washington streets, Boston, and 25 Broad St., N. Y., announce, by advertisement on another page, their acceptance on account of their own large holdings of common stock and as representatives of other common shareholders of the plan of reorganization based on the court order of May 23. The receivers, George C. Holt and Benjamin B. Odell, unite with F. H. Prince & Co. in urging that all common stockholders execute and forward to that firm proxies for the necessary votes and consents to carry out the terms of settlement. Prompt action is important. See adv. pages and compare V. 108, p. 2243, 2331, 2434, 2529.

Allied Packers, Inc., N. Y. City.—Preliminary Earnings Fiscal Year ended April 30 1919.—

Net sales \$99.817,335 | Total income \$3,803,837 | Cost of sales 92.412.654 | Other deduction 578.436 | Gross profits \$7,404,681 | Balance before taxes \$3,225,401 | Expenses 3.921,460 | Estimated Federal inc. & Other income 320.616 | For offits taxes 543.594 | Balance 543,225 | Net earnings 546,807 | The above figures represent the earnings of the companies already purchased. American Malt & Grain Co.—Capital Stock.-See American Malting Co. below.—V. 108, p. 2435.

American Malting Co.—Liquidation, &c.—
On behalf of Mr. W. Forbes Morgan, Chairman of the committee of First Pref. stockholders in liquidation, the following statement is made:
"On or about June 5 1919 the liquidating trustees declared a dividend on account of distribution of net assets amounting to \$30 per share to the holders of First Pref. stock, of which the committee received the sum of \$2,039,370 on account of the First Pref. stock deposited with it under agreement of July 31918. Out of this sum the committee paid \$1,764,907.20 in full payment of subscriptions for 49,025.2 shares of the capital stock of the American Malt & Grain Co. on account of subscriptions [at \$36 per share, now quoted on the Curb at about \$50—Ed.] made by holders of subscribing

certificates of deposit, which payment in effect amounted to a distribution to such holders of \$25 20 per share of First Pref. stock of the American Malting Co. represented by said certificates of deposit, and at the same time distributed \$30 per share in cash to the holders of non-subscribing certificates of deposit.

On the 23d inst. the liquidating trustees declared a further or second dividend of \$30 per share on the First Pref. stock, of which the committee received \$2,039,370 on account of the First Pref. stock deposited with it, and as of the 25th inst. instructed the Guaranty Trust Co., as agent, to distribute to the holders of subscribing certificates of deposit the sum of \$30 per share of First Pref. stock represented by said certificates and to the holders of non-subscribing certificates of deposit the sum of \$55 20 per share on each share of First Pref. stock represented by the holders of both subscribing and non-subscribing certificates of deposit.

"The committee expects that in the near future there will be a final small dividend declared by the liquidating trustees which, less the expenses of the committee, will be distributed to the holders of certificates of deposit in proportion to the shares of First Pref. stock represented thereby.

"The committee now expects that the stock certificates of the American Matt & Grain Co. will be ready for delivery to subscribers therefor early in the week beginning June 30."—V. 108, p. 582, 273, 171.—V. 108, p. 2435.

American Screw Co.—Extra Dividend.—
An extra dividend of 1½% has been declared on the capital stock along with the regular quarterly dividend of 1½%, both payable July 1 1919 to holders of record June 23 1919. This compares with 2% paid extra in Sept. and Dec. 1918 and 4% in March 1918. V. 107, p. 2478.

American Shipbuilding Co.—Extra Dividend.—
An extra dividend of 2½% has been declared on the Common stock, along with the regular quarterly of 1½%, both payable Aug. 1 to holders of record July 15. A like amount was paid extra in Feb. and May last.—V. 108, p. 1276.

GRIFFIN WHEEL COMPANY BALANCE SHEET DEC. 31 1918.

[Compar	6 Limited Mehoren months	
Assets— Plant property (less res.) Preferred items Good will, patents, &c Cash & marketable securities. Notes and accounts receivable Inventories (less reserve)	3,786,237, Tax & other accruals	896,981 70,925 750,000

Total (assets & liabilities)...\$19,942,501|

Earnings.—The average annual earnings of the Griffin Wheel Co. for the past 6 years have been \$1.198,470, after deduction for depreciation of an annual average of \$187,748.

Net earnings after depreciation and war and excess profits taxes have been for the past three calendar years as follows: 1916, \$1,649,018; 1917.

\$1.143,240; 1918, \$1,326,943.

Combined Earnings & Assets.—Assuming the acquisition under our offer of all the Com. stock of the Griffin Wheel Co. there would, on the average earnings of that ocmpany for the past 6 years and our company for the past 13 years, be applicable for divs. on this issue from the combined earnings, after deduction of our debenture interest and Griffin Preferred stock div., and after average depreciations of \$532,498, the sum of \$2,574,596 annually, or over 4 times the dividend requirements of this issue.

The net quick assets of the combined companies at Dec. 31, 1918 are \$17,606,869; deducting therefrom the outstanding 4% Debentures and the Preferred stock of the Griffin Company, there remains a balance of \$10,384,769, or \$115 a share applicable to this issue. The allowed invested capital of the two companies is \$43,500,000, allowing combined earnings of \$3,480,000 yearly before liability for excess profits tax.

Preferred Stock Provisions.—(a) No mortgage or lien may be placed upon the property, nor can the stock owned in any corporation of which a majority of the capital stock is owned by the company be voted in favor of the creation of any mortgage or lien upon the property of such corporation, nor can the authorized amount of Pref. stock be increased, nor the rights of its holders be diminished, by the issue of stock of prior or equal rights, or otherwise except by vote or consent of the holders of two-thirds of the Pref. stock; (b) Beyond \$10,000,000 no further authorized stock may be issued unless annual earnings have equaled twice the new div, requirements; (c) is entitled to \$110 and accumulated divs, in case of liquid

Charcoal Iron Co. of America.—Stock Dividend, &c.—
The shareholders, it is announced, will vote July 31 on increasing the authorized Common stock from \$2.839.350 to \$5.000,000. An exchange journal says: "The directors propose to pay a stock dividend of 20% to stockholders. This dividend is to be charged against surplus and the balance of the issue to go into the treasury for future requirements. The stock dividend will be paid in lieu of the usual cash dividends on the Common stock outstanding, it being necessary to pass the cash dividend because of the increasing inventory of finished product."

This company has been authorized by the Ohio P. U. Commission to issue \$232,000 capital stock on account of additions, &c., including a transmission line between Wilmington and Xenia, &c.—V. 108, p. 786.

Dodge Manufacturing Co.—Extra Dividend.—
The directors have declared an extra dividend of 1% on the Common stock in addition to the regular quarterly of 1½%, both payable July 1 to holders of record June 21. An extra dividend of 1% was paid in April last and 2% in January.—V. 108, p. 976.

Duquesne Light Co., Pittsburgh, Pa.—Bonds.—The Company has sold to a syndicate of bankers an issue of \$25,000,000 30-year 5½% bonds, which it is expected will be offered shortly, probably at 95½.

The proceeds from the sale of the securities will be used to take up \$10,000,000 of secured notes, and the balance will be appropriated for onstruction work and other contemplated improvements under consideration It is said that Harris, Forbes & Co. are at the head of the underwriting syndicate. Compare Annual Report in V. 108, p. 2429.

Dwight Manufacturing Co., Boston.—Extra Dividend.
An extra dividend of \$15 (3%) has been declared on the \$1,200,000 outstanding stock (par \$500), along with the usual semi-annual dividend of \$30 (6%) per share both payable July 1 to holders of record June 24. In Jan. last a like amount was paid extra. In 1918 no extras were paid.—V. 107, p. 2479.

Edison Electric Illuminating Co. of Boston.—Offering of Notes.—Lee, Higginson & Co., Old Colony Trust Co., F. S. Moseley & Co., Kidder, Peabody & Co., Parkinson & Burr, are offering at 99½ and int., yielding about 6.20%, \$6,000,000 6% coupon gold notes dated July 1 1919, due Feb. 1 1922. Int. payable F. & A. in Boston. Denom. \$1,000 c. A circular shows:

Endicott-Johnson Corporation.—Listing—Earnings.—
The New York Stock Exchange has authorized the listing of \$15,000,000
7% Cum. Pref. stock and \$14,000,000 Com. stock.
The sales for the four months period ending Apr. 17 1919, as reported to the Exchange, were \$17,149,168; cost of sales, \$13,420,220; gross profit, \$3,728,948; other income, \$7,129; total income, \$3,736,077; expenses and interest, \$1,821,553; leaving net profit before Federal taxes, \$1,914,524.—
V. 108, p. 2436.

Famous Players-Lasky Corp., N. Y.—New Stock.—
Stockholders of record July 5 will have the right to subscribe at par (\$100) on or before 12 noon July 26 (when full payment must be made) for 25,000 shares of Treasury stock to the extent of one share for every seven shares now held. This will bring the outstanding capital to 200,000 shares, the total amount authorized. Subscription warrants will be issued on or before July 12. President Adolph Zukor, in circular letter of June 24, says in substance: "In my opinion, world conditions as related to the motion picture industry are ripe for legitimate and healthy extension. This sale of treasury stock has been underwritten by Messrs. Dominick & Dominick and Hallgarten & Co.

has been underwritten by Messrs. Dominion to the first & Co.

"The company is in prosperous condition, our earnings during the first five months of this year having exceeded those of the entire year of 1918."

Data from Letter of Pres. J. A. Root, Dated June 4 1919.

The company has been incorporated under the laws of Delaware, and has acquired the property and business of: (a) The J. D. Fate Co., which has been in operation for 25 years; business consists of the manufacturing of brick and tile-making machinery; prospects of this line are excellent.

(b) The Root-Heath Mfg. Co., which started 24 years ago making a line of hardware specialties.

Owns in fee about 12 acres of land upon which are located 15 brick and iron buildings with a ground floor space of about 160,000 sq. ft. A new foundry building is now under construction. The lands, plants, &c., have a present depreciated value of \$244,292.

Purpose of Issue.—Of the proceeds of this stock \$125,000 will be expending new construction, and the balance used in part payment of the purchase of the present properties.

Earnings.—The combined average 12 months' sales and earnings of the companies for 3¼ years ending March 31 1919, as furnished us by Ernst & Ernst, have been as follows: Net sales, \$600,230; earnings before Federal taxes and contingencies but after full depreciation, \$68,321; net earnings after reserves for Federal taxes and contingencies, \$46,369.

General Cigar Co., Inc., N. Y.—\$5,000,000 7% Cum. Sinking Fund Debenture [2nd] Pref. Stock, Convertible Into Common at Par, Underwritten—Subscription Rights.—President Fred Hirschhorn in circular of June 20 says in subst.:

Common at Par, Underwritten—Subscription Rights.—President Fred Hirschhorn in circular of June 20 says in subst.:

The expansion of business since organization through the acquisition of additional businesses and properties, and the great increase in the business, especially during the past year, has greatly increased our requirements for working capital. There is every indication that the present large earnings will continue.

The net earnings for the calendar year 1918 after making provision for Federal income and excess profits taxes and officers profit sharing were approximately 7.23% on the outstanding Common stock, and the net earnings for the first five months of 1919, after deducting estimated Federal taxes and officers profit sharing for such five months, were at the rate of approximately 11.25% p. ann. on such Common stock.

The increased working capital has up to the present time been secured through short term bank loans and sale of our commercial paper. Your directors are of the opinion these obligations should be very materially reduced through the issue and sale of approximately \$5,000,000 7% Cumulative debenture Preferred stock convertible into Common stock and any time.

Subject to the necessary stockholders' action, at a special meeting called for July 7 1919, the privilege is to be given to the holders of the Preferred and Common stock of the company of record on July 14 to subscribe at par with accrued dividend from July 1 1919 for such new stock in amounts equal to 20% of their respective holdings. Subscription warrants will be issued shortly after July 14 and must be filed with payment in full at Lawyers' Title & Trust Co., 160 Broadway, N. Y., not later than 3 p. m. July 30. The company will not sell fractions.

The company has arranged with Goldman, Sachs & Co. and Lehman Bros., both of the City of New York, to form a syndicate to underwrite the purchase of said issue of debenture Preferred stock. Samuel Sachs and Philip Lehman are directors of the company.

Your directors and officers b

stock, of which \$18,104,000 is now outstanding.]

Digest of Description of 7% Cumulative Debenture [2nd] Pref. Stock.

Subject to all of the preferences and privileges of the present Preferred stock, but to be Preferred over the Common stock, both as to dividends and assets. Entitled to cumulative dividends of 7% p. ann. from July 1 1919, but no more payable quarterly Oct. 1, &c.; also to receive on any involuntary liquidation, par and accrued and unpaid dividends, plus, in case such liquidation is voluntary, a premium of 10% of par, and no more, before any distribution is made to the Common stockholders. Subject also to redemption at any time in whole or in part at 110% of par, plus accrued and unpaid dividends on 60 days' notice.

Entitled to a cumulative sinking fund to which the company is to pay each June 1, beginning with 1921, a sum sufficient to purchase and cancel at not exceeding 110 & div. 1,500 shares of Debenture Preferred stock.

Exchangeable, at option of holders thereof, at any time (except when transfer books are closed) and except if called for or the redemption during the 10 days just prior to the redemption date for Common stock, share for share, with a cash adjustment of dividends.

The company shall not, without the consent of 75% of the Debenture Pref. stock at the time outstanding. (1) Mortgage or otherwise encumber its properties, except (a) its quick assets to secure loans in the ordinary course of business (b) purchase money mortgages or liens; (2) increase the present Preferred stock or the Debenture Preferred stock or create any Preferred stock prior to or on a parity with the Debenture Preferred stock; or (3) sell the assets and business as an entirety.

Will have no voting power unless the company shall fail to pay two successive quarterly dividends thereon whereupon each shall thereof will have equal voting rights of the existing Preferred stock in case the company falls to pay dividends thereon.—V. 108, p. 2437.

General Motors Corporation.—Earnings, following published statement, while not given out officially, is understood to be approximately correct:

The earnings for the six months ending June 30 1919, it is estimated, will exceed \$45,000,000. The corporation's cash position as of June 14 was Cash on hand and in bank \$74,567,449 Sight drafts attached to bills of lading 7,430,208 \$24,324,000 Liberty bonds valued on books at 23,242,025

\$105,239,682 The syndicate reports the 300,000 share issue well over 90% sold.— 108, p. 2437.

Godchaux Sugars, Inc.—Financing.—P. W. Chapman & Co., Ames, Emerich & Co. and A. B. Leach & Co. have purchased \$3,500,000 7% First Preferred stock and a block of the Common stock and are organizing a distributing syndicate which will offer the securities to investors in the near future. A circular shows: future. A circular shows:

The tangible assets, without considering good-will, trade-names, &c., are \$10,196,895, which represent a value of more than \$291 per share on the First Preferred stock and more than \$45 per share on the Common stock. The Second Preferred stock and the majority of the Common stock willbe owned by the Godchaux families and their associates, who will continue to manage the property.

Sales for the first four months of the present fiscal year were \$5,622,000 and for the year are estimated at between \$18,000,000 and \$20,000,000. [Upon completion of the present financing the capitalization, it is said, will consist of \$3,500,000 First Preferred stock, \$300,000 Second Preferred stock and 70,000 shares Common stock (no par value).

(B. F.) Goodrich Co.-New Preferred Stock. The shareholders on June 26 approved the plan to issue \$7,500,000 additional 7% Cumulative Preferred stock, which will be offered to preferred and common stockholders of record July 1 at \$102 and dividend. The new stock has been underwritten by New York bankers, including, it is understood, Goldman, Sachs & Co., Lehman Brothers, the Bankers Trust Co., Guaranty Trust Co. and Chase Securities Corp. See also V. 108, p. 2437.

Griffin Wheel Co.—Earnings, &c.— See American Steel Foundries Co. above.—V. 108, p. 2437.

[Liggett & Drexel and Knauth, Nachod & Kuhne, N. Y., also announce the sale of 70,000 shares Common stock (par \$50) at \$36 a share.]

Coastwise Transportation Co.—Extra Dividend.—
An extra dividend of \$5 (10%) has been declared on the stock, payable me 26 to holders of record June 24. In June 1918 an extra of 10% was so paid.—V. 106, p. 2125.

Commonwealth Edison Co.—First Mtge. Bonds Listed.—
The Chicago Stock Exchange has listed \$4,000,000 additional 1st Mtge.
5% gold bonds, making the total amount listed \$46,631,000, which includes
\$8,000,000 Commonwealth Electrict 1st Mtge. 5s.—V. 108, p. 976, 969.

Commonwealth Public Service Co.-Control Purchased. John I. Beggs, Milwaukee, has purchased control of this company from a firm of Chicago bankers. The company operates gas and electric properties in Eastern Oklahoma and Western Arkansas, and will continue to operate under the present name. Officers are: Pres., John I. Beggs, Milwaukee; First V.-Pres., D. R. Lane, Davenport; V.-Pres. & Gen. Mgr., G. W. Fry, Fort Smith; Sec.-Treas., C. O. Reynolds, Chicago. (Mr. Beggs is Pres. of

Wisconsin Traction, Light, Heat & Power Co., and interested in other properties.)—Compare note offering, V. 108, p. 1167.

Consolidated Cigar Corporation.—Listing.—
The New York Stock Exchange has authorized the listing of \$4,000,000 temporary certificates of the 7% Cumulative Preferred stock and 90,000 shares of no par value Common stock.—V. 108, p. 2244, 2125.

Consumers Co., Chicago.—Listed in Chicago.—
The Chicago Stock Exchange has admitted to the regular list this company's outstanding stock, viz.: \$6,000,000 Common and \$3,948,800 Pref., previously on the unlisted list.—V. 108, p. 786.

Converse Rubber Shoe Co., Malden, Mass.—New Stock.
The company is offering, at \$101 per share (par \$100), the remainder (about \$100,000) of an additional block of \$250,000 7% Cumulative Pref. Stock (preferred as to dividends and assets). Dividends J. & D.

stock (preferred as to dividends and assets). Dividends J. & D.

Data from President M. M. Converse.

This issue of Pref. stock (2,500 shares) will make the capital \$2,000,000, of which \$1,625,000 is Preferred, \$375,000 General Capital. There has never been a share of stock issued that did not have \$100 or more in cash or its equivalent paid in for it. Proceeds of this issue will be used to reduce floating debt and to finance the greatly increased volume. No bonds outstanding, and none can be issued without the consent of 51% of Pref. stk. Factory at Malden has a floor space of over 4 acres and is producing daily 18,000 pairs of high-grade rubber footwear, which are sold direct to retailers free from any combination. Branch stores are maintained in New York and Chicago. For the past four years this demand has been way beyond the supply; in 1917 and 1918 alone orders aggregating \$2,000,000 were refused.

Endicott-Johnson Corporation.—Listing—Earnings.—
The New York Stock Exchange has authorized the listing of \$15,000,000
7% Cum. Pref. stock and \$14,000,000 Com. stock.
The sales for the four months period ending Apr. 17 1919, as reported to the Exchange, were \$17,149,168; cost of sales, \$13,420,220; gross profit, \$3,728,948; other income, \$7,129; total income, \$3,736,077; expenses and interest, \$1,821,553; leaving net profit before Federal taxes, \$1,914,524.—V. 108, p. 2436.

Famous Players-Lasky Corp., N. Y.—New Stock.—
Stockholders of record July 5 will have the right to subscribe at par (\$100) on or before 12 noon July 26 (when full payment must be made) for 25,000 shares of Treasury stock to the extent of one share for every seven shares now held. This will bring the outstanding capital to 200,000 shares, the total amount authorized. Subscription warrants will be issued on or before July 12. President Adolph Zukor, in circular letter of June 24, says in substance: "In my opinion, world conditions as related to the motion picture industry are ripe for legitimate and healthy extension. This sale of treasury stock has been underwritten by Messrs. Dominick & Dominick and Hallgarten & Co.

has been underwritten by Messrs. Following the Co.

& Co.

"The company is in prosperous condition, our earnings during the first five months of this year having exceeded those of the entire year of 1918."

New York office, 485 Fifth Ave.—See also V. 198, p. 2436.

(William) Farrell & Sons, Inc.—Further Information.—In connection with this company's offering of Prefe red stock by Spencer Trask & Co. and Ladenburg, Thalman & Co. (V. 108, p. 2126; see also advertisement on page xxx of May 24 issue of the "Chronicle" by J. S. Bache & Co. as to common stock), we give the following information:

Freeport Texas Co.—Earnings—Listing.

The gross sales for the four months ending March 31 1919, as reported to the Exchange, were \$1,163,566; cost of sales, \$219,090; profit on sales, \$944,476; selling and general expenses, \$286,831; net profits, \$657,645; other income, \$78,282; total income, \$735,927; previous surplus, \$6,984,444; reserves and taxes, \$847,423, leaving a total profit and loss surplus of \$6,872,948.

The New York Stock Exchange has authorized the listing of 494,147 shares of the capital stock permanent engraved certificates to replace voting trust certificates.—V. 168, p. 2025, 1940.

Fate-Root-Heath Co., Plymouth, O.—Offering of Pref. Stock—Otis & Co., Roland T. Meacham and United Security Co., Cleveland, are offering, at 96 and int., yielding 7.29%, \$250,000 7% Cumulative Sinking Fund Preferred stock. A circular shows:

Divs. payable quarterly Jan. 1, &c. Pref. as to a. & d. Redeemable as a whole or in part for sinking fund at 110. Sinking fund of \$15,000, beginning July 1 1920, is provided.

Data from Letter of Pres. J. A. Root, Dated June 4 1919.

The company has been incorporated under the laws of Delaware, and has acquired the property and business of: (a) The J. D. Fate Co., which has been in operation for 25 years; business consists of the manufacturing of brick and tile-making machinery; prospects of this line are excellent. (b) The Root-Heath Mfg. Co., which started 24 years ago making a line of hardware specialties.

Owns in fee about 12 acres of land upon which are located 15 brick and iron buildings with a ground floor space of about 160,000 sq. ft. A new foundry building is now under construction. The lands, plants, &c., have a present depreciated value of \$244,292.

Purpose of Issue.—Of the proceeds of this stock \$125,000 will be expended new construction, and the balance used in part payment of the purchase in new construction of the present prop

Earnings.—The combined average 12 months' sales and earnings of the companies for 3½ years ending March 31 1919, as furnished us by Ernst & Ernst, have been as follows: Net sales, \$600,230; earnings before Federal taxes and contingencies but after full depreciation, \$68,321; net earnings after reserves for Federal taxes and contingencies, \$46,369.

General Cigar Co., Inc., N. Y.—\$5,000,000 7% Cum. Sinking Fund Debenture [2nd] Pref. Stock, Convertible Into Common at Par, Underwritten—Subscription Rights.—President Fred Hirschhorn in circular of June 20 says in subst.:

Sinking Fund Debenture [2nd] Pref. Stock, Convertible Into Common at Par, Underwritten—Subscription Rights.—President Fred Hirschhorn in circular of June 20 says in subst.;

The expansion of business since organization through the acquisition of additional businesses and properties, and the great increase in the business of the control of the past year, has greatly increased our requirements for working the past year, has greatly increased our requirements for working the past year, has greatly increased our requirements for the carnings for the calendar year 1918 after making provision for Federal income and excess profits taxes and officers profit sharing were approximately 7.2.3% on the outstanding Common stock, and the net earnings for the first five months of 1919, after deducting estimated Federal approximately 7.2.3% on the outstanding Common stock.

The increased working capital has up to the present time been secured through short term bank loans and sale of our commercial paper. Your directors are of the opinion these obligations should be very materially reduced through the issue and sale of approximately \$5.000.000 7% Cumulation and the common stock of the company of record on July 14 to subscribe at par with accrued dividend from July 1 1919 for such new stock in amounts of the company of record on July 14 to subscribe at par with accrued dividend from July 1 1919 for such new stock in amounts equal to 20% of their respective holdings. Subscription warrants will be experted to the necessary stockholders' action, at a special meeting called for July 7 1919, the privilege is to be given to the holders of the Preferred and Common stock of the company of record on July 14 to subscribe at par with accrued dividend from July 1 1919 for such new stock in amounts equal to 20% of their respective holdings. Subscription warrants will be superior to the subscribe at part with accrued dividend from July 1 1919 for such new stock in amounts equal to 20% of their respective holdings. Subscription warrants will b

General Motors Corporation.—Earnings, following published statement, while not given out officially, is understood to be approximately correct:

The earnings for the six months ending June 30 1919, it is estimated, will exceed \$45,000,000. The corporation's cash position as of June 14 was Cash on hand and in bank \$74,567,449 Sight drafts attached to bills of lading 7,430,208 \$24,324,000 Liberty bonds valued on books at 23,242,025

\$105,239,682 The syndicate reports the 300,000 share issue well over 90% sold.— 108, p. 2437.

Godchaux Sugars, Inc.—Financing.—P. W. Chapman & Co., Ames, Emerich & Co. and A. B. Leach & Co. have purchased \$3,500,000 7% First Preferred stock and a block of the Common stock and are organizing a distributing syndicate which will offer the securities to investors in the near future. future. A circular shows:

The tangible assets, without considering good-will, trade-names, &c., are \$10,196,895, which represent a value of more than \$291 per share on the First Preferred stock and more than \$45 per share on the Common stock. The Second Preferred stock and the majority of the Common stock willbe owned by the Godchaux families and their associates, who will continue to manage the property.

Sales for the first four months of the present fiscal year were \$5,622,000 and for the year are estimated at between \$18,000,000 and \$20,000,000. [Upon completion of the present financing the capitalization, it is said, will consist of \$3,500,000 First Preferred stock, \$300,000 Second Preferred stock and 70,000 shares Common stock (no par value).]

(B. F.) Goodrich Co.—New Preferred Stock.—
The shareholders on June 26 approved the plan to issue \$7,500,000 additional 7% Cumulative Preferred stock, which will be offered to preferred and common stockholders of record July 1 at \$102 and dividend. The new stock has been underwritten by New York bankers, including, it is understood, Goldman, Sachs & Co., Lehman Brothers, the Bankers Trust Co., Guaranty Trust Co. and Chase Securities Corp. See also V. 108, p. 2437.

Griffin Wheel Co.—Earnings, &c.— See American Steel Foundries Co. above.—V. 108, p. 2437.

Gulf Oil Corporation.—Notes All Sold.—Union Trust Co. and Mellon National Bank, Pittsburgh; Guaranty Trust

Co. and Bankers Trust Co., N. Y., announce the sale at prices ranging from 100 to 99 \(^3\)4 and int., to yield over 6\(^6\)5, according to maturities, \$18,000,000 6\(^6\)5 serial gold notes, dated July 1 1919, to mature \$6,000,000 each July 1 1921 to 1923 inclusive. See advertising pages.

Denom. of \$1,000. Int. payable J. & J. at the office of the Union Trust Co., Pittsburgh, trustee, or at the Guaranty Trust Co., N. Y., without deduction for Federal income taxes legally deductible at the source. Not subject to redemption prior to maturity.

Data from Letter of Pres. W. L. Mellon, Dated Pittsburgh, June 23.

This Issue.—The indenture provides that so long as any of the notes are outstanding the company will not create any secured debt against its properties (incl. the properties of subsidiary companies, excepting the remaining unmatured debt on the steamship Gulfoil amounting to \$175,000\); also that the current quick or liquid assets of the company and its subsidiaries shall at all times be at least equal to the aggregate amount of their debt, including the amount of these notes then outstanding.

Company.—Organized in 1907 and through its subsidiaries conducts an active business in producting, refining, transporting and distributing petroleum and its products. Owns and operates (a) producing wells, with its own connecting pipe lines, in Texas, Oklahoma, Louisiana, Kansas and in Mexico; principal refineries located at Port Arthur and Fort Worth, Tex., have a daily capacity of 60,000 barrels of crude oil. (b) A large fleet of tank steamers and other ocean-going equipment. (c) Distributing stations at practically all of the Atlantic seaport cities and at inland points over a large area of country. Its production of oil from its own wells in the United States is over 50,000 barrels per day, and has not been under that amount in the past two years. Compare annual report for year ended Dec. 31 1918 in V. 108, p. 1386, 1168.

Kansas Natural Gas Co.—Decision.—

The June issue of the "Doharty News," published by Henry L. Doherty & Co., says: The Supreme Court of the United States has vacated its order entered March 17 in the cases of the Public Utilities Commission of Kansas, the P. S. Commission of Missouri, the Kansas City Gas Co. and the Wyandotte County Gas Co., against John M. London, receiver of the Kansas Natural Gas Co. Judgment now has been entered as follows:

"The decrees below are reversed and the cause is remanded to the trial court with directions to hear it anew and determine all the issues involved, including those arising on the several bills, cross bills and pressed in the opinion of this Court, and to take such further proceedings as may be appropriate and consistent with such opinion. All temporary injunctions in force at the time of the entry of the decrees from which appeals were taken here shall be continued in force until otherwise ordered."

On March 17 the Supreme Court in an unanimous decision upheld the contention of the Kansas Natural Gas Co. that the transportation of gas through pipelines from one State to another is inter-State commerce and that such gas might be sold to local distributing companies free from uncasonable interference by State and municipal authorities. This case grew out of actions brought by the receivers of the Kansas Natural Gas Co. to permit them to establish and maintain selling rates for gas to local distributers sufficiently high to compensate the receiver.

Under the new ruling the cases go back to the lower courts for re-trial with directions to hear them anew in conformity with the views expressed in the opinion of the Supreme Court. It is expected that this new order will, materially relieve the uncertainty of the many conflicting situations that have arisen during the seven years of litigation in which the Kansas Natural Gas

Kelly-Springfield Tire Co.-\$7,000,000 8% Cum. 2nd Pref. Stock—\$5,860,200 Underwritten and Offered to Share-holders of Record July 17 at Par.—The shareholders will vote July 11 on approving an increase in the authorized capital stock from \$13,900,300, consisting of \$3,900,300 6% cum. Preferred in \$100 shares and \$10,000,000 Common in \$25 shares, to \$20,900,300. All of such increase of \$7,000,000 will be 8% Cumulative Second Preferred stock, and \$5,860,200 thereof having been underwritten, will be offered for pro rata subscription to the holders of record of the Preferred and Common shares at the close of business on July 17,1010

pro rata subscription to the holders of record of the Preferred and Common shares at the close of business on July 17 1919 at \$100 per share, payable Aug. 15 1919.

Digest of Circular Signed by Pres. Van. H. Cartmeil, N. Y., June 20. Prior to the entrance of this country into the European War, plans were adopted by the company for the erection of a new factory at Cumberland, Md., with an estimated production substantially greater than the combined output of the three manufacturing plants which it is now operating at Akron, O., Wooster, O., and Buffalo, N. Y., respectively. Owing to the war, the building plan was necessarily deferred. One unit of the plant (the machine shop) has been constructed and is now being satisfactorily operated. Your directors confidently bleleve that, with the new plant completed, the profits of the company will be materially larger through substantially increased production and economies in operation. [See also full official statement to N. Y. Stock Exchange, &c., V. 108, p. 1835, 1393, 977, 970.]

The directors deem it inadvisable to take from the company's working capital the funds necessary for the erection and equipment of the proposed plant, and they have, therefore, authorized, subject to the approval of the meeting on July 11 1919, the immediate offer of \$5,860,200 of 8% Cumulative Second Pref. stock for pro rata subscription to the holders of the present Preferred stock and Common stock of record July 17 1919, at par, \$100 per hare, in amounts equal to 70% of present holdings, subscriptions to be ed and paid in full at the Equitable Trust Co., 37 Wall St., N. Y. City, or before Aug. 15 1919.

The company has requested H. P. Goldschmidt & Co., Goldman, Sachs & o. and Lehman Bros. to form a syndicate to underwrite the subscription r said 8% Preferred stock, the underwriting syndicate and bankers are receive compensation from the company.—V. 108, p. 1824, 1723.

Kerr Lake Mining Co.—Silver Production (Ounces) 

Knox Hat Co., Inc.—Issue of Bonds.—
Shareholders will vote July 14 on authorizing the issue and sale or other disposition of not exceeding \$1,000,000 bonds bearing interest at such rate or rates not exceeding 7% p. a., running not over 20 years, redeemable at such price or prices, entitled to such sinking fund, secured by first mtge., pledge or otherwise as the board shall determine.—V. 108, p. 883.

Lake Erie Bolt & Nut Co., Cleveland.—Preferred Stock Sold.—Otis & Co., Cleveland, announce the sale of \$1,500,000 7% Cumulative Sinking Fund Preferred stock (par \$100). An advertisement shows:

An advertisement shows:

Divs. payable quarterly Jan. 1, &c., first div. accruing from July 1 1919 will be payable Oct. 1 1919.

Capitalization (No Funded Debt)— 250,000 shares 150,000 shares 7% Cumulative Pref. stock (par\$100).\$2,500,000 \$1,500,000 Company (incorp. in Delaware, June 23 1919, the Corporation Trust Co. of America being the Delaware representative) has acquired the business and good-will of the Lake Erie Iron Co. by leasing the plant and equipment and purchasing the inventory. Business established for 47 years, consists of the manufacture of bolts, nuts and washers for all classes of industrial and railroad uses.

Purpose of Issue.—Of the proceeds \$700,000 will be used for the purchase of the present inventory of the Lake Erie Iron Co. and \$800,000 for working capital and improvements to plant.

Earnings.—The average earnings and tonnage for years 1916, 1917 and 1918 are as follows: Tonnage, 33,574; sales, \$4,021,053: net profit after deducting Federal income taxes, &c., \$498,976; dividends paid, \$216,667; balance, surplus, \$282,309.

Lehigh Coal & Navigation.—Guaranty To Be Canceled.

Oil Well Supply Co.—Offering of Bonds.—Union Trust Co., Pittsburgh, are offering at par and int. yielding 6%, \$3,000,000 (entire issue) First Mortgage 6% Sinking Fund Serial gold bonds, dated June 1 1919, due \$150,000 annually each June 1 1920 to 1939, incl.

each June 1 1920 to 1939, incl.

Interest payable J. & D., without deduction for any normal Federal income tax up to 2% which the company may lawfully pay at the source. The Union Trust Co., Pittsburgh, Trustee. Denom. \$1,000c\*. All bonds becoming due on or after June 1 1922 are redeemable at par and int., in whole or in part on that date or on any later int. date, upon 30 days' published notice. Free of Pennsylvania State tax. Commencing June 1 1919 a sinking fund of \$12,500 monthly is provided to be applied to the payment of each series as they become due.

Data from Letter of Pres. Louis Brown, dated Pittsburgh, May 7 1919.

Company.—Incorp. March 18 1891 in Pennsylvania, succeeding the Oil Well Supply Co., Ltd., in continuous and successful operation since that date, is the largest manufacturer of machinery and supplies for drilling and operating oil and gas wells. The principal manufacturing plants located at Pittsburgh, Oil City, and Bradford, Oswego, N. Y., and Poplar Bluff, Mo., have been well maintained. Maintains branches at all important points throughout the oil and gas fields in the United States and Mexico also maintains an office in London, Eng., to care for its European and Oriental trade.

Financial Condition on Dec. 31 1918.

Otis Steel Co., Cleveland.—Bond Call.— All of the 5% Mtge. S. F. gold bonds have been called for payment July 1 at 105% at the Trustees Corporation, Ltd., London, England.— V. 108, p. 2246.

Pabst Brewing Co.—New Product.—
An advertisement says: "New 'Pabst,' after July 1st, will take the place of the present Pabst beverages; can be sold under the new prohibition law by grocers, restaurants, lunch and soda attands, soda foundains, drug stores, &c., without any license whatsoever."—V. 108, p. 2246, 2129.

Packard Motor Car Co., Detroit.—Increase in Authorized Capital Stock, Common from \$13,000,000 to \$30,000,000 and Preferred from \$8,000,000 to \$20,000,000—Only \$7,500,-000 New Preferred Stock to Be Issued at Present-Underwriting Largely Oversubscribed, Providing for \$5,000,000 Debenture Notes Due Oct. 15, &c.—The shareholders voted June 26 1919 to increase the capital stock as above indicated. The immediate issue of \$7,500,000 additional Preferred stock has been underwritten by Montgomery & Co. and the Chase Securities Corp., being largely oversubscribed.

The bankers, in a circular offering the new 7% Cumulative Pref. stock, at par and divs. [subject to authorization by Michigan Securities Commission], report in brief:

President Alvan Macauley in circular of June 19 says:

To provide funds for retiring outstanding debenture notes, amounting to \$5,000,000, which become due on Oct. 15 1919 (the company's only funded or floating debt), and to augment working capital for the rapidly growing business, your directors feel that advantage should be taken of the present favorable market situation to sell additional Preferred stock to the amount of \$7,500,000, subject to authorization by the Michigan Securities Comm.

This is the only new financing now contemplated, but as a provision to facilitate future capital extensions when and as they may become necessary, the stockholders will be asked to approve increasing the company's authorized Common stock to \$30,000,000, and the authorized Preferred stock to \$20,000,000.

ized Common stock to \$30,000,000, and the authorized Preferred stock to \$20,000,000.

Stockholders are reminded that we have done no permanent financing since 1915, when \$3,000,000 of Preferred stock was issued, and that the value of our yearly output has increased from \$15,547,165 80 in 1914-15 to \$64,657,317 24 in the fiscal year 1917-18. Our total assets in the same period have expanded from \$25,489,475 to \$45,641,374, and our current assets from \$18,442,901 to \$31,500,494.

The company's financial position to-day is very strong, quick assets at April 30 totaling \$34,904,533, including cash and Government securities amounting to \$14,874,886.—V. 108, p. 274.

Pierce, Butler & Pierce Mfg. Co., Inc.—Acquisition.—
Negotiations were completed about June 11 for the purchase of the Ames
Iron Works, Oswego, for a sum said to be about \$1,500,000. The plant
has been used for the manufacture of engines and boilers, giving employment to about 400 men.
The Pierce, Butler & Pierce Mfg. Co. has filed notice of increase in
capital stock from \$2,350,000 to \$4,000,000.—V. 105, p. 2370.

Pierce Oil Corporation.—\$15,000,000 8% Convert. Pref. Stock—\$9,200,000 10-Year 6% Debentures to be Retired.

The shareholders will vote July 25 on authorizing the issue and sale of \$15,000,000 8% Cumulative Convertible Preferred stock, par \$100, convertible \$ for \$ at option of holder into a new issue of non voting Common stock.

This issue of Pref. stock has been underwritten by Goldman, Sachs & Co. and Lehman Brothers and the holders of the \$9,200,000 10-Year 6% Debentures, due July 1 1924, will for a limited period be allowed to exchange their bonds for the new Preferred shares par for par. Any of the debentures not retired in this manner will be called and paid off at 105. A circular will be issued about July 3 regarding the

There are now outstanding, we learn, about \$1,500,000 convertible gold notes, the aforesald (approximately) \$9,200,000 10-year 6% Convertible Debentures, and some \$22,000,000 capital stock. The conversion of notes and debentures into stock is still in progress.—V. 108, p. 2027, 1941.

On Dec. 31 1918 there were outstanding: Capital stock, \$2,493,455; bonds (Southern Oil Co.), \$275,000; bills and loans payable, \$141,016; total p. & l. surplus, \$469,878. During the quarter in 1919 additional capital stock was sold for \$13,581, and there was invested in additions to plant, \$113,417, while accounts and bills receivable increased \$38,949 and floating debt was reduced \$98,639. On the other hand, cash decreased \$147,188 to \$115,403.—V. 108, p. 884.

160,000

Procter & Gamble Co., Cincinnati.—New 6% [2nd] Pref. Stock.—The shareholders will vote July 28 on increasing the authorized capital stock from \$26,250,000, consisting of \$2,250,000 8% Cum. Pref. [a. & d.] stock and \$24,000,000 Common stock, to \$72,000,000, the new stock to consist of \$45,750,000 6% Cum. Pref. [a. & d.] stock, par \$100.

\$45,750,000 6% Cum. Pref. [a. & d.] stock, par \$100.

This new Pref. stock, which is in effect a second preference issue, ranking as it does subsequent to the \$2,250,000 8% Preferred as to assets and dividends is to be callable at 110 (par \$100), all or part (pro rata) with all accrued dividends, and is to have no voting power unless four of its quarterly dividends are in default and only thereafter until dividends are resumed and all unpaid dividends have been paid. The holders will not have the right to subscribe to new stock issues. Neither issue of pref. stock "shall be increased nor shall any additional stock be authorized to be issued with rights equal with or prior to the rights of the 6% Preferred stock."

Statement by President William Cooper Procter, Cincinnati, June 23

In order that the company may be in a position to protect the natural development and growth of its business, it is essential that it have at its command the means to secure adequate working capital. To this end we are asking our stockholders to give formal consent to an authorization of 6% Preferred stock. It is the intention of the company to issue this stock at the discretion of the board of directors, at such times, over a period of years and in such amounts as conditions may warrant and the business may require, and all stock so to be issued will be offered first to the holders of the Common stock of the company. It is the opinion of the management that no financing in addition to that provided by this authorization will be required for a long time. [The company has outstanding \$2,500,000 5% notes, due Oct. 1 1919 and \$20,000,000 7% notes due serially Mar. 1 1920 to 1923. V. 106, p. 1040, 1132.—Ed.]—V. 108, p. 2533, 386.

Quaker Oats Co.—New Financing.—The stockholders will vote shortly on increasing the authorized preferred stock by \$3,000,000 so as to permit the issuance of an additional \$7,000,000 identical in character with the present outstanding preferred stock. The new stock has been underwritten

by a banking syndicate, and it is expected will be offered for subscription some time next month.

After the new financing is arranged for the capitalization of the company will show \$18,000,000 preferred authorized, \$17,536,000 outstanding; \$15,-900,000 common authorized, \$8,250,000 outstanding. Press reports say that Lee. Higginson & Co. will be one of the houses in charge of the underwriting.

A dispatch from Chicago on June 27 stated that the company is to issue \$20,000,000 new stock, making its capital \$50,000,000. There is to be \$10,000,000 each of common and preferred, the latter to be issued to stockholders of July 16 at par. A meeting of stockholders is to be held at Jersey City July 15.—V. 108, p. 2335.

Remington Typewriter Co.—Listing.—
The New York Stock Exchange has authorized the listing of \$2,517,200 voting trust certs. for the 7% 1st Pref. Cum. stock.—V.108,p.2533, 1158.

Royal Dutch Co.—Subscription Rights, &c.—The Equitable Trust Co., in circular of June 25, says in brief:

Royal Dutch Co.—Subscription Rights, &c.—The Equitable Trust Co., in circular of June 25, says in brief:

Stock Rights and Cash Dividends.—Subject to the approval by the share-holders at a meeting to be held in Holland on June 30 1919, the holders of outstanding Ordinary shares are offered the right to subscribe at par, plus stamp tax in Holland, to one share of new Ordinary stock for each four shares of stock held. This new stock will be entitled to the dividends for the fiscal year of 1919 (payable in 1920). The final dividend for 1918 has been fixe at 25%, payable (on the old stock) on the same date as that fixed for the payment of the subscription in Holland on the new stock offered which will probably be July 16 1919. Subscription applications must be filed in Holland between June 16 and July 4 1919, and we have taken steps to subscribe to the new stock to which all of the stock deposited with us is entitled.

New York Shares.—Transferable warrants will be issued to the holders of "New York shares" of record July 7 1919 as soon thereafter as practicable, entitling them to subscribe to new "N. Y. shares" at the rate of one such share for each four "N. Y. shares" held by them. Subscriptions to be paid in full at our office, 37 Wall St., on or before July 22, plus taxes, expenses and fee to a total of probably between \$3.75 and \$4 on each old "N. Y. shares" "American Shares."—"American" shareholders wishing to avail themselves of the subscription privilege and to receive their new stock in N. Y. in the form of "N. Y. shares" may do so by exchanging their present holdings of "American shares" for "N. Y. shares" without cost to them, at our office on or before July 7 1919.

Otherwise transferable warrants will be issued to the holders of "American shares" of record July 7 1919 as soon thereafter as practiable, entitling them to subscribe to new Royal Dutch Ordinary sub-shares at the rate of one such Royal Dutch sub-share for each 12 "American shares" held on record date.

We recommend, however, that holders exc

Shaffer Oil & Refining Co.—Offering of Preferred Stock—Further Acquisitions.—Bonbright & Co., N. Y., and H. M. Byllesby & Co., N. Y. and Chicago, are offering, by advertisement on another page, \$6,000,000 Participating 7% Cumulative Pref. stock, par \$100. Pref. as to a. & d. Divs. (cum. from July 1 1919) payable quarterly, Jan. 25,&c. This stock will be fully paid and non-assessable, and will be entitled to cumulative divs. at the rate of 7% per annum and will participate ratably with the common stock up to 10% per annum. In addition, it will participate at the rate of ½ of 1% for each dollar paid on the Common stock in excess of \$10 per share during any one fiscal year. A circular shows: circular shows:

Shattuck Arizona Copper Co.—Capital Distribution.—
A capital distribution of 25 cents per share has been declared, payable July 19 to holders of record June 30, but without the usual quarterly dividend. A capital distribution of 25 cents was paid in each quarter of 1918, along with the regular quarterly distribution, but no capital payment was made in January and April 1919.—V. 108, p. 2130.

Simms Petroleum Co.—New Company.—The Simms Petroleum Co. of Delaware has been incorporated with a capital of 500,000 shares of stock of no par value, of which 425,000 shares will be issued immediately. Knauth, Nachod & Kuhne have formed a syndicate to underwrite the purchase and resale of 144,000 share of stock of the Delaware corporation, all of the proceeds of which will go into the company's treasury for development of the properties of the Texas corporation and for other corporate purposes.

The company has no bonds, debts or pref. stocks and will have in its

The company has no bonds, debts or pref. stocks and will have in its treasury in addition to \$3,600,000 in cash and 75,000 shares of stock, all the capital stock (except directors' qualifying shares) of the Simms Oil Co. of Texas. The last company owns leases on 424,000 acres of well-selected lands in 20 counties of Texas included in the Ranger oil field and its southern and southwestern extensions.

Harry Bronner, President of the Missouri Pacific RR., will be Chairman of the new company, and E. F. Simms, Vice-President of the Sinclair Gulf Corporation, who acquired the leases owned by the Texas corporation, will be President.

Southern California Edison Co.—Suit Filed.—
A suit enjoining the City of Los Angeles from carrying into effect (through the issuance of \$11,000,000 in power bonds), the purchase of the electrical distributing system of the company within the city, was filed on June 12 by Abner Miller, a taxpayer.—V. 108, p. 2439.

by Abner Miller, a taxpayer.—V. 108, p. 2439.

Spanish River Pulp & Paper Co.—

"Financial Post" of Toronto on May 21 says in brief: This week the shareholders were notified that vouchers would be posted on July 15 to registered holders of Pref. stock of record June 30, authorizing them to receive warrants on their holdings representing the dividend for the year ending June 30 1914, "as and when such dividend or part thereof is declared payable by the board."

This simply means that the two classes of Pref. stock will be placed in the same position, so far as arrears of dividends are concerned. That is, by a payment of Pref. stock representing 7% the \$3,000,000 of 1913 stock will be brought up to June 30 1914, with the balance issued under that date, viz., \$2,700,000, so that hereafter both will rank as entitled to 35% arrears in dividends.

The prevalent opinion here is that this is but a preliminary to meeting the balance of arrears. It is said a note issue, estimated as high as \$5,000,000, will be issued (in part) to take care of arrears in interest on bonds and notes, amounting to nearly \$1,500,000 as of June 30 1918, which would pave the way for some action on arrears of dividends. It is known that the earnings for the year ending June 30 1919 will be much higher than last year, and it is felt that regular current dividends will soon follow the wiping out of the deferred arrears.

At a meeting of the board George R. Gray was appointed a director as the nominee of the Ontario Pulp & Paper Co., bondholders, to succeed the late Benjamin Tooke.—V. 108, p. 177.

H. M. Garlick, President of this company, is Chairman of the Board of the First National Bank and of the Dollar Savings & Trust Co., Youngstown. See also "Financial Reports" above and V. 108, p. 2336, 2028.

Stromberg Carburetor Co. of America, Inc.—Of George F. Lewis has been elected Secretary to succeed Ke oward, resigned.—V. 108, p. 2336.

The directors have declared a quarterly dividend Reduced.—
St. 6,000,000 outstanding Common stock, payable Aug. 1 to holders of record July 15. This compares with \$1 50 paid quarterly since Nov. 1917. The reduction in the common dividend was decided upon in order to conserve resources. An official of the company states that the earnings for the first quarter of 1919 were comparatively good, but in the second quarter there was a sharp falling off, although during the past thirty days there has been some improvement, and it is considered likely that the net earnings for June alone will be better than for April and May combined.—V. 108, p. 885, 873.

Texas Company.—Listing—Earnings.—
The New York Stock Exchange has authorized the listing of \$15.625,000 additional capital stock, making the total listed about \$85,000,000.

Thompson (John R.) Co., Chicago.—Stock, &c.—
It was recently voted to reduce the par value of the common stock from \$100 to \$25 per share and to issue \$500,000 new common stock at par to stockholders of record June 3, pro rata to their holdings, increasing the outstanding common stock to \$4,500,000. On June 4 the stock was listed on the Chicago Stock Exchange.

The Chicago "Herald & Examiner" on June 5 said: "The company's income account for the calendar year of 1918 shows a net income of \$421,093 for the year, before Federal taxes and depreciation. This exhibit is said to be the poorest in the company's history because of regulations of the Food Administration in force during the period. The profits, it said, have averaged approximately \$1,000,000 the previous six years, and currently are at the rate of \$1,250,000 per annum."

The income account for 1918 follows: Sales, \$8,963,219; operating expenses, \$8,564,694; net profits, \$308,524; other income, \$22,568; net income, \$421,093.

The New York Stock Exchange has authorized the listing of \$1,187,000 additional common stock, making the total listed \$33,087,000. United Cigar Stores Co. of America.—Exchange of Stock.

See United Retail Stores Corporation below.

United Drug Co., Boston.—Official Statement as to Issue of \$7,500,000 New First Pref.—Issue Underwritten—Subscription Rights—History of Enterprise.—President Louis K. Liggett in a letter addressed to the bankers (Kidder, Peabody & Co., F. S. Moseley & Co. and Chase Securities Corp.) who have underwritten the proposed issue of \$7,500,-000 additional 7% cumulative First Pref. (a. & d.) stock (par \$50, callable at \$60), says in substance:

There are approximately \$,000 stockholder-agents in the United States, Great Britain and Canada, and the company owns and operates 216 retail drug stores under the name of Liggett's Stores, situated in New York, Boston, Philadelphia, Washington, Atlanta, Baltimore, New Orleans, Ft. Worth (Texas), and other cities in the East; and in Milwaukee, Minneapolis, Detroit and other cities in the Middle West, and in Ottawa, Toronto, Hamilton, Winnipeg and Calgary, Canada.

Our fundamental policy still is to manufacture under our own trademarks standard commodities of the highest quality, exclusively for our stockholder-agents, and also to develop our own chain of retail drug stores in the metropolises and other places where adequate representation by stockholder-agents cannot be had.

Combined Sales of the Corp. (Incl. Sales by United Drug Co. to Liggett's Stores).

Combined Sales of the Corp. (Incl. Sales by United Drug Co. to Liggett's Stores) .

\$2,014,809 \$2,816,557 \$3,048,115

Since the consolidation dividends have been paid on First and Scond Preferred stocks, and the common paid at the rate of 5% during 1917 and 1918. 1% extra was paid on Jan. 3 1919, and at present the rate is 7% Outlook.—The business during the first four months of 1919 was \$18,616,-010 (more than \$1,000,000 per month increase over 1918). The net profits were \$1,863,375 (compared with \$1,323,335 in 1918). We estimate the sales for 1919 will be in excess of \$62,000,000, and the net profits \$6,000,000 and income and profits taxes \$1,000,000, leaving \$5,000,000 available for dividends, which is almost five times.

Financing—New Stock.—The company did no public financing until Sept. 1916, when \$2,500,000 First Preferred stock, including the new issue.

Financing—New Stock.—The company did no public financing until Sept. 1916, when \$2,500,000 First Preferred stock was sold. The stockholders took approximately 90% of this at par.

The growth of the business is so rapid and the opportunities for development so obvious, that it is deemed desirable to increase the authorized First Preferred stock from \$7,500,000 to \$20,000,000 and to issue \$7,500,000 of this increase now, and with the proceeds retire all the floating debt of the consolidated companies, of approximately \$4,500,000; retire preferred stocks of subsidiarles, \$900,000, and increase manufacturing facilities and working capital.

Exclusive rights to subscribe to it will be given to stockholders, but will expire July 15 1919. Subscriptions by Second Preferred and Common stockholders will be accepted up to July 15, subject to the prior rights of the First Preferred holders to take one share of new stock for each one share of First Preferred doutes to take one share of new stock for each one share of First Preferred doutes to take one share of new stock for each one share of First Preferred outstanding. Payment will be required as follows: \$20 per share with subscription on July 15; \$15 Sept. 1, \$15. Nov. 1 1919. Pull payment may be made on any of those dates. Temp

United Retail Stores Corp.—New Co.—Exchange of Stock, &c.—The "Wall Street Journal," June 26 1919, said:

George J. Whelan, James B. Duke and their associates have initially paid in \$70 per share in cash for the first 50,000 shares of the new company. The capital is to be expanded by the issue of two shares for each of the 270,000 shares of United Cigar Stores stock and possibly later the holders of \$4,500,000 United Cigar Stores stock and possibly later the holders of \$4,500,000 United Cigar Stores are. The new stock will have no par value. There will also be issued founders' stock to take the place of the present bonus plan in operation in the management of United Cigar Stores. United Cigar Stores will keep its trade-mark and organization and as such will seek to secure more than its present \$65,000,000 gross of the \$1,200,000,000 tobacco business in this country. But the interesting feature of the new organization is that the United Cigar Stores becomes only one branch in the general plan of the Retail Stores organization, which proposes unlimited expansion in the general retail business.

Mr. Whelan and his family propose to turn into the new company 65,000 shares of United Cigar Stores stock and take 130,000 shares of the new Retail Stores Corporation, and he believes in so doing he is perpetuating and enlarging his life work and giving continuity to the same upon an investment basis.—V. 108, p. 2439.

United States Gypsum Co.—Offering of Preferred Stock.
—A syndicate headed by John Burnham & Co., Chicago, are offering, at 99 and div., a block of this company's 7% Cumulative Preferred stock, bringing the total amount issued up to \$6,000,000. A circular shows:

Incorporated in New Jersey in 1901 as a consolidation. Manfactures all classes of gypsum hard-wall plasters and other gypsum products, including cement, wood fibre, concrete, finishing, moulding and pottery plasters, stucco, Keene's cement and hydrated lime; fireproof partition tile, beam and column protection, floor tile and roof tile, plaster boards, &c. This company with a supply of over 135,000,000 tons of gypsum, which, even with greatly increased business, should last over a hundred years, is the dominant factor in the industry in the United States, selling its products in every State in the United States.

\*\*Capitalization.\*\*—\$1,000,000 5% notes due Sept. 1 1921; \$6,000,000 7% Cumulative Pref. stock (total auth.); \$3,904,900 Common stock.

The book value of the Pref. stock is approximately \$180 per share with not earnings for the past two years, before deducting Federal taxes, of approximately twice the dividend requirements on the then outstanding Pref. stock. The company averaged in 1917 and 1918, after full provision for taxes, more than 13%, and during the past seven years approximately 10% on the present outstanding Pref. stock. The company has steadily increased its earnings, which we believe are certain of great expansion in the future and which should be particularly accelerated during the next several years.—V. 108, p. 2028.

Virginia-Carolina Chemical Co.—Extra Dividend.—
An extra dividend of 2% has been declared on the Common stock, payable Oct. 1 to holders of record Sept. 16. The regular quarterly dividend of 1% on the Common has also been declared payable Aug. 1 to holders of record July 15, and 2% on the Preferred, payable July 15 to holders of record July 7. In Oct. 1918 the company paid 2% extra on the Common in Liberty Loan bonds.—V. 107, p. 1009.

Vulcan Detinning Co.—Preferred Dividend.—
A quarterly dividend of 1%% has been declared on the Pref. stock and also 1% on accumulations, both payable July 20 to holders of record July 10. In May last 1% was paid on accumulations.—V. 108, p. 2131,886.

Willys-Overland Co., Toledo, O.—Operations Resumed. Acting under the authority of Judge John N. Killits of the U. S. District Court, the Toledo plant began operating June 13 with P. C. Jones as the Court's representative in handling the U. S. Deputy Marshals and others who were appointed by the Court to enforce the Court's order. This order, as continued on June 18 forbidding interference with the workmen, did not disturb any of the jorganization of the company, First Vice-President Earl continuing as theretofore in actual charge of the factory's operation. Certain important primary departments opened the first day, followed thereafter by other departments. On June 12 the Elmira plant was already operating about 75% without embarrassment from outside sources, and the Elyria factory was operating about 50% of its capacity.

On March 27 a committee representing part of the employees demanded an increase in pay of from 15 to 50% for a 44-hour week with closed shop, &c. The company having recently distributed \$415,000 to its employees from the profits of the 50-50 plan for the first quarter of 1919, asked the men to increase the working schedule from 45 to 48 hours a week to enable it to compete with others in the automobile industry. A strike ensued on May 5, some 6,000 men from the Overland plant and 1,150 from the Auto-Lite shop \*stopping work. \*Rioting having occurred, the plants were closed temporarily late on May 8 to prevent loss of life, but were opened partially on May 26. The trouble, however, continued until the court interfered. Matters since have apparently quieted down. V. 108, p. 1733, 1615.

### CURRENT NOTICES

The formation of a new investment house in St. Louis, to be known as Pape, Potter & Kauffman, is announced. In addition to Charles Pape, Harry Potter and Andrew H. Kauffman, C. Sewall Thomas, an engineer who has made himself conspicuous in numerous private and Governmental enterprises, will be affiliated with this new firm. Charles Pape was connected with Halsey, Stuart & Co. for some ten years. He opened both the St. Louis and New York offices of this firm. Harry Potter was the former Treasurer of Compton & Co. He was associated with this house for about nine years. Andrew H. Kauffman was connected with the Mercantille Trust Co. of St. Louis. Eleven years ago Mr. Kauffman entered the service of this company as a traveling bond salesman. He was first made Assistant Manager and then Manager of the Bond Department. The new firm will be temporarily located in the Boatsmen's Bank Building; they are having permanent offices renovated to suit their needs in the Jaccard's Building. They will have a capital of \$400,000.

# Reports and Documents.

# AMERICAN CAR AND FOUNDRY COMPANY

TWENTIETH ANNUAL REPORT-FOR THE FISCAL YEAR ENDING APRIL 30 1919.

To the Stockholders:

The twelve months comprising the Company's fiscal year 1918-1919 have, happily, seen the ending of the Great War and the dawn of peace. A year ago the industries and resources of our country were marshalled for the supreme effort, the results of which were later seen on the battlefields of France and Belgium—in Flanders, on the Marne and in the Argonne—and which had its culmination in the military collapse of Germany and of her allies and the armistice of lest November

Few outside of its own organization and the officials of the different Governmental departments for which its work was done realize what a great part in the war the Company has played. While hostilities continued, it manifestly was improper to divulge either the extent or the variety of the Company's war activities. That as little publicity as possible be given to the matter, was a Governmental request. With the war ended, however, the reasons for such secrecy no longer exist. The management has in course of preparation a book, to be sent when completed to each stockholder, telling of the Company's war work—but it is proper that at least a passing reference be made here to what has been accomplished.

Prior to 1917 the Company had already in some degree adapted itself to war conditions. It had been a producer in large quantity of munitions of different kinds for Great Britain and some of her allies. Its activities along these lines naturally became more intensified after our country entered the war. Practically all its facilities and its entire organization were thereafter devoted to the working out of the many and often perplexing questions attendant upon supplying Government requirements. Some of the most difficult problems in the quantity production of Governmental war needs were turned over to it-and in no single instance has it failed in their solution. No demand has been made upon it which it has not met promptly and efficiently. For what it has accomplished, it has received the commendation of the Government. The thanks of the Company are due to the various officers of the Government with whom its work has brought it in contact for the courtesy, care and resourcefulness with which they have co-operated to bring about the desired results. Their unselfish patriotism and single-minded devotion to the public good merit all praise.

The Company's output has been not only large but most diversified. Besides a great variety of smaller articles of different kinds, it has produced shell, both gas and high explosives, in enormous quantities and running in size from the 3-inch to the 10-inch. Practically the Government's entire requirements of the 6-inch gas and 10-inch high explosive shell came from the Company's plants. It produced a very great part of all the 3-inch shell called for by the Navy. It alone made the specially designed railroad gun mounts for the 7-inch and 8-inch guns and the 12-inch mortars used by our armies abroad. Many thousands of the military railroad cars used for the supply of our forces in France came from its workshops. Its production of caissons, limbers, battery, escort and supply wagons and artillery vehicles of all kinds ran into the tens of thousands. The Company has a record of accomplishment of which the stockholders may well be proud.

With the cessation of military activities have come the problems of resolving into its elements the mighty machine built for the winning of the war, the distribution of those elements in the fields of peaceful commerce and industry, and the return of the forces of our National life to their normal channels of effort. The signing of the armistice promptly led to a relaxation of military effort. Supplies contracted for and in the making were no longer needed—and there began the processes of curtailment of production, of adjustment with the Government as to contracts suspended or canceled, and of re-adaptation of the Company's plants and facilities to their ordinary functions. These matters are proceeding in a manner entirely satisfactory to the Management.

ceeding in a manner entirely satisfactory to the Management.

The greatest of the industrial problems remaining to be solved in connection with the transition from a war to a peace basis is that of the railroads. They were taken over

by the Government as a war measure. Shall they continue under Governmental control and operation or shall they be restored to their owners—and if the latter, when and under what conditions? These questions press for solution. Of purely domestic matters, there are none of greater importance before the Congress. The future of the railroads is of concern to the whole country, and is of vital doncern to this Company. President Wilson has said that the roads will be returned to private ownership before the close of the current year—but their ultimate disposition rests with the Congress. So long as that remains uncertain, so long it is likely there will be a lack of activity in the buying of equipment for domestic use. It would seem that the entire matter has been so thoroughly discussed from every viewpoint that it is ripe for final decision. At the heart of the problem lies the question, Shall the twenty-three hundred railroads of the country, representing an investment of \$17,000,000,000, be compelled to continue to furnish their commodity—transportation—at a price which is not fundamentally based upon the cost of the production of that commodity? There can be but one answer to this. Whether the remedy for the anomalous condition now existing, and which has existed for the past decade, shall be found in Governmental ownership, or in a continuenace of Governmental operation, or in a Governmental guarantee, or in a Federal railroad incorporation Act, or in a consolidation of all the roads into a limited number of systems, it is a fact demonstrated by experience and not to be lost sight of, that the power to make rates should not be entrusted to any body of men who are not to be held accountable for the adequacy of the rates made. The people have the right to expect that the Congress will not adjourn without making a final decision that will be fair to the roads, to the owners of their securities, and to the commerce and industry of the country that are, directly or indirectly, dependent upon the prosperity and the e

In the letter to the Stockholders of June 27, 1918, it was stated that the Director-General of Railroads had placed orders with the various equipment companies for 100,000 freight cars of various kinds, and that this Company had been awarded the building of 31,000 of these cars. During the year, work on the construction of these cars had proceeded—but because of the omission of the Congress, prior to its adjournment in March last, to replenish the fund available to the Director-General, that official found himself without the money necessary to meet his obligations with respect to payments. This situation naturally was the cause of considerable anxiety. Various ways to meet the difficulty were discussed with the officials of the Railroad Administration, and it finally was decided that the Director-General should issue his Certificates of Indebtedness—these to be paid as soon as he shall have available the money with which so to do. It is entirely certain that the Director-General will not be able to take up these Certificates out of the ordinary income of the roads under his control. It is essential, therefore, that the Congress should make the appropriation necessary not only to permit him to redeem these Certificates but also to pay for the equipment remaining to be built.

but also to pay for the equipment remaining to be built. The company began the year with \$290,000,000 of business on its books. By reason of the suspension or cancellation, in whole or in part, of various of its contracts with the Government, consequent upon the cessation of hostilities, it was unable to complete a considerable portion of the business booked. Nethertheless the volume of business done during the year was large—much greater than ever before in the Company's history. Particularly gratifying is what has been done in the manufacture and sale of miscellaneous supplies and the profit resulting therefrom. It has been the policy of the Management to foster the growth and development of this Department, and because of the diversity of the Company's productive facilities there may reasonably be expected from it a steady flow of business with a satisfactory margin of profit.

The new Federal tax law which was in the making at the beginning of the year has since become effective. As was expected, it very materially increased the tax charge upon the profits for the year, as compared with that charge for the preceding year. Although this new law was not enacted until near the close of the Company's fiscal year and was retroactive in its operation, nevertheless the Management had made adequate provision to meet the additional burden, and the very heavy payments (\$24,475,000 as estimated) will be made promptly and without inconvenience.

and the very heavy payments (\$24,475,000 as estimated) will be made promptly and without inconvenience.

The uncertainty of the Governmental policy with respect to the railroads, already referred to, renders impossible at this writing any forecast as to what business may be expected, during the year now current, in the way of equipment for domestic use. There already is, and undoubtedly will continue to be, a demand for the Company's products from

foreign countries—both from the new nations which have come into being with the peace, and from the older countries whose activities for almost five years have been given over to the prosecution of the war. Such demand from these countires is likely to be large and insistent—larger and more insistent than can for some time to come be met by their own facilities for production. This will open up new problems of finance and of credit—but there is no reason to believe that these problems cannot be solved, or that the Company will not be able to obtain its fair share of the business. During the fiscal year just closed, orders for 10,000 cars for Italy and for 3,250 cars for India were booked.

It has recently been stated in the public prints that the Company had taken over the National Steel Car Company, located at Hamilton, Ontario. The Management did have under serious consideration a proposition involving the addi-

under serious consideration a proposition involving the addition of the manufacturing capacity of that Company to its own, but it was impossible to arrive at a satisfactory basis upon which the transaction might be concluded, and the matter was dropped without commitment on either side.

The results of the year's operations are reflected in the annexed General Balance Sheet, to which is appended the usual Certificate of Audit. The net earnings, after making provision for Federal Income and War Profits Taxes, amounted to \$11,771,813 30. Out of this there were paid during the year the regular dividends—7% (\$2,100,000) on the Preferred and 8% (\$2,400,000) on the Common Capital Stock. Improvements made at several of the plants have increased the Property and Plant Account by \$742,739 69. There has been added \$2,400,000 to the Reserve for Dividends on Common Stock, to be paid when and as declared by the Board of Directors—making in this Reserve \$7,200,000, or three years' dividends at the rate of 8% per annum upon such stock. There has been no change made in the Insurance Reserve. From the Reserve for General Over-Insurance Reserve. From the Reserve for General Overhauling, Improvement and Maintenance, as shown by the Balance Sheet of April 30 1918, there was expended during the year \$2,023,343 37, and this Reserve has been replenished by the addition of \$3,000,000 transferred to it from the year's net earnings. In the Reserve for Improving the Working Condition of Employees there remains \$513,063 23. There has been added \$1,871,813 30 to the Surplus Account.

The inventory has been taken in accordance with the usual

The inventory has been taken in accordance with the usual ractice—all items being appraised at cost or less and in no case in excess of present market value. Included in the item of Materials on Hand is the large amount of material assembled for the completion of the equipment the Company has under construction for the Federal Railroad Administration. It will be noted that there is carried as a separate item a liability of \$13,195,169 80, this representing moneys advanced by the Railroad Administration for material for use in the construction of cars not delivered at the close of the fiscal year. The investment in United States Certificates fiscal year. The investment in United States Certificates of Indebtedness (not to be confused with the Certificates of Indebtedness issued by the Director-General of Railroads and referred to above) is for the purpose of enabling the ready payment of the Income and War Profits Taxes charge-

able against the Company's operations for the year.

The Company entered upon its new fiscal year with approximately \$100,000,000 of business on its books.

Too much praise cannot be accorded to the members of the Company's working organization for the zeal and energy displayed in the working out of the difficult questions presented by the Government's insistent demands for war material of a kind and at a rate of production hitherto unheard of. Its members have labored unceasingly with a high degree of intelligence and ingenuity, and at all times in a spirit of hearty co-operation with the Management. The Board cannot complete its review of the year's work without recording its high appreciation of the intelligent and sincere devotion shown by the working organization for the welfare of the Company and its Stockholders.

By order of the Board.

By order of the Board.

Respectfully submitted, W. H. WOODIN, President.

June 26 1919.

W. H. Woodin, Esq., President American Car & Foundry Co.,

Dear Sir—We have made an audit of the books and accounts of the American Car & Foundry Company for the fiscal year ending April 30 1919, and in accordance therewith we certify that, in our opinion, the foregoing statements of Income and the General Balance Sheet are true exhibits of the results of the operation of the Company for said period, and of its condition as of April 30, 1919.

THE AUDIT COMPANY OF NEW YORK,

THE AUDIT COMPANY OF NEW YORK,
H. I. LUNDQUIST, Secretary.
A. W. DUNNING, President.

New York, June 21 1919.

#### CURRENT NOTICES

—Prominent Chicago people are the organizers and backers of a new investment banking firm to be known as Mitchell, Hutchins & Co. which will begin business about July 1st, and promises to take a leading position among similar institutions of the West. The officers and directors are: W. Edwin Stanley, President; James C. Hutchins, Jr., Vice-President; Robert A. Gardner, Treasurer; William H. Mitchell, Secretary; J. Ogden Armour, Chauncey Keep, and Charles Garfield King. In addition to the officers and directors, the stockholders will include J. J. Mitchell, President, Illinois Trust and Savings Bank, H. M. Byllesby, Wm. Wrigley, Jr., Robert E. Hunter, and A. D. Lasker. Mr. Hutchins who recently returned from military service in France, was previously connected with Lee, Higginson & Co.

Estabrook & Co. New York, Boston, &c., have issued a 23 negro parameter.

Estabrook & Co., New York, Boston, &c., have issued a 33 page pamphcorporated under the laws of Massachusetts, namely: American Mfg. Co., Bigelow-Hartford Carpet Co., Boston Fish Market Corp., Clinton Wire Cloth Co., Commonwealth Ice & Cold Storage Co., Copley Square Trust, Dennison Mfg. Co., Federal Rubber Co., Fisk Riubber Co., Griffin Wheel Co., Slater, William A., Mills, Inc., Stollwerck Chocolate Co., Union Twist Drill Co., Waitt & Bond, Inc., Warren, S. D., Co.

-Swartwout & Appenzellar, members New York Stock Exchange, of 141 Broadway, announce the reopening on July 15 of their branch office at "The Balsams," Dixville Notch, N. H., under the management of Leo H. Graham. The office has direct private wire connection to New York.

—Colgate, Parker & Co., 49 Wall St., advertise to banks and investment bankers that they have a Liberty Loan department as a part of their regular organization, which deals actively in all issues of Liberty bonds in 50, 100, 500 and 1,000 dollar denominations. The firm will purchase the small denominations 0.10% below and sell 0.10% above market prices. Colgate Parker & Co. invite buyers and sellers to communicate with them as to details of payment and celivery.

Adrien Michel, 8 Rue Floreal Mathieu Oran, Algeria, 30 years of age, a veteran of the world war and now employed in a responsible position in a bank with which he became connected 13 years ago, desires to act as agent or representative for American interests in Algiers, Tunis and Morocco, where he tells the "Chronicle" he has numerous business acquaintances. He is able to give security he says to a total of at least 50,000 francs.

—Thornton Cooke and Harold B. Bailey (formerly Assistant Manager of the Bond Department of the Fidelity National Bank & Trust Co. of Kansas City, Mo.) have announced the formation of a co-partnership under the name of Thornton Cooke & Co., with offices at 206 Scarritt Arcade, Kan City, Mo. They will engage in the buying and selling of municipal and Government bonds and other high-class securities.

-Pynchon & Co. announce that Mr. E. B. Baker has become associated with them in their Chicago office, in charge of the bond department.

-The Equitable Trust Co. of New York has been appointed Transfer Agent of the Allied Packers, Inc., and Y Oil & Gas Co.

-Columbia Trust Co. has been appointed Registrar of the capital stock of White Eagle Oil and Refining Co.

# The Commercial Times.

### COMMERCIAL EPITOME

Friday Night, June 27 1919.

General trade continues to expand. Outside the metals trades the demand in many directions exceeds the supply, and there is complaint of slow deliveries. The crops in the main look well, cotton alone excepted. The July Government report on cotton it is feared will be one of the poorest for many years past. But the food crops will be big. On this hinges a big trade all over the country especially in the great grain States of the West. There the buying power of the people is expected to be something unprecedented in American history. And the thought seems to thrill the entire business world of the great West. There they expect big prices for grain and hogs and in the South they are talking of the possibility of 35 to 40-cent cotton. In wholesale jobbing and retail branches of business the feeling is almost universally optimistic. Some of the big shoe factories of the country have sold their production for a considerable time ahead. It looks as though there might be a scarcity of cotton and woolen goods. Certainly buyers in many cases have to be content with receiving a certain percentage of the quantities ordered. To all appearance the reduced hours of labor in this country are telling on production. It may be interestintg to watch the effect of a shortened week on the output in some industries. The demand is so sharp for jewelry, furniture and household goods that it has overlapped production. The same is true of agricultural implements, lumber and a good many other things including as already intimated shoes. Collections in the meantime are in the main good. Coffee has risen sharply in response to a big rise in Brices of sattle risen sharply in response to a big rise in Brazil. Supplies are much smaller than those of a year ago. Prices of cattle are lower but prices for hogs have reached a new high level. In general the cost of food is somewhat higher. During the new grain season, beginning July 1, it is hoped that food prices will decline. It would seem that they ought to. Copper has advanced; also lead and spelter. There is a more cheerful tone in the steel and iron trade with a growing business. Building activity increases. There is a keen demand for lumber at the West and in the South and deliveries are too slow. It is said that Northern Pacific shipments of lumber are some 10,000 cars behind the orders. The business world is not sorry to see a quieter stock market regarding it as a sign of greater conservatism. Meanwhile leading financiers are concerting measures looking to the granting of enormous credits to Europe after the signing of the peace treaty to the end that the wants of Europe may be supplied and American export business at the same time conserved. Exports of wheat are still on a big scale. For fifty-two weeks of the present season they approximately 400,500,000 bushels, or 170,000,000 bushels ahead of those for the same time last year. The corn crop is making good progress. Finally business failures continue remarkably small.

American shipping is moving ahead. More than 31% of ocean-borne export trade of the United States during April was carried in American ships compared with 20% last year. British bottoms carried 33.6% in April compared with 50.6% last year. The silly season is evidently drawing near. The evidence of this is seen in the fact that the Farmers National Council announces it will oppose the plan of bankers to finance the reconstruction of Europe because "it would put financiers in dangerous control of foreign governments." It is a fact of historic interest in connection with the commercialization of the airplane that the first building in New York equipped with a landing the first building in New York equipped with a landing field on its roof will be erected on Columbia street, south of Hamilton Avenue, Brooklyn. A special elevator to the basement will be used to transfer freight carried by airplanes to automobiles.

t is a curious sign of these agitated times that the State of Kansas has had to organize a volunteer police to protect its wheat harvest from incendiaries in the early stages of its wheat harvest from incendiaries in the early stages of shipment. The Department of Commerce will establish business offices in various parts of Europe in order to stimulate world trade by co-ordinating supply and demand. So great is the demand for clothing, &c., that it is predicted that during the next few months the imports of cotton goods from China and Japan will exceed all previous records. American production is hampered by the shortened hours of labor. Following the wholesalers' increase in the price of ice from \$6 to \$8 a ton, Newark, N. J. Retail Ice Dealers' Association advanced the price 75 to 90 cents one hundred pounds to consumers. New York-Chicago aerial mail service begins July 1. Judging from the records of Alcockpounds to consumers. New York-Chicago aerial mail service begins July 1. Judging from the records of Alcock-Brown Atlantic flight aeronautic experts state an airplane capable of carrying 100,000 lbs. can be constructed and a non-stop flight made from Atlantic City to England on a consumption of not over one gallon of gasoline per mile. Owing to speculation in London the trading in linseed oil, cottonseed oil and cotton oil will be confined to holders of Government licenses.

LARD quiet and lower; prime Western, \$35.05@\$35.15; refined to the Continent, 38c.; South American, 38.25c.; Brazil in kegs, 39.25c. Futures declines on free selling by packers. The position had become overbought. Considerable of the selling was on stop loss orders. The recent big advance is believed to have discounted post-war bullish conditions. And also cash trade has been disappointing. Exports from New York last week, however, included 9,689,400 lbs. of lard and 17,952,425 lbs. of bacon. Today prices fell and end lower for the week.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO. Mon. Tues. Wed. 35.20 34.42 34.10 35.00 34.25 34.00 July delivery\_\_\_\_cts\_35.22 September delivery\_\_\_35.05

PORK quiet and unchanged; mess, \$58@\$58.50 nominal; clear, \$54@\$62. September pork closed at \$49.45 a rise of 15c for the week. Beef steady; mess, \$35@\$36; packet, \$38@\$39; extra India mess, \$65@\$67. No. 1 canned roast beef, \$3.75; No. 2, \$7.25. Cut meats quiet but steady; pickled hams, 10 to 20 lbs., 34½c.; pickled bellies 33@34c. Butter, creamery extras, 53@53½c. Cheese, flats, 25@32c. Eggs, fresh gathered extras, 51@52c.; first to extra firsts, 45@48c.

COFFEE on the spot has been quiet but higher; No. 7 Rio, 23½c.; No. 4 Santos, 29c.; fair to good Cucuta, 25¾ @26c. Futures amid great excitement advanced 150 points, the permitted limit in a single day, both on the 21st and 23rd inst., owing among other things to peace prospects and a big advance in Brazil, forcing prices here above the high point of December coffee in 1887, which was 22.25c. On June 21 1919 it was 22.50c.; on June 23 it reached 24c. On the 23d inst. futures in Santos advanced 2,750 reis, as compared with the close on the 20th inst. Two things are back of the great advance. First there is approaching peace, which means an end of European blockades and in all likelihood an increased consumption in Europe. Second, there is an expectation of a sharp decrease in the Santos crop, likelihood an increased consumption in Europe. Second, there is an expectation of a sharp decrease in the Santos crop, which is estimated at only 3,000,000 bags—a mere bagatelle compared with the crops of recent years. Also the available supply in this country is small. In New York that of Brazilian is only 196,795 bags, against 1,143,640 a year ago; in the United States only 322,552 bags, against 1,277,479 bags a year ago. Total in sight for the United States, 1,157,552 bags, against 2,185,000 bags a year ago. Rio de Janeiro has only 419,000 bags, against 797,000 bags a year ago; Santos, 2,154,000, against 2,858,000 at this time in 1918. Prohibition is also expected to cause an increased ago; Santos, 2,154,000, against 2,858,000 at this time in 1918. Prohibition is also expected to cause an increased consumption of coffee. Sharp reactions have occurred, however. The receipts at Santos thus far this season are 7,308,-000 bags, against 12,058,000 bags during the same period last season and 9,744,000 two seasons ago; at Rio, 1,725,000 bags, against 2,912,000 up to this time last season and 2,263,-000 two seasons ago; total, 9,033,000 bags, against 14,970,-000 a year ago and 12,007,000 at this time in 1917. On Thursday prices advanced again over 100 points, with Santos prices also higher. On the 25th inst., on the other hand, heavy liquidation on the delay in the signing of the peace treaty sent prices down 150 points, the full limit allowed. Previously, also, there had been sharp reactions on profitaking. Moreover, although a rise was reported on the 25th in Santos of 1,075 to 1,300 reis, later on there was a decline there of 1,025 to 1,175 reis. It has certainly been an extraordinary week. The Havre coffee market, which closed in January 1918, has reopened for dealings in futures. To-day prices advanced, then reacted, closing 80 points higher for prices advanced, then reacted, closing 80 points higher for the week on December. Today Santos was reported 1,275 to 2,075 reis lower. The limit on daily fluctuations here has just been raised to 200 points. A membership on the New York Coffee and Sugar Exchange has been sold at \$6,500, an advance of \$250 over the previous sale. Closing prices were as follows: 
 July
 22.55@22.60 | January
 21.75@21.77

 September
 22.30@22.35 | March
 21.65@21.70

 October
 22.16@22.18 | May
 21.50@21.55

 December
 21.80@21.81 |

cannot keep pace with it. OILS.—Linseed in good demand but slightly lower; me-December oil in cars, \$1 88; five-bbl. lots, \$1 91; June-December oil in cars, \$1 88; five-bbl. lots, \$1 91; less than five bbls., \$1 94. Lard prime edible steady at 2.80@2.90c. Cocoanut oil, Ceylon, bbls. firmer at 20c. Cod, domestic, 1.05@1.10c.; Newfoundland, 1.10@1.12c. Spirits of turpentine, \$1 05. Common to good strained

Although refiners are working at their full capacity they

rosin, \$16 10. Flaxseed at Duluth touched \$5 01, the highest price on record, on a big demand from crushers to cover export linseed oil contracts and very dry weather in Montana and parts of North Dakota.

PETROLEUM meets with a brisk demand and steady; refined in barrels \$17 25@\$18 25; bulk New York, \$9 25@\$10 25; cases, New York, \$20 25@\$21 25. Gasoline continues active and steady; motor gasoline in steel barrels 24½c.; to consumers, 26½c. Gas machine, 41½c. As to Northwest Texas, in which interest largely centres, Eastland County, contrary to all expectations, it is said, is producing a total of 120,180 barrels daily, an increase of 4,080 barrels over the previous week. This gain, added to an increase in Burkburnett of 6,890 barrels and an increase in Stephens County of 825 barrels, daily, brings the total production of the entire Northwest Texas field to 180,605 barrels daily, the largest production for a week since the discovery of oil in Northwest Texas. On June 17 the production in Texas approximated, it is stated, 259,000 barrels of crude petroleum a day. About 192,000 barrels was light oil from Central Western fields and 67,000 barrels heavy oil from Gulf coast fields. The completion of a 2,500-barrel well in Section 7-12-10, Bull Bayou district, has created considerable excitement in Louisiana. It is located between the discovery well at Bull Bayou and the famous Gusher Bend development in the Crichton field. In the eastern fields the largest well of the year was completed in Big Sandy district, Kanawha County, W. Va. It started at the rate of 1,320 barrels a day from the Weir sand. In the same district there was completed a 500-barrel well and a 430-barrel producer. The most promising development in West Virginia is on Jones Creek, Sherman district, where four good wells have been drilled in the Berea Grit. Two wells starting at 150 barrels each, were completed in Lee County, the leading development of Kentucky.

RUBBER is in ample supply and trade is quiet. But prices have been generally steady, but now seem weaker. Trade is also slow in London. Para-upriver fine, 55½c.; coarse 32½@33c. Smoked ribbed sheets on the spot 40c.; first late xpale crepe 41c. Recently prices in London have been easier. The stock there is 22,957 tons, against 15,713 tons a year ago. Stocks here are heavy and buyers are certainly indifferent.

OCEAN FŘEIGHTS have been rather quiet at times in some directions and the supply of tonnage is steadily increasing. To be sure, rates are considered for all that pretty steady in most trades at least for the time being. A brisk demand prevails for sailing vessels to load lumber and coal. Big grain and general cargoes are going to the Mediterranean; also a moderate business to the Baltic. Foreign merchants complain, however, of the delay in receiving the shipping documents. Charters include coal, Virginia to Buenos Aires, \$18 50 prompt; deals from a provincial port to the United Kingdom, 345s.; molasses from Barbadoes to St. John, N. B., \$6 per 110 gallons; lumber from a Gulf port to tas Palmas, \$52 50; lumber from a Gulf port to the west coast of Italy; \$75; lumber from a Gulf port to Spain, \$65; deals from Picton, N. S., to the United Kingdom, 340s., and from West Bay, N. S., to the United Kingdom, 345s. Sugar from Philadelphia or New York to Havre, 70s. July 25; grain from Portland to picked ports in the United Kingdom, 8s. 6d. prompt; merchandise from Tampa and New Orleans to Barcelona, \$40 net form, prompt; a 12-months' time charter, 25s.; another for 6 months in American trade, \$9 50 prompt, and coal from Hampton Roads to Genoa at \$26 50, July-August. Rates on cotton to Marseilles are higher, being \$2 per 100 lbs. on high density and \$2 25 on standards. To the United Kingdom the rate is up to \$1 50 per 100 lbs. for standard. European labor trouble is interfering with shipping on this side to some extent. The United States Shipping Board has reduced rates on general cargoes about 15% as follows from the United States and Gulf ports: To the United Kingdom, \$1 15; to Rotterdam, \$1 40; Antwerp, \$1 40; Havre and Bordeaux, \$1 50; Marseilles and Cette, \$1 75; Barcelona, \$2; Genoa and Naples \$1 75; Copenhagen, \$1 65; Gothenburg, \$1 65; Stockholm, \$1 90. These rates do not apply to steel, cotton, tobacco and canned goods, but they do to practically all other general cargo shipments.

TOBACCO has been in fair demand. In fact most of the Penn., Wisconsin and Conn. crop of 1918 is said to have been bought by manufacturers and packers. Ohio prices, it is intimated, are being reduced by growers. It looks like a better business in Sumatra. Certainly samples have arrived and the way is being cleared for business. This year's crop of Porto Rico is, it is said, bringing high prices. Shipments of Havana tovacco to the U. S. will no doubt increase materially before long. The labor troubles there have been settled. The Government weekly report says that tobacco is mostly transplanted in the Wisconsin area at an unusually early date. The tobacco crop needs rain in New England and parts of the central districts. In Georgia some tobacco has been cut.

COPPER more active and higher; electrolytic, 18½c. Tin quiet and easier at 70@71c. Lead higher at 5.40@5.45c. for New York and 5.15c. for St. Louis. Spelter in better demand and higher at 7.25c. spot New York.

PIG IRON business steadily grows, stimulated in a measure by prospects of early peace. In any case, however, a good many deferred orders are being filled. It is believed that the sales for June will show a marked increase over those for May. American pig iron is reported as \$3.45 below British. The export situation is attracting rather more attention. The signing of the peace treaty, it is believed, improved the export outlook.

STEEL business continues to increase. Ingot capacity is said to have expanded to about 60% June's increase, it is believed, will be 10% over that of May. There is better business in pipe, wire, and sheets. The demand might be greater for bars, plates and shapes. In fact, just now it is comparatively light. Yet the sales of wire and wire products, as well as iron and steel pipe, are active enough to give rise to hopes in some quarters of better prices ere long. It remains to be seen whether they will be realized. But the tone is undoubtedly more cheerful. It is described as firm throughout the country. Labor surplus is no longer reported. That is significant. One trouble, it is true, is that the railroads are not buying. But there is less easing of prices in sheets, as the mills are operating on about a 75% basis. Germany has begun to buy steel in neutral markets, at below English prices. These are steadily rising, especially as to rails. While rails are \$45, here they are \$73 60 in England where the hands now work only 6 hours a day, after having had their wages increased 12½%.

# COTTON

Friday Night, June 27 1919.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 140,572 bales, against 138,529 bales last week and 165,339 bales the previous week, making the total receipts since Aug. 1 1918 5,509,746 bales, against 5,659,824 bales for the same period of 1917-18, showing a decrease since Aug. 1 1918 of 150,078 bales.

\*Estimated.

Speculation in cotton for future delivery has not been active, but it is quite as certain that the tone has been firm and that prices have risen noticeably. This was due partly to prospects of an early signing of the peace treaty. An even more potent factor, however, was bad weather. The crop prospects are considered far from cheerful. That, in fact, is putting it mildly. The general expectation is that that the July report giving data brought down to June 25 will be bad. Various reports latterly issued range from 67.5 to 73.3, as against 75.6 the Government figures for May 25 and 85.8 in the July report of last year. The trouble is largely due to prolonged wet weather. Also the temperatures during much of the month have been too low. Rains have caused grassy fields over a wide area. And now there is growing concern over the question of boll weevil. The pest is increasing in Texas. Much damage by it is reported in Georgia. It seems to be present throughout Mississippi. It is numerous in Southern Arkansas. And also in southern Alabama where it is doing much damage. The fear is that there will be great injury to the crop by this pest later on. The idea is that a prolonged wet spell in May and June to say nothing of earlier periods of the year following a mild winter may have propagated the pest to a degree that will make it more than ordinarily formidable later on. Moreover the labor shortage continues in many parts of the South. With large tracts in the grass, the question is how they are going to be cleaned. Already there are reports here and there of a certain amount of abandonment of acreage on this account. Meanwhile the plant is called sappy. What would be the effect of a prolonged hot dry spell? Some are inclined to think that it would be far less favorable than has generally been assumed by those who reason that a protracted cool wet period called for something directly the opposite as a remedial measure.

At times exports have been liberal. Ocean tonnage is reported more plentiful. It is generally assume

reported more plentiful. It is generally assumed rightly or wrongly that not long after the peace treaty is signed there will be a beginning at least of a revival of export trade on something approaching the pre-war scale, even if nobody looks for a sudden resumption of foreign business at all equal to it at once. Meanwhile spot markets have been generally firm. As soon as the peace treaty is signed it is supposed that Germany will begin to buy the low grades. And cotton goods on this side of the water have been very firm with a good demand. The same is true of silks and woolens. Manchester has reported an excellent trade at firm prices. The Lancashire strike of 500,000 hands was at one time settled on the basis of a forty-eight hour week and an increase in wages of 30%. Prices of food are gradually declining in this country and this to a certain extent increases the buying capacity of the people. At the same time many cotton goods are expected to be scarce for some time to come. Dealers in raw cotton believe that the mills are doing not only a big but a very profitable trade. At times Liverpool, Japanese and American trade interests have been good buyers of Oct. and Dec. Large Wall St. operators have been credited with buying on a big scale

On the other hand, the recent advance has been very marked and at times the technical position has revealed a certain degree of weakness. At any rate, reactions have

been sudden and sharp. A delay in the signing of the peace treaty has had more or less depressing effect. Exports have latterly been light. Some argue that even after the peace treaty is signed it will be sometime before credits on a large scale will be granted. Others question whether Germany and Central Europe generally is in any position to buy heavily at the present time. The high prices current may incline Germany to go ahead cautiously. Ocean freights are still high. This, with the high price of cotton itself, naturally militates more or less against export trade. The low grades are admittedly plentiful and dull at the South. Unless the demand increases greatly within the next few weeks it is argued that a big carryover into the next season will be unavoidable. Admittedly, too, favorable weather in July could bring about a great improvement in the crop outlook. After all, August is the critical month. Things are not decided in June, nor altogether in July.

outlook. After all, August is the critical month. Things are not decided in June, nor altogether in July.

In parts of Tennessee the condition of the crop is good. In southern North Carolina the fields are clean and doing well. In South Carolina conditions are generally good to very good and the plant is blooming freely in the southern part of the State. In most parts of Arkansas the recent growth has been good, though no one denies that at best the condition on the whole in that State is only fair. In parts of Georgia, where there has been a chance to cultivate the plant properly, the condition is reported to be good. And spot cotton has recently been on the whole less active. That is not unnatural after a period of rather prolonged activity. Cotton, too, has been on a tenderable basis here. The July notices on the 25th inst. were estimated at 15,000 to 20,000 bales.

Heavy profit-taking has taken place from time to time. Liverpool's spot sales have been only 3,000 to 4,000 bales a day. To-day prices advanced into new high ground on heavy rains in Texas and Georgia and bad crop reports generally. The idea of many now is that the Government report of July 1 will be 70% or below. On the rise realizing sales caused a setback in which most or all of the advance was lost. But prices are sharply higher for the week. Spot cotton closed at 34.75c. for middling, a rise for the week of 160 points.

MARKET AND SALES AT NEW YORK.

The total sales of cotton on the spot each day during the week at New York are indicated in the following statement. For the convenience of the reader we also add columns which show at a glance how the market for spot and futures closed on same days.

	Spot	Futures	SALES.			
	Market Closed.	Market Closed.	Spot.	Contract	Total.	
Saturday	Quiet 10 pts adv Quiet 25 pts adv	Steady				
Tuesday	Quiet unchanged Steady 45 pts adv	SteadySteady				
Thursday	Steady 100 pts adv.	Straong				
Friday	Quiet 20 pts dec	Barely steady				

FUTURES.—The highest, lowest and closing prices at New York for the past week have been as follows:

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

including in it the exports	of Frid	ay only.

Cuero, Tex.—We have had rain on three days the past week, the rainfall being one inch and thirty-one hundredths. The thermometer has averaged 79, the highest being 98 and

the lowest 60.

Dallas, Tex.—The week's rainfall has been sixty-five hundredths of an inch on three days. The thermometer has averaged 81, ranging from 72 to 90.

Lampasas, Tex.—It has rained on four days of the week, the rainfall reaching one inch and twenty-three hundredths.

The thermometer has averaged 76, ranging from 62 to 89.

Luling.—Rain has fallen on four days during the week, the precipitation reaching two inches and thirty-eight hundredths. The thermometer has ranged from 70 to 90,

Nacogdoches, Tex.—We have had rain on six days the past week, the rainfall being four inches and thirty-three hundredths. The thermometer has averaged 80, the highest

being 91 and the lowest 68.

Paris, Tex.—We have had rain on two days during the week, the rainfall being six hundredths of an inch. The thermometer has ranged from 70 to 97, averaging 84.

San Antonio, Tex.—It has rained on five days of the week,

Minimum thermometer 72, highest 90, average 81.

Taylor, Tex.—We have had rain on four days the past week, the rainfall being one inch and forty-three hundredths.

Minimum thermomter 67.

Weatherford, Tex.—We have had rain on four days of the week, the rainfall reaching one inch and twenty-three hundredths. The thermometer has averaged 81, ranging

Ardmore, Okla.—We have had rain on one day during the week, the rainfall being one inch and seventy-eight hundredths. The thermometer has ranged from 69 to 94, average being 82.

Muskogee, Okla.—Rain on two days of the week. rainfall has been three inches and fifty-three hundredths. Average thermometer 80, highest 95, lowest 65.

Eldorado, Ark.—It has rained on four days of the week, the rainfall reaching one inch and eighty-seven hundredths. The thermometer has averaged 82, the highest being 94 and the lowest 69.

Little Rock, Ark.—It has rained on four days of the week, the rainfall reaching one inch and forty-four hundredths.

The thermometer has averaged 85, ranging from 72 to 97.

Alexandria, La.—We have had rain on five days during the week, the rainfall being two inches and thirty hundredths.

The thermometer has ranged from 73 to 92, averaging 83.

New Orleans, La.—It has rained on five days of the week, the rainfall reaching one inch and seventy-four hundredths. Average thermometer 80.

Abilene, Tex.-It has rained on five days of the week, the rainfall reaching seventy-one hundredths of an inch. thermometer has averaged 78, ranging from 68 to 88.

Brenham, Tex.—We have had rain on six days during the week, the rainfall being three inches and twenty-three hundredths. The thermometer has ranged from 72 to 87,

average being 80.

Brownsville, Tex.--Rain on three days of the week. rainfall has been eighty-four hundredths of an inch. Average

thermometer 84, highest 94, lowest 74.

Shreveport, La.—It has rained on four days of the week, the rainfall reaching two inches and fifty-two hundredths. The thermometer has averaged 80, the highest being 88, and the lowest 71.

Columbus, Miss.—It has rained on two days of the week, the rainfall reaching one inch and fifth three hundredths. The thermometer has averaged 83, ranging from 71 to 95.

Vicksburg, Miss.—We have had rain on two days during

the week, the rainfall being one inch and seventy hundredths The thermometer has ranged from 70 to 90, averag-

Mobile, Ala.—Frequent showers keep grass growing to the detriment of cotton. A large area needs cultivation and labor is scarce. The week's rainfall has been thirty-one hundredths of an inch on one day. Average thermometer 81, highest 91, lowest, 73.

Montagement Ala There has been rain on two days of

Montgomery, Ala.—There has been rain on two days of the week, to the extent of four hundredths of an inch. The thermometer has averaged 83, the highest being 92

Selma, Ala.—We have had rain on one day of the past week, the rainfall being five hundredths of an inch. Thermometer has averaged 83, ranging from 78 to 98.

Madison, Ala.—We have had rain on two days during the week, the rainfall being one inch and fifty-eight hundredths of an inch. The thermometer has ranged from 72 to 95 averaging 84.

Savannah Ga Thermometer has ranged from 72 to 95

Savannah, Ga.—The week's rainfall has been one inch and seventy-eight hundredths of an inch on four days.

Average thermometer 77, highest 92, lowest 69.

Atlanta, Ga.—We have had rain on five days the past week, the rainfall being fifty-one hundredths of an inch.

The thermometer has averaged 80, the highest being 91 and the lowest 68

Augusta, Ga.—It has rained on five days of the week, the rainfall reaching three inches and fifty-four hundredths. The thermometer has averaged 82, ranging from 68 to 95.

Charleston, S. C.—There has been rain on four days during the week, to the extent of one inch and eleven hundredths. The thermometer has ranged from 69 to 92, averaging 80.

Spartanburg, S. C.-We have had rain on five days the past week, the rainfall being two inches and twenty-two hundredths. The thermometer has averaged 80, the highest being 93 and the lowest 66.

Charlotte, N. C.-We have had good rain on five days of the past week, the rainfall being one inch and thirty-one hundredths. Thermometer has averaged 78, ranging from 64

Weldon, N. C.—Rain has fallen on three days during the week, the precipitation reaching one inch and fifty hundredths. The thermometer has ranged from 55 to 93, averaging 74.

Dyersburg, Tenn.—The week's rainfall has been seventeen hundredths of an inch on two days. Average thermometer 80, highest 88, lowest 72.

Memphis, Tenn.-We have had rain on three days the ast week, to the extent of two inches and forty hundredths. The thermometer has averaged 81, the highest being 88 and the lowest 74.

NEW YORK COTTON EXCHANGE.—New Commission Rates.-In effect, on and after June 16 1919, the rates of commission will be as follows: \$10 00 per 100 bales when the price is below 13.01c.; \$12 50 per 100 bales when price is from 13.01c. to 25c., inclusive; an additional \$2 50 per 100 bales for each range of 5c. above 25c. In the case of members the rate is one-half of those mentioned. An additional \$2 50 per 100 bales for persons outside of the United States and Canada. In the case of a member outside of the United States and Canada, the additional charge will be \$1 25 per 100 bales.

ENGLISH COTTON MILLS.—By cable from London June 23 it was announced that the strike of 500,000 cotton operatives in Lancashire was settled on that day on the basis of a 48-hour week and a 30% wage increase, work to be resumed on June 30. But it has since been reported that the operatives have rejected the proposed settlement.

### BREADSTUFFS

Friday Night, June 27 1919.

Flour has been in the main quiet, though at times a slight increase in the demand has been noticed. Mills have been bidding freely for new crop wheat in the Southwest. The new contract has not yet been fully digested by the mills in all its particulars. Copies have been distributed throughout the country. Meanwhile mills are said to be bidding 15 to 17 cents over the basic government price for new hard wheat in the Southwest. This is taken to mean that as soon as new flour can be produced it is likely to have a quick sale. It is true that the bids mentioned were for June shipment with a penalty of 1 cent per day for delays. Some think that the Government will begin buying flour for export, possibly in July. On the whole, the outlook is brightening

think that the Government will begin buying flour for export, possibly in July. On the whole, the outlook is brightening a little, though activity is lacking. Mills are rather slow in naming new prices. The tone is somewhat steadier, but buyers are not at all eager to take hold.

Wheat visible stocks fell off last week 2,052,000 bushels, against 74,000 in the same week last year, bringing them down to 11,387,000 bushels, against 435,000 a year ago. Cutting of wheat has begun fifty miles to the south of Decatur, Ill., and along the Mississippi and Illinois rivers to the west. Fields are fast turning in color, and with good weather cutting is expected to spread. The yield in central Illinois is put around twenty-five bushels per acre. No damage of consequence is reported. On the whole, the outlook or the wheat crop in this country is still considered favorable. The price guaranteed by the Government has been increased to \$2 30 at Galveston and New Orleans. The order is an effort to stimulate shipments of wheat to the Gulf terminals. It was said that a larger supply of ocean tonnage at these ports than had been anticipated would be available.

The dry weather in France has been favorable for winter-

The dry weather in France has been favorable for winterwheat but bad for spring-wheat and other cereals which need wheat but bad for spring-wheat and other cereals which need good rains. In the United Kingdom beneficial rains have fallen, but more are needed. From Spain come favorable reports of the wheat and barley crops. In North Africa harvest prospects are generally fairly good. It is said that the crops south of Tunis are poorish, but in the northern regions an average harvest is expected. Substantial reserves are reported, however. In Italy the forecasts of the wheat grop are 188 000 000 bushels, against 176 000 000 iast wheat crop are 188,000,000 bushels, against 176,000,000 last year. On a pre-war basis it is said, this amount would be sufficient for home consumption; but Italy is now consuming more wheat than formerly, and according to official data the crop last year was 176,000,000 bushels and the imports from figures already published seem likely to be 80,000,000 bushels, a total of 256,000,000 bushels. The average annual consumption before the war was only 204,000,000 bushels. It seems likely, therefore, that Italy will need liberal imports next year, in spite of the good crop to be harvested. In Australia occasional rains favored the new wheat seedings. Seamen's strikes have hindered loadings of wheat to a considerable extent. In India the weather has been good for the contract of the contraction of the contractio native food grain crops. Further East Indian imports of Australian wheat were announced, and other advices say there are more steamers being chartered to take Australian wheat there. Damage by drought is still reported in France,

The Kansas State reported on the 25th inst. In Illinois and 10wa. The Kansas State report puts the condition at 75.4% against 84.9% a month ago and 82% last year. The week's exports from Argentina to the United States were only 227,000 bushels. That was less than expected. Though the American visible supply last week increased 708,000 bushels as against a decrease in the same week last year, the total is still only 4,336,000 bushels against 12,049,000 a year ago. On the other hand, there have been sharp reactions. On the On the other hand, there have been sharp reactions. On the 24th inst. in fact there was a break of  $5\frac{1}{2}$  to  $6\frac{1}{2}$  cents from the closing prices of the previous day. This was partly on the closing prices of the previous day. This was partly on the news of a delay in the signing of the peace treaty. Declines in stocks, cotton and coffee had more or less effect, as being due in part to the same cause. Also the advance has been so rapid that heavy profit-taking took place. Some maintain that the bullish factors have been discounted. In the main the weather has been favorable. Hog products have declined. Cash corn, moreover, has at times showed weakness. The demand did not keep pace with the sup-ply. Also offerings of Argentine corn increased here; and ply. Also offerings of Argentine corn increased nere; and it is offered with considerable freedom from Argentina on an f.o.b. basis. Reports from Buenos Aires, too, said that officials there have decided to allow 15% weevil in the corn delivered on August and September contract, and also that deliveries can be made of corn containing 30% of weevil at a discount. And it was stated the other day that an Illinois grain dealer had had his license revoked by the Food Administration on a charge of hoarding. It is asserted that

this interest controlled 400,000 bushels of July contracts and also 345,000 bushels of eash corn, all of which it is assumed will have to be liquidated. It includes, it is said, 160,000 bushels out of condition. To-day prices advanced and then reacted. But they are higher for the week. A steamer arrived here to-day with 181,000 bushels, but ocean freights are higher at Argentine ports, up to \$3 a ton, and business to arrive is more difficult.

Oats advanced at one time and then reacted with other grain on the delay in signing the peace treaty. In the main, too, the crop outlook is considered better. And there has been less cash demand. The receipts at times have been larger at primary points. The visible supply has increased. New export business, it is said, has been light, if indeed there has been any at all. Omaha interests have been selling at Chicago. On the other hand, the technical position has been improved by the recent liquidation. Droughty conditions have been reported in the inter-mountain territory. Also there has been more or less export inquiry. And it is said that quite a good demand prevails for ocean freight room for oats to be shipped to France, though this may be on old business. But the visible supply increaed last week 642,000 bushels in sharp contrast with a decrease Oats advanced at one time and then reacted with other last week 642,000 bushels in sharp contrast with a decrease in the same week last year of 3,121,000 bushels. The total is now 15,625,000 bushels against 13,639,000 bushels a year ago. That of barley which increased last week 1,365,-000 bushels is now 10,236,000 bushels against 2,648,000 a year ago. The French Government has reimposed prewar import duties on oats, barley and corn. They were three francs per 100 kilos on each. To-day prices were lawer and they and lower for the week. Crop reports are lower, and they end lower for the week. Crop reports are more favorable.

WEATHER BULLETIN FOR THE WEEK ENDING JUNE 24.—The general summary of the weather bulletin issued by the Department of Agriculture, indicating the influences of the weather for the week ending June 24, is

as follows:

COTTON.—The week as a whole was somewhat warmer than normal in the central and eastern portions of the cotton belt; also in Arkansas and Oklahoma, but the weather continued moderately cool in Louisiana and Texas. Rainfall was unevenly distributed, but was mostly less than two inches, except in portions of Georgia and northwestern South Carolina, locally in Alabama and in considerable areas in Texas, Oklahoma and Louisiana. While the week was fairly favorable for growth in Arkansas and most sections east of the Missispipi River, the crop continued in unsatisfactory condition in most portions of the belt, although it is reported as satisfactory in some eastern sections. Cotton made fairly good advancement during the week, and its condition is generally good in the Carolinas, except for slow growth in portions of North Carolina. The progress and condition were reported as satisfactory in Georgia wherever the fields are well cultivated, but in the southern portion of the latter State it is very poor and the fields are grassy. The condition of the crop is reported as poor to fair in Alabama and Tennessee. The weekly progress was fair in parts of Mississippi, but the general condition continued poor. There was too much rain in Louisiana and little cultivation was possible during the week; the condition of cotton continues poor, except fair where cultivation has been possible.

SPRING WHEAT.—The week was favorable from the Dakotas and

dition of cotton continues poor, except fair where cultivation has been possible.

SPRING WHEAT.—The week was favorable from the Dakotas and Nebraska eastward for the growth of spring wheat, and the crop made good to excellent progress in nearly all localities in that area, although there has been too much rain in southwestern and south central Minnesota, where progress was unsatisfactory. The warmer weather in the more western spring wheat districts was favorable for the crop where it is under irrigation, but in the dry farming area it is suffering badly from lack of moisture, and is generally in unsatisfactory condition. Spring wheat is heading to the Northern States of the belt.

WINTER WHEAT.—The temperature averaged higher than the normal and the rainfall during the week was light to moderate in most of the principal winter wheat States. The crop matured rapidly under these conditions and harvest progressed favorably, except some local delay by rain.

CORN.—The temperature was above the normal in central and northern districts, and the rainfall was light in the Central Great Plains region and light to moderate in parts of the central Mississippi Valley. These conditions were favorable for the growth of corn and cultivation progressed satisfactorily.

The week was favorable for oats in nearly all sections of the

light to moderate in parts of the countary and cultivation progressed ditions were favorable for the growth of corn and cultivation progressed satisfactorily.

OATS.—The week was favorable for oats in nearly all sections of the country east of the Rocky Mountains, and improvement was reported in this crop in many localities, particularly from the upper Ohio Valley northeastward. Growth was checked, however, by warm, dry weather in Michigan, and it was too wet for best results locally between the lower Ohio Valley and the Western Lake region, while there was considerable complaint of bacterial diseases in Iowa.

BARLEY AND RYE.—Barley and rye continued to make satisfactory progress wherever soil moisture was sufficient, and these crops continue in good to excellent condition in practically all sections where they are grown from the plains States eastward.

### THE DRY GOODS TRADE

New York, Friday Night, June 27 1919. With difficulties in securing fabrics steadily increasing, and mills reluctant about accepting even moderate sized contracts for forward delivery, dry goods merchants have started to show considerable concern as regards future supplies. At present, every indication points to a growing searcity of goods, and merchants are beginning to become apprehensive that they will encounter greater hardship later in the season in securing merchandise than they did during the war period, or in fact, for many years past. Mill agents give them little encouragement and are very cautious about give them little encouragement and are very cautious about give them little encouragement and are very cautious about accepting orders. Production fails to keep up with demand, and complaints about backward deliveries are becoming numerous. Manufacturers themselves are said to have many difficulties to contend with and are notifying agents that in view of the summer vacations, production will likely continue restricted. Many, too, have expressed considerable anxiety as to what effect prohibition effective July I will have on workers. The acute situation as regards supplies not only pertains to cotton goods, but to woolens. will have on workers. The acute stuation as regards supplies not only pertains to cotton goods, but to woolens, worsteds, silks and imported goods. As regards imported fabrics, merchants do not expect much improvement in the movement, but instead predict that this country will be called upon to send large quantities of goods abroad. Inquiry for silks is increasing, stocks are light and jobbers as well as retailers are anxious to find goods for quick delivery. Prices generally continue to rise, and many fabrics have reached the high levels which prevailed during the war period. While many merchants are of the opinion that the recent advance in prices has, to a large extent, discounted Peace, others claim that values are likely to go still higher when the shortage becomes more pronounced. On the other hand, there are those who predict that higher prices will stimulate production and result in mills accepting contracts more readily and thus bring about an easier situaion. Demand for export continues quite heavy, and if fabrics were available in larger quantities, shipment would be on a more liberal scale. Recently, fair sized sales of sheetings have been made to Mediterranean countries, while Northern European neutrals are buying more freely.

while Northern European neutrals are buying more freely. According to reports, France has been inquiring for supplies, and some sales of brown and bleached goods have been made in English markets. Exporters are also said to be working on orders for Belgian account.

DOMESTIC COTTON GOODS.—Markets for staple cotton goods have ruled firm with prices in a number of cases above recent war levels. Merchants are finding it more difficult to procure fabrics and the increased demand is sending prices upward. Manufacturers are giving buyers little encouragement as regards increased supplies nor is there any indication of prices receding. There are fairly large offerings of fabrics by second hands who are encouraged by the high prices to sell. While it is conceded that there is a searcity of cloths owing to the restricted production following the signing of the armistice, it is claimed that there are plenty of goods if holders were willing to sell, as stocks are very unevenly distributed. There are still many signs of active speculation in various cotton fabrics despite the of active speculation in various cotton fabrics despite the fact that merchants and manufacturers have done everything possible to eliminate such operations. There is a thing possible to eliminate such operations. There is a good inquiry for ginghams for nearby needs with buyers anxious to place orders. Mills have announced that they will accept limited orders for ginghams for delivery during December, January and February. Additional advances have been made in tickings during the past week, but business has been light as sellers have little to offer. Some fairly large sales of both wide and narrow sheetings have been made at irregular prices, but it is difficult to procure spot goods. Converters have been buying fine goods more freely as they are more optimistic as regards spring business. freely as they are more optimistic as regards spring business

and are anxious to provide for their forward requirements.

Print cloth markets have been firm with a steady demand.

WOOLEN GOODS.—Markets for woolens and worsteds continue active and prices rule firm. Supplies are scarce, and it is believed they will continue so for some time to come. Prices for raw material are advancing and record prices have been paid during the past week for Western clip. Mill agents continue very cautious about selling forward fabics, as there is a growing tendency to keep business confined to short term deliveries as much as possible. In the mens' wear division, there is a steady inquiry for fabrics and prices

wear division, there is a steady inquiry for labries and prices rule firm. Some spring openings have taken place with buyers keen to have their orders accepted. Dress goods markets rule firm with buyers in need of fabries and ready to pay the prices asked when goods are offered.

FOREIGN DRY GOODS.—A steady business is being transacted in linens with importers reported to have cabled further orders to manufacturers abroad. Recent arrivals of linear bayes been much bearing and according to reports of linens have been much heavier and according to reports larger shipments are due within the next few months. Advices from abroad state that the British Government has sold from thirty to forty million yards of linen fabrics at a price aggregating a total from 3,750,000 to 4,000,000 pounds sterling. It is not known whether or not any of the fabrics purchased were for this country, but it is expected that when the goods are bleached and finished a considerable quantity will be shipped here as they are adaptable for dresses. Burlaps, less active. Light weights are quoted at 11.75e and heavy weights at 13.25e.

# State and City Department

# NEWS ITEMS

California (State of).—Bond Election.—The constitutional amendment to issue \$40,000,000 State highway bonds will be voted upon at a special election called by Gov. W. D. Stephens for July 1.

Chicago, Lincoln Park District.—Bond Bill Signed.—Governor Frank O. Lowden has signed a bill, it is reported, permitting the Board of Commissioners to ask for a referendum on the issuance of \$1,000,000 bonds for filling in work now under way along the north shore.

Des Moines, Iowa.—Proposed Purchase of Water Plant.— Regarding the present situation of the proposed purchase by the city of the plant of the Des Moines Water Company, the City Clerk writes us as follows:

Gentlemen—City Council has directed our Legal Department to prepare the necessary resolution for the calling of an election to submit to the electors the proposition of the Des Moines Water Company to sell its plant to the city at a price of \$3,450,000.

So far the Legal Department has not prepared the resolution, but undoubtedly will file it within a few days. The resolution must be passed and thirty days' notice given by publication in a local news-paper before the election can be held.

Very truly yours, (Signed) FRANK JEFFRIES. City Clerk.

East Denver Municipal Irrigation District, Colo.—
Bond Coupons Declared Valid.—In a decision handed down
by Judge Robert E. Lewis in the United States District
Court on May 7, coupons in the hands of the Gas Securities
Co. of New York from bonds of the East Denver Municipal
Irrigation District were declared valid. The amount of
coupons and interest due on them was set at \$229,170 98.
The suit had been pending in the local court for about two
years, it is said, as the district resisted the action of the
Eastern concern, claiming the coupons in the hands of the
company were invalid. company were invalid.

Henryetta, Henryetta County, Okla.—Suit to Restrain City from Issuing Bonds.—The attorneys for the city advised us under date of June 19 that no hearing had yet been had on the permanent injunction granted some days before, restraining the city officials from selling the \$310,000 waterworks bonds which had been advertised for sale. They further state that there will probably be no action on the matter until some time in July.

Jackson Parish (P. O. Jonesboro), La.—Bond Issue Annulled.—In the case of W. I. Flanigan et al versus The Parish Police Jury, the former attacking an ordinance of the Police Jury, adopted Jan. 22, declaring the whole retirory of Jackson Parish be included in Road District No. 1; and also attacking the validity of an election held March 4 at which \$500,000 worth of bonds, to run for forty years, had been voted for road-building, the Supreme Court on June 2 held that both Act 30 of the extra session of 1917 and Article 291 of the Constitution clearly state that a whole parish may be formed into one road district. They annulled the bond issue, however, on the ground that the tax to secure it had been based on the actual valuation of property in the district rather than on the assessed vaulation, and exceeded 10% of the assessed valuation.

Massachusetts.—Legislature Ratifies Woman Suffrage Amendment.—See reference to this in our "Current News Department" this week.

Michigan.—Blue Sky Law Effective as Against Sales Not Approved by Securities Commission.—In an opinion rendered on June 17, the Michigan Supreme Court held that any sale of stock requiring the approval of the State Securities Commission not so approved is void. The rule does not apply to stocks which are exempted under the "Blue Sky" laws—that is, do not require the approval of the Commission. The opinion was by Justice Grant Fellows: The decision is said to be the most important and far-reaching one rendered by any Court in any of the States having "Blue Sky" laws. It is estimated that it will act as an additional curb on outside companies now offering their stock for sale in Michigan side companies now offering their stock for sale in Michigan

illegally. Press accounts say:

The question came before the Court in a case brought by William 8.
Edward against Walter Ioor, Grand Rapids broker. Mr. Edward, a resident of the Soo, purchased some stoke in the Arizona Piano Co., an unapproved company, from Mr. Ioor. He refused to pay for the stock on the ground that it was not approved stock under the "Blue Sky" law and the Supreme Court holds that his contention is right.

Legislature Adjourns-Bills Providing for Highway Improvement Loan Board Passed .- The session of the 1919 Legislature of Michigan adjourned last Friday (June 20) at noon.
One of the 26 bills passed by the Legislature was the Con-

nelley bill, which creates a Highway Improvement Loan Board charged with the issuance of the \$50,000,000 bonds recently authorized by vote of the people for construction of trunk lines, Federal aided an State reward roads and bridges along the same. These bonds must sell at not less than par, draw interest not exceeding 5%, and not more than \$5,000,000 can be issued in any one year. They shall mature in not less than 5 nor more than 30 years from date

Monett Special Road District (P. O. Monett), Barry and Lawrence Counties, Mo.—Road Bonds Upheld.—The Supreme Court on June 14 directed State Auditor Hackman to register \$50,000 bonds issued by this district for improved

highways. The bonds issue was attacked on the ground the district is composed of parts of Barry and Lawrence counties. The Court holds that the law authorizes the for-The bonds issue was attacked on the ground that counties. The Court holds that the law authorizes the for-mation of such districts and that each county being a part of the district, can pay its just share of the tax.

New York State.—Savings Bank Law Amended.—At the special session of the State Legislature which convened on June 16, an amendment was enacted to Subdivision 6 of Section 239 of the law regulating the investments of savings institutions of New York State. We publish below Subdivision 6 as it now reads, the new addition appearing in

6. In bonds and mortgages on unincumbered real property situated in this State to the extent of 60% of the appraised value thereof. Not more than 65% of the whole amount of deposits and guaranty fund shall be so loaned or invested. If the loan is on unimproved and unproductive real property, the amount loaned thereon shall not be more than 40% of its appraised value. No investment in any bonds and mortgages shall be made by any savings bank except upon the report of a committee of its trustees charged with the duty of investigating the same, who shall certify to the value of the premises mortgaged or to be mortgaged, according to their judgment, and such report shall be filed and preserved among the records of the corporation. For the purposes of this subdivision real property on which there is a building in process of construction, which when completed will constitute a permanent improvement, shall be considered improved and productive real property.

North Dakota.—Dismissal of Proceedings to Test State Legislation—Legality of State Bank Bonds Upheld.—See reference to this in "Current News Department" in last week's "Chronicle", page 2490.

Pennsylvania.—Legislature Ratifies Woman Suffrage Amendment.—Reference is made to this in our "Current News Department" this week.

Joint Bridge Bill.—The Buckman bill, providing for the joint acquisition and maintenance by Pennsylvania and New Jersey of toll bridges over the Delaware River, has been approved, it is stated, by Governor Sproul.

Philadelphia.—Charter Bill Signed By Governor.—The Woodward Charter-Revision Bill, prescribing a new form of government for the city of Philadelphia was signed by Governor Sproul on June 25. The House of Representative passed the bill on June 10 by a vote of 196 to 2. The measurement of the company of the ure was approved by the Senate on June 17.

The provisions of the new city charter read as follows:

Council to consist of one chamber of twenty-one members, elected from material districts on basis of each 20,000 voters.

New Council to choose civil service commission of three members.

Fine and imprisonment for police and firemen who engage in political tivities.

Fine and imprisonment for police and internal was activities.

By a majority vote of Council and the approval of the Mayor, municipal work can be performed by contract.

Beginning Jan. 1 1921, the city can undertake its street cleaning and collection of ashes and garbage.

City Solicitor to be appointed by the Mayor.

Receiver of taxes to be elected, and his office is to remain separate from that of City Treasurer.

Long-term financial obligations forbidden.

The position of city architect is authorized.

Rhode Island.—State Printing Plant Bond Issue Asked.—resolution asking for a referendum on the proposal to issue \$200,000 State printing-plant and furnishing bonds was presented in the Rhode Island House of Representatives on Feb. 26. by Representative Dolan. The resolution provides that at the 1920 (November) elections the voters be asked to

vote on the following proposition:
Shall the General Assembly be authorized and directed to provide for the issue of State bonds not to exceed the amount of \$200,000 for the purchase of a site and the erection thereon of a State printing plant and for the furnishing and equipping of the same, these bonds to be issued from time to time in such amounts and upon such terms as the General Assembly may hereafter determine.

The resolution was referred to the Finance Committee.

St. Louis County (P. O. Clayton), Mo.—Bonds Declared Valid.—The United States Supreme Court upheld the issuance of the \$3,000,000 road construction bonds voted in Feb. 1916 (V. 106, p. 2574), reports state, when on May 19, it declared the Missouri road law, authorizing county officials to issue road bonds and to levy taxes for them upon a vote of the county residents, to be constitutional. It is further reported that the decision removes all obstacles to the floating of the bonds and that about \$1,000,000 of the issue will be put on the market within

Sayreville, N. J.—Incorporated.—Senate Bill No. 16, incorporating the Borough of Sayreville in Middlesex County, has been signed by Governor Edge.

United States.—Senate Rejects Wartime Dry Law Repeal.—House Committee Defeats Dry Law Repeal.—See reference in our "Current News Department" this week.

Vermont.—Changes in Investment Laws of Savings Institutions.—The Vermont Assembly of 1919 passed several amendatory Acts to the Laws of Vermont regarding the investments of savings institutions. We publish these amendments in full in our "Current News Department" this week.

Virginia—West Virginia.—Virginia Debt Funds Decisions.—Judge Scott in the Circuit Court for the City of Richmond, on motion of the Virginia Debt Commission, has ordered the Commission to transfer from the Riggs National Bank of Washington to the First National Bank of Richmond, Va., the sum of \$1,062,867 and interest from the 1st \$1,078,662, which sum was given in part settlement of the claim of Virginia against West Virginia.

The Court also ordered that the 3½% bonds now being engraved are to be delivered by the Commission to the First National Bank of Richmond to the credit of the Commission.

As to the appointment of receivers for the distribution of the settlement fund decision was reserved.

Dispatches from Charleston, W. Va., under date of June 26 said that W. S. Johnson, State Treasurer, and John S. Darst, State Auditor, would leave that night for New York, where they would sign approximately 30,000 bonds, totaling \$13,500,000, to be paid on the Virginia debt. The bonds, it is stated, will be turned over to a representative of the Virginia Debt Commission as soon as the signing process is finished.

Washington (State of).—Governor Lister Dies.—Ernest Lister, Governor of Washington, died at Seattle on June 14 after a serious illness of several months. Lieutenant-Governor Louis F. Hart automatically becomes Governor of the

Washington Parish (P. O. Franklinton), La.—Road Tax Levy Upheld—Bond Issue Approved.—A decision handed down by the Supreme Court on June 4 in the case of Daniel E. Sheridan versus The Parish Police Jury declares that road taxes the Police Juries are allowed to impose under Article 201 of the Constitution are in addition to and not in lieu 291 of the Constitution are in addition to and not in lieu of the road tax authorized by Article 281. The decision was

of the road tax authorized by Article 281. The decision was written by Justice O'Niell.

In this case the plaintiff appealed from a judgment by Prentiss B. Carter, Parish Judge, rejecting his demand to annul the proceedings of the Police Jury of Washington Parish, creating a road district, and issuing \$500,000 worth of road bonds, to be paid in twenty-five years, for the construction and maintenance of public roads and bridges.

The Court discussed the several grounds of complaint raised by Sheridan, and held that Washington Parish had the right to create itself into one road district. It held all of Sheridan's complaints unfounded except his contention

of Sheridan's complaints unfounded except his contention of Sheridan's complaints unfounded except his contention that the Police Jury should, by appropriate ordinance, before delivering the bonds, rearrange the maturity periods so that the total sum of the principal and interest to be paid in each of the twenty-five years would be as near equal and uniform as possible. With this modification, the Supreme Court approved the \$500,000 issue.

According to the "New Orleans Times-Picayune," Justice O'Niell's opinion in part passes on the most important point involved. in the following language:

involved, in the following language:

involved, in the following language:

"Our attention is called to certain expressions in the opinion, lately handed down, in Hayne vs. Assessor, 143 La., p. 712, to the effect that the limitation of 10 mills of special taxes, in any year, as fixed by Article 281 of the Constitution (as amended in 1910) for works of public improvement (including roads and bridges), has been superseded, as to taxes levided for roads and bridges, by the limitation of 5 mills for five years, as fixed by Article 291 (as amended in 1912), for roads and bridge purposes." It is suggested, and is true, that, if that interpretation is correct, the proceedings had in this case are null on their face. For, if the Police Jury is constrained by Article 291 of the Constitution not to levy special taxes exceeding the rate of 5 mills, nor exceeding the period of five years, 'for road and bridge purposes,' and if, therefore, the Police Jury cannot levy (within the 10-mill limit) such special tax each year as will be necessary to pay the interest and principal due in each of the twenty-five years that the bonds are to run, there will be no means of paying the obligation.

"Having made a more critical analysis of the constitutional provisions in question, however, we are convinced that the conclusion stated in that respect in Hayne vs. Assessor, and the obligation to the same effect in Tremont Lumber Co. vs. Police Jury, is not correct and should not be adhered to."

Wisconsin.—Assembly Defeats Income Tax Bill.—The

Wisconsin.—Assembly Defeats Income Tax Bill.—The Assembly on June 19 defeated the Arnold bill, which had passed the Senate, providing for radical increases in the tax rates on individual and corporation incomes. The vote was 52 to 27.

#### Special Street Improvement Bonds.

Sealed bids will be received by the Committee on Ways and Means of the City Council of the City of Minneapolis, Minnesota, at the office of the undersigned, WEDNESDAY, JULY 9TH, 1919, at 3:00 o'clock p. m., for \$1,057,791.85 Special Street Improvement Bonds, dated August 1st, 1919, and to become due and payable one-twentieth each year thereafter, the last one being payable August 1st, 1939, except the bonds in proceedings No. 565 and No. 556, which are to be payable as nearly as practicable in ten equal annual installments, commencing August 1st, 1920. No bid will be entertained for said bonds for a sum less than the par value of the bonds bid for, and accrued interest to date of delivery, and the rate of interest must be bid by the purchaser and must not be in excess of 5 per cent per annum, payable annually or semi-annually.

The right to reject any or all bids is hereby reserved. A certified check for two per cent of the par value of the bonds bid for, made to C. A. Bloomquist, City Treasurer, must accompany each bid.

Circular containing full particulars will be mailed upon application.

DAN C. BROWN, City Comptroller, Minneapolis, Minn.

subscriber of the Commercial & Financial Chronicle.

Terms for the Chronicle, including this and five other Sections, or Supplements, issued periodically and all furnished without extra charge to annual subscribers, are Ten Dollars per annum within the United States, Thirteen Dollars (which includes postage) in Europe and \$11.50 in Canada.

WILLIAM B. DANA COMPANY, Publishers, Front, Pine and Depeyster Streets, P. O. Box 3, Wall Street Station.

New York

# DATE OF ISSUE OF THIS PUBLICATION.

As explained in previous numbers, this periodical, owing to the great pressure for space, is now issued in two parts. The first part, comprising the New England and the Middle and the Central States (the latter embracing Ohio, Indiana, Illinois and Michigan), is published in the first half of the year and The second part, comprising the appears to-day. rest of the country, is published towards the close of the year, and will appear next December.

The change has been forced upon us by the constant addition to the number of municipal bond issues and the inability to compress the information concerning the same within the limits of a single number. Not only are the older and more important civic corporate bodies uninterruptedly putting out further bonded obligations, but many of the minor places, previously free from debt, have also entered the ranks of borrowing communities and are constantly creating new issues. Besides this, in the newer sections of the country where expansion and development are such noteworthy characteristics of affairs, new civil divisions are all the time springing up. The result is that the demands for additional space have outgrown our ability to provide for them in the customary way, leaving no alternative but to issue the Supplement in two parts and to assign a portion of the country to each part.

# MUNICIPAL BOND SALES IN 1918.

In this article we make our customary annual analysis of the municipal bond sales, the compilation the present time covering the calendar year 1918. The chief characteristics of the 1918 figures are the diminution in the yearly aggregate of the sales and the further advance in the cost of obtaining the loans as measured by the interest rates in the bonds. Both features are what would be looked for by any one familiar with the municipal bond market and the circumstances under which offerings had to be made, and both find their origin and explanation in the conditions prevailing during the year.

These conditions were war-time conditions and they necessarily governed and controlled everything else. The United States was in the market as a borrower on a prodigious scale and all other borrowing had to be relegated to a subordinate place. Municipalities in need of money formed no exception to the rule. To insure the success of the Federal loans, the Government had to raise interest rates and necessarily municipal and other borrowers had to pursue the same course. Not to mention the Government's temporary applications to the investment and money markets, the United States during 1918 floated two loans of a permanent character, both of greater magnitude by far than any previously placed in American history. In April-May the Third Liberty Loan was floated. As against the 31/2% interest rate in the First Liberty Loan and the 4% rate in the Second Liberty Loan, both put out in 1917, the rate was now raised to  $4\frac{1}{4}\%$ . Subscriptions were invited of \$3,000,000,000 with the right reserved to allot additional bonds up to the full amount of any over-subscription. The bids actually reached \$4,176,516,850, all of which were accepted.

In September-October the Fourth Liberty Loan was offered. The rate of interest was again placed at  $4\frac{1}{4}\%$ , but to make the loan more attractive the bonds were endowed with a larger degree of taxexemption than any previous Liberty Loan issue except the First, which latter is totally exempt from annual tax levies. In this case subscriptions were invited for \$6,000,000,000 with the right again reserved to allot additional bonds up to the amount of any over-subscription. Actually \$6,989,047,000 of bonds were subscribed for, all of which were accepted. In these two great loans combined, therefore, the amount of the Government's borrowings exceeded \$11,000,000,000.

It was recognized from the first, both by the Federal authorities and by financial interests, that with the Government requirements, because of war, so imperious and on such a huge scale, applications by all other borrowers, of whatever nature, would have to be kept within rigid limits. Steps to that end were taken at the very beginning of the year, but at first were the result entirely of voluntary action. There was no dissent anywhere from the idea that some sort of supervision and regulation was an absolute necessity of the situation. Later regulatory powers were conferred by statute.

In the War Finance Corporation Act, which became a law on April 5, provision was made for the creation of a Capital Issues Committee whose duty it was made to determine whether any proposed new issue in excess of \$100,000 was "compatible with the national interest." No punitive powers were delegated to this Committee and none were really necessary as every one was prepared from the first to render implicit obedience to the Committee's orders and decisions.

In effect there was a rationing of capital in order that Government requirements should not be interered with any more than absolutely necessary. It followed that when a municipality in 1918 wanted to borrow in excess of \$100,000 on long-term obligations, the issue had to be passed upon by the Capital Issues Committee and its approval obtained. Perhaps there was more occasion in the case of municipal bond issues to apply a rationing rule than in the case of other new capital applications, since in an appeal to the investment market the municipal borrower has a special advantage in the fact that municipal obligations possess complete immunity from Federal taxation. The income from municipal bonds does not have to be included in the income returns to the Federal authorities and such income escapes not only the normal Federal tax but also the war profits and excess profits taxes and likewise

With all these taxes so heavily increased and likely to be a feature for some years to come, the advantage referred to became an important consideration with the investor, and particularly the large investor. Thus, there was always more or less demand for municipal bonds, by reason of the tax exemption they enjoy, and as this demand came at a time when such obligations were being put out on a reduced scale, a substantial improvement in the market value of civic security issues occurred the latter part of the year. As illustrations we may cite New York City bonds dealt in on the Stock Exchange. New York City 4½s of 1965 sold at 93¼ in April, but in November commanded 1035/8. In like manner the  $4\frac{1}{4}$ s of 1966 rose from  $87\frac{7}{8}$  in April to  $99\frac{1}{8}$  in November. Of course, even after this improvement, values remained considerably lower than at the beginning of 1917, before the entrance of the United States into the war; the 4s of 1965 had sold at 111 in January 1917, and the  $4\frac{1}{4}$ s of 1966 at 106.

According to our compilations the grand aggregate of the sales of municipal bonds during the twelve months of 1918 was \$296,520,458. When it is stated that this compares with a total of \$451,278,762 for 1917, with \$457,140,955 for 1916, with \$498,557,993 for 1915 and with \$474,074,395 for 1914, it will be seen how substantial was the reduction in the placing of new civic issues in 1918. As a matter of fact, the 1918 aggregate is the smallest of any year since 1907. The average of the yearly sales for the four years preceding 1918 was, roughly, \$470,000,000, and as compared with this average the aggregate of \$296,520,458 for 1918 registers a decrease of, roughly, \$174,000,000, or considerably over one-third.

Thus there was an actual suppression of municipal bond offerings to a very large extent. The other effect of the Government's huge borrowing, namely the higher price that municipalities had to pay in the shape of increased interest rates in their applications to the loan market, is reflected in the statistics in a no less pronounced way. More than one-third of the bonds put out in 1918 carried interest rates of 5% and 25% carried interest rates higher than 5%. In other words, \$98,401,254 of bonds were 5%s and \$73,769,034 were put out at even higher rates. The

 $4\frac{1}{2}\%$  issues still constitute an important portion of the whole, but whereas in 1918 only \$68,709,767, or 23.78% of the whole were put out at that rate, in 1917 no less than \$150,416,893 had consisted of  $4\frac{1}{2}\%$ s. The decline in the total of the 4% issues is still more significant of the change which occurred. In 1917 no less than \$95,550,594, or 21.61%, of the new bonds placed, bore 4% interest; for 1918 the amount was but \$18,681,829.

The contrast as compared with earlier periods is still more striking. A dozen or more years ago the prevailing interest rates in municipal bonds were 3%,  $3\frac{1}{2}\%$  and 4%. The issues at above 4% were relatively small. In 1918, as already shown, the great bulk of the whole issue was at interest rates of  $4\frac{1}{2}\%$ , 5% and higher. We have prepared the following summary to indicate the aggregate of the bonds put out at the different interest rates for 1901, for 1906, and for 1917 and 1918. We exclude the New York City Sinking Fund takings as these are nearly always low rate issues and furnish no criterion of market conditions.

COMPARATIVE INTEREST RATES, EXCLUDING NEW YORK CITY SINKING FUND TAKINGS.

In 1901, it will be seen, out of a total of \$140,185,-499 bonds placed, \$116,240,993, or 82.92% of the whole, consisted of 3s, 3½s and 4s, the 3½s forming much the larger part, they comprising \$68,693,268, or nearly one-half of the year's disposals. In 1918, on the other hand, out of a total of \$294,044,458 (this being minus the New York City sinking fund takings), no 3% issues were floated, only \$2,000 of 3½s, only \$18,681,829 even of 4s, while \$240,880,-025 of the year's sales, or 81.95%, were 4½s, 5s and higher rates.

In previous annual reviews it has been found that the increase in the output of new civic obligations had been especially pronounced in the newer parts of the country, supporting the inference that the new issues represented outlays in the normal development of the cities and towns in those parts of the country. In the 1918 results we again see evidence of the same underlying tendency, for the figures show that the cutting down in the new capital applications has been entirely in the older and more settled communities, where the need for development and for civic improvement would be far less urgent than in the newer parts of the country. In the North Atlantic Division the new bond disposals in 1918 reached only \$62,418,032, against \$175,977,685 in 1917, \$208,213,654 in 1915 and \$228,783,498 in 1914. Again in the North Central Division the disposals in 1918 were only \$100,312,269, against \$141,313,068 in 1917, \$128,078,530 in 1916 and \$137,208,751 in 1915. Even in the South Atlantic tier of States, where the disposals in the past have never been heavy, there was nevertheless a considerable reduction in 1918, the bond sales in that section being no more than \$19,867,178, against \$31,434,837 for 1917, \$40,984,531 for 1916, and \$41,916,530 for 1915.

On the other hand, in the South Central group of States and again in the Western or Pacific Division

the 1918 bond disposals, notwithstanding the restrictions on borrowing, were actually larger than for 1917. As the output was so largely under the control of the Capital Issues Committee, we may suppose that the borrowing in those sections was largely of a character betokening pressing needs which could not be deferred. In the South Central Division the 1918 municipal borrowings reached \$55,476,941 against \$52,957,073 in 1917 and \$56,-942,261 in 1916, and in the Western or Pacific Division they were \$58,446,438 against \$49,596,099 in 1917 and \$56,729,917 in 1916. To furnish these comparisons in graphic form we again reprint a table given by us many times before (but with the 1918 figures added), and which shows the distribution of the bond sales for the last twelve years among the different geographical divisions of the country.

In many of the older and larger cities the curtail ment of new borrowing was, as might be supposed, very marked, and nowhere more so than in New York City. This city put out no issues of a permanent character whatever during 1918 excepting only \$2,476,000 taken by its own sinking fund. In 1917 New York City's public offerings were \$55,000,000; in 1916 also \$55,000,000; in 1915, \$71,000,000, and in 1914, \$65,000,000. Philadelphia placed \$12, 500,000, but this compared with \$20,049,900 in 1917 and \$15,000,000 in 1916. The Philadelphia school district, with independent borrowing functions, put out no bonds whatever. Chicago, with its park and sanitary districts, placed \$5,560,000, which was somewhat less than usual. Boston placed only \$2,106,200 against \$4,215,500 in 1917; \$5,406,450 in 1916 and \$7,377,100 in 1915. The State of Massachusetts borrowed to the extent of only \$1,945,000 against \$5,024,100 in 1917 and \$3,912,500 in 1916. Baltimore did not borrow at all against \$1,494,000 in 1917, \$2,303,400 in 1916 and \$8,800,000 in 1915. And instances like these might be multiplied many fold.

To complete our analysis of the bond disposals of 1918 we furnish below a comparison of the new bond issues according to the purposes for which they were used or created:

	1918. \$	P C of Total		P C of Total		P C of Total		P C of

After apportioning the amounts under the different heads, an aggregate remains of \$66,597,368 for 1918, it will be seen, under the designation "Miscellaneous," and the amounts for other years are also large. In explanation it should be said that this item comprises mainly bonds issued for special purposes, like South Dakota's issue of \$10,450,000 for rural credits; Louisiana's issue of \$6,000,000 for the improvement of canals; and bonds for the improvement of levees, for irrigation, for the acquisition of street railways—purposes of not sufficiently common occurrence to warrant our providing an extra column for the same in our full-page compilation. A foot note to the detailed table on the following page gives the leading items that go to make up the "Miscellaneous" column.

In conclusion, we will reiterate what we have said in previous years, namely that our figures deal only with issues of a permanent character—such as, by their nature, constitute a real addition to the debts of the municipalities. We rigidly exclude floatingdebt obligations and everything of a temporary nature, and we are careful also to avoid duplication or the inclusion of loans that do not belong in the footings. As the best explanation of our reasons for excluding floating-debt obligations, we may refer to the case of this city, which during 1918 issued no less than \$247,772,464 of temporary obligations in anticipation of taxes, and redeemed \$252,970,364 of the same class of obligations, and also issued \$101,953,000 of corporate stock notes (a new form of obligation since 1912), and retired \$74,845,000 of the same.

In order that the reader may know what the grand aggregate of the sales for the twelve months would be with all these various items included, we will say that the total in that event would be nearly \$1,500,000,-000. The actual municipal bond sales for the twelve months within the territorial limits of the United States were, we have seen, \$296,520,458; the temporary loans reached \$438,420,581; sales of permanent securities in Canada (including \$650,000,000 "Victory Loan," and over \$20,000,000 of Provincial loans) were \$721,087,066; general fund bonds of New York City, \$27,000,000, besides which Porto Rico sold \$500,000 bonds and San Juan, Porto Rico, \$300,000 bonds, giving a grand total of \$1,483,828,-105. In the following we furnish a five-year tabular comparison of the various classes of new issues:

Full Cal. Year.	1918.	1917.	1916.	1915.	1914.
Perm.l'ns(U.S.)	. \$ 296,520,458	\$ 451,278,762	\$ 457,140,955	\$ 498,557,993	\$ 474,074,395
*Tempor. loans (U. S.)	438,420,581	395,326,999	300,795,629	249,251,863	384,609,542
(permanent) Bonds U. S.	721,087,066	701,286,567	258,515,696	281,322,206	177,856,680
possessions Gen. fund b'ds	800,000	2,715,000	6,450,000	2,018,500	2,955,000
(N. Y. C.). Gen. fund b'ds	27,000,000		23,500,000	23,000,000	23,500,000
(Baltimore)	None	300,000	300,000	300,000	300,000

(12 months) 1,483,828,1051,575,907,328 1,046,702,280 1,054,450,562 1,063,295,617

\* Includes temporary securities (revenue bonds and corporate stock notes) issued by New York City, \$366 377,464 in 1918, \$303,851,400 in 1917, \$229,409,452 in 1916, \$154,658,878 in 1915 and \$300,922,414 in 1914

It will be noted that in 1918 the amount of temporary loans negotiated greatly increased over the total for 1917. As a matter of fact, however, practically the entire difference is due to the increased temporary borrowing of New York City, which in 1918 placed \$393,377,463 98 of temporary loans, against \$303,851,400 in 1917.

A full-page tabular presentation of the sales of a permanent character within the limits of the United States for the late year appears on the following page. In giving this compilation, we are continuing a practice begun by us with the bond transacions of

1901.

# United States Debt and the Congressional Acts Authorizing It.

In the following detailed statement of the debt of the United States, we give references to the laws authorizing each of the issues of bonds outstanding to-day. In 1917 the country entered upon an entirely new era in its debt history. In the prosecution of the war against the Imperial German Government, new obligations have been issued on a scale of unparalleled magnitude. By the Act of April 4 1917 authority was conferred upon the Secretary of the Treasury to issue \$5,000,000,000 long-term bonds at not to exceed 3½% interest (\$3,000,000,000 of this being for the purpose of establishing credits in the United States for the foreign Governments enlisted in the war against Germany), and \$2,000,000,000 eertificates of indebtedness, the latter running for periods not exceeding one year. By the further Act of Sept. 24 1917, authority was conferred to issue \$7,538,945,460 convertible 4% bonds to retire the \$3,000,000,000 non-taxable 3½% issue authorized to cover loans to the Allies, and to provide for new Allied credits of \$4,000,000,000, the remaining \$538,-945,460 be used for converting certain outstanding bonds, including the Danish West Indies, Alaskan Railway, Panama Canal and naval construction issues. The bill also provided for the issuance of \$2,000,000,000 each of one-year Treasury certificates of indebtness and five-year war savings certificates. The interest rate on the certificates the Secretary of the Treasury was left to fix. By the further Act of April 4 1918, amending the Act of Sept. 24 1917, authority was conferred to issue \$12,000,000,000 of bonds at not exceeding 4½% interest, the 12 billion dollars, however, to include the bonds issued under the Second Liberty Loan, and \$3,638,945,460 being in lieu of corresponding amounts of unissued bonds authorized by previous Acts. Under the same Act the limit upon the amount of certificates of indebtedness that may be outstanding at any one time was raised from \$4,000,000,000 to \$8,000,000.000 at not exceeding 4½%; but including bonds theretofore issued and i tary of the Treasury was authorized to borrow an aggregate not exceeding \$7,000,000,000 at such rate or rates of interest as he might prescribe, issuing therefor notes payable in not less than one year nor more than five years. By the Liberty Bond Exemption Bill of Sept. 24 1918, the total of War Savings Certificates that might be issued was raised from \$2,000,000,000 to \$4,000,000,000.

Bond Exemption Bill of Sept. 24 1918, the total of War Savings Certificates that might be issued was raised from \$2,000,000,000 to \$4,000,000,000 to \$4,000.

In June 1917 \$2,000,000,000,000 of 3½% bonds were offered under the Act of April 24 1917. The subscriptions amounted to \$3,036,226,850, but only \$2,000,000,000 was accepted. In October 1917 an offering of \$3,000,000,000 4s under the Act of Sept. 24 1917 was made. Subscriptions reached an aggregate of \$4,617,532,300. In accordance with previous announcement, one-half of the over-subscription was accepted, making the total of bonds put out under this offer \$3,808,766,150. In April 1918 \$3,000,000,000 of 4½% non-convertible bonds (Third Liberty Loan) were offered under the Act of April 4½% non-convertible bonds (Fourth Liberty Loan) were offered under the Act of July 9 1918. The subscriptions amounted to \$4,176,516,850, all of which were accepted. In Sept.-Oct. 1918 \$6,000,000,000 of 4½% non-convertible bonds (Fourth Liberty Loan) were offered under the Act of July 9 1918. The subscriptions amounted to 16,989,047,000, all of which were accepted. In April-May 1919, \$4,500,000,000 of convertible gold notes were issued in two series, the one-bearing interest at 3½%, the other at 4½%. The subscriptions amounted to \$5,249,908,300, but only \$4,500,000,000 was accepted.

The Act authorizing the First Liberty Loan was given in the "Chronicle" of April 28, page 1649, with further particulars in the issue of May 12 1917, page 1849, and the text of the Treasury circular in the issue of May 19, page 1959; and of the Treasury circular in the issue of April 6 1918, page 1404, and the text of the Treasury circular in the issue of April 13, page 1517. The Act authorizing the Fourth Liberty Loan appeared in the "Chronicle" of March 8 1919, page 131, the Treasury circular in the issue of April 26 1919, page 1670. Certificates of indebtedness have been issued from time to time under the Act of April 26 1919 and the amendatory Acts of Sept. 24 1917, April 4 1918 and July 9 1918,

the close of business on January 31 1919, this being the very latest monthly return issued at the time of going to press. INTEREST-BEARING DEBT OUTSTANDING JANUARY 31 1919.

4a This amount represents receipts of the Treasurer of the United States on account of principal of bonds of the Fourth Liberty Loan to Jan. 31.

b.The average issue price of War Savings Stamps for the years 1918 and 1919 with interest at 4% per annum compounded quarterly for the average period to maturity will amount to \$5 on Jan. 1 1923 and Jan. 1 1924, respectively. Thrift Stamps do not bear interest.

c This amount represents receipts of the Treasurer of the United States on account of proceeds of sales of War Savings Certificate Stamps and U.S. Thrift Stamps.

Payable at dates mentioned. For dates of redemption see below under "Postal Savings Bonds."

The Government debt on Jan. 31 1919 was made up of (1) interest-bearing debt, \$22,954,401,467 64, of (2) debt on which interest has ceased, \$41,746,830 26, of (3) debt bearing no interest, \$242,626,887 69, making total gross debt \$23,-238,775,185 59; subtracting from the total the net cash balance in the Treasury (\$1,159,690,938 41) at the same date (Jan. 31 1919), the net debt at that time is seen to have been \$22,079,034,247 18. This was of course before the floating of the \$4,500,000,000 Victory Liberty Loan notes.

We now add, first, references to and citations from the laws which are the authority for the debt as it stands to-day; second, the tables on page 9, which exhibit all the particulars of the total debt of the United States on June 30 of each year from 1878 to 1918 and on Jan. 31 1919:

CERTIFICATES OF INDEBTEDNESS UNDER ACT OF SEPT. 24 1917, APRIL 4 1918 AND APRIL 23 1918.—(Column 7.)—Sec. 6 of the Act of Sept. 24 1917 provides for the issuance of certificates of indebtedness at not less than par and at such rates of interest as the Secretary of the Treasury may prescribe for the purposes of the Act and to meet public expenditures authorized by law, each certificate so issued payable at such time not exceeding one year from the date of its issue, and redeemable before maturity upon such terms and conditions, and the interest accruing thereon payable at such time or times as the Secretary of the Treasury may prescribe. The sum of such certificates outstanding was not at any one time to exceed in the aggregate \$4,000,000,000, but this was increased under the Act of April 4 1918 to \$8,000,000,000. Under the authority thus granted the Secretary has issued varying amounts of these certificates from time to time, through the Federal Reserve banks, all for short periods, the rate of interest being at first fixed at 4%, then raised to 4½% and finally to 4½%. There were outstanding Jan. 31 1919 \$4,655,267,300 at various rates of interest.

Est being at first fixed at 4%, then raised to 4½% and finally to 4½%. There were outstanding Jan. 31 1919 \$4,655,267,300 at various rates of interest.

LOANS TO BE REPLACED BY LIBERTY LOAN.—Under the Act of April 24 1917, authorizing the First Liberty Loan bonds, and again under the Act of Sept. 24 1917, authorizing the Second Liberty Loan, as well as under the Third Liberty Loan, all referred to below, the Secretary of the Treasury is authorized to issue Liberty Loan bonds to replace, at his discretion, bonds not already emitted under the following: Act of Aug. 5 1909, Section 39, Panama Canal Loan (Column 9), referred to above; Act of June 3 1916, Section 124, an Act for making further and more effectual provision for the national defense and other purposes, and providing for the expenditure of not more than \$20,000,000 for a Government nitrate manufacturing plant; Act of Sept. 7, 1916, Section 13, an Act to establish a United States Shipping Board for the purpose of encouraging, developing and creating a naval auxiliary and a naval reserve and a merchant marine to meet the requirements of the commerce of the United States with its territories and possessions, and with foreign countries, to regulate curriers by water engaged in the foreign and inter-State commerce of the United States, and for other purposes; Act of March 3 1917, Section 400. "An Act to provide increased revenue to defray the expenses of the increased appropriations for the Army and Navy, and the extension of fortifications, and for other purposes" (see certificates of indebtedness above), and the Public Resolution of

March 4 1917, entitled: "Joint resolution to expedite the delivery of materials, equipment and munitions and to secure more expeditious construction of ships."

March 4 1917, entitled; "Joint resolution to expedite the delivery of materials, equipment and munitions and to secure more expeditious construction of ships."

LIBERTY LOAN OF 1917, FIRST.—(Column 1). Authorized by Act of April 24 1917, entitled "An Act to authorize an issue of londs to most expenditures for the others are considered by the consideration of the column of the c

9 35,850 appear as Second Liberty Loan converted 4½s.

With the issue of the Second Liberty 4s, dated Nov. 15 1917, a conversion privilege arose with respect to the First Liberty 3½s which continued until May 15 1918. The bonds issued upon conversion retained the date of maturity, the terms of redemption, and the dates of interest payment of the 3½s, but otherwise had the terms of the Second Liberty 4s. When the Third Liberty 4½s were issued on May 9 1918, the holders of the unconverted First Liberty 3½s had the privilege of conversion into the new 4½s and so did the holders of First Liberty converted 4s and of Second Liberty 4s. The privilege continued for six months or until Nov. 9 1918. The Third Liberty 4½s are non-convertible, and hence the 4½% bonds issued upon conversion of prior issues likewise are non-convertible. With the issuance of the Fourth Liberty Loan on Oct. 24 1918, a new privilege of exchange accrued to the holders of the unconverted First Liberty 3½s; this privilege remained open until April 24 1919. By Sec. 5 of the Victory Liberty Loan Act of March 3 1919, authority was conferred upon the Secretary of the Treasury to extend the privilege of converting the 4% bonds of 1932-47 of the First Liberty Loan converted and the 4% bonds of 1927-42 of the Second Liberty Loan into 4½% bonds. Accordingly, by circular dated Mar. 7 1919, and published in the "Chronicle" of March 15 1919, page 1021, the Secretary offered a new privilege of conversion to the holders of the bonds mentioned. This privilege is now open, but may be terminated at any time upon six months' public notice. The privilege does not apply to the unconverted 3½s of the First Liberty Loan.

of the bonds mentioned. This privilege is now open, but may be terminated at any time upon six months' public notice. The privilege does not apply to the unconverted 3½5 of the First Liberty Loan.

LIBERTY LOAN OF 1918, THIRD (Column 3).—Authorized by Act of April 4 1918, amending the Act of Sept. 24 1917. Following the general lines of the Act which it amends, it authorizes the issuance of not exceeding \$12,000,000,000 bonds, bearing not exceeding 4½ % interest, in addition of the Act which it amends, it authorizes the issuance of not exceeding \$12,000,000,000 bonds, bearing not exceeding 4½ % interest, in addition of the Act which it amends, it authorizes the issuance of not exceeding \$12,000,000,000 bonds on the Act which it amends in the Act which it amends are also and the Act which it amends are also and the Act which it amends are also and the Act of April 24 1917, or upon conversion of the Exceeding and the Act approved April 24 1917, or upon conversion of four per centum bonds issued under the Act approved April 24 1917, or upon conversion of four per centum bonds issued upon conversion of such three and one half per centum bonds, shall not be entitled to any privilege of conversion under or pursuant to this section or otherwise. Under Section 7 it is provided that none of the bonds shall bear the circulation privilege. The bonds are non-convertible and not subject to call for redemption before maturity, but are exempt from taxation as indicated above under Second Liberty Loan and receivable for Federal inheritance taxes.

The Act is a section 7 to a section 7 to 100,000 and registered bonds for \$50 in addition to the same denominations as the First Liberty Loan reserving the right to allot additional bonds to the extent of full amount of any oversubscription. Subscriptions totaled \$4,176,516,850, or \$1,176,516,850 more than the minimum sought, and all were allotted. Total number of subscription subscription to a springial and interest from any and all taxes and the second Liberty Loan Act. Section 3 p

(1) The interest contains of bonds of the Fourth Liberty Loan, the principal of which does not exceed \$30,000, owned by any nonvigual, partnership, association, or corporation, shall be exempt from graduated additional income for profits of individuals, partnership, associations, or corporation, and any appropriate taxes, now or hereafter imposed by the United States, upon the income or profits of individuals, partnership, associations, or corporation, and the Third Liberty Loan converted, dated either Nov. 15 1917 or May 9 1918, the Second Liberty Loan, converted and unconverted, and the Third Liberty Loan, the principal of which does not exceed \$45,000 in the aggregate, owned by any individual, partnership, association, or corporation, shall be exempt from such taxes: Provided, however, That no owner does not half times the principal amount of bonds of the Fourth Liberty Loan originally subscribed for by such owner and still owned by him at the date of his tax return; and mount of bonds, the principal of which does not exceed \$30,000,000, owned by any individual, partnership, association, or corporation, issued upon conversion of \$3\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\frac{1}{2}\fr

does not exceed \$30,000 in the aggregate, owned by any individual, partnership, association, or corporation, shall be exempt from graduated additional income taxes, commonly known as surtaxes, and excess profits and war profits taxes, now or hereafter imposed by the United States upon the income or profits of individuals, partnerships, associations or corporations.

(b) In addition to the exemption provided in subdivision (a), and in addition to the other exemptions therein referred to, the interest received on and after Jan. 1 1919 on an amount of the bonds therein specified the principal of which does not exceed \$20,000 in the aggregate, owned by any individual, partnership, association, or corporation, shall be exempt from the taxes therein specified: Provided, That no owner of such bonds shall be entitled to such exemption in respect to the interest on an aggregate principal amount of such bonds exceeding three times the principal amount of notes of the Victory Liberty Loan originally subscribed for by such owner and still owned by him at the date of his tax raturn.

Note.—Reference to the statutes governing older issues of bonds and of War Savings and Thrift Stamps will be found in the issue of the "State and City" Section for December 21 1918.

In April 1895 we gave a table showing the debt of the United States on the first day of July 1856, and every subsequent. On this occasion we begin our statement with 1878, as that year antedates all of the issues now outstanding. The tatement is subjoined.

Approximate.
Note.—No Victory Liberty Loan bonds yet issued, but subscriptions reached \$5,249,908,300. 4 Continued at 31/8... f Continued at 33/8...
Note 1.—The annual interest charge is computed upon the amount of outstanding principal at the close of the fiscal year, and is exclusive of interest charge on Pacific Railway bonds, but is incorrectly swelled to a small extent by interest on Thrift Stamps which are not separately stated.
Note 2.—The figures for July 1 1879 were made up assuming pending funding operations to have been completed.
\*Note 3.—Under the Act of March 14 1900 the Tecasury Department has kept the gold reserve fund as a separate item, and not included it in the available cash balance. In the above statement, however, we have continued to include the item so as not to embarrass comparison with previous years.

a Under the new form of statement issued by the Treasury Department the gold reserve (\$152,979,025 63 on June 30) is deducted from the total of United States notes outstanding, decreasing to that extent the debt bearing no interest and consequently making a similar reduction in the balance of cash available to pay maturing obligations
b Feb. 1.

DEBT LIMITATIONS.—STATE.—The debt of the State is now limited by Secs. 14 and 17, Article 9, of the State constitution. Sec. 17 and the words italicized below in Section 14 were added by an amendment adopted in Sept. 1912. V. 95, p. 768.

in Sept. 1912. V. 95, p. 766.

SECTION 14. The credit of the State shall not be direct y or indirectly loaned in any case. The Legislature shall not create any debt or debts, liability or liabilities, on behalf of the State, which shall singly or in the aggregate, with previous debts and liabilities hereafter incurred, at any one time exceed \$300,000 except for the purposes of building and maintaining of State highways, to suppress insurrection, to repel invasion, or for purposes of war; but this amendment shall not be construed to refer to any money that has been, or may be, deposited with this State by the Government of the United States, or to any fund which the State shall hold in trust for any Indian tribe.

SECTION 17. The Legislature may authorize the issuing of bonds not exceeding two million dollars in amount at any one time, payable within forty-one years, at a rate of interest not exceeding four per centum per neum, payable semi-annually, which bonds or their proceeds shall be devoted solely to the building and maintaining of State highways; provided, however, that bonds issued and outstanding under the authority of this section shall never, in the aggregate, exceed two million dollars; the

expenditure of said money to be divided equitably among the several counties of the State.

expenditure of said money to be divided equitably among the several counties of the State.

MUNICIPAL.—At an election held Sept. 11, 1911 the voters'adopted an amendment to Article XXII. of the constitution increasing the debt limit of cities of 40,000 or more (which concerns Portland alone) from 5% to 7½% of the assessed valuation. We print Article XXII. below, italicizing the part added and placing in brackets the words eliminated.

Article XXII. Limitation of Municipal Indebtedness. No city or town having less than forly thousand inhabitants, according to the last Census taken by the United States, shall hereafter create any debt or liabilities, shall exceed five per centum of the last regular valuation of said city or town, provided, however, that cities having a population of forty thousand or more, according to the last Census taken by the United States, may create a debt or "Hability which, singly or in the aggregate, with previous debts or liabilities, shall equal seven and one-half per centum of the last regular valuation of said city, that cities of forty thousand inhabitants or over may, by a vote of their city government, increase the present rate of five per centum by one-fourth of one per centum in any one municipal year, until, in not less than ten years, the maximum rate of seven and one-half per ventum is reached, that any city failing to take the increase in any one municipal year, then the increase for that year is lost and no increase can be made until the next year, as provided above: and provided, further, that the adoption of this Article shall not be construed as applying to any fund received in trust by the said city or town, nor to any loan for the purpose of renewing existing loans or for war; or to temporary loans to be paid out of money raised by taxation during the year in which they were [are] made.

EXEMPT FROM TAXATION.—The Legislature of 1909 approved an Act exempting from taxation all bonds issued after Feb. 1 1909 by the State or any county municipality, village, corporation

ower districts as well as water districts. See V. 108, p. 2257, for amended Act in full.

SAVINGS BANKS' INVESTMENTS—POWERS AND RESTRICTIONS,—The provisions regulating the investments and loans of savings banks and institutions for savings in the State of Maine are contained in Sections 27 to 35, inclusive, of Chapter 52 of the Revised Statutes of 1916. At the 1917 session several amendments were adopted by the Legislature. Section 1, paragraph "a" was changed so as to provide for the investment in bonds issued by Federal farm loan banks. Paragraph "b" of sub-division 3 was amended to allow investments in underlying mortgage bonds, other than first mortgage bonds, and consolidated and refunding mortgage bonds of any completed railroads organized under the laws of any State of the United States. Paragraph "c" of sub-division 3 of the old law was stricken out and in place thereof a new paragraph added, prescribing the conditions under which investments provided for in paragraph "b" can be made. The word "street," formerly contained in paragraph "e," has been eliminated and the word "electric" inserted. The provisions of paragraph "F" relating to investments in (street) electric railroad bonds were completely changed. Two new paragraphs were added to sub-section 3, to be known as paragraphs "i" and "j," permitting savings banks in Maine to invest in first mortgage bonds of any public service corporation located wholly or in part in the States, other than Maine, and engaged in the business of producing and distributing electric light and power, and also in the first mortgage bonds of any public service corporation combining business of an electric railroad, light and power company. In 1919 (by Chapter 50, P. L. 1919) an addition was made to Section 27 under which permission is given to invest 10% of the assets in bankers' acceptances and bills of exchange under certain restrictions and limitations. The full text of the law as it now, with the addition to Sec. 27 made in 1919 reads as follows:

SECTION 27. Savings b

under certain restrictions and limitations. The full text of the law as it now, with the addition to Sec. 27 made in 1919 reads as follows:

SECTION 27. Savings banks and institutions for savings are restricted to and hereafter may invest their deposits as follows:

First. a. In the public funds of the United States and District of Columbia, and in the bonds issued by any farm loan bank organized under authority of the United States Government.

b. In the public funds of any of the New England States and of the States of New York, Pennsylvania, Maryland, Ohlo, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kanses, Nebraska, California, Oregon and Washington.

Second, a. In the bonds of the counties, cities and towns of any of the New England States.

b. In the bonds of cities and districts in the States of New York, Pennsylvania, Maryland, Ohlo, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas, Nebraska, California, Oregon and Washington, having a population of seventy-five thousand or more, when issued for municipal purposes, and which are a direct obligation on all the taxable property therein.

c. In the bonds of counties of twenty thousand inhabitants or more in the States of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas, Nebraska, California. Oregon and Washington, when issued for municipal purposes, and which are a direct obligation on all the taxable property therein, except when issued in aid of railroads, provided, that the net municipal indebtedness of such county does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes.

d. In the bonds of any city of ten thousand inhabitants or more in the States of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri. Kansas, Nebraskas of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin,

braska, California, Oregon and Washington, when issued for municipal purposes, and which are a direct obligation on all the taxable property therein except when issued in aid of railroads, provided that the net municipal indebtedness of such city does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes.

s. In the refunding bonds of counties and cities above enumerated issued to take up at maturity bonds which were legal and constitutional when issued, provided that the interest has been fully paid on such original bonds for at least five years last prior to such refunding; provided, further, that such counties and cities can otherwise meet the foregoing conditions.

f. In the bonds and obligations of school district boards, boards of education and other corporate bodies within such cities, authorized to issue bonds payable primarily from taxes levied on all the taxable property in said district; provided that the population of the district is ten thousand or more, and the population and assessed valuation of the district are equal to at least 90% of the population and the assessed valuation of the city within which such district is located; provided, further, that the net municipal indebtedness of such district does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes

f. In the bonds or obligations of any municipal or quasi-municipal corporation of this State, when such securities are a direct obligation on all the taxable property of said corporation

Third, a. In the railroad bonds of this State.

orporation of this State, when such securities are a direct obligation on all the taxable property of said corporation

Third, a. In the railroad bonds of this State.
b: In the first mortgage bonds of any completed railroads of the States of New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas and Nebraska, and in the underlying mortgage bonds other than first mortgage bonds and the consolidated mortgage bonds and refunding mortgage bonds of any completed railroads organized under the laws of any State of the United States and located within the United States, and in the first mortgage bonds of any completed railroads of any other State of the United States: provided, however, that such underlying, consolidated and refunding mortgage bonds and such first mortgage bonds of railroads other than those of said named States shall be secured by liens upon a completed railroad of standard gauge and of not less than one hundred miles in length exclusive of sidings and shall be of any of the several classes established by paragraph c.
c: First mortgage bonds, provided, that the net earnings for each of the three fiscal years next preceding the time of making the investment shall have been not less than one and three-fourths times, and the gross operating revenues shall have been not less than first mortgage or mortgages securing any issue or issues of such underlying bonds is or are prior to and to be refunded by a mortgage which tis destined to refund and that such refunding mortgage is a first mortgage upon that part of the mileage covered by it which is in excess of, and distinct from, the mileage covered by all prior mortgages is a first mortgage upon that part of the mileage covered by it which is in excess of and distinct from the mileage covered by it which is in excess of and distinct from the mileage covered by it which is in excess of and distinct from the mileage

vestment for savings banks.]

e: Electric railroad companies are not railroad companies within the meaning of the foregoing clauses of this section.

f, (1): In the bonds of electric railroads constructed in this State prior to the twenty-seventh day of April, eighteen hundred and ninety-five, and in bonds of electric railroads in this State constructed after said date; provided, an amount of capital stock equal to 33 1-3% of the mortgage debt shall have been paid in, in cash, and expended upon the road evidenced by a certificate of the Public Utilities Commission or of the Bank Commissioner of this State, filed in the office of the Secretary of State, that said percentage has been paid in and expended upon the road in addition to the amount of the bonded debt; provided, further that in lieu of the foregoing certificate such bonds may be certified as legal for the purpose hereof on satisfactory proof to the Bank Commissioner that annual dividends in amount equal to 5% per annum on an amount of capital stock equal to one-third of the bonded debt has been earned and paid for a period of five years next prior thereto.

f, (2): In the first mortgage bonds of any completed electric railroad

on satisfactory proof to the Bank Commissioner that annual dividends in amount equal to 5% per annum on an amount of capital stock equal to one-third of the bonded debt has been earned and paid for a period of five years next prior thereto.

f. (2): In the first mortgage bonds of any completed electric railroad which is located wholly or partly in the States of New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missori, Kansas, Nebraska, California, Colorado, Delaware, North Dakota, South Dakota, West Virginia, Idaho, Montana, Gregon, Oklahoma and Washington; provided, that all certificates hereinafter issued making such bonds legal for investments by savings banks shall show that in addition to the provisions specified in the for a period of three years next prior to making such bonds legal for investments by savings banks shall show that in addition to the provisions specified in the for a period of three years next prior to making such bonds legal shall have been not less than one and one-half times interest charges on the bonds outstanding secured by such mortgage and all prior liens, evidenced by a certificate of the Bank Commissioner of this State filed in the office of the Secretary of State of this State; and the Bank Commissioner for making investigation upon any application filed under the provisions of this paragraph shall charge a reasonable fee for services and expenses attendant thereon, including the payment of experts, and in no case shall such fee best than twenty-five dollars, the same to be paid by the railroad company seeking to make its bonds a legal investment under this paragraph, whether the appropriation for the banking department, to be expended by added to the appropriation for the banking department, to be expended by added to Commissioner under the authority and with the approval of the Governor and Council. No bonds secured by an open mortgage shall

interest and guaranteed dividends paid by or due from it. Satisfactory proof of such gross and net earnings must be furnished to the Bank Commissioner and certified by him the the manner provided in paragraph "f" for electric railroads, before the bonds shall become a legal investment.

J. In the first mortgage bonds of any public service corporation, combining business of an electric railroad, light and power company and an artificial gas company, or any two of them, which otherwise complies with the provisions specified in paragraphs "f" and "g" and "i;" provided the average gross income of such corporation for the three years next preceding shall have been at least three hundred thousand dollars per annum.

Fourth. In the mortgage honds of any water company in the New England

Fourth. In the mortgage bonds of any water company in the New England States actually engaged in supplying any city or cities, town or towns, village or villages, or other municipal corporations, with water for domestic use and for the extinguishment of fires, whenever such company is earning more than its fixed charges and interest on its debts and its running expenses.

for the extinguishment of fires, whenever such company is earning more than its fixed charges and interest on its debts and its running expenses. 

\*\*Pitth\*\*. In bonds of any corporation other than railroads and water companies incorporated under the authority of this State and actually conducting in this State the business for which such corporation was created, which is earning an amount in excess of fixed charges, interest on its debts and running expenses equivalent to 5% per annum on an amount of capital stock equal to one-half of its entire funded debt.

\*\*Sixth\*\*. a.\* In the stock of any bank or banking association incorporated under the authority of the State.

\*\*D.\* In the stock of any bank or banking association incorporated under the authority of the United States, if located within the New England States.

\*\*C.\* In stock of any RR.\* company of this State unencumbered by mortgage.

\*\*d.\* In the bonds, stock or notes of any railroad in New England which has earned and paid an annual dividend equivalent to five per cent on a capital stock equal to one-third of its funded debt for a period of ten years next prior thereto, and in the stock or notes of the New York Central & Hudson River, the Illinois Central, the Lake Shore & Michigan Southern and the Pennsylvania Railroad companies.

\*\*e.\* In the stock of any railroad leased to any dividend-paying railroad in New England upon terms guaranteeing the payment of a regular state-dividend upon the stock of such leased road and the interest on its bonds.

\*\*f.\* In the stock of any corporation, other than railroad and water companies, incorporated under authority of this State and actually conducting in this State the business for which such corporation was created, which earns and is paying a regular dividend of not less than 5% a year; and any savings bank or institution for savings owning stock of any such corporation that has earned and paid regular dividend of not less than 5% a year; and any savings bank or institution for savings owning stock of any suc

Seventh. a. In loans secured by first mortgages of real estate in this State and New Hampshire to an amount not exceeding 60% of the value of such

and New Hampshire to an amount not exceeding 60% of the value of such real estate.

b. In notes with a pledge as collateral of any funds, bonds, notes or stocks which the bank or institution would, by this section, be authorized to purchase, provided the market value of said collateral is equal to the amount of the loan.

c. In notes with a pledge as collateral of any savings bank deposit book issued by any savings bank in this State.

d. In notes with a pledge as collateral of such funds, bonds, notes or stocks as in the judgment of the trustees it is safe and for the interest of the bank to accept to an amount not exceeding 75% of the market value of such funds, bonds, notes or stocks.

e. In loans to any municipal corporation in this State.

f. In loans secured by a mortgage of such personal property as in the judgment of the trustees it is safe and for the interest of the bank to accept.

g. In loans to any corporation owning real estate in this State and actually conducting in this State the business for which such corporation was created.

Eighth.—Savings banks and institutions for savings may acquire and

conducting in this State the business for which such corporation was created.

Eighth.—Savings banks and institutions for savings may acquire and hold stocks, bonds and other securities not authorized by law, hereafter acquired in settlements and reorganizations and accepted to reduce and avoid loss on defaulted loans and investments held by said banks and institutions, and may continue to hold such stocks, bonds and other securities heretofore so acquired, and shall not be obliged to sell or dispose of the same except at such times and in such manner as will prevent unnecessary loss or embarrassment to the business of the bank or institution.

The addition made to Sec. 27 by the 1919 Legislature (Chapter 50, P. L. 1919) so as to authorize investments in bankers acceptances and bills of exchange reads as follows:

AN ACT additional to Section 27 of Chapter 52 of the Revised Statutes Permitting Savings Banks and Institutions for Savings to Invest in Certain Kinds of Acceptances.

Be it enacted by the People of the State of Maine as follows:

Section 1. Savings banks and institutions for savings may invest their deposits as follows:

(a) Bankers acceptances and bills of exchange of the kind and manufites

Certain Kinds of Acceptances.

Be it enacted by the People of the State of Maine as follows:

Section - Susings banks and institutions for savings may invest their depth of the State of Maine as follows:

Section - Susings banks and institutions for savings may invest their depth of the State of the State of the Kind and maturities made eligible by law for rediscount with Federal Reserve banks, provided the same are accepted by a trust and banking company, incorporated under the laws of this State, or a member of the Federal Reserve system located in any of the New England States or the State of New York.

(b) Bills of exchange drawn by the seller on the purchaser of goods sold and accepted by such purchaser of the kind and maturities made eligible by law for rediscount with Federal Reserve banks, provided the same are endorsed by a trust and banking company incorporated under the laws of this State, or a member of the Federal Reserve banks, provided the same are endorsed by a trust and banking company incorporated under the laws of the New England States or the State of New York.

Sect. 2. Not more than ten per centum of the assets of any savings bank or institution for savings shall be invested in such acceptances. The aggregate amount of the liability of any trust and banking company or of an antional bank to any savings bank or institution for savings, shall not exceed twenty per centum of the pald-up capital and surplus of such trust and banking company or national bank, and not more than five per centum of the assets of any savings bank or institution for savings shall be invested in the acceptances of a trust and banking company or of a national bank of which a trustee of such savings bank or institution for savings shall be invested in the acceptances of a trust and banking company or of an antional bank of which at rustee of such savings bank or institution for savings bank or

tion, or willfully conceals any material fact connected therewith, shall be punished by a fine not exceeding five hundred dollars or imprisonment not exceeding two years, or by both such fine and imprisonment.

exceeding two years, or by both such fine and imprisonment.

SECTION 30. Any such bank or institution may hold real estate in the city or town in which such bank or institution is located to an amount not exceeding 5% of its deposits or to an amount not exceeding its reserve fund.

SECTION 31. No such bank or institution shall hold by way of investment, or as security for loans, or both, more than one-fifth of the capital stock of any corporation, nor invest more than 10% of its deposits, in the capital stock or notes of any corporation, nor have more than 50% of its deposits in mortgages of real estate. This section and the two preceding do not apply to real estate, or other assets, acquired by the foreclosure of a mortgage thereon, or upon judgment for debts, or in settlements to secure debts, nor to bonds enumerated in the first five sub-divisions of Section 27 of this chapter.

SECTION 32. Nothing in this chapter affects the legality of investments

sub-divisions of Section 27 of this chapter.

SECTION 32. Nothing in this chapter affects the legality of investments made, of transactions had, or the payment of interest at a rate not exceeding 6% on deposits made, prior to the dividend next following March 11 1877. And all investments authorized by any law in force when such investments were made, or transactions had, are valid, and this chapter does not require the change of investments for these hereinbefore named, except as same can be done gradually by the sale or redemption of securities so invested in, in such manner as to prevent loss or embarrassment in the business of such corporation or unnecessary loss or injury to the borrowers on such securities. Any investment in securities not named in Section 27 is a misdemeanor, on the part of the trustees authorizing, or officers making, the same; and such trustees and officers are subject to the prosecutions and punishments prescribed by law for that offense.

SECTION 33. Savings hanks and institutions for savings may deposit on

SECTION 33. Savings banks and institutions for savings may deposit on call in banks or banking associations incorporated under the authority of this State, or the laws of the United States, and receive interest for the same, and may deposit, subject to the approval of the bank commissioner, with such banks or banking associations, any securities received as collateral for time loans made to any person or corporation without the State.

time loans made to any person or corporation without the State.

SECTION 34. Savings banks and institutions for savings may, by vote of the trustees of such corporation, when, in the judgment of such trustees such action is necessary to pay depositors and to prevent loss by sales of assets, borrow money within or without the State and pledge bonds, notes or other securities as collateral therefor. The trustees of such corporation shall cause a copy of said vote to be sent forthwith to the Bank Commissioner, and shall also notify him of any action taken thereunder.

SECTION 35. The trustees shall see to the proper investment of deposits and funds of the corporation in the manner hereinbefore prescribed. No loan shall be made directly or indirectly to any officer of the corporation or to any firm of which such officer is a member.

DEBT. RESOURCES, &c.

Admitted as a State	One of Original Thirteen
Total Area of State (square i	miles)9,305
State Capital	Concord
Governor (term exp. 1st We	d. Jan. 1921) John H. Bartlett
Secretary of State (chosen by	Legislature)Edw. C. Bean
Treasurer (term expires Jan	. 1921)J. W. Plummer
	Oscar L. Young
LEGISLATURE meets biennially	in odd years on the first Wednesday in

January, and length of session is not limited.

HISTORY OF DEBT.—New Hampshire's debt history is very brief. This State has always been extremely conservative, and no bonds were issued until after the breaking out of the Civil War. In 1866 New Hampshire reported her funded indebtedness at \$4,169,816, contracted exclusively for war purposes. June 1 1869 the total outstanding was \$3,213,962.22, against which the Treasurer reported an asset of \$77,082.89. The State debt at the present time is as follows:

LOANS—		-Interest-		Principal	
	Name and Purpose-	3 14	Payable.	When Due.	Outstand'q
	Sanitorium bonds of 1909	3 14	J&J	July 1 1919	\$50,000
	Highway bonds of 1911	3 34	J & J	July 1 '19-21	125,000
	do do of 1912	3333	J&J	July 1 '21-'24	250,000
	Hospital, 1905	315	J&J	July 1 '19-25	70,000
	do 1907	3 14	J&J	July 1 1927	150,000
	do 1909	3 1/2	J&J	July 1 1929	85,000
	War loan bonds, 1918c	416	J & J	July 1 '30-'36	500,000
	Loan of 1873 (overdue)				500
	Trust funds				1.167.872

PAR VALUE OF BONDS.—The bonds are in \$500 and \$1,000 pieces

INTEREST is payable at the National Shawmut Bank of Boston and at ate Treasurer's office.

TAX-EXEMPT.—All issues are exempt when held by savings banks and citizens of New Hampshire.

TOTAL DEBT.—The net debt on Sept. 1 1918 was \$1,541,351 43. The subjoined statement shows New Hampshire's total debt on the dates named. Assets Sept. 1 1918 were \$857,121 11.

1911 263,074,386		

The preceding values are simply the aggregate of the inventories of the various towns in the State. In addition, the State taxes at different rates savings banks and trust companies, insurance capital, railroads, building and loan associations, telegraph and telephone companies, parior car and express companies. These, less exemptions allowed by statute, in 1918 amount to \$140.363.750.

Chapter 169, Laws of 1911, creates a permanent tax commission, one of whose duties it is to equalize valuations in the year 1912 and every second year thereafter, so that the same shall represent the "true and market value" of property. This will account for the great increase in valuations in 1912, not only for the State itself, but for the various civil divisions, as shown by the returns of the different municipalities on this and following pages.

POPULATION OF STATE—

or whose dutes to its of equality valuations in the year 1912 and every second year thereafter, so that the same shall represent the "true and market 1912, not only for the State itself, but for the surious civil directions in the year of the different municipalities on this and following pages.

TAXATION OF MUNICIPAL BONDS.—Chap. 55 of the Laws of 1907 provides that any city, town, precinct or village district may exempt from taxation any future issue of its bonds, provided such exemption shall apply only to bonds owned and held by citizens of said city, town, precinct or

village district. State bonds are subject to taxation unless exempted by the terms of the Act under which they are issued.

In 1913 the privilege of exemption was extended by Chapter 51 of the Acts for that year to future bond issues by school districts when held by residents. Another Act of 1913 (Chapter 112) exempts from taxation all the bonds or notes of the State or any of its minor civil divisions bearing not exceeding 5% interest.

SAVINGS BANKS INVESTMENTS—PRIVILEGES AND RESTRICTIONS.—The savings bank investment laws of New Hampshire were completely revised and materially altered in many respects at the Legislative session of 1917. An explanation of the changes made was published by us in the "Chronicle" of May 19 1917, pages 2028 to 2030 inclusive. The full text of the new law as it now stands follows:

Section 1. On and after the passage of this act savings banks and savings departments of banking and trust companies shall make investment of their funds in the following classes of securities only:

Sec. 2. For the purposes of this act a note shall be construed as a written promise of an individual, firm, corporation or voluntary association, signed by the maker, to pay a specified sum of money on demand or at a fixed or determinable future time, but not issued under indenture or deed of trust.

A bond shall be construed as a note issued under indenture or deed of trust.

1. In potes or bonds directly secured by first mortgage on real estate

Sec. 2. For the purposes of the extent anote shall be construed as a written Sec. 2. For the purpose of the corporation or voluntary association, signed promise of the corporation or voluntary association, signed promise of the corporation or voluntary association, signed or determinable future time, but not issued under indenture or deed of trust.

A bond shall be construed as a note issued under indenture or deed of trust.

1. In notes or bonds directly secured by first mortgage on real estate situated within the State of New Hampshire; but no such investment shall be in a loan that exceeding 76% of the deposits shall be so invested.

2. In notes or bonds directly secured by the solinvestment shall be in a loan that exceeding 40% of the deposits shall be so invested. States, which at the time of such investment is improved, occupied and productive; but not exceeding 40% of the deposits shall be so invested, and no such investment shall be in a loan that exceeds 50% of the value of the real estate by which it is secured.

3. In notes or bonds directly secured by first mortgage on timber lands situated within the States of Maine and Vermont; but not exceeding 5% of the deposits shall be so invested, and no such investment shall be in a loan that exceeds 50% of the value of the real estate by which it is secured.

3. In notes or bonds directly secured by first mortgage on timber lands situated within the States of Maine and Vermont; but not exceeding 5% of the deposits shall be so invested by collateral in which the bank is at liberty to invest under paragraphs 1. 2. 3. 4 and 7 of Section 4, of a value of at least 10% in excess of the value of the note. The amount of any one class of securities so taken as collateral, added to that which the bank is at liberty to invest under paragraphs 1. 2. 3. 4 and 7 of Section 4, of a value of at least 10% in excess of the value of the note. The amount of any one class of security; but not exceeding 25% of the deposits shall be so invested.

5. In notes secured by any saving

shall be invested in the bonds of the Dominion of the and cities.

1. In the public funds of the United States, or those for which the faith of the United States is pledged to provide for the payment of the interest and principal.

2. In the authorized bonds and notes of this State, or of any of its municipalities.

of the United States is piedged to provide for the payment of the interest and principal.

2. In the authorized bonds and notes of this State, or of any of its municipalities.

3. In the authorized bonds or notes of any State or territory of the United States; and in the authorized bonds or notes of any city of the States of Maine. Vermont, Massachusetts, Rhode Island, Connecticut, or New York, whose net indebtedness does not exceed 7% of the last preceding valuation of the property therein for taxation; or of any municipality in said States whose net indebtedness does not exceed 5% of such valuation.

4. In the authorized bonds of any municipality of any other of the United States or territories whose net indebtedness does not exceed 5% of the last preceding valuation of the property therein for taxation; and in the authorized bonds of any city of 50,000 inhabitants of any of said States whose net indebtedness does not exceed 7% of the last preceding valuation of the property therein for taxation; and in the authorized bonds of any city of 50,000 inhabitants, or of any school district or other municipal corporation of less than 2,000 inhabitants and any State or territorized the state of the state of the st

### STEAM RAILROAD SECURITIES.

STEAM RAILROAD SECURITIES.

1. In bonds or notes issued or assumed by steam railroad companies and in mortgage bonds of companies controlled by such companies for the refunding of which mortgage bonds of such companies are specifically reserved, provided that in each of the three years next preceding such investment the net income of such companies shall have been either (1) not less than ten million dollars (\$10,000,000) and not less than one and one-half (1½) times the annual interest on the obligations in question and all other obligations of corresponding or prior lien, or (2) not less than two million dollars (\$2,000,000) and not less than one and three-quarters (1¾) times the annual interest on the obligations in question and all other obligations of corresponding or prior lien.

2. In mortgage bonds guaranteed as to principal and interest by such investment the net income of the obligor company shall have been not less than five hundred thousand (\$500,000) and not less than one and one-half (1½) times the annual interest on the obligations in question and all other obligations of corresponding or prior lien.

3. In equipment securities issued or guaranteed as to principal and interest by such companies, provided such securities are issued for not exceeding in par value 85% of the cost of standard equipment and mature in approximately equal annual installments over a period of not exceeding fifteen, years.

4. In the mortgage bonds of terminal or bridge companies guaranteed

3. In equipment securities issued or guaranteed as to principal and concepts by such companies, provided such securities are lessed for not acceptable by the companies, provided such securities are lessed for not acceptable by the companies of the companies.

4. In the mortsgare bonds of terminal or bridge companies guaranteed as to principal and interest, by two or more such companies.

5. In certificates of indebtedness, commonly termed "receiver's certificates," issued by a receiver of any steam railroad under authorization of the court having jurisdiction over such receiver.

6. In the dividend-paying capital stock of steam railroad under authorization of the court having jurisdiction over such receiver.

6. In the dividend-paying capital stock of steam railroad under authorization of the court having jurisdiction over such receiver.

6. In the dividend-paying capital stock of steam railroad under authorization of the court having jurisdiction over such receiver.

6. In the dividend-paying capital stock of steam railroad under authorization on the court of the court of the steam of the stock of the manual interest on the entire funded debt, or (2) not less than two million dollars (\$10,00,00) and not less than twice the annual interest on the entire funded debt, provided that the income of such companies applicable to dividends in at least four of the five years next preceding such investment shall have been not less than the current annual dividend requirements on the class of stock in question and all other classes of stock of prior preference and that such companies in each of the five years next preceding such investment shall be dividend-paying stock of any steam railroad company that is leased to such companies in each of the five years next preceding such investments of the dividend-paying stock of any steam railroad company that is leased to such companies of the refunding of which mortgage bonds issued or assumed by public service companies of the refunding of which mortgage bonds of companies and

such stock has been authorized by a State commission of competent jurisdiction and provided further that not exceeding 10% of the deposits shall be so invested.

NEW HAMPSHIRE COMPANIES.

9. In the bonds or notes of public service and water companies organized under the laws of and located and doing business principally within the State of New Hampshire; provided the net income of such companies in each of the three years next preceding such investment shall have been not less than twice the annual interest on the obligations in question and all other obligations of corresponding or prior lien; and in the dividend-paying capital stock of senior preference of such companies, provided that the income of such companies applicable to dividends in at least four of the five years next preceding such investment shall have been not less than one and one-eighth times the current annual dividend requirements on the class of stock in question, and that such companies in each of the five years next preceding such investment shall have paid dividends at the rate of not less than 4% per annum on the class of stock in question.

TELEPHONE AND TELEGRAPH COMPANIES.

10. In bonds or notes issued or assumed by telephone, telegraph, or telephone and telegraph companies of which the net income in each of the five years next preceding such investment shall have been either (1) not less than ten million dollars (\$1,000,000) and not less than two times the annual interest on the entire funded debt, or (2) not less than two million dollars (\$2,000,000) and not less than two and one-half (2½) times the annual interest on the entire funded debt, but not exceeding 15% of the deposits shall be so invested

11. In the dividend-paying capital stock of senior preference, of telephone, telegraph, or telephone and telegraph companies of which the net income in each of the five years next preceding such investment shall have been enther (1) not less than teen million dollars (\$1,000,000) and not less than two million dollars (\$2,000,000) and not

exceeding 10% of the deposits shall be invested under the provisions of this paragraph.

BONDS OR NOTES.

12. In bonds or notes issued or assumed by companies of which the net income in each of the five years next preceding such investment shall have been either (1) not less than ten million dollars (\$10,000,000) and not less than two times the annual interest on the entire funded debt, or (2) not less than two million dollars (\$2,000,000) and not less than four (4) times the annual interest on the entire funded debt, but not exceeding 15% of the deposits shall be so invested

CAPITAL STOCK.

13. In the dividend-paying capital stock of senior preference, of companies of which the net income in each of the five years next preceding such investment shall have been either (1) not less than ten million dollars (\$10,000,000) and not less than twice the interest on the entire funded debt, or (2) not less than two million dollars (\$2,000,000) and not less than four times the annual interest on the entire funded debt, provided that the income of such companies applicable to dividends in at least four of the five years next preceding such investment shall have been not less than the current dividend requirements of the class of stock in question; or if such companies nave no funded debt then the income applicable to dividends in at least four of the five years next preceding such investment shall have been not less than one and one-fourth (1½) times the current dividend

requirements of the class of stock in question; and that all companies to be eligible under this paragraph in each of the five years next preceding such investment shall have paid dividends at the rate of not less than 4% per annum upon the class of stock in question. Without the written approval of the Board of Bank Commissioners no investments shall be made under the authority of this and the preceding paragraph, and it shall be the duty of said board to furnish to the banks from time to time a list of such securities as are eligible for investment, but not exceeding 10% of the deposits shall be invested under the provisions of this paragraph.

Sec. 5. In the bonds, notes, stock or certificates of interest of any manufacturing company organized and doing business in the New England States that has earned and paid regular dividends on its entire capital stock or certificates for each of the five years next preceding such investment, and whose net indebtedness does not exceed 50% of the amount of its unimpaired capital stock; but not exceeding 10% of the deposits shall be so invested; provided, no bank shall hold more than 25% of the stock of any such company.

ment, and whose net indebtedness does not exceed 50% of the amount of its unimpaired capital stock; but not exceeding 10% of the deposits shall be so invested; provided, no bank shall hold more than 25% of the stock of any such company.

Sec. 6. In the capital stock of any banking or trust company, or special deposits of guaranty savings banks incorporated under the laws of the State of New Hampshire and doing business therein; but the amount of such stock held by any savings bank as an investment and as collateral for loans shall not exceed one-tenth of the total capital stock or special deposits of such banking or trust company or guaranty savings bank, and not exceeding 10% of the deposits shall be so invested.

Sec. 7. In the stock of any national bank or trust company located in the New England States or the State of New York, but not exceeding 10% of the deposits of a savings bank shall be invested in such stock; the amount of stock in any national bank or trust company in this State which may be held by any savings bank as an investment or as collateral security for loans shall not exceed 25% of the capital stock of said national bank or trust company outside of this State which may be held by any savings bank as an investment or as collateral for loans shall not exceed one-tenth of the capital stock of said national bank or trust company.

Sec. 8. In the stock or certificates of interest, of any real estate corporation or association of this State and whose property is occupied and improved and is located in this State, whose capital stock is one hundred thousand dollars or more, provided the total indebtedness of such corporation or association does not exceed one-half of the capital stock actually paid in and remaining unimpaired, and previded such corporation or association does not exceed one-half of the capital stock actually paid in and remaining unimpaired, and previded such corporation or association does not exceed one-half of the capital stock actuality for it to invest in any stocks of paragr

Sec. 12. Section 1 of Chapter 137 and Section 1 of Chapter 149 of the Laws of 1915 and Section 1 of Chapter 114 of the Laws of 1901 and all amendments thereto and all acts and parts of acts inconsistent with this act are hereby repealed and this act shall take effect upon its passage.

act are hereby repealed and this act shall take effect upon its passage.

INVESTMENT OF TRUST FUNDS.—(1895) Chapter 71. Sec. 1.

Trustees and guardlans shall be authorized to invest funds in their hands in the bonds or direct obligations of any county, city, town, school, fire or water district in New England, when the net debt of said municipality does not exceed five per cent of the last assessment of taxes for the purpose of taxation. The term "net debt" shall be construed to denote the indebtedness of any municipality, omitting debt created for supplying the inhabitants with water and deducting the amount of sinking funds available for the payment of the indebtedness of the municipality.

LEGISLATURE had been meeting blennially since 1870 in even years, the first Wednesday in October. On March 4 1913 an amendment was adopted providing for the convening of the Legislature in odd years on the first Wednesday after the first Monday in January. V. 96, p. 810. Length of session is not limited.

of session is not limited.

HISTORY OF DEBT.—For a brief outline of the early history of the Vermont State debt see "State and City Supplement" of April 1895, pages 15 and 16.

The liabilities of the State on June 1 1919 were as follows: Agricultural College fund bonds, due 1932.

School fund bonds, due 1925.

School fund bonds, due 1925.

Huntington fund bonds due 1925.

Public building bonds 1917 4s (M. & N.) May 1 1919-1935.

High and the school of the State on June 1 1919 and 1919 and 1917. School of the school Total liabilities... Cash on hand and in banks June 1 1919.....

Excess of liabilities over assets June 30 1918, as shown by
State Treasurer's books

INTEREST on public building bonds is payable at State Treasurer's
office or Sherman National Bank, New York; on others at the State Treas-

office or Sherman National Bank, New York; on others at the State Treasurery.

At the 1915 session of the Legislature the State Treasurer was authorized to issue on July 1 1915, to the Trustees of the Permanent School Fund, certificates of registered loans of this State to the amount of \$234,900.34 redeemable in 1925 on which the interest must be 4% annually on July 1 to the Trustees of the Permanent School Fund. At the 1919 session of the Legislature the State Treasurer was authorized to issue bonds not to exceed \$1,500,000 in amount, to be known as the Vermont State Loan of 1919, in denomination of \$1,000 each, payable serially in equal amounts, the last payment to be not later than 30 years after date and bearing interest at not to exceed 4½%.

ASSESSED VALUATION AND TAX RATE.—In addition to the valuations below, the State received (1917) \$732,457 81 as taxes on deposits in savings banks, national banks and trust companies which are taxed at the rate of 7-10 of 1%; also the State received \$545.078 90 as taxes on the appraised value of railroad property, such property paying a tax of 114% on valuation.

There was no direct tax for State purposes levied in any of the years from 1903 to 1911, both inclusive. A tax of \$13 per \$1,000, however, consisting of a State shool tax of \$8 and a State highway tax of \$5, was collected and re-distributed to towns on a basis of the number of schools and road mileage, the State, for the sake of equalizing its distribution, acting as agent in the matter. Prior to 1902 this tax was \$10 per \$1,000. The Legislature of 1915 increased the State school tax from \$8 to \$10, but this change did not take effect until the assessment of 1916. In 1912 the Legislature levied a direct tax of 10 cents on the dollar of the grand list (\$10 per \$1,000 of assessed value), one-half payable Nov. 10 1913, and one-half June 10 1914. The 1915 Legislature levided a direct tax of 5 cents on the dollar of the grand list for the year 1916. The 1917 Legislature provided for the levying of a tax of 20 cents on the dollar of the grand list for the years 1917 and 1918. The 1919 Legislature provided for the levying of a tax of 40 cents on the dollar of the grand list for the years 1917 and 1918.

GRAND LIST.—How Constituted.—Section 779 of the General Laws of Vermont 1906 reads: "One per cent of the appraised value of real estate axable to a person shall be added to the list of his personal estate; and the sum so obtained, with the amount of his taxable poll, if any, shall constitute his grand list."

POPULATION OF STATE.—United States Census: 1910.....355,956 | 1870.....330,551 | 1840.....291,945 | 1810.....217,895 | 1900.....343,641 | 1860.....315,098 | 1830.....280,652 | 1800.....154,465 | 1890.....332,422 | 1850.....314,120 | 1820.....235,981 | 1790......85,425 | 1880.....332,286 |

DEBT LIMITATIONS.—There appears to be nothing in the constitution providing for a general limit to the debt-making power of municipalities. Whatever in each case the Legislature authorizes, the city, town, county or other civil division can issue.

In 1917 the Legislature enacted a law, which was approved on April 12 1917 repealing Chapter 157 of the Public Statutes, No. 84 of the Acts of 1908 and No. 126 of the Acts of 1912, in relation to the issuance of municipal bonds, and providing generally for the issuance of such bonds for any purpose if the proper formalities are compiled with. We publish in part the text of the new law herewith; the full text will be found in V. 104, p. 2365 and 2366.

MUNICIPAL BONDS.

and 2366.

MUNICIPAL BONDS.

Section 1. The term "municipal corporation" as used in this Act shall include a city, town, village, town school district, graded school district or other school district and a fire district and a lighting district organized under the laws of the State.

Sec. 2. The term "legislative branch" of a municipal corporation as used in this Act shall mean the mayor and board of aldermen of a city, the board of selectmen of a town, the trustees of a village, the board of school directors of a town school district, the trustees or prudential committee of a fire district.

Sec. 3. When the legislative branch of any municipal corporation at any regular meeting or at a special meeting called for that purpose shall by resolution passed by a vote of two-thirds of all its members determine that the public interest or necessity demands improvements, the cost of which will be too great to be paid out of the ordinary annual income and revenue, it may at any subsequent regular meeting of such legislative branch or at a special meeting called for that purpose, by a vote of two-thirds of all its members, order the submission of the proposition of making such public improvements, and of incurring a bonded debt to pay for the same, to the qualified voters of such municipal corporation at an election to be held for that purpose. The ordinance or warning calling such election shall state the object and purpose for which the indebtedness is proposed to be incurred, estimated cost of the improvements, amount of bonds proposed to be issued therefor and the maximum rate of interest to be paid, and shall fix the place where and the date on which such election shall be held, the hours of opening and closing the polls, the manner of holding said election, the questions to be submitted, and the form of ballot to be used. \* \* \* Sec. 4. The clerk of the municipal corporation shall cause notice of such election once a week for three consecutive weeks on the same day of the week, the last publication to be not less tha

tion. If two-thirds of all the voters voting at said election shall vote to authorize said public improvements and the issuance of bonds to pay for the same, the legislative branch shall be authorize to make said public improvements and to issue bonds as hereinafter provided.

Sec. 5. Elections in municipal corporations under this Act shall be conducted in the same manner as the annual city and town meetings are conducted, and the qualifications of voters at such elections shall be the same as the qualifications of voters at annual city and town meetings.

Sec. 6. All bonds issued under this Act shall be of a denomination not less than \$100 nor more than \$1,000, and shall draw interest at a rate not to exceed 4% per annum, payable semi-annually; said bonds shall be payable serially, the first payment to be deferred not later than from 1 to 5 years after the issuance of the bonds and subsequent payments to be continued annually in substantially equal amounts so that the entire debt will be paid in not more than 20 years from the date of issue.

Sec. 8. The legislative branch of any municipal corporation.

Sec. 8. The legislative branch of any municipal corporation.

Sec. 8. The legislative branch of any municipal corporation.

Sec. 9. The legislative branch of any municipal corporation at any regular meeting, or at a special meeting called for that purpose, shall by ordinance or resolution determine the rate of interest for said bonds, the demomination of said bonds, the time and place of payment, the form of bond to be used, which shall be substantially as hereinafter provided, and whether said bonds shall be rable registered as provided by this Act.

Sec. 9. The legislative branch of said municipal corporation shall annually at the time of assessing the general tax levy, in addition to all other taxes, provide for the collection each year until such bonds are paid of a tax sufficient to pay the interest on such bonds and such part of the principal as shall become due prior to the time the taxes are due in the

Sec. 14. A municipal corporation that has outstanding and unpaid orders, notes, bonds, or coupons, lawfully issued, may issue other negotiable notes or bonds to pay or retire the same.

Sec. 15. Such municipal corporation by its lexislative branch, by resolution or ordinance, shall determine the necessity for issuing refunding bonds, the amount of legal outstanding indebtedness to be refunded, what amount of new notes or bonds shall be issued, at what time and place they shall be payable, the rate of interest thereon and when payable, the form of bond, which shall be substantially in the form provided in this Act, and whether the bonds shall be registered or have interest coupons attached. Such new notes or bonds shall into exceed in amount such outstanding obligations, nor shall they be used or sold except to provide means for paying or retiring said outstanding indebtedness.

Sec. 16. Such bonds shall be signed, sold, made payable, and mature in the same manner as an original issue of bonds of a municipal corporation are signed, sold, made payable, and mature, as provided in this Act.

Sec. 17. The treasurer of the municipal corporation shall keep a record of every note or bond issued under this Act, stating therein the number and denomination of each note or bond, when issued, and the rate of interest hereon, and shall also keep a record of payments of interest or principal, and, if coupons are taken up, shall record the fact and deface the same.

Sec. 18. When old notes or bonds are taken up, as provided in this Act, the treasurer of the municipal corporation shall keep a record of the same, and such old notes and bonds shall be canceled.

Sec. 19. All ordinances or resolutions required by this Act to be enacted by the legislative branch of a municipal corporation shall be duly recorded in the office of the clerk of said municipal corporation.

### REGISTERED OBLIGATIONS.

REGISTERED OBLIGATIONS.

Sec. 20. A municipal corporation, as herein defined, may issue registered bonds, and if an original issue of bonds by such municipal corporation is registered, they shall be registered as hereinafter provided.

Sec. 21. A municipal corporation may, at the written request, duly acknowledged, of the owner or holder of one or more bonds, promissory notes or certificates of indebtedness issued by it and payable to bearer or to a person or corporation named, or bearer, change such bonds, notes or certificates into registered obligations, payable only to the person or corporation whose name is properly endorsed thereon, as hereinafter provided.

Sec. 22. If it shall be determined by a municipal corporation to issue registered bonds, then and in that event the legislative branch of the municipal corporation shall direct the treasurer of such municipal corporation, as the case may be, to endorse upon the back of each of such bonds over his official signature a certificate of registration in substantially the form hereinafter provided, inserting in the appropriate places the date of such registration, the name and address of the registered holder, and his own signature as transfer agent, and thereafter such bond shall be transferable only upon the books of such municipality upon presentation to the treasurer thereof with a written assignment duly acknowledged or proved.

Sec. 23. In case a municipal corporation shall have issued coupon bonds and the owner or holder thereof has requested that said bonds be changed to registered bonds, as herein provided, then upon written request for such change, duly acknowledged, the treasurer of such a municipal corporation shall, if directed by the city council of the city, selectmen of the town, school directors of the town school district, or other corresponding officers of the municipal corporation of which he is such treasurer, as the case may be, cut off and destroy the coupons on the bonds presented for registration and endorse upon the back of each of

obligation.
Sec. 26. The treasurer of every such county or municipal corporation shall keep a register showing the number, date, amount, rate of interest, time when payable, and the name of the registered holder of the bonds, notes, and certificates originally registered or changed to registered obligations.

gations.

Sec. 27. Such conversion shall in no respect or degree weaken or impair the obligation of such municipal corporation to pay such bond, note or certificate so converted.

Sec. 28. Notes, bonds or orders issued as evidences of obligations for money loaned to a county, town, town school district, village or incorporated school or fire district of this State shall be deducted in determining the average amount of deposits and accumulations under the provisions of Section 1, of No. 35 of the Acts of 1910. Bonds or obligations given or created in excess of the limit authorized by this Act and contrary to its provisions shall be void.

Sec. 29. This Act shall not affect rights now allowed any municipal corporation by its charter provisions, nor any rights now or hereafter granted by special Act of the legislature.

EXEMPTION FROM TAXATION.—Subdivision XII. of Section 498 of the Public Statutes of 1906, as amended by Act 23 of the Laws of 1908, provides that the following municipal securities shall be tax-exempt:

XII. Notes, bonds or orders issued after Feb. 1 1907 as evidences of obligations for money loaned to a town, village, incorporated school or fire district, at a rate of interest not exceeding 4% per annum, for the purpose of constructing, purchasing, or repairing water, sewer or lighting systems permanent highways, bridges, walks or public buildings, or for the purpose of refunding a debt contracted for any of the foregoing purposes.

permanent highways, bridges, walks or public buildings, or for the purpose of refunding a debt contracted for any of the foregoing purposes.

SAVINGS BANK INVESTMENTS—PRIVILEGES AND RESTRICTIONS,—Several amendatory Acts to the Laws of Vermont regarding the investments of savings institutions were passed by the Vermont Assembly of 1919. One of these permits investments in Farm Loan bonds issued by Federal Land banks; another authorizes investments in bankers' acceptances and bills of exchange under certain restrictions; another broadens the provisions concerning investments in the bonds of the United Kingdom of Great Britain and Ireland and the bonds of the Republic of France by removing the qualifying clause reading "provided they are secured by collateral deposited in this country and approved by the Bank Commissioner"; still another changes the provision for investment in this latter class of bonds (which are grouped under the designation (h) and for investment in the bonds of the Dominion of Canada and the various Provinces of Canada (which are grouped under the designation (i), so as to enlarge the limitations upon such investments which under the old law were expressed in the words "Banks may invest in bonds described in subdivisions (h) and (i) not to exceed thirty thousand dollars by any one bank, and in addition thereto one per cent of the deposits of such bank in excess of one million dollars, the new words used, and printed below, permitting greatly increased investments; a further amendment adds a provision at the end of subdivision (e) bearing upon the issue of county bonds, which says that bonds issued for building or improving roads shall not be legal unless they are payable serially, the entire issue payable in not to exceed twenty years, the principal and interest payable from a direct tax levied upon all of the taxable property within the county—not alone that, but only such portions of such bond issue are legal as fall due in not more than fifteen years from date of issue; finally, the status

# INVESTMENTS.

SECTION 5363.—Assets, may be invested how and in what, limitations he assets of banks shall be invested as follows:

# FIRST MORTGAGES ON REAL ESTATE.

I. (a) In first mortgages of unincumbered real estate, not to exceed in each case sixty per cent of the value of such real estate, if located in Vermont, and not to exceed fifty per cent of the value of such real estate if located elsewhere. Not less than a sixth of the amount of such mortgages shall be upon real estate in this State, treating mortgages made on lands in an adjoining State within twenty miles of the bank making such loan as Vermont mortgage loans, and not more than eighty per cent of the amount of the assets shall be invested in mortgages of real estate; provided that not exceeding sixty per cent of the amount of such assets may be invested in mortgages of real estate outside this State. An investment shall not be made on mortgages of real estate outside of Vermont which is unimproved and unproductive and the amount of such investments on mortgages in Vermont shall not be more than forty per cent of the value thereof. A bank shall not loan to any person, partnership, association or corporation upon real estate mortgage (treating loans to the individual members of a partnership as loans to the partnership) more than thirty thousand dollars, and in addition thereto one per cent of the deposits of such bank in excess of one million dollars. Provided, however, that upon the approval in writing of all the trustees of the bank who are physically able to act, a bank may increase a loan of thirty thousand dollars on Vermont real estate, as stated in this section, to one and one-half per cent of the deposits in excess of one million dollars. A mortgage investment shall not be made except upon the

written approval of at least three trustees of the board of investment, who shall certify in writing, according to their best judgment, the value of the premises mortgaged or to be mortgaged. At the expiration of every mortgage loan made for a period of five years or more, such loan shall not be extended or renewed unless three members of the board of investment certify in writing the value, in their best judgment, of the mortgaged premises and unless such value meets the requirements above prescribed.

premises and unless such value meets the requirements above prescribed.

(b) When buildings are included in the valuation of real estate upon which an investment is made, they shall be insured by the mortgagor in such company as the trustees or board of investment direct, and the policies of insurance shall be duly assigned or the loss made payable to such bank, and such bank may renew such policies in the same or another company as said trustees or board of investment elect, from year to year, or for a longer or shorter period, if the mortgagor neglects so to do; and, when necessary, the treasurer may sign premium notes, and may charge the amount paid for such insurance to the mortgagor.

paid for such insurance to the mortgager.

(c) When a bank takes an accruing mortgage, the only debt which shall be secured thereby or become a lien upon the property described therein shall be the debt described in the mortgage and existing at the time of its execution, and any subsequent direct indebtedness of the mortgager to such bank; provided, that when the mortgage includes a homestead, the written consent of the wife of the mortgager to the creation of such subsequent direct indebtedness shall be required.

### MUNICIPAL BONDS.

II. (a) In the public funds of the United States or any or the States or the District of Columbia, or in public funds for the payment of principal and interest of which the faith of the United States is pledged.

(b) In the legally authorized bonds or notes of counties, cities, towns, villages, school districts and water districts of the New England States and of any municipal corporation in Vermont having the right to levy and collect taxes in payment of its indebtedness.

any municipal corporation in Vermont having the right to levy and collect taxes in payment of its indebtedness.

(c) In the legally authorized bonds or notes of towns, cities and school districts, having a population according to the last preceding United States or State census of at least one thousand in towns and cities, and five hundred in school districts, and an indebtedness not exceeding five per cent of the last preceding valuation for the assessment of taxes, at the time of the investment in New York, Pennsylvania, Ohlo, Michigan, Illinois, Indiana, Iowa, Wisconsin and Minnesota.

(d) In the legally authorized bonds or notes of towns, cities, and school districts having a population according to the last preceding United States or State census of at least four thousand and an indebtedness not exceeding five per cent of the last preceding valuation for the assessment of taxes at the time of the investment in New Jersey, Kansas, Nebraska, North Dakota, South Dakota, Missouri, Oregon, Washington, California, Delaware, Montana, Wyoming, Idaho, Maryland and Utah;

(e) County Bonds.—In the legally authorized bonds of counties in any of the above mentioned States having a population according to the last preceding United States or State census of at least twenty thousand and an indebtedness not exceeding five per cent of the last preceding valuation for the assessment of taxes, at the time of the investment. To this there was added in 1919 the following: Bonds issued under this subdivision for building or improving roads, shall not be legal unless they are payable seriesly: the entire issue payable in not to exceed twenty years; the principal and interest payable from a direct tax levied upon all of the taxable property within the county, and only such portion of such bond issue shall be legal as will be due and payable in not more than fifteen years from date of issue.

(f) In the legally authorized bonds or notes of a city in any of the States

(f) In the legally authorized bonds or notes of a city in any of the States above named having a population according to the last preceding United States or State census of at last twenty-five thousand and an indebtedness not exceeding five per cent, or a population of fifty thousand and an indebtedness not exceeding seven per cent of the last preceding valuation for the assessment of taxes, at the time of the investment.

(g) In the legally authorized bonds or notes of a city in any of the States above named having a population according to the last preceding United States or State census of at least one hundred thousand;

(h) Foreign Bonds.—In the bonds of the United Kingdom of Great Britain and Ireland, and the bonds of the Republic of France. [As amended in 1919.]

(i) In the bonds of the Dominion of Canada and the various Provinces of

(i) In the bonds of the Dominion of Canada and the various Provinces of Canada.

In subdivisions (c) and (d) the word "indebtedness" shall mean the gross debt less debts created in anticipation of taxes to be paid within one year and the amount of any sluking funds available for the payment of such indebtedness; and in subdivisions (e) and (f) the word "indebtedness" shall mean the gross debt less debts created in anticipation of taxes to be paid within one year, the amount of any sinking funds available for the payment of such indebtedness and debts created for supplying the inhabitants of the municipality with water.

Banks may invest in bonds described in subdivision (h) not to exceed thirty thousand dollars by any one bank, and in addition thereto two per cent of the deposits of such bank in excess of one million dollars; and in bonds described in subdivision (i) not to exceed thirty thousand dollars by any one bank, and in addition thereto five per cent of the deposits of such bank in excess of one million dollars; but nothing hereinbefore contained shall authorize investments in railroad aid bonds, except such as are issued by municipalities in the State of Vermont or in bonds which are not direct obligations of a municipality or in bonds of municipalities which have within twenty years repudiated or compromised the payment of any indebtedness, and the purchase of such securities is hereby prohibited. [As amended in 1919.]

# PUBLIC SERVICE COMPANY BONDS.

PUBLIC SERVICE COMPANY BONDS.

III. For the purposes of this subdivision:

"Company" shall be construed as a corporation or voluntary association organized under the laws of the United States, or any State thereof, located in and doing business principally within the United States:

"A public service company" shall be construed as a company doing principally a gas, electric, light, electric power or electric railway business serving the public generally:

"Mortgaged bonds" shall be construed as bonds secured primarily by direct and foreclosurable lien upon physical property owned by the obligator in fee:

"Years" shall be construed as calendar years; fiscal years or nearer periods of twelve months next preceding such investment;

"Net income" shall be construed as income after deducting operating expenses, taxes, insurance, rentals, guar-nteed interest and guaranteed dividends, and expenditures for maintenance; and

"Annual interest" shall be construed as interest actually paid in each year, except that for the latest year, which shall be construed as one year's interest on the total amount outstanding at the time of the investment. Not exceeding twenty-five per cent of the deposits of a bank shall be invested in securities authorized under this subdivision and not exceeding two and one-half per cent of such deposits shall be invested in the securities of any one company, if such percentage be in excess of five thousand dollars. No investment shall be made in the securities authorized under this subdivision of a company or a public service company which is in default on any of its debt, or in the hands of a receiver.

No investment shall be made in the securities authorized under this subdivision in each of the three years next preceding such investment shall have been not less than one and one-quarter times the annual interest on the entire funded debt, rentals, guaranteed interest, guaranteed dividends and all fixed charges, and for the purpose of this paragraph "net income" shall be construed as income after

gage, or by a lien for the refunding of which bonds which are legal are specifically reserved; and provided that the principal franchise or franchises of such companies extend beyond the maturity of the bonds in question or that such companies operated under indeterminate franchises or permits subject to the regulatory supervision of a State commission of competent jurisdiction, or that in the case of electric railways not less than seventy-five per cent of the mileage owned is located on private right of way owned in fee.

### TELEPHONE COMPANIES' BONDS.

IV. (a) In the bonds of telephone companies located in the United States, when such bonds are in fact secured by a first mortgage or a first and refunding mortgage, whether or not the bonds are so designated in their title:

and refunding mortgage, whether or not the bonds are so designated in their title;

(b) Provided: That gross earnings of any such company shall have been at least one million dollars for each of the last three fiscal years next preceding such investment, and provided further that gross earnings for the fiscal year next preceding such investment shall have been at least forty per cent of the total mortgage debt outstanding at the end of such fiscal year, and

(c) Provided: That net earnings for each of the said last three fiscal years, after deducting all operating expenses, maintenance and depreciation charges, rentals and taxes, shall have been at least two and one-half times the annual interest charge on the entire mortgage debt outstanding at the end of each of the said last three fiscal years next preceding such investment; and provided further that in case additional bonds are issued under the above mentioned mortgages during an incompleted fiscal year, net earnings, as provided above, for the last available twelve months next preceding such investment shall have been at least two and one-half times the interest on all mortgage debt outstanding, including such additional bonds issued.

the interest on all mortgage debt outstanding, including such additional bonds issued.

In the case of the consolidation by a merger of two or more such companies the first mortgage and the first and refunding mortgage bonds of the consolidated company and of the separate companies that composed the consolidated company, when such bonds are secured as provided in subdivision (a), shall be legal investments provided that the combined earnings of the separate companies shall have compiled with the requirements in respect to gross earnings in subdivision (b), and provided that the combined net earnings of the separate companies shall have compiled with the requirements of subdivision (c).

(d) In the bonds of telephone companies located in the United States, when such bonds are secured by the deposit of collateral having a market value of at least twenty-five per cent in excess the par value of such bonds; and

(e) Provided: That gross earnings of any such company shall have been at least forty million dollars for each of the last three fiscal years next preceding such investment; and

(f) Provided: That net earnings for each of the said last three fiscal years, after deducting all operating expenses, maintenance and depreciation charges, rentals and taxes, shall have been at least three times the annual interest charge on the entire funded debt outstanding at the end of each of the last three fiscal years next preceding such investment, and provided further that in case additional bonds are issued during an incompleted fiscal year, net earnings as provided above for the last available twelve months next preceding such investments shall have been at least three times the interest on all funded debt outstanding, including such additional bonds issued.

(g) In the bonds of telephone companies doing a general telephone busi-

months next preceding such investments shall have been as least times the interest on all funded debt outstanding, including such additional bonds issued.

(g) In the bonds of telephone companies doing a general telephone business in this State.

(h) Provided: That gross earnings of any such company shall have been at least fifteen million dollars for each of the last three fiscal years next preceding such investment; and

(l) Provided: That net earnings for each of the said last three fiscal years, after deducting all operating expenses, maintenance and depreciation charges, fentals and taxes, shall have been at least three times the annual interest charge on the entire funded debt outstanding at the end of each of the last three fiscal years next preceding such investment, and provided further that in case additional bonds are issued during an incompleted fiscal year net earnings, as provided above, for the last available twelve months next preceding such investment shall have been at least three times the interest on all funded debt outstanding, including such additional bonds issued.

sued.

(j) Provided: That no investment shall be made in the bonds of any ch company mentioned in this section, which is in default on any of its bt or which is in the hands of a receiver.

But not more than ten per cent of the deposits shall be so invested.

# BONDS OF VERMONT AND NEW ENGLAND RAILROADS.

V. (a) In the notes or bonds of a railroad corporation incorporated under the laws of Vermont, irrespective of the length of such road or the motive power thereof, when issued in accordance with the laws of this State and in compliance with the provisions hereinafter set forth relating to bonds of New England railroads.

state and in compliance with the provisions hereinafter set forth relating to bonds of New England railroads.

(b) In the bonds or assumed bonds of a railroad corporation incorporated in any of the New England States at least one-half of the railroad of whose is located in said States whether such corporation is in possession of and is operating its own road or is leased to another railroad corporation; provided, either that such bonds shall be secured by a first mortgage of the whole or a part of the railroad and railroad property of such corporation, or by a refunding mortgage as described in paragraphs (3) or (4) of sub-division (g) or that if the railroad and railroad property of such corporation are unincumbered by mortgage, such bonds shall be issued under the authority of one of said States, which provides by law that no such railroad corporation which has issued bonds shall subsequently execute a mortgage upon its road, equipment and franchise, or upon any of its real or personal property, without including in and securing by such mortgage all bonds previously issued, and all its pre-existing debts and liabilities, which provision, so enacted in such State, shall have been accepted by the stockholders of such corporation: and provided, that such corporation has paid in dividends in cash an amount equal to not less than 4% per annum on all its outstanding issues of capital stock in each fiscal year for the five years next preceding such investment:

(c) In the first mortgage bonds or assumed first mortgage bonds or in the bonds secured by a refunding mortgage as described in paragraph (3) or (4) of sub-division (g) of a railroad corporation incorporated in any of the New England States the railroad of whose is located wholly or in part therein, which have been guaranteed as to principal and interest by a railroad corporation described in sub-divisions (a) or (b) which is in possession of and is operating its own road;

(d) No bond shall be made a legal investment by sub-division (b) unless the corporatio

# BONDS OF OTHER RAILROADS.

(e) Description of Corporation. In the mortgage bonds, as described in any of the following subdivisions of this clause, of any railroad corporation in-corporated under the laws of any of the United States; Provided, that during each of the ten fiscrl years of such railroad corpora-tion next preceding the date of such investment—

Provided, that during each of the ten hadri years of such railroad corporation next preceding the date of such investment—

(1) Such railroad corporation owned in fee not less than 500 miles of standard-gauge railroad, exclusive of sidings, within the United States, or, if such corporation owned in fee less than 500 miles of such railroad, the gross earnings of such corporation, reckoned as hereinafter provided, shall have been not less than \$15.000.000:

(2) Such railroad corporation shall have paid the matured principal and interest of all its mortgage indebtedness;

(3) Such railroad corporation shall have paid in dividends in cash to its stockholders an amount equal to at least 4% upon all its outstanding capital stock;

(4) The gross earnings from the operation of the property of such railroad corporation, including therein the gross earnings of all railroads leased and operated or controlled and operated by said corporation, and the gross earnings from the saie of coal from mines owned or controlled by it, shall not have been less in amount than five times the amount necessary to pay the interest payable upon its entire outstanding indebtedness, the rentals

of all leased lines and the interest on all the outstanding indebtedness of railroads, controlled and operated, which is not owned by said corporation, after deducting from said interest and rentals interest and dividends received from the stocks, bonds or notes of railroad corporations not operated by such corporation, which have been deposited with a trustee as the only security to secure the payment of bonds or notes issued by such corporation, but not in excess of the interest on such last-named bonds or notes;

And further provided, that—

(5) No bonds shall be made a legal investment by sub-division (g) in case the mortgage securing the same shall authorize a total issue of bonds which, together with all outstanding prior debts of the issuing or assuming corporation, including all bonds not issued that may legally be issued under any of its prior mortgages or of its assumed prior mortgages, after deducting therefrom, in case of a refunding mortgage, the bonds reserved under the provision of said mortgage to retire prior lien debts at maturity, shall exceed three times the outstanding capital stock of said corporation at the date of such investment;

(6) A bond shall not be made a legal investment by subdivision (i) or (j) in case the mortgage securing the same shall authorize a total issue of bonds which, added to the total debt of the guaranteeing corporation as defined in paragraph 5, including therein the authorized amount of all previously guaranteed bond issued is not specifically stated, the amount of bonds shall exceed three times its outstanding capital stock;

In the case of a mortgage executed prior to the twenty-seventh day of January nineteen hundred and eleven, under which the total amount of bonds outstanding thereunder at the date of such investment shall be considered, for the purposes of paragraph 5 and of this paragraph, as the total authorized issue.

(f) Definition of first mortgage. Whenever the term "first mortgage" is used in the following sub-divisions, it shall, unless otherwise q

outstanding thereunder at the date of such investment shall be considered, for the purposes of paragraph 5 and of this paragraph, as the total authorized issue.

(f) Definition of first mortgage. Whenever the term "first mortgage" is used in the following sub-divisions, it shall, unless otherwise qualified, mean, a first mortgage on not less than 75% of the railroad owned in fee at the date of the mortgage by the railroad corporation on the railroad of which such mortgage is a lien, but in no case on less than 100 continuous miles of standard-gauge railroad, exclusive of sidings; provided that:

(1) Seventy-five per cent of the railroad subject to the lien of such mortgage is connected;

(2) For five years prior to the date of investment therein all the railroad subject to the lien of such mortgage at the date of execution thereof has been operated by, and its operations included in, the operations of the railroad corporation which issues, assumes or guarantees such bonds; and

(3) The date of such mortgage is at least five years prior to the date of such investment; except that a first mortgage given in substitution for and not greater in amount than such a first mortgage, and covering the same railroad property, shall be considered to be in accordance with this requirement.

(g) Direct Obligations. In bonds issued or assumed by a railroad corporation described in sub-division (e) which are secured by a mortgage which was at the date thereof, or is at the date of such investment:

(l) A first mortgage on a railroad owned in fee by the corporation issuing or assuming such bonds except that, if it is not a first mortgage on 75% of all such railroad owned in feeby such corporation, it shall be a first mortgage on a tleast 75% of the railroad subject to the lien of such mortgage at the date thereof; but if any stocks or bonds are deposited with the trustee of such mortgage as part security therefor, representing or covering railroad mileage which is subject to the lien of such mortgage and which is represented or

of a neitre issue of issues of bonds which are a first lien upon the railroad of a railroad corporation which is owned and operated, controlled and operated or leased and operated by the corporation issuing or assuming such bonds:

(3) A refunding mortgage which covers at least 75% of the railroad owned in fee by such corporation at the date of such mortgage and provides for the retirement of all outstanding mortgage debts which are a prior lien upon such railroad owned in fee and covered by such refunding mortgage at the date thereof; but if any of the bonds which such refunding mortgage is given to refund are secured on a railroad not owned in fee by the corporation executing such refunding mortgage, there shall be conveyed and assigned to the trustee of such refunding mortgage either—

First. At least 75% of the railroad on which each issue of bonds to be refunded is secured, free from any mortgage lien except that of the mortgage or mortgages securing the bonds to be refunded, or second. At least 75% of the outstanding bonds of each issue which is secured by a mortgage lien upon such railroad; and all of such railroad not owned in fee which is so subjected to the lien of such refunding mortgage shall be the railroad of one or more railroad corporations which are owned and operated, controlled and operated or leased and operated by the corporation issuing or assuming said refunding mortgage bonds; but in no case shall the bonds secured by such refunding mortgage bonds; but in no case shall the bonds secured by such refunding mortgage bonds which such refunding mortgage is given to refund; or (4) A mortgage in accordance with the requirements of this paragraph is at least 25% greater than the mileage covered by any one of the mortgages securing bonds which such refunding mortgage is given to refund; or (4) A mortgage railroad; provided, that:

First. Such mortgage is a first or second lien upon not less than 75% of the total railroad covered by such mortgage by which are a prior lien upon such railroad owned

(1) Said bonds are prior to and are to be refunded by such refunding mortgage;

(2) Said refunding mortgage covers all the real property upon which the mortgage securing said underlying bonds is a lien; and

(3) In the case of bonds so guaranteed or assumed, the corporation issuing said bonds is owned and operated, controlled and operated or leased and operated, by said railroad corporation.

(1) Guaranteed obligations. Bonds which have been guaranteed by endorsement as to both principal and interest by a railroad corporation which has compiled with all the provisions of sub-division (e); provided, that:

(1) Such bonds are secured by a first mortgage on the railroad of a railroad corporation which is owned and operated, controlled and operated or leased and operated by the corporation guaranteelng such bonds.

(2) In the case of a leased railroad, the entire capital stock of which, except shares qualifying directors, is not owned by the lessee, the rental includes an amount to be paid to the stockholders of said leased railroad equal to at least 4% per annum upon that portion of the entire capital stock thereof outstanding which is not owned by the lessee.

(j) Same. In first mortgage bonds of a railroad corporation which during each of its ten fiscal years next preceding the date of such investment has compiled with all the requirements of paragraphs (2), (3) and (4) of sub-division (e), provided that such bonds are guaranteed by endorsement as to both principal and interest by a railroad corporation which has complied with all the requirements of sub-division (e) preceding paragraph (5) thereof, not with standing that the railroad of such issuing corporation is not operated by such guaranteeing corporation.

# CORPORATION NOT TO LOSE CREDIT BY TEMPORARY DISTURBANCE OF RELATION OF GROSS EARNINGS TO FIXED CHARGES.

(k) Bonds which have been or shall become legal investments under any of the provisions of this Act shall not be rendered lilegal, although the corporation issuing, assuming or guaranteeing such bonds shall fall for a period not exceeding two successive fiscal years to comply with the requirements of paragraph (4) of sub-division (e); but no further investment in the ponds issued, assumed or guaranteed by such corporation shall be made

during such period. If, after the expiration of such period, such corporation compiles for the following fiscal year with all the requirements of sub-division (e), it shall be regarded as having compiled therewith during such period.

### BONDS NOT ILLEGAL ON ACCOUNT OF CONSOLIDATION.

BONDS NOT ILLEGAL ON ACCOUNT OF CONSOLIDATION.

(1) Bonds which have been or shall become legal investments under anof the provisions of this Act shall not be rendered illegal, although the property upon which they are secured has been or shall be conveyed to or legally acquired by another railroad corporation, and although the corporation which issued or assumed such bonds has been or shall be consolidated with another railroad corporation, if the consolidated or purchasing corporation shall assume the "ayment of such bonds, and so long as it shall continue to pay regularly interest or dividends, or both, upon the securities issued against, in exchange for, or to acquire the stock of, the corporation consolidated, or the property purchased, or upon securities subsequently issued in exchange or substitution therefor, to an amount at least equal to 4% per annum upon the capital stock outstanding at the time of such consolidation or purchase of such corporation which 'ssued or assumed such bonds.

### CREDIT OF CORPORATION NOT LOST BY CONSOLIDATION.

CREDIT OF CORPORATION NOT LOST BY CONSOLIDATION.

(m) If a railroad corporation which has compiled with all the requirements of sub-division (e) preceding paragraph (5) thereof, except that the period of compilance is less than ten, but not less than five successive years,) shall be or shall have been, thereupon consolidated or merged with, or its railroad purchased and all of the debts of such corporation assumed by, another railroad corporation incorporated under the laws of any of the United States, such corporation so succeeding shall be considered as having compiled with all the provisions of sub-division (e) preceding paragraph (5) during those successive years next preceding the date of such consolidation, merger or purchase, in which all such consolidated, merged or purchased corporations, if considered as one continuous corporation in ownership and possession, would have so compiled; provided, that such succeeding corporation shall continue so to comply for a further period which shall make such compliance equivalent to at least ten successive years, but which shall be in no case less than the two fiscal years next following such consolidation, merger or purchase.

# STATUS FIXED DURING FEDERAL OPERATION OF RAILROADS [Added in 1919.]

(n) Railroad bonds which were legal investments for savings banks at the time when the Government of the United States; under the Act of Congress, approved Mar. 21 1918, took over the operation of the railroads issuing such bonds, shall not become illegal investments by reason of the operation of the railroads by the Federal Government. The time during which any such railroad is operated by the Federal Government shall be excluded, including the year in which the Government operation ends, in determining the compliance of any such railroad with the provisions of this section; provided, however, that in case a railroad corporation the mortgage bonds of which would become legal for investment under subdivision (e) of part V of this section upon its compliance with the requirements of said subdivision during the ten years or more next preceding Jan. 1 1918, such railroad corporation shall be deemed to have compiled with the requirements of said subdivision during the period of the Government operation ends, in computing the time of compliance with the requirements of said subdivision during the year in which such Government operation ends, in computing the time of compliance with the requirements of said subdivision.

### BANK STOCKS AND DEPOSITS IN BANKS.

VI. (a) In the stock of any national bank in the New England States and the State of New York; in the stock of any banking association or trust company incorporated under the authority of and located in this State; but no bank shall hold bank stock both by way of investment and as security for loans in excess of 10% of its deposits, nor, in any one bank, more than 5% of its deposits, or more than 35,000, or more than 10% of the capital stock of any one bank.

the capital stock of any one bank.

(b) A bank may deposit on call in banking associations or trust companies, approved by the Bank Commissioner of this State, and under the supervision of the State or Federal authority, in this State or in the cities of New York, Boston, Chicago, Albany, Philadelphia or Concord, New Hampshire, or in any other bank designated as a depository under the laws of the United States or in national banks in the cities of St. Paul, Minneapolis and Kansas City, with or without interest as may be agreed upon, sums not exceeding in the aggregate 20% of the assets of such depositing banks.

# LOANS ON PERSONAL SECURITY, INCLUDING COLLATERAL LOANS.

Danks.

LOANS ON PERSONAL SECURITY, INCLUDING COLLATERAL LOANS.

VII. In loans or renewals of loans of the class hereinafter described, payable and to be paid or renewed at a time not exceeding one year from the date thereof; but not more than a third of the assets of a bank shall be so invested, nor shall a bank loan to a person, partnership, association or corporation upon personal security (treating loans to the individual members of a partnership as loans to the partnership), more than ten thousand dollars until a bank's deposits amount to one million dollars, after which the sums so loaned may be increased one per cent of the deposits in excess of one million dollars up to, but not exceeding fifty thousand dollars, or (in cases where ten per cent of the capital and surplus exceeds fifty thousand dollars) up to, but not exceeding, ten per cent of the capital, if any, and surplus; but this limitation shall not apply to the purchase of municipal or railroad bonds, or to notes with such bonds as collateral.

(a) A note bearing as makers, sureties, or indorsers, the signature of at least two approved names of residents of this State, or of persons who reside within fifty miles of the bank making the loan;

(b) A note or accepted draft given by individuals, firms, or corporations residing without this State for goods manufactured within this State and indorsed by at least one responsible citizen of this State; with one or more substantial sureties resident in this State, or approved collateral at not more than eighty per cent of its market value;

(d) A note of a corporation incorporated under the laws of this State, with one or more substantial sureties resident in this State, or approved collateral at not more than eighty per cent of the amount of such note is not in excess of the amount which the bank might legally invest, at not more than ninety payers and the summary of the

(f) A note of a responsible borrower; provided, however, that the aggregate amount of such loans shall not exceed the average amount of the commercial deposits of a trust company for the six months next preceding, or exceed the capital and surplus of trust companies having no commercial deposits.

# BANK BUILDING.

VIII. Five per cent of the deposits of a bank may be invested in the purchase of a suitable building for the convenient transaction of its business, or a site therefor and the erection or repairs of a building thereon, from portions of which not required for its use a revenue may be derived.

### REAL ESTATE TAKEN BY FORECLOSURE.

IX. A bank may hold real estate acquired by the foreclosure of a mortgage thereon, owned by or piedged to such corporation, or by purchase at sales made under the provisions of such mortgage, or upon judgment for debts due, or in settlements effected to secure such debts; and such real estate shall be sold by such corporation as soon as a reasonable price can be obtained therefor and within five years after the same is vested in such corporation, except when a majority of the trustees of such corporation shall make application in writing to the Bank Commissioner, stating that, in their opinion, the interests of such corporation require that such real estate be held for a longer period than five years; in which event said Commissioner may extend the time of holding such real estate not to exceed a vegets.

### SECURITIES ACQUIRED IN SETTLEMENT OF INDEBTEDNESS.

\*\*SECURITIES ACQUIRED IN SETTLEMENT OF INDEBTEDNESS.

X. A bank may hold stocks, bonds, notes or other securities not the subject of legal investment acquired in settlements effected to secure or adjust loans; but unless the length of time such securities may be held is extended, as provided in the preceding clause, they shall be sold within five years after being acquired.

XI. Farm Loan Bonds.—In Farm Loan bonds issued by Federal Land banks in accordance with the prov.sions of an Act of Congress approved July 17 1916, known as "The Federal Farm Loan Act." Approved Feb. 27 1919.

XII. Bankers' Acceptances; Bills of Exchange; Notes. A bank may invest in bankers' acceptances and bills of exchange, provided the same are accepted by an incorporated savings bank or a savings bank and trust company, or a national bank doing business in this State, or by a bank incorporated in Boston, New York, or Philadelphia, to an amount not to exceed 20% of its deposits; and a bank may invest in notes endorsed or guaranteed by any of the above named banks to an amount not to exceed 20% of its deposits. Approved April 8 1919.

LIST OF RAILROAD BONDS PREPARED.

Section 5364. By Bank Commissioner.—Not later than the first of March

Section 5364. By Bank Commissioner.—Not later than the first of March neach year, the Bank Commissioner shall prepare a list of the railroad securities which re then legal investment for banks, which list shall at all imes be open to public inspection, and shall send a copy thereof to every ank coming within his jurisdiction.

The latest list of railroad bonds which are considered legal investments for avings banks was issued by the Bank Commissioner on March 1 1916. This list was printed in full in the "Chronicle" of May 18, 1918, page 143.

sachusetts limiting the power of the Legislature to create State indebtedness is contained in a constitutional amendment adopted in Nov. 1918, the text of which follows:

Sec. 1. The credit of the Commonwealth shall not in any manner be given or loaned to or in aid of any individual, or of any private association, or of any corporation which is privately owned and managed.

Sec. 2. The Commonwealth may borrow money to repel invasion, suppress insurrection, defend the Commonwealth or to assist the United States in case of war, and may also borrow money in anticipation of receipts from taxes or other sources, such loan to be paid out of the revenue of the year in which it is created.

Sec. 3. In addition to the loans which may be contracted as before provided, the Commonwealth may borrow money only by a vote, taken by the yeas and nays, of two-thirds of each House of the General Court present and voting thereon. The Governor shall recommend to the General Court the term for which any loan shall be contracted.

Sec. 4. Borrowed money shall not be expended for any other purpose than that for which it was borrowed or for the reduction or discharge of the principal of the loan.

There appears to be no constitutional limit upon municipal indebtedness. Statutes general and special have, however, been passed on this subject with respect to cities and towns.

The latest legislation regarding the matter is known as Chapter 719 of the Laws of 1913, approved May 26 1913. The limit of indebtedness for cities and towns (excepting Boston) is fixed by Sections 6 and 12 of this law. These sections follow:

Section 6. Cities and towns may incur debt, outside the limit of indebtedness prescribed in this Act, for the following purposes and payable within the periods hereinafter specified:

(1) For temporary loans under the provisions of Sec. 3, 4 or 9, one year.

(2) For establishing or purchasing a system for supplying the inhabitants of a city or town with water, or for the purchase of land for the protection of a water system, o

(3) For the extension of water mains and for water departmental equipment, 5 years.

(4) For establishing, purchasing, extending or enlarging a gas or electric lighting plant within the limits of a city or town, 20 years; but the indebtedness so incurred shall be limited to an amount not exceeding in a town 5% and in a city 2½% of the last preceding assessed valuation of such town or city.

(5) For acquiring land for the purposes of a public playground, as specified in Section 19 of Chapter 28 of the Revised Laws and amendments thereof, 30 years; but the indebtedness so incurred shall be limited to an amount not exceeding ½ of 1% of the last preceding assessed valuation of the city or town.

thereof, 30 years; but the indebtedness so incurred shall be limited to an amount not exceeding ½ of 1% of the last preceding assessed valuation of the city or town.

Debts for all of the purposes mentioned in this section shall be payable within the periods above specified from the date of the first issue of bonds or notes on account thereof, and may be incurred in accordance with the provisions of existing law, except in so far as the same are inconsistent with the provisions of this Act. All other debts hereafter incurred by a city or town shall be reckoned in determining its limit of indebtedness, and debts authorized under the provisions of this section, except for temporary loans, may be incurred only by a vote of two-thirds of the voters present and voting, or of two-thirds of all the members of a city council or other governing body, taken by yeas and nays, and subject to the approval of the mayor, if such approval is required by the charter of the city.

Section 12. Except as otherwise authorized by Section 6 of this Act or by Chapter 634 of the Acts of the year 1913, a city shall not authorize indebtedness to an amount exceeding 2½%, and a town shall not authorize indebtedness to an amount exceeding 3½%, on the average of the assessors valuations of the taxable property for the three preceding calendar years the valuations being first reduced by the amount of all abatements allowed thereon previous to the last day of December of the preceding calendar year. Chapter 634 of the Laws of 1913, referred to above, provides for the payment of outstanding demand notes and the restoration of trust funds. Cities and towns which have demand notes outstanding or which have expended town or trust funds for general expenses, were required to raise in the

ax levy of 1014 an amount necessary to redeem the notes and restore the funds, or if to do this would impose too great a burden, they could borrow for the purpose for a period not to exceed 15 years.

Section 5 of Chapter 719 specifies for just what purposes debte may be incurred within the limit fixed by Section 12, and states also for what periods in the purpose of the purpose for a period of the purpose o

savings banks at the time when the U. S. Government took over the operation of the roads issuing such bonds, shall not become illegal investments by reason of the operation of the roads by the Government. The law at present reads as follows:

SECTION 68. Deposits and the income derived therefrom shall be invested only as follows:

FIRST—First Mortagaes of Real-Estate.—In first mortgages of real estate located in this Commonwealth not to exceed 60% of the value of such real estate; but not more than 70% of the whole amount of deposits shall be so invested. If a loan is made on unimproved and unproductive real estate, the amount loaned thereon shall not exceed 40% of the value of such real estate. [For conditions that must be observed in making such loans see law in full in V. 87. p. 257.]

SECOND—Public Funds.—(a) In the public funds of the United States or of any of the New England States.

(b) In the bonds or notes of a county, city or town of this Commonwealth. (b) In the bonds or notes of a county, city or town of this Commonwealth. (c) In the bonds or notes of any city of Maine, New Hampshire, Vermont, Rhode Island or Connecticut whose net indebtedness does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes; or of any county or town of said States whose net indebtedness does not exceed 3% of such valuation; or of any incorporated water district of said States which has within its limits more than five thousand inhabitants, and whose bonds or notes are a direct obligation on all the taxable property of such district and whose net indebtedness does not exceed 3% of such valuation. Provided, that there is not included within the limits of such valuation. Provided, that there is not included within the limits of such valuation. Provided, that there is not included within the limits of such valuation. Provided, that there is not included within the limits of such valuation. Indiana, Illinois, Michigan, Wisconsin, Minnesota, Missouri and Iowa, and of the District of

Farm Loan Bonds.—"It shall be lawful for savings banks and savings departments of trust companies in this Commonwealth to invest in farm loan bonds lawfully issued by Federal Land banks incorporated under the provisions of the Act of Congress approved July 17 1916, entitled "An Act to provide capital for agricultural development, to create standard forms of investment based upon farm mortgage, to equalize rates of interest upon farm loans, to furnish a market for United States bonds, to create Government depositaries and financial agents for the United States, and for other purposes,"

ment depositaries and financial agents for the United States, and for other purposes."

RAILROAD BONDS.

Massachusetts Railroads.

THIRD.—(a) In the bonds or notes, issued in accordance with the laws of this Commonwealth, of a railroad corporation incorporated therein the railroad of which is located wholly or in part therein, which has paid in dividends in cash an amount equal to not less than 4% per annum on all its outstanding issues of capital stock in each fiscal year for the five years next preceding such investment, or in the first mortgage bonds of a terminal corporation incorporated in this Commonwealth and whose property is located therein, which is owned and operated, or the bonds of which are guaranteed as to principal and interest, or assumed, by such railroad corporation. Any shares of the capital stock of a railroad corporation leased to such railroad corporation, which are owned by said lessee corporation, shall not be considered as outstanding within the meaning of this subdivision.

New England Railroads.

corporation, which are owned by said lessee corporation, shall not be considered as outstanding within the meaning of this subdivision.

New England Rattroads.

(b) In the bonds or assumed bonds of a railroad corporation incorporated in any of the New England States at least one-half of the railroad of which is located in said States, whether such corporation is in possession of and is operating its own road or is leased to another railroad corporation; provided either that such bonds shall be secured by a first mortgage of the whole or a part of the railroad and railroad property of such corporation or by a refunding mortgage as described in paragraph (3) or (4) of subdivision g: or that if the railroad and railroad property of such corporation are unincumbered by mortgage, such bonds shall be issued under the authority of one of said States which provides by law that no such railroad corporation which has issued bonds shall subsequently execute a mortgage upon its road, equipment and franchise or upon any of its real or personal property, without including in and securing by such mortgage all bonds previously issued and all its pre-existing debts and llabilities, which provision, so enacted in such State, shall have been accepted by the stockholders of such corporation; and provided, that such corporation has paid in dividends in cash an amount equal to not less than 4% per annum on all its outstanding issues of capital stock in each fiscal year for the five years next preceding such investment.

(c) In the first mortgage bonds or assumed first mortgage bonds or in the bonds secured by a refunding mortgage as described in paragraphs (3) or (4) of subdivision g, of a railroad of which is located wholly or in part therein, which have been guaranteed as to principal and interest by a railroad corporation described in subdivisions a or b which is in possession of and is operating its own road.

(d) No bond shall be made a legal investment by subdivision c unless the corporation which issued or assumed funded inde

corporation which guaranteed such bond has, during its fiscal year next preceding such investment, paid in dividends on its capital stock an amount equal to one-third of the total amount of interest paid on all its direct, assumed and guaranteed funded indebtedness.

Other Ratiroads.

(e) In the mortgage bonds, as described in any of the following subdivisions of this clause, of any railroad corporation incorporated under the laws of any of the United States:

Provided, that during each of the ten fiscal years of such railroad corporation next preceding the date of such investment—

(1) Such railroad corporation owned in fee not less than five hundred miles of standard-gauge railroad, exclusive of sidings, within the United States, or if such corporation owned in fee less than five hundred miles of such railroad, the gross earnings of such corporation, reckoned as hereinafter provided, shall have been not less than fifteen million dollars;

(2) Such railroad corporation shall have paid the matured principal and Interest of all its mortgage indebtedness;

(3) Such railroad corporation shall have paid the matured principal and Interest of all its mortgage indebtedness;

(3) Such railroad corporation shall have paid the matured principal and Interest of the gross earnings from the operation of the property of such railroad corporation, including therein the gross earnings of all railroads leased and operated or controlled and operated by said corporation, and the gross earnings from the sale of coal from mines owned or controlled by it, shall not have been less in amount than five times the amount necessary to pay the interest payable upon its entire outstanding indebtedness, the rentals of all leased lines, and the interest on all last-named bonds or notes of railroads controlled and operated which is not owned by said corporation after deducting from said interest and rentals interest and dividends received from the stocks, bonds or notes of railroad corporation, but not in excess of the interest on said last-na

the fiscal year of said corporation in which this Act is passed.

DESCRIPTION OF BONDS.

(1) Definition of First Mortgage.—Whenever the term "first mortgage" is used in the following subdivisions, it shall mean, unless otherwise qualified, a first mortgage on not less than seventy-five per cent of the railroad owned in fee at the date of the mortgage by the railroad corporation on the railroad of which said mortgage is a lien, but in no case on less than one hundred continuous miles of standard-gauge railroad, exclusive of sidings; provided, that seventy-five per cent of the railroad subject to the lien of said mortgage is connected;

For five years prior to the date of investment therein all the railroad subject to the lien of said mortgage at the date of execution thereof has been operated by, and its operations included in, the operations of the railroad corporation which issues, assumes or guarantees said bonds:

The date of said mortgage is at least five years prior to the date of such investment; except that a first mortgage, and covering the same railroad property, shall be considered to be in accordance with this requirement.

Direct Obligations .--Bonds issued or assumed by a railroad corpora-

(g) Direct Obligations.—Bonds issued or assumed by a railroad corporation described in subdivision e, which are secured by a mortgage which was at the date thereof or is at the date of such investment—

(1) A first mortgage on railroad owned in fee by the corporation issuing or assuming said bonds, except that, if it is not a first mortgage on seventy-five per cent of all such railroad owned in fee by said corporation, it shail be a first mortgage on at least seventy-five per cent of the railroad subject to the lien of said mortgage at the date thereof; but if any stocks or bonds are deposited with the trustee of said mortgage as part security therefor, representing or covering railroad mileage not owned in fee, the bonds secured by said mortgage shall not become legal investments unless said

corporation owns in fee at least seventy-five per cent of the total mileage which is subject to the lien of said mortgage and which is represented or covered by said stocks or bonds;

(2) A first mortgage, or a mortgage or trust indenture which is in effect a first mortgage, upon all the railroad subject to the lien of said mortgage or trust indenture, by virtue of the irrevocable pledge with the trustee thereof of an entire issue or issues of bonds which are a first lien upon the railroad of a railroad corporation which is owned and operated, controlled and operated or leased and operated by the corporation issuing or assuming said bonds;

(3) A refunding mortgage which covers at least seventy-five per cent of

or trust indenture, by virtue of the irrevocable pledge with the trustee thereof of an entire issue or issues of bonds which are a first lien upon the corporation which is owned and operated, controlled said bonds;

(3) A refunding mortgage which covers at least seventy-five per cent of the railroad owned in fee by said corporation at the date of said mortgage and provides for the retirement of all outstanding mortgage debts which are a prior lien upon said railroad owned in fee and covered by said refunding mortgage debt which are a prior lien upon said railroad owned in fee and covered by said refunding mortgage is given to refund are secured on a railroad not owned in fee by the corporation executing said refunding mortgage, there shall be conveyed and assigned to the trustee of said refunding mortgage, there shall be conveyed and assigned to the trustee of said refunding mortgage there.

At least seventy-five per cent of the railroad on which each issue of bonds to be refunded is secured free from any mortgage lien except that of the manual of the railroad of the said railroad not owned in fee which is so subjected to the lien of said refunding mortgage shall be the railroad of one or more railroad corporations which are owned and operated, controlled and operated, or leased and operated, by the corporation swhich are owned and operated, controlled and operated, or leased and operated, by the corporation issuing or assuming said refunding mortgage shall be the railroad of one or more railroad corporations which are equirements of this paragraph is at least twenty-five per cent greater that the mileage covered by any one of the mortgage in accordance with the requirements of this paragraph is at least twenty-five per cent greater that the mileage covered by any one of the mortgage securing bonds which said refunding mortgage upon not less than the pure of the railroad covered by said mortgage by the corporation issuing or assumin

CORPORATION NOT TO LOSE CREDIT BY TEMPORARY DISTURB-ANCE OF RELATION OF GROSS EARNINGS TO FIXED CHARGES.

ANCE OF RELATION OF GROSS EARNINGS TO FIXED CHARGES.

(k) Bonds which have been or shall become legal investments under any of the provisions of this Act shall not be rendered lilegal although the corporation issuing, assuming or guaranteeing such bonds shall fall for a period not exceeding two successive fiscal years to comply with the requirements of paragraph four of subdivision e; but no further investment in the bonds issued, assumed or guaranteed by said corporation shall be made during said period. If after the expiration of said period ald corporation compiles for the following fiscal year with all the requirements of subdivision e, it shall be regarded as having compiled therewith during said period.

# BONDS NOT TO BECOME ILLEGAL ON ACCOUNT OF CONSOLIDATION.

CONSOLIDATION.

(I) Bonds which have been or shall become legal investments under any of the provisions of this Act shall not be rendered lilegal, although the property upon which they are secured has been or shall be conveyed to or legally acquired by another railroad corporation, and although the corporation which issued or assumed said bonds has been or shall be consolidated with another railroad corporation, if the consolidated or purchasing corporation shall assume the payment of said bonds, and so long as it shall continue to pay regularly interest or dividends, or both, upon the securities issued against, in exchange for or to acquire the stock of the corporation consolidated, or the property purchased, or upon securities subsequently issued in exchange or substitution therefor, to an amount at least equal to 4% per annum upon the capital stock outstanding at the time of such consolidation or purchase, of said corporation which issued or assumed said bond.

idation or purchase, of said corporation which issued or assumed said bond.

CREDIT OF A CORPORATION NOT TO BE LOST BY

CONSOLIDATION.

(m) If a railroad corporation which has complied with all the requirements of subdivision e preceding paragraph five, except that the period of compliance is less than ten, but not less than five successive years, shall be, or shall have been, thereupon consolidated or merged into, or its railroad purchased and all of the debts of such corporation assumed by, another railroad corporation incorporated under the laws of any of the United States, such corporation so succeeding shall be considered as having compiled with all the provisions of subdivision e preceding paragraph five during those successive years next preceding the date of such consolidation, merger or purchase in which all said consolidated, merged or purchased corporations, if considered as one continuous corporation in ownership and possession, would have so comply for a further period which shall make such compliance equivalent to at least ten successive years, but which shall be in no case less than the two fiscal years next following said consolidation, merger or purchase.

STREET RAILWAY CORPORATIONS ARE NOT DAYLOGGER.

# STREET RAILWAY CORPORATIONS ARE NOT RAILROAD CORPORATIONS.

(n) In this Act, unless the context otherwise requires, "railroad corporation" means a corporation which owns or is in possession of and operating a railroad or railway of the class usually operated by steam power. Street railway corporations are not railroad corporations within the meaning of this Act.

### OF RAILROADS UNDER FEDERAL STATUS

o Railroad bonds, which were legal investments for savings banks at the time when the Government of the United States, under the Act of Congress approved Mar. 21 1918, took over the operation of the railroads issuing such bonds, shall not become illegal investments by reason of the operation of the railroads by the Federal Government. The time during which any such railroad is operated by the Federal Government shall be excluded, including the year in which the Government operation ends, in determining the compliance of any such railroad with the provisions of this section: provided, however, that in case a railroad corporation the mortgage bonds of which would become legal for investment under sub-division e of this section upon its compliance with the requirements of said sub-division

Nat. Bank, Boston.

shall have complied with the requirements of said sub-division during the two years or more next preceding Jan. 1 1918, such railroad corporation shall be deemed to have complied with the requirements of said sub-division during the period of the Government operation of its railroad, including the year in which such Government operation ends, in computing the time of compliance with the requirements of said sub-division.

### PRESENT INVESTMENTS NOT TO BECOME ILLEGAL.

FOURTH.—The provisions of this Act shall not render illegal the investment in any mortgages of real estate held by such corporation at the time of its passage, nor the investment at such time or thereafter in any issue of bonds or notes dated prior to its passage, in which such corporation was then authorized to invest, so long as such bonds or notes continue to comply with the requirements of law then in force.

STREET RAILWAY BONDS.

FIFTH.—In the bonds of any street railway company incorporated in this Commonwealth the railway of which is located wholly or in part therein, and which has earned and paid in dividends in cash an amount equal to at least five per cent upon all its outstanding capital stock in each of the five years last preceding the certification by the Board of Railroad Commissioners hereinatter provided for. No such investment shall be made unless said company appears from returns made by it to the Board of Railroad Commissioners to have properly paid said dividends without impairment of assets or capital stock, and said board shall on or before the fitteenth day of January in each year certify and transmit to the Bank Commissioner a list of such street railway companies.

Dividends paid by way of rental to stockholders of a leased street railway company shall be deemed to have been earned and paid by said company within the meaning of this clause, provided that said company shall have annually earned, and properly paid in dividends in cash, without impairment of assets or capital stock, an amount equal to at least five per cent upon all its outstanding capital stock in each of the five fiscal years next preceding the date of the lease thereof.

If two or more street railway companies have been consoll lated by purchase or otherwise during the five years prior to said certification, the payment severally from the earnings of each year of dividends equivalent in the aggregate to a dividend of five per cent on the aggregate capital stocks of the several companies during the years preceding such consolidation shall be sufficient for the purpose of this Act.

Bonds which have been or shall become legal investments under the provisions of this clause shall not, except as hereinatter provided, be deemed to be an illegal investment by reason of the fact that the corporation is suing such bonds shall hereafter fail or shall have heretofore failed for a period not exceeding two successive fiscal years to earn

### TELEPHONE COMPANY BONDS.

TELEPHONE COMPANY BONDS.

SIXTH.—In the bonds of any telephone company subject to the provisions of section thirty-seven of chapter fourteen of the Revised Laws, and of which a majority of the directors are residents of the Commonwealth: Provided, that during each of the five fiscal years of such telephone company next preceding the date of such investment—

(1) The gross income of such telephone company shall have been not less than ten million dollars per annum.

(2) Such telephone company shall have paid the matured principal and interest of all its indebtedness.

(3) Such telephone company shall have paid in dividends in cash an amount equal to not less than six per cent per annum on all its outstanding ssues of capital stock.

(4) The dividends paid on the capital stock of such telephone company shall not have been less than the total amount necessary to pay the interest upon its entire outstanding indebtedness.

And further provided that such bonds shall be secured either (a) by a first mortgage upon at least seventy-five per cent of the property of such telephone company or (b) by the deposit with a trust company incorporated under the laws of this Commonwealth of bonds and shares of stock of other telephone corporations, under an indenture of trust which limits the amount of bonds so secured to seventy-five per cent of the value of the securities deposited as stated and determined in said indenture, and provided that during each of the five years next preceding such investment the annual interest and dividends paid in cash on the securities deposited have amounted to not less than fifty per cent in excess of the annual interest on the bonds outstanding and secured by said deposit. Not more than two per cent of the deposits of any savings bank shall be invested in the bonds of telephone companies.

# BANK STOCKS AND DEPOSITS IN BANKS

BANK STOCKS AND DEPOSITS IN BANKS

SEVENTH.—In the stock of a banking association located in the New England States and incorporated under the authority of the United States, or in the stock of a trust company incorporated under the laws of and doing business within this Commonwealth, but such corporation shall not hold both by way of investment and as security for loans more than twenty per cent of its deposits in the stock of such associations or companies, nor in any one such association or company more than three per cent of its deposits in, nor more than one hundred thousand dollars nor more than one-quarter of the capital stock of, such association or company. Such corporation may deposit not more than two and one-half per cent of its deposits in any banking association incorporated under the authority of the United States and located in this Commonwealth, and in any trust company incorporated in this Commonwealth, but such deposit shall not in any case exceed five hundred thousand dollars nor twenty-five per cent of the capital stock and surplus fund of such depositary.

Clause Eighth relates to loans on personal security, which are restricted to one-third of the deposits and income. (In addition to loans authorized by Clause Eighth, under an Act approved April 8 1910, banks may loan on notes with a piedge as collateral of life insurance policies. V. 90, p. 1376.) Clause Nisth concerns the amount to be invested in a bank building. Clause Tenth deals with real estate acquired by foreclosure, and Clause Eleventh with securities acquired in settlement of indebtedness Clause Twelfth relates to piedges of securities as collateral and provides against invalidating the same. For the provisions of these clauses, see V. 87, p. 257, where the law was printed in full.

SEVENTH (a) In bankers' acceptances and bills of exchange of the kinds and maturities made elicible by the tended content to the securities and location in the securities and cleicible with recall securities to the securities and location in the secu

law was printed in full.

SEVENTH (a) In bankers' acceptances and bills of exchange of the kinds and maturities made eligible by law for rediscount with Federal Reserve banks, provided the same are accepted by a bank, banking association or trust company incorporated under the laws of the United States or of this Commonwealth, and having its principal place of business within the Commonwealth. Not more than 10% of the deposits and of the income derived therefrom shall be invested by any savings bank in bankers' acceptances or bills of exchange, nor shall any savings bank invest in the acceptances and bills of exchange eligible by law for rediscount with Federal Reserve banks of any one accepting bank or trust company to any amount in excess of 5% of its deposits and of the income derived therefrom. The aggregate amount of bankers' acceptances and bills of exchange of any bank, banking association or trust company held by any savings bank shall not exceed 20% of the paid up capital and surplus of such bank, banking association or trust company.

LIST OF BONDS TO BE PREPARED.

LIST OF BONDS TO BE PREPARED.

THIRTEENTH.—Not later than the first day of Pebruary in each year the Commissioner shall prepare a list of all the bonds and notes which are then legal investments under the provisions of clauses third, fourth, fifth and sixth. Said list shall at all times be open to public inspection and a copy thereof shall be sent to every savings bank.

The Bank Commissioner issued a report in Feb. 1919, and a supplementary report on April 1 1919, containing a list of bonds considered legal under clauses third, fourth, fifth and sixth of the above Act. This list appeared in the "State and City Department" of the "Chronicle" June 21 1919 page 2552.

FOURTEENTH.—Bonds which at any time hereafter have been for ten successive years legal investments under the provisions of subdivisions a, b, c or d of Clause 3, or Clause 6 of this section shall not be rendered illegal although the corporation issuing, assuming or guaranteeing such bonds shall fail for a period not exceeding two successive years to comply, as to dividends on its capital stock, with the requirements of the clauses specified above; but no further investment in the bonds issued, assumed or guaranteed by such corporation shall be made during said period. If after the expiration of said period, such corporation complies for the following fiscal year with the requirements of the clauses specified above, it shall be regarded as having complied therewith during said period: provided that it shall not have so failed to comply during any other period within the next preceding ten years.

[Opinion of Attorney-General Regarding Legality of N. Y. N. H. & Hartford RR. Bonds as Savings Banks Investments.]—The Attorney-General rendered an opinion in Feb. 1911 with reference to the Act passed by the Legislature in June 1910 to validate bonds and stocks of the New York New Haven & Hartford RR. Co., and for the purpose of determining whether or not the assets were sufficient to show the road a solvent corporation. As noted in V. 92, p. 462, the report of the Commission appointed under the Act referred to was filed with the Legislature on Feb. 17 1911. The Act stated that "nothing herein contained shall authorize the investment by savings banks in the securities aforesaid unless they are otherwise legal investments under the provisions of Chapter 590, Acts of 1909." and the Attorney-General finds that "no matter what the finding of the Commission appointed under the Act with reference to assets and liabilities

tie

	wise legal investments under the prov- and the Attorney-General finds that Commission appointed under the Act was, it would not in and of itself make ties for savings bank investments."	"no matter what the finding of the with reference to assets and liabilities
